

SUPPLEMENT TO.
The Gazette of India

No. 27.]

CALCUTTA, SATURDAY, JULY 7, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees eight if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA
DEPARTMENT OF COMMERCE AND INDUSTRY

A. EARLE,

Offg. Secretary to the Government of India.

IMPERIAL TABLES PRESCRIBED IN CONNECTION WITH THE CENSUS OF 1911.

Nos. 192—208.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

CENSUS.

Simla, the 28th June 1910.

RESOLUTION.

The general and household schedules sanctioned for adoption throughout British India in connection with the decennial census of 1911¹ were annexed to the Home Department resolution nos. 67-81, dated the 31st March 1910. The returns attached to the present resolution, which comply with the requirements of international statistics and contain all the information that is necessary for administrative purposes, are, with the exception of tables XV, parts C and D, and XVI, which may be prepared or not at the option of local Governments, prescribed for general adoption. The principles on which they have been drawn up are stated in the annexed memorandum, which explains their relation to the tables attached to the Home Department resolution nos. 137-149, dated the 3rd August 1900. In determining the form of these returns the Government of India have taken into consideration the suggestions which have been made by the Registrar General of the United Kingdom.

2. At the last census a distinction was drawn between Imperial Statistics, or tables of general interest, and Provincial Statistics, or the additional tables required in each province for local administrative purposes. The unit of the former was the district, while that of the latter was the tahsil, taluk, thana or township. The Provincial Tables were printed in separate volumes, but they formed part of the Imperial series of census volumes and were numbered and distributed accordingly. The Government of India consider it unnecessary that the Provincial Statistics, which are compiled for local purposes, should be circulated outside the limits of the province to which they refer; and they have accordingly decided that, on this occasion, they will not form part of the Imperial series, but will be printed in entirely separate publications. Local Governments will decide for themselves what Provincial Statistics are required. Attention is, however, invited to the observations contained in the Home Department resolution nos. 137-49 (Census), dated the 3rd August 1900, where it was pointed out that there is a tendency to multiply statistics out of all proportion to the use that will ever be made of them. Without wishing to interfere unduly with the discretion of Local Governments in a matter of this kind, the Government of India desire that more care may be taken than was done in some cases at the last census to include in the Provincial Statistics only such tables as are likely to be of real use.

3. While adhering to the definition of Imperial Statistics laid down in 1900, and recognizing that their unit should ordinarily be the district, the Government of India consider that it would be desirable to include in the Imperial series of tables a few of the main statistics for smaller administrative units (thanas, taluks or tahsils) such as total population, density, variation since 1901, distribution by religion and the number of literate persons. Such figures are of more than local interest; and even when the Provincial Tables are available, it is inconvenient to have to turn to another volume to find them. Drafts of two tables containing the above information are appended to this resolution, but local Governments are at liberty to modify the forms, should it appear desirable to do so, provided that the space occupied by them is not materially increased.

4. The cost of preparing and printing the statistics referred to above, and also of preparing in manuscript a simple table showing the population of each village by sex and religion, will be an imperial charge, but that of preparing any other tables, and of printing the village tables, should this be thought necessary locally, will be met from provincial revenues.

5. The Government of India desire to emphasise the orders of 1900 that the Provincial Census reports should be completed and sent in within a year from the date of taking the census.

ORDER.—Ordered that a copy of this resolution be forwarded to all local

Madras.
Bombay.
Bengal.
United Provinces.
Punjab.
Barma.
Eastern Bengal and Assam.

Central Provinces.
Coorg.
North-West Frontier Province.
Rajputana.
Central India.
Baluchistan.
Superintendent of Port Blair.

Governments and Administrations, for information and guidance, and that a copy be forwarded to the Foreign Department, and to the Census Commission-
sioner for India.

Ordered, also, that the resolution be published in the Supplement to the Gazette of India.

A. EARLE,

Offg. Secretary to the Government of India.

Explanatory memorandum.

(i) *Table I (Area, houses and population).*—This is identical with the corresponding table of the last census.

(ii) *Table II (Variation in the population since 1872).*—This is identical with the corresponding table of the last census, except that five censuses have now to be dealt with instead of four. The columns have been rearranged slightly, as the additional columns will cause the table to run into three pages. The figures for persons, males and females, will occupy the first two pages, and those for variations the third.

(iii) *Table III (Towns and villages classified by population).*—Unchanged.

(iv) *Table IV (Towns classified by population with variation since 1872).*—To save space the columns for sex totals for 1872 and 1881 have been omitted. These figures can always be obtained (if required) by reference to the tables of the last census. The sex proportional figures for all five censuses will be quoted in a subsidiary table in the body of the reports, which is all that is ever likely to be needed.

(v) *Table V (Towns arranged territorially with population by religion).*—No change.

(vi) *Table VI (Religion).*—No change. Provinces which show non-Christian sects will subdivide the headings Hindus and Muhammadans according to requirements.

(vii) *Table VII (Age, sex and civil condition).*—Two new quinquennial periods have been added in accordance with the recommendations of the Census Committee of the Royal Statistical Society. For individual districts, the age grouping will be less elaborate, following the practice introduced in 1901.

(viii) *Table VIII (Education by age).*—The columns relating to literacy in the provincial vernaculars have been omitted, but they will be retained in provinces where this information is collected.

(ix) *Table IX (Education by selected castes, tribes and races).*—This table, though optional in 1901, was prepared for all the main provinces except the Punjab. For the coming census it has been made compulsory, as it has been found to be most valuable, in account of the light which it throws on the condition as regards literacy

of the different sections of the population, and the progress which each section has made during the decade.

The object of column 2 is to give details by locality where local conditions vary (e.g., in Bengal it is important to distinguish Bengal Proper from Bihar). In one or two cases at the last census, details were given for each district, which greatly increased the bulk of the table, while in several others provincial totals only were given, thereby obliterating local differences. The number of castes selected for the table varied enormously. On the present occasion the Census Commissioner will arrange beforehand with the Provincial Superintendents which castes should be taken for this and similar tables, and the localities for which separate figures will be given. The statistics of education, marriage, etc., by caste should make it possible to bring out clearly, not only the differences within a province between castes of different social status, but also the differences which exist in different parts of India amongst the same or corresponding castes.

(x) *Table X (Language).*—The same as in 1891 and 1901. There was some misunderstanding at the last census regarding Dr. Grierson's note providing a classification of Indian languages and dialects; and in two provinces the languages returned in the schedules were split up into dialects, for the purpose of Table X, according to considerations of birth-place or locality of enumeration. The language should be entered in Table X as actually returned, subject to the classification of entries that do not indicate true languages. All estimates of dialect, etc., should be relegated to the Report Volume.

(xi) *Table XI (Birth-place).*—The same as in 1901. As on previous occasions Provincial Superintendents will tabulate certain extra-provincial birth districts for communication to the other Superintendents concerned. These detailed figures are often of great interest in connection with inter-provincial migration (e.g., in 1901 out of 157,000 emigrants from Bengal to Burma 79,000 went from the contiguous district of Chittagong); but they need not ordinarily be printed in the Imperial Tables. In special cases, where the immigration is of considerable magnitude, this can be done, as indicated in the footnotes to the table.

Much light can be thrown on big streams of migration (e.g., the 146,000 emigrants of 1901, from the Ratnagiri district to Bombay City) by combining birth-place with age, caste and occupation. Such statistics however are needed only in special cases, and no general table is prescribed.

(xii) *Table XII (Infirmities).*—The table should show (a) distribution by districts and (b) distribution by age. Two additional quinquennial age periods have been provided corresponding with those of Table VII.

(xiii) *Table XIII-A. (Infirmities by selected castes).*—The only change from 1901 is that "Population dealt with" have been substituted for "Population afflicted" in the main heading to columns 2 to 4. It is essential to know the number of persons amongst whom the infirmities were recorded. This table was optional at the last census.

(xiv) *Table XIII (Caste, Tribe, Race or Nationality).*—This table should give statistics only for the more important castes and for any others which local Governments for special reasons wish to include. Any local Government may, if it wishes, order a complete table to be prepared.

(xv) *Table XIV (Civil condition by age for selected castes).*—The age periods taken for this table are the same as those which were finally sanctioned at the last census.

(xvi) *Table XV (Occupation or means of livelihood).*—The information exhibited in Part A is the same as in 1901, but the occupations are given in the heading and the districts down the side. This is the arrangement which was found most convenient in 1901. The district details should be preceded by a general summary giving totals for (a) Province; (b) British Territory; (c) Feudatory States; and (d) Cities.

Parts B, C and D of this table are new. At the last census the agricultural occupation of all persons who returned agriculture as (a) their principal or (b) their subsidiary occupation was tabulated, but not the non-agricultural subsidiary

occupations of the former. In order to obtain a complete view of the extent to which the people of India are dependent on agriculture it is necessary to know also what subsidiary occupations are returned by persons whose main occupation is agriculture. Table XV, Part B, is designed to show this.

Parts C and D of this table need not be compiled unless the local Governments think this desirable.

(xvii) *Table XVI (Occupation by selected Castes, Tribes, or Races).*—The plan of this table, which need not be compiled unless local Governments desire to do so, is the same as in 1901, but a few additions have been made. Columns 6 to 9 have been added to throw light on the extent to which castes still practise their traditional occupations. This information was given for Bengal at the last census (so far as the principal occupation was concerned) by means of foot-notes. Columns 10 and 11 are designed to make it possible to discount the tendency of the functional groups to return their traditional occupations as their means of livelihood (paragraph 312 of the last India Census Report). The sex detail (which was not prescribed in 1901) is important as it shows for various castes and localities the extent to which women work either at their traditional or some other occupation.

In all provinces Europeans, Eurasians and Armenians should be included in this table.

In addition to Table XVI, which shows the distribution of castes by occupation, some supplementary statistics (similar to those at pages 502-506 of the Bengal Tables for 1901) may, if desired, be prepared showing the distribution of certain occupations by caste.

(xviii) *Table XVII (Christians by sect and race).*—The same as in 1901, except for a minor detail of printing. The districts will be arranged down the side of the tables and the sects in the heading.

(xix) *Table XVIII (Europeans, etc., by age).*—The same as in 1901.

IMPERIAL TABLES.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 30th June 1910, based on the Indian Daily Weather Reports of the period.

The Bay monsoon has been of late comparatively inactive, and Upper Burma is the only part of its usual field where the rainfall of the past week was in excess, while a more or less marked defect is shown in northeast India and the Gangetic plain: the Bay monsoon however contributed some of the abnormal rainfall recorded in the Punjab.

2. The Arabian Sea monsoon was at the beginning of the week prevented by an area of low pressure off Bombay from penetrating freely into the interior, but the depression moved northwestwards and by the morning of the 27th had disappeared; this branch of the monsoon accordingly gave abundant rainfall over the central parts of the country and in northwest India, some heavy falls of rain being reported on the 29th and 30th in the extreme north. The week's rainfall was in large excess in the east of the Central Provinces, east Rajputana, Gujarat, Sind, the Punjab, the North-West Frontier Province and over the whole of the peninsula except the Madras Deccan and southeast Madras.

3. *Burma.*—Rainfall was on the whole only light and local. Skies were moderately clouded. In parts of Lower Burma temperature was somewhat higher than usual.

Northeast India, including Orissa.—Rain fell chiefly in the northern and south-western districts. Cloud was moderate to heavy; and maximum temperature was in defect in the areas of rainfall.

The United Provinces, Central India and the Central Provinces.—In the United Provinces falls of rain were reported on the 24th from all parts, but after this very little rain fell except at the close of the week in the western districts. Rainfall was of daily occurrence in the Central Provinces and Central India West. After the 24th cloud was light in the United Provinces but it continued moderate to heavy in the Central Provinces. Temperature at the end of the week was in defect in the latter area and in excess in the former.

Northwest India.—All parts of the division received rain. During the last few days cloud was present everywhere and temperature was in general defect.

The Peninsula.—Rainfall was fairly general except in southeast Madras and the Madras Deccan. Skies were moderately to heavily clouded. Temperature was normal or in defect, the deficiency occurring chiefly in the daytime.

4. The following summarises the chief rainfall amounts as reported at 8 hrs. each day:—

June 24th. Jalpaiguri 2.13", Veraval 2.06", Hanumkonda 2.40" and Gopalpur 4.08".

" 25th. Tavoy 4.00", Moulmein 4.00", Cuttack 2.09", Hanumkonda 1.96" and Mercara 3.87".

" 26th. Mergui 5.59" and Mercara 5.50".

" 27th. Chakrata 3.42" and Veraval 2.27".

" 28th. Chanda 2.20", Rawalpindi 2.51", Murree 2.04", Hyderabad (Sind) 1.37", Bhuj 5.11", Rajkot 2.92", Surat 2.95", Nizamabad 2.74", Hyderabad (Deccan) 2.00" and Masulipatam 2.00".

" 29th. Jalpaiguri 2.47", Nagpur 5.11", Chanda 2.65", Ludhiana 2.81", Lahore 2.04", Sialkot 3.14", Hyderabad (Sind) 1.13", Surat 2.08" and Hanumkonda 2.17".

" 30th. Sibsagar 4.04", Chetlat 2.26", Montgomery 1.82", Dera Ismail Khan 3.14", Karachi 1.61", Ahmedabad 2.20", Surat 2.32", Hoshangabad 2.46" and Seoni 2.48".

5. The rainfall of the whole period from 29th April to date is either normal or in excess over by far the greater part of country; the only divisions where it is more than 20 per cent in defect are Bay Islands, Orissa, United Provinces West, Kashmir, Baluchistan, Mysore, Madras Southeast and Madras Deccan.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 30TH JUNE 1910. | | | RAINFALL DATA FROM 30TH APRIL 1910 TO 30TH JUNE 1910. | | | SEASONAL PERCENTAGE DEPARTURES FROM NORMAL. | |

R. W. CARLYLE,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
25th June 1910.

Burma.—The rainfall was lighter during the week except in the Tenasserim division and in the hills but practically general. Harvesting of summer rice and sowing of hill side rice are approaching completion. Ploughing for winter rice is well advanced and sowing has commenced under favourable conditions. Cultivation of autumn crops in dry uplands is progressing satisfactorily and standing crops are in good condition. The price of unhusked rice has risen at the ports of Akyab and Moulmein but has fallen slightly in Rangoon. In the interior prices show little change except in Bhamo where they have risen considerably. Except in Kyaukpadaung and Bhamo where prices are high and in the irrigation districts where they are low, prices are generally slightly above normal.

Eastern Bengal and Assam.—The rainfall was heavy almost everywhere in the Rajshahi, Surma Valley and Assam Valley divisions. The heaviest fall recorded was 18 inches at Alipur Duars. Light to moderate rain fell elsewhere. Slight damage to summer rice and jute on low lands by excessive rain is reported from some districts. Harvesting of summer rice continues while that of jute on low land has commenced in Eastern Bengal. Transplantation of winter rice is going on. Prospects of tea are fair while those of other standing crops are good on the whole. The average price of common rice is almost stationary. Cattle disease prevails in Mymensingh, the Naga Hills, Goalpara, Kamrup, Darrang, Nowgong, Sibsagar and Lakhimpur.

Bengal.—The rainfall was general all over the Province, the fall being heavy in Murshidabad, Patna, Cuttack, Angul, Cooch Behar and in parts of Midnapore and the Sonthal Parganas; moderate in Burdwan, Khulna, Champaran, Puri and Manbhum and light elsewhere. The recent rainfall has been beneficial in Bihar for standing crops and for agricultural operations. Excessive rain has damaged standing crops to some extent in parts of Bhagalpur and the Sonthal Parganas. Weeding of jute and sowing of autumn crops continues. Transplantation of winter paddy has commenced in some districts. The sugarcane crop is doing well. The price of common rice has risen in Burdwan, Midnapore, Patna, Shahabad and Manbhum and has fallen in Jessore, Gaya, Saran, Champaran, Angul and Ranchi. Cattle disease is reported from Burdwan, Nadia, Murshidabad, Gaya, Muzaffarpur, Darbhanga, the Sonthal Parganas, Cuttack, Angul, Sambalpur and Hazaribagh. The supply of fodder and water is sufficient throughout the Province.

United Provinces.—The rainfall is adequate in the hills and submontane areas but light in the Doab, Southern Oudh, Bundelkhand and some other districts. Eight districts report need of more rain for autumn operations. Ploughing, manuring and sowing of fields are in full swing. Early sown autumn crops have germinated well. Twenty-two districts report sporadic cattle disease but the general condition of cattle is satisfactory. Fodder and supplies are ample. Prices are generally stationary.

Punjab.—Moderate to light rain has fallen in Hissar, Rohtak, Gurgaon, Delhi, Ambala, parts of Jullundur, Lahore, Sialkot and Lyallpur and slight rain in parts of Amritsar and Rawalpindi. The condition of extra spring crops is generally good. Extra spring crops are being reaped in Mianwali. Sowings of autumn crops and ploughing for autumn and spring crops continue. Standing crops have been damaged

slightly by drought and river flood in parts of Mianwali. Prices have risen slightly in some districts. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. The canal water-supply is insufficient in parts of Rohtak and Lyallpur and water in parts of Ambala and Shahpur.

North-West Frontier Province.—Slight rain fell during the week averaging 12 cents in Swabi to 23 cents at Bannu. The condition of standing crops is average except in Dera Ismail Khan where it is a little below the average on unirrigated areas. Wheat is being threshed and stacked. The outturn is average. The fodder and water-supply is sufficient except in the Shigga circle of the Marwat tahsil. There were floods in the Kurram and Tochi rivers. Irrigation from the Paharpur canal continues. The condition of cattle is good but disease prevails in one village of the Swabi tahsil and in one village of the Mardan tahsil. The public health is good. Prices of food grains are falling slightly. Prices:—wheat 17½ to 18½; maize 16½ to 23½; gram 17½ to 26 and bajra 16½ to 17½ seers per rupee.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 12 to 20 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—Slight rain fell once during the week. Extra spring crops are being gathered. The condition of spring crops is good. Sowing of autumn crops is going on. Fodder is sufficient. Prices are stationary.

Rajputana.—There was general rain except in the Hill Tracts, Kishangarh and Merwara. The maximum fall was 263 cents in the Banswara district and the minimum 6 cents in Jaipur. Land is being prepared for autumn crops and sowings have also commenced in some States. A few cattle are dying from disease in Merwar but cattle disease is gradually subsiding in Banswara. Fodder is sufficient. Prices are rising in Bikaner and Jaisalmer by ½ seer; in Tonk by 1 seer 7 chattaks and in Kishangarh by 1 seer. Prices are falling or steady elsewhere.

Central India.—The rainfall during the week was general and sufficient for the present except in Gwalior. Sowing of autumn crops is in progress. Agricultural stock is in good condition except for some cattle disease in Baghelkhand, Bundelkhand and Bhopawar. Prices are fluctuating in Indore and are steady elsewhere.

Central Provinces.—Light to heavy rain fell during the week all over the Provinces. The principal falls in inches were:—Bhandara 8, Buldana 6 and Chhindwara, Balaghat, Wardha and Amraoti 5 each. In the remaining districts the falls ranged from 28 cents in Saugor to 4 inches in Nagpur. The rainfall was generally well distributed and greatly facilitated ploughing and sowing operations. More rain is however required in Saugor and Jabulpore. Germination of autumn crops is so far satisfactory. Fodder and water are sufficient everywhere and the condition of cattle is good. Prices:—the price of wheat remained stationary in seventeen districts, gram in eighteen and rice in twenty-one. The price of *juar* remained steady throughout the Provinces. Prices generally indicate a tendency to fall.

Feudatory States.—During the week ten States had rain ranging from 1 inch in Kawardha to 6 inches in Sarangarh. Ploughing of land and sowing of autumn crops are in progress. The supply of fodder and water is adequate. Prices:—Wheat became dearer by 2 seers per rupee in Sarangarh.

Bombay.—The rain during the week was heavy in parts of Colaba, Ratnagiri, Kanara, East Khandesh, Poona, Satara, Kathiawar, Savantvadi and Kolhapur; good in parts of the Panch Mahals, Surat, Thana, West Khandesh, Nasik, Ahmednagar, Belgaum and Cutch; moderate in parts of Kaira, Broach, Sholapur, Bijapur, Dharwar, Baroda, Palanpur and Rewa Kautha and slight in parts of Karachi, Thar and Parkar, Ahmeda-

bad and Mahi Kantha. The rainfall was generally sufficient for sowing operations but more rain is needed in parts of Thar and Parkar, Poona, Sholapur, Belgaum, Dharwar and Kolhapur. Preparation of lands for autumn cultivation continues in parts of Sind, Ahmedabad, Broach, Thana, Kanara, West Khandesh, Ahmednagar, Belgaum and Kathiawar. Autumn sowings are progressing in parts of Karachi, Sukkur, Larkana, Gujarat, Thana, Kanara, the Deccan, Bijapur, Belgaum, the Gujarat Native States, Savantvadi and Kolhapur. Transplantation has commenced in parts of Karachi, Larkana, the Konkan and Savantvadi. The fodder supply is adequate except in parts of Larkana and Hyderabad. Agricultural stock are sufficient except in parts of the Deccan and are generally in good condition. Drinking water is generally sufficient except in parts of Nasik, Sholapur, Bijapur and Dharwar. Irrigation water is adequate except in parts of Nasik, Poona, Sholapur, Bijapur and Dharwar. Grain stocks are sufficient. Prices have fallen in the Upper Sind Frontier and Broach; have risen in Kanara and are stationary elsewhere. The quantity purchasable per rupee is in Sind 24 to 40 per cent; in Gujarat 20 to 34 per cent; in the Konkan 2 to 26 per cent; in the Deccan 14 to 40 per cent and in the Karnatak 34 to 41 per cent less than the normal.

Hyderabad.—The average rainfall in the Dominions was 2 inches 37 cents. The rainfall was general except in the Raichur and Nalgonda districts. The heaviest falls occurred in the Nizamabad, Nander, Karimnagar, Parbhani, Adilabad, Bidar, Usmanabad, Gulbarga and Mahbubnagar districts. Sixty-six talukas also had good showers. Early rice sowings have begun in the Nizamabad, Medak and Mahbubnagar districts. Rain is needed in parts of the Raichur and Nalgonda districts especially in the former. Relief works are to be closed in the Karimnagar district but gratuitous relief is to be continued for a month or so. Water scarcity prevails in seven districts and cattle disease in five. Fodder scarcity is reported in twenty-five talukas. Prices:—wheat and coarse rice 6½ and *juar* 12½ seers per rupee. White *juar* is selling in Hyderabad City at 11 seers. Yellow *juar* is not available. The highest price in districts is 8 seers in Karimnagar and the lowest 20 seers in Bidar.

Mysore.—The rainfall was good in Katur, Shimoga and Hassan and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are generally good. Cattle are healthy. Water and fodder are available.

Coorg.—Rainfall 17 inches 50 cents. Ploughing for rice continues. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was abnormally heavy in South Canara and Malabar; heavy in Ganjam and the Nilgiris; good in Kistna, Godavari, Vizagapatam, Guntur and Nellore; nil in Trichinopoly and Tanjore and light to fair elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Kistna, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary require rain and some in parts of Tinnevely are withering. Harvests continue in parts with outturn poor to normal. Pasture is sufficient in Ganjam, Vizagapatam, Chingleput, Madras, Salem, Tanjore, Madura, Malabar, South Canara and the Nilgiris. Fodder is scanty in parts of Godavari, Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in sixteen districts and has risen in eight. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in one and has risen in thirteen. *Cholam* is stationary in three districts; has fallen in three and has risen in five. *Cumbu* is stationary in six districts; has fallen in three and has risen in seven. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

R. W. CARLYLE,
Secretary to the Government of India.

(a) From and May 1902.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

Sindia, the 30th June 1910.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, SIMLA.

SUPPLEMENT TO
The Gazette of India

No. 28 } CALCUTTA, SATURDAY, JULY 9, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in Part VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

A. EARLE,

Offg. Secretary to the Government of India.

CONSTITUTION AND RECRUITMENT OF THE CLERICAL ESTABLISHMENTS, OF
THE GOVERNMENT OF INDIA SECRETARIATS.

NOS. 817—825.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

Simla, the 6th July 1910.

RESOLUTION.

The Governor-General in Council has for some time had under consideration the question of improving the position and prospects of the clerical establishments of the Government of India Secretariats, and is now pleased to make public the scale of pay which, with the concurrence of the Secretary of State, it has been decided to adopt in all Departments except the Legislative Department, which has, for special reasons, been excluded from the scope of the re-organisation scheme.

2. Excluding the Registrar and Superintendents of Sections or Branches there will, in future, be two divisions in each of the Secretariat offices, styled the first and second divisions. The first division will comprise all those clerks who are required to deal with the higher kinds of clerical work, while the second division will contain those who are employed on work of a less important or of a routine character. The second division, again, will be subdivided by an efficiency bar which will preclude men from rising to pay of more than Rs. 100 a month until they display efficiency in the more important classes of work entrusted to the division, *i.e.*, in other than purely mechanical work, such as copying, typing or despatching. The scale of pay, except in any special circumstances in any Secretariat office which may justify a departure from it, will be as follows:—

Superintendents—

| | Rs. |
|-----------|-----|
| 1st grade | 700 |
| 2nd " | 600 |
| 3rd " | 500 |

First Division.

Secretariat Assistants—

| | |
|-----------|-----|
| 1st grade | 400 |
| 2nd " | 350 |
| 3rd " | 300 |
| 4th " | 250 |
| 5th " | 200 |
| 6th " | 170 |
| 7th " | 140 |

Second Division.

Clerks—

| | |
|-----------|-----|
| 1st grade | 200 |
| 2nd " | 180 |
| 3rd " | 160 |
| 4th " | 140 |
| 5th " | 120 |

Efficiency bar—

| | |
|-------------|-----|
| 6th grade | 100 |
| 7th " | 90 |
| 8th " | 80 |
| 9th " | 70 |
| 10th " | 60 |
| Apprentices | 50 |

3. The Governor-General in Council has further decided that the system of competitive examination for clerical posts in the Secretariat shall be discontinued, and that for the future appointment to the first Division of the Secretariat

staff shall be by selection from an approved list of candidates in accordance with the rules appended below.

ORDER.—Ordered that a copy of the above Resolution be published in the Supplement to the *Gazette of India*.

Foreign Department.
Finance
Department of Revenue and Agriculture.
Public Works Department.
Army
Finance (Military Finance).
Department of Commerce and Industry.
Railway Department (Railway Board).

Ordered also that a copy of the Resolution be forwarded to the Departments of the Government of India noted in the margin for information and guidance.

A. EARLE,

Offg. Secretary to the Government of India.

APPENDIX,

Rules.

1. The minimum educational qualifications required of candidates for the First Division will be, in the case of Europeans, a pass by the Cambridge Senior Local, or the High School Examination or Matriculation Examination of a University, and in the case of Indians a University Degree. Persons belonging to any province in India so qualified and provided they are not less than 18 nor more than 24 years of age and are able to produce satisfactory evidence as to their character and antecedents and such other particulars as the Government of India may require, are eligible for registration for appointments to the First Division.
2. The names of all such candidates will be placed by the Home Department, to which all applications should be addressed, on the list of registered candidates, and the candidates will be informed of such registration.
3. A Secretary to the Government of India may also cause the name of any candidate who is qualified in respect of age, education and character to be placed on the list of registered candidates.
4. An officer already in Government service who is specially qualified* by experience or training for the appointment for which he is required will not be debarred by these rules from being appointed without registration to the First Division. This Division will also be open to such of the clerks in the Secretariat offices who hold permanent appointments on the 6th July 1910 in those offices, but in these cases the decision whether such clerks shall be placed in or promoted to the First Division shall remain, as at present, in the discretion of the Secretary to the Government of India in the Department concerned.
5. The fact that the name of a candidate has been registered will give such candidate no right to an appointment and his name will be removed from the Register:—
 - (a) as soon as he is appointed to a permanent post in an office to which these rules apply;
 - (b) upon his attaining the age of 25 years without being so appointed;
 - (c) when he has refused or resigned a permanent appointment in any one of the offices concerned;
 - (d) when his services after a period of probation have been dispensed with; or
 - (e) if having obtained an appointment he is dismissed or removed.
6. Every candidate on the list shall, on appointment to the First Division, be posted to the lowest grade, and shall be on probation for one year. During this probationary period the Secretary in the Department shall have absolute discretion to dispense at any time with the services of a probationer. To this rule an exception will be made in the case of men already in Government service appointed for special reasons under rule 4 above. Such men may be brought in in any grade, and without probation if the Secretary of the Department considers it necessary.
7. Copies of the list of registered candidates will be sent quarterly by the Home Department to the other Departments of the Government of India for the selection of such candidates as they may require. They may either ask for candidates by name, or desire the Home Department to recommend a candidate possessing certain specified qualifications. A partial exception to this rule will be made in the case of the Foreign Department. Ordinary recruitment for that Department will be made in accordance with these rules, but the Secretary in that Department, when special reasons exist to justify it, may recruit independently of the Home Department. Subject to the foregoing exceptions, all appointments will be made through the Home Department.
8. No minimum educational qualification for candidates for the Second Division is necessary and no register will be maintained for such candidates. Each Department of the Government of India will make its own arrangements for the recruitment of clerks for the Second Division in such manner as it may consider suitable, but no clerk in the Second Division will be eligible for promotion to the First Division either in his own or any other office. This shall be the general rule save in most exceptional cases in which the decision is left to the head of the Department.
9. The foregoing rules do not apply to the Legislative Department.

* Illustration.—Under this Rule the Finance Department (Ordinary and Military Finance) may recruit a specially qualified clerk from an account office or may select a clerk from the Military Accounts Department at the discretion of the Secretary concerned.

GOVERNMENT OF INDIA:

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 7th July 1910, based on the Indian Daily Weather Reports of the period.

1. The principal feature in the weather of the past week has been a cyclonic storm which formed at the head of the Bay on the 1st and, crossing the coast near Balasore, travelled in a west-north-westerly direction through the north of the Central Provinces into lower Sind. The disturbance was well marked and the Arabian Sea monsoon was very active throughout, giving heavy rain in the Central Provinces, Central India West, Gujarat, south Rajputana and lower Sind; but owing to the weakness of the Bay current very little rain fell to the north of its track. As is usual during the passage of such storms across India rainfall was concentrated chiefly along its track, and the remaining parts of the country received rather less rain than usual. Thus there is an excess of over 20 per cent in the rainfall of the week in the divisions of Orissa, Madras Coast North, the Central Provinces, Central India West, Rajputana, Gujarat and Sind; and a defect is shown in Upper Burma, Assam, Eastern Bengal, the United Provinces, Central India East, the North-West Frontier Province, the Konkan, Hyderabad, the Madras Deccan and Madras South-east. As might be expected temperature was much lower than usual in the areas of heavy rain. On the 7th, as the storm was entering lower Sind and had ceased to affect the weather outside northwest India, a marked change took place over the whole of northeast and central India and the peninsula; there was a sudden cessation of rain, a considerable decrease in cloud and a rapid rise in temperature.

2. *Burma.*—Very little rain fell in the central districts, but in Lower Burma and in the north widespread rainfall occurred nearly every day. Skies were moderately to heavily clouded.

Northeast India, including Orissa.—Rain fell in all parts of the division, but was generally light, the heaviest falls being reported from the western districts. Cloud was moderate to heavy on most days, and day temperature was in defect in parts of Bengal.

The United Provinces, Central India and the Central Provinces.—Local falls of rain occurred in the United Provinces, while nearly general and in parts heavy rain fell in Central India and the Central Provinces. Skies were lightly to moderately clouded in the United Provinces and densely overcast elsewhere. Maximum temperature was in defect in the Central Provinces and Central India. On the 7th rainfall almost ceased and skies partially cleared.

Northwest India.—There were local falls of rain in the Punjab, Kashmir and west Rajputana; rainfall was nearly general in east Rajputana and Gujarat, and at the close of the week extended into lower Sind. Moderate to heavy cloud covered the greater part of northwest India, and temperature was normal or in defect.

The Peninsula.—Rainfall was nearly general on the west coast and more or less local elsewhere, except on the 6th, when the storm from the Bay gave widespread rain in the Bombay Deccan. Skies were densely clouded, but cleared considerably on the 7th. Temperature was in defect in the northern half of the peninsula.

3. The following summarises the chief rainfall amounts as reported at 8 hrs. each day:—

July 1st. Mergui 3·05", Kyaukpadaung 3·62", Dibrugarh 2·41", Tezpur 3·10",
Ludhiana 2·97", Simla 2·14", Ajmer 2·50" and Mount Abu 3·82".

July 2nd. Moulmein 6.80", Tezpur 2.28", Jalpaiguri 2.09", Balasore 3.89"
 " Patna 2.24", Gaya 2.81", Pachmarhi 2.50" and Rajkot 2.24".

" 3rd. Diamond Island 5.39", Toungoo 3.33", Kyaukpau 4.40", Myitkyina
 " 3.04", Allahabad 1.58", Lucknow 2.00", Nagpur 2.47", Jagdalpur
 " 2.87" and Vizagapatam 2.02".

" 4th. Darjeeling 4.32", False Point 4.28", Cuttack 7.00", Pachmarhi 3.72",
 Mercara 4.28" and Gopalpur 3.75".

" 5th. Kyaukpau 3.84", Darjeeling 2.35", Ranchi 2.24", Jhansi 2.20",
 Neemuch 2.12", Amraoti 3.07", Hoshangabad 3.88", Saugor 2.06",
 Jubbulpore 2.10", Seoni 2.53", Nagpur 3.21", Raipur 6.55",
 Chanda 2.82", Pachmarhi 5.69", Delhi 2.76", Khushab 2.25" and
 Mercara 4.69".

" 6th. Indore 3.65", Mount Abu 2.94", Surat 2.40" and Ahmedabad 3.35".

" 7th. Tavoy 3.83", Moulmein 3.30", Myitkyina 3.48", Mount Abu 3.38",
 " Hyderabad (Sind) 0.97", Karachi 1.74", Bhuj 3.89" and Dwarka
 " 3.59".

4. The rainfall of the whole period from 29th April to 7th July is 20 per cent or more in defect in the divisions of the United Provinces, Kashmir, Baluchistan, Mysore, Madras Deccan and Madras Southeast, and 20 per cent or more in excess in the North-West Frontier Province, Sind, Rajputana, Gujarat, Central India West, Berar, the Central Provinces, the Konkan, the Bombay Deccan, Hyderabad north and Madras Coast North.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 7TH JULY 1910. | | | RAINFALL DATA FROM 19TH APRIL 1910 TO 7TH JULY 1910. | | | SEASONAL PERCENTAGE DEVIATION FROM NORMAL. | |

Secretary to the Government of India.

Smta:
The 7th July 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
2nd July 1910.

Burma.—The rainfall was very heavy in the maritime districts of Tenasserim and moderate in other maritime and in the northern districts but no rain or very light showers fell in the central region. Ploughing and sowing of nurseries for the autumn rice crop and for winter crops continue. More rain is wanted in the dry zone, particularly in Pakokku. The price of unhusked rice has risen slightly at Akyab and fallen at Rangoon and Bassain where it is below normal. The price at Moulmein has fallen slightly but remains above normal. Elsewhere there are no important changes and prices are not far from normal except in irrigation districts where they are low.

Eastern Bengal and Assam.—Good rain has fallen in the Surma Valley, Assam Valley and Rajshahi division. Elsewhere the rainfall has been light. Slight damage to jute and autumn rice on low land is reported from some districts. Harvesting of jute has commenced while that of autumn rice and transplantation of winter rice continue. Plucking of tea is progressing. Prospects of standing crops are good. The average price of common rice has risen by about one per cent. Cattle disease is reported in Mymensingh, Rajshahi, Sylhet, the Khasi, Jaintia and Naga Hills, Goalpara, Kamrup, Darrang, Nowgong and Sibsagar.

Bengal.—Rain was general all over the Province, the fall being heavy in Gaya, Balasore, Angul, Puri, Darjeeling, Cooch Behar and also in parts of Champaran and Purnea, moderate in Midnapore, Muzaffarpur, the Sonthal Parganas, Manbhum and Singhbhum and light elsewhere. Transplantation of paddy has commenced in some districts. More rain is wanted for the purpose in Burdwan, Bankura, Hooghly, the 24 Parganas and Jessore. Excessive rain has done some damage to *makai* (Indian corn) in parts of Bhagalpur and the Sonthal Parganas. Standing crops are doing well. The price of common rice has risen in Burdwan, Hooghly, Jessore, Khulna, Gaya, Saran, Monghyr, Cuttack and Hazaribagh and has fallen in Midnapore, Nadia, Shalabad, Champaran and Manbhum. Cattle disease is reported from Burdwan, Midnapore, Murshidabad, Jessore, Gaya, Muzaffarpur, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas, Cuttack, Angul, Hazaribagh and Ranchi. The fodder and water-supply is sufficient throughout the Province.

United Provinces.—The rainfall was adequate in the hills and submontane area but more rain is needed in parts of the Doab and South Oudh. Operations for autumn crops are being vigorously pushed forward. Sugarcane is flourishing and germination of early autumn crops is good. Sporadic cattle disease is reported from twenty-five districts but the general condition of agricultural stock is satisfactory. Fodder and supplies are sufficient everywhere. Prices are rising in ten districts mainly owing to the demand for seed. Elsewhere prices are generally stationary.

Punjab.—The rainfall during the week was general throughout the Province. It was heavy in parts of Ambala and Jullundur. The heaviest fall being over 13 inches at Naraingarh in the Ambala district. It was good to moderate elsewhere ranging generally from 5 inches to 11½ inches in quantity. The rain has benefited standing crops which are generally in good condition and was useful for ploughings for the autumn and spring crops. Harvesting of extra spring crops and sowings of autumn crops con-

tinue. Prices have risen slightly in some districts. The condition of cattle is generally good. Fodder is sufficient. Complaints of a short canal water supply are being received from the Samundri tahsil of the Lyallpur district.

North-West Frontier Province.—Good rain averaging a little over an inch fell all over the Province and was beneficial to standing crops and future sowings. Maize and *chari* are being sown. The condition of standing crops is average except in Dera Ismail Khan where it is a little below average on unirrigated areas. The fodder and water supply is sufficient. Floods have occurred in the Kurram and Tochi rivers. Irrigation from the Paharpur canal continues. The condition of cattle is good except in Swabi and in one village each of the Charsadda and Mardan tahsils. The public health is good. Prices of food grains are falling slightly. Prices are:—wheat 14 to 19; maize 16½ to 23½; gram 17½ to 25 and *bajra* 16½ to 17½ seers per rupee.

Jammu.—Good rain fell during the week. Prices are stationary. Wheat sells from 12 to 18 and maize from 19 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—It rained twice during the week which did good to autumn sowings. Spring crops have been gathered. Fodder is sufficient. Prices are stationary.

Rajputana.—General rain fell during the week except in Bikaner and the Hilly Tracts. The maximum fall was 568 cents in Banswara and the minimum 32 cents in Jaipur. Ploughing and sowing for autumn crops are in progress. There was an outbreak of disease among cattle in the Jaisalmer district. Cattle disease is still raging in Banswara. Fodder is sufficient. Prices have risen in Bundi by 5 chattaks, in Kishangarh by 1 seer, in Alwar by 7 chattaks and in Bharatpur by 8 chattaks. Prices are falling or are steady elsewhere.

Central India.—The rainfall was general and sufficient. Sowing of autumn crops is in progress. Agricultural stock are good except for some disease in Bundelkhand and Bhopawar. Prices are fluctuating in Indore, are slightly falling in Bhopawar and are steady elsewhere.

Central Provinces.—During the week moderate to heavy rain fell throughout the Provinces. The quantity registered at headquarters in the districts of the Jubbulpore, Nerbudda and Chhattisgarh divisions ranged from 2 to 9 inches; in Berar from 2 to 6 inches and in the Nagpur division from 6 to 13 inches. Nagpur and Bhandara had the heaviest rain amounting to 13 and 11 inches respectively. Continuous rain has retarded sowings in nine districts and a break would now be welcome in Nagpur. Germination of autumn crops is reported to be somewhat defective but elsewhere germination is generally good. The supply of fodder and water is adequate and cattle are doing well. Prices:—the price of wheat remained stationary in fourteen districts, rice in seventeen, *jwar* in nineteen and gram in twenty. Variations are unimportant elsewhere.

Feudatory States.—The rainfall during the week measured (in inches) was:—Raigarh 7, Sakti 6, Sarangarh 4, Chhuikhadan and Nandgaon each 3, Sirguja 2½, Kanker 1½ and Korea 1½. Sowing of autumn crops continues. Fodder and water are sufficient everywhere. Prices show no marked fluctuations.

Bombay.—The rain during the week was heavy in parts of Broach, Surat, the Konkan, West Khandesh, Nasik, Satara, Belgaum, Kathiawar, Baroda, Mahi Kantha, Rewa Kantha, Savantvadi and Kolhapur; good in parts of Ahmedabad, the Panch Mahals, Kaira, Ahmednagar, Poona, Palanpur and Cutch; moderate in parts of Karachi, Sukkur, Hyderabad, East Khandesh and Dharwar and slight in parts of Larkana, the Upper Sindh Frontier, Thar and Parkar, Sholapur and Bijapur. The rainfall was beneficial and generally sufficient but more rain is needed in parts of Karachi, Poona, Sholapur and Belgaum. A break in the rains is needed in parts of Broach, Surat and

West Khandesh. Preparation of lands for autumn cultivation continues in parts of Sind, Broach, Kanara, West Khandesh and Belgaum. Autumn sowings are generally progressing but are retarded in parts of Kanara, the Deccan and Dharwar, owing to excessive rain. Transplantation has commenced in parts of Sind, Kaira, Surat, the Konkan, Nasik, Poona and Sayantvadi. The fodder supply is adequate except in parts of Larkana and Hyderabad. Agricultural stock are sufficient except in parts of the Deccan and generally in good condition. Drinking water is generally sufficient except in parts of the Karnatak. Irrigation water is adequate except in parts of Poona, Bijapur and Dharwar. Grain stocks are sufficient. Prices are generally stationary. The quantity purchasable per rupee is in Sind 24 to 40 per cent; in Gujarat 10 to 26 per cent; in the Konkan 2 to 25 per cent; in the Deccan 11 to 32 per cent and in the Karnatak 26 to 37 per cent less than the normal.

Hyderabad.—The average rainfall during the week was 3 inches 5 cents. Satisfactory rain fell during the week. Seven districts received on an average more than 4 inches and others between 4 inches and 1 inch except Raichur which received 11 cents only. Rain is needed in this district. The heaviest falls occurred in Aurangabad, Parbhani, Nizamabad and Adilabad. Autumn sowings are proceeding but are suspended temporarily owing to continuous rain in parts of the Aurangabad, Bir and Nander districts. Early rice sowings began in parts of Telingana. Gratuitous relief will continue for a week or two longer in the Karimnagar district. Water scarcity is reported in two districts and cattle disease in eight. Fodder scarcity prevails in fifteen talukas. Prices:—wheat and coarse rice 6½ and *juar* 12½ seers per rupee. White *juar* is selling in Hyderabad City at 11 seers while yellow *juar* is not available. The highest price in districts is 8 seers in Karimnagar and the lowest 20 seers in Bidar.

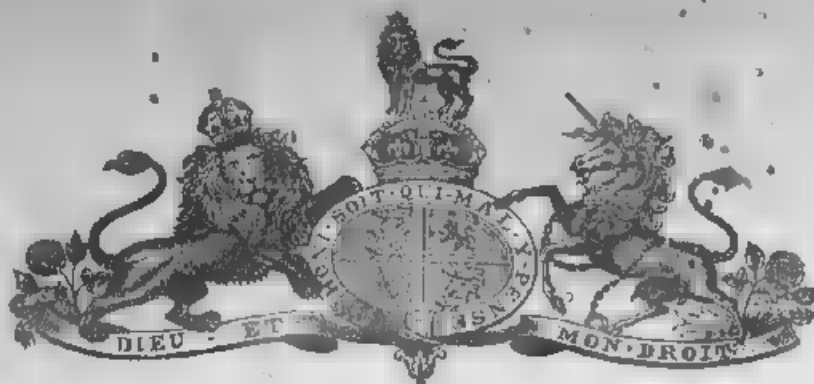

Mysore.—The rainfall was good in Kadur, Shimoga and Hassan and slight elsewhere. Prices of food grains are steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are generally good. Cattle are healthy. Water and fodder are available.

Coorg.—The rainfall during the week was 15 inches 19 cents. Ploughing for rice continues. Transplanting of rice has commenced. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in South Canara and Malabar; heavy in the Vizagapatam Agency and Godavari; good in Kistna, Guntur, the Nilgiris, Ganjam and the Vizagapatam littoral; nil in South Arcot and light to fair elsewhere. Irrigation supplies are sufficient in Vizagapatam, Kistna, Coimbatore, Trichinopoly, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary still require rain urgently. Harvests continue in parts with outturn poor to normal. Pasture is sufficient in Ganjam, Vizagapatam, Kistna, Chingleput, Madras, Salem, Tanjore, Madura, Malabar, South Canara and the Nilgiris. Fodder is scanty in parts of Godavari, Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in eleven districts; has fallen in four and has risen in nine. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts; has fallen in seven and has risen in seven. *Cholam* is stationary in seven districts; has fallen in one and has risen in one. *Cumbu* is stationary in five districts; has fallen in four and has risen in seven. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

SUPPLEMENT TO
The Gazette of India.

No. 29. } SIMLA, SATURDAY, JULY 16, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 14th July 1910, based on the Indian Daily Weather Reports of the period.

1. The cyclonic storm which was in Lower Sind on the 7th July moved westward, into Baluchistan and disappeared after giving heavy rain in Sind, moderate rain in Gujarat and probably local rain in Baluchistan: its disappearance was followed by a break in the rains over a large tract of country. The Bay monsoon gave very little precipitation outside Eastern Bengal and Assam, while the Bombay current produced no rain of importance in the northern half of the peninsula and in the central parts of the country, but occasioned fairly general rain in the United Provinces and the Punjab. The rainfall of the week was thus on the whole below the average: it was in excess in Eastern Bengal, Assam, the North-West Frontier Province, Sind, Baluchistan, the Madras Deccan and Madras Southeast; normal in the Punjab, Hyderabad South and Mysore; and in defect in all the other divisions.

2. Unusually low day temperatures have prevailed in Sind, the North-West Frontier Province and the Punjab.

3. *Burma.*—Rainfall was fairly general in Lower Burma and in the northern districts, but the central parts of the province were almost rainless. Skies were lightly to moderately clouded. Temperature was in excess at some places in Lower Burma.

Northeast India, including Orissa.—Widespread rain fell in Eastern Bengal and Assam and local rain in Bengal. Cloud was moderate to heavy.

The United Provinces, Central India and the Central Provinces.—Rainfall was fairly general in the United Provinces, but only a few falls occurred in Central India and the Central Provinces. Skies were heavily clouded in the extreme northwest of the United Provinces and lightly to moderately clouded elsewhere.

Northwest India.—Heavy rain was reported from Lower Sind on the 8th and 9th, and light to moderate rain from the North-West Frontier Province and Gujarat, but during the remainder of the week rainfall was confined to the Punjab and Kashmir. Dense cloud covered the west of the division at the beginning of the week, and on most days skies were moderately to heavily clouded in the southern and eastern districts and in the west Himalayas. Maximum temperature was in defect over a large area, especially in Sind and the North-West Frontier Province.

The Peninsula.—There was very little rain even on the west coast, and skies were only lightly clouded over the greater part of the peninsula. Temperature was in excess in parts of Madras.

4. The following summarises the chief rainfall amounts as reported at 8 hrs. each day:—

| | |
|-----------|--|
| July 8th. | Bhamo 2·03", Karachi 6·08", Hyderabad (Sind) 1·82", Jacobabad 1·00", Mount Abu 2·45" and Bhuj 1·76". |
| " 9th. | Mymensingh 2·17", Bogra 2·53", Peshawar 1·85", Dera Ismail Khan 1·42", Hyderabad (Sind) 3·13" and Mount Abu 2·52". |
| " 10th. | Dinajpur 3·02", Ranchi 2·07", Gorakhpur 2·50", Bahraich 3·10" and Jagdalpur 3·30". |
| " 11th. | Mymensingh 4·13", Jalpaiguri 3·40", Dehra Dun 2·18" and Hanum-konda 3·41". |
| " 12th. | Jalpaiguri 2·02" and Patna 2·13". |
| " 13th. | Silchar 7·16", Dehra Dun 1·96", Delhi 2·21" and Murree 1·65". |
| " 14th. | Chittagong 10·57", Narayanganj 2·28", Mymensingh 1·92", Ambala 1·60", Lahore 1·86" and Sialkot 1·36". |

5. The rainfall for the whole period from the 28th April to the 14th July is in defect by 20 per cent or more in Orissa, the United Provinces, Central India East, Mysore, the Madras Deccan and Madras Southeast; and is 20 per cent or more in excess in Central India West, Gujarat, Sind, the North-West Frontier Province and Madras Coast North. It is nearly normal over the greater part of the country.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 14TH JULY 1910. | | | RAINFALL DATA FROM 29TH APRIL 1910 TO 14TH JULY 1910. | | | SEASONAL PERCENTAGE DEPARTURE FROM NORMAL. | |

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
9th July 1910:

Burma.—Moderate or heavy rain fell in the maritime districts, the northern districts and the Shan States. No rain or only slight showers fell in the dry zone and adjacent districts where more rain is wanted for sowing of winter crops especially in Lower Chindwin and Pakokku. Fodder is reported to be becoming scarce. Ploughing and sowing for rice crops are progressing favourably in Lower Burma and in the northern districts. There are no important changes in prices of unhusked rice which remain generally near normal in local markets but low in irrigation districts. The price of cleaned rice in the Southern Shan States has fallen but is still high.

Eastern Bengal and Assam.—The rainfall was comparatively light but fairly well distributed. More rain is wanted in parts of Chittagong for winter rice while more sun is required in Lakhimpur for tea. Transplantation of winter rice and harvesting of autumn rice and jute are progressing. Plucking of tea continues. Prospects of jute, autumn rice, winter rice and sugarcane are good. Red spider and green fly are still prevalent in some tea gardens. The average price of common rice has risen by one per cent. Cattle disease prevails in Mymensingh, Chittagong, Noakhali, the Khasi, Jaintia and Naga Hills, Goalpara, Kamrup, Darrang, Nowgong and Sibsagar.

Bengal.—Rain was general all over the Province, the fall being heavy in Cuttack, Angul, Puri, Ranchi and Cooch Behar and also in Darjeeling and Sambalpur; moderate in Bankura, Champaran, Muzaffarpur and Darbhanga and light elsewhere. Transplantation of winter rice has commenced and is going on in some districts but more rain is wanted for the purpose in the Sonthal Parganas, Balasore and in the districts of the Burdwan and Presidency divisions and for paddy seedlings in Shahabad. Sowing of autumn crops still continues. Sugarcane and jute are doing well. The price of common rice has risen in Nadia, Murshidabad, Patna, Shahabad, Saran, Darbhanga, Manbhum and Singhbhum and has fallen in Burdwan, Birbhum, Hooghly, Gaya, Bhagalpur, Cuttack, Hazaribagh and Palamou. Cattle disease is reported from Midnapore, Murshidabad, Jessore, Gaya, Saran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, the Sonthal Parganas, Cuttack, Angul, Sambalpur, Hazaribagh and Ranchi. The fodder and water-supply is sufficient throughout the Province.

United Provinces.—The rainfall was very irregular during the week and generally inadequate. Two-thirds of the districts report the need for rain. Agricultural operations in them are being retarded, especially in rice growing districts. The situation does not yet justify cause for alarm but cultivators in some districts are becoming apprehensive and traders in a few places are holding up stocks in anticipation of high prices. Standing crops so far are good and provided adequate rain falls shortly prospects of the autumn crops will be satisfactory. Food and fodder supplies are ample everywhere. There is a brisk demand for field labour and the general condition of the agricultural population is good. Twenty-four districts report sporadic cattle disease but the general state of agricultural stock is satisfactory. Prices do not show any marked tendency to rise.

Punjab.—Good to moderate rain has been received in all districts except Lyallpur. Standing crops are generally in good condition. The sugarcane crop in Lyallpur is below average. Sowings of autumn crops continue. Prices are settled. There is a noticeable fall in the price of wheat in Sialkot where it has fallen from 14½ to 16 seers per rupee. The condition of cattle is generally good. Fodder is sufficient. Complaints

of a short canal water-supply, on account of rotational closures, are received from the Samandri tahsil of the Lyallpur district.

North-West Frontier Province.—Copious rain fell during the week all over the Province ranging from 2 inches in the Peshawar district to 5.46 inches at Bannu. Rain and hill torrents did immense damage to bridges and roads in Dera Ismail Khan where almost all irrigation dams have been swept away, water channels destroyed and several villages inundated. The floods in Dera Ismail Khan have also breached the Raharpur canal in several places. The Tochi and Kurram rivers in the Bannu district have also flooded. Crops on the river bank in the Nowshera tahsil of Peshawar are also somewhat damaged by floods. The condition of standing crops is generally average. Autumn sowings are in progress. The fodder and water-supply is sufficient. The condition of cattle is good except in one village of the Charsadda tahsil and in two villages of the Nowshera tahsil. The public health is good. Prices of food grains are fluctuating. Prices are:—wheat 14 to 17½, maize 17 to 23½, gram 17½ to 27 and bajra 16½ to 18 seers per rupee.

Jammu.—The rain during the week was good. Prices are fluctuating. Wheat sells from 12 to 20 and maize from 14 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—It rained twice during the week which did good to autumn crops. The rain also did good to the *alsi* crop. There is no disease among cattle. Fodder is sufficient. The autumn crops are in good condition. Prices are stationary.

Rajputana.—General rain fell during the week. The maximum fall was 58.3 cents in Banswara and the minimum 31 cents in Jodhpur. Operations in connection with autumn crops continue. Cattle disease is still reported from places in Banswara. Prices have risen in Tonk by 13 chhattaks, in Kishangarh by 1 seer, in Alwar and Bharatpur by 4 chhattaks and in Dholpur by 12 chhattaks. Prices are steady or falling elsewhere.

Central India.—The rainfall was partial and insufficient in Baghelkhand and general and sufficient elsewhere. Agricultural stock are good except for some disease in Indore, Bundelkhand and Bhopawar. Prices are steady.

Central Provinces.—Heavy rain fell in Bhandara and Balaghat during the week amounting to 6 and 19 inches respectively. In the remaining districts the rainfall was light to moderate ranging from 40 cents in Buldana to 4½ inches in Drug. More rain is needed in Saugor and Jabulpore. Sowings of autumn crops continue but operations were delayed owing to incessant and heavy rain in Bhandara and Balaghat. Germination is generally satisfactory. Fodder and water are sufficient. Agricultural stock are in good condition. Prices:—The price of *juar* remained steady in twenty-one districts, gram in nineteen, wheat in eighteen and rice in fifteen. Rice fell in Mandla and *juar* rose in Yeotmal by 2 seers per rupee.

Feudatory States.—During the week heavy rain was received in Khairagarh, Mandgaon, Kanker, Raigarh and Sirguja amounting to between 6 and 13 inches. Six other States also had rain ranging from 0.7 cents to 4 inches. Sowing of autumn crops is in progress but a break is necessary. The supply of fodder and water is adequate. Fluctuation in prices is unimportant.

Bombay.—The rain during the week was heavy in parts of Karachi, Hyderabad, Thar and Parkar, the Panch Mahals, Kaira, Broach, Colaba, Ratnagiri, Kanara, West Khandesh, Poona, Belgaum, Dharwar, Kathiawar, Cutch, Mahi Kantha, Savantvadi and Kolhapur; good in parts of Larkana, the Upper Sind Frontier, Ahmedabad, Surat, Thana, East Khandesh, Nasik and Palanpur; moderate in parts of Sukkur, Ahmednagar, Bijapur and Baroda and slight in parts of Sholapur and Satara. The rainfall was general and

beneficial but more rain is needed in parts of Sukkur, Thana, Colaba, Ratnagiri, Poona, Sholapur, Belgaum and Kolhapur. A break is needed in parts of Ahmedabad, Broach and West Khandesh. Sowing of autumn crops is generally progressing but is retarded in parts of Kanara and West Khandesh owing to excessive rain and in parts of Belgaum for want of rain. Transplantation is in progress in parts of Sind, Gujarat, Kanara, Poona, Satara and Savantvadi but is retarded in parts of Thana and Ratnagiri for want of sufficient rain. Sowing of cotton is in progress in parts of Ahmedabad, Broach, Surat, East Khandesh, Nasik, Ahmednagar and Baroda. The fodder-supply is adequate except in parts of Sukkur and Hyderabad. Agricultural stock are sufficient except in parts of the Deccan and generally in good condition. Drinking water is generally sufficient except in parts of Dharwar. Irrigation water is adequate except in parts of Poona, Bijapur and Dharwar. Grain stocks are sufficient. Prices have fallen in Ahmedabad, West Khandesh and Bijapur, have risen in Karachi and the Upper Sind Frontier and are stationary elsewhere. The quantity purchasable per rupee is in Sind 27 to 40 per cent; in Gujarat 7 to 25 per cent; in the Konkan 2 to 26 per cent; in the Deccan 10 to 30 per cent and in the Karnatak 26 to 37 per cent less than the normal.

Hyderabad.—The average rainfall during the week was 92 cents. Most districts received on an average more than 1 inch except Raichur and Gulbarga which received 2 and 23 cents respectively. The heaviest falls occurred in Warangal, Karimnagar and Adilabad. Autumn sowings are proceeding generally except in parts of Raichur. The sprouts of autumn crops are generally in good condition but have been damaged by insects in parts of Gulbarga and Warangal. Lands are being prepared for spring crops in parts. Water scarcity is reported in three talukas and cattle disease in eight. Fodder scarcity prevails in five talukas. Prices:—wheat and coarse rice 6½ and *juar* 12½ seers per rupee. White *juar* is selling in Hyderabad City at 11 seers while yellow *juar* is not available. The highest price in districts is 8 seers in Karimnagar and Warangal and the lowest 22 seers in Bidar.

Mysore.—The rainfall was good in Mysore, Hassan, Kadur and Shimoga and slight elsewhere. Prices of food grains are steady. Standing crops are in good condition. More rain is needed in parts of Bangalore, Tumkur and Chitaldrug. Prospects of the season are generally good. Cattle are healthy. Water and fodder are available.

Coorg.—Rainfall 6 inches 49 cents. Ploughing for and transplanting of rice continue. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in the Vizagapatam Agency, Malabar, South Canara, the Nilgiris, and Ganjam; heavy in the Vizagapatam littoral; good in Godavari, Kistna, Cuddapah and Trichinopoly and light to fair elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair and have been benefited by recent rains, but some in parts of Bellary require rain and some in parts of Coimbatore are withering. Harvests continue in parts with output poor to normal. Pasture is insufficient in parts of Guntur, the Deccan, Nellore, South Arcot, Coimbatore, Trichinopoly and Tinnevely. Fodder is scanty in parts of Godavari, Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in fourteen districts; has fallen in one and has risen in seven. The prices of millets have fluctuated, as follows:—*Ragi* is stationary in five districts; has fallen in three and has risen in eleven. *Cholam* is stationary in six districts; has fallen in three and has risen in five. *Cumbu* is stationary in four districts; has fallen in four and has risen in seven. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.
PLAGUE.

Simla, the 14th July 1910.

The following preliminary statement of plague seizures and deaths reported in India, during the week ending the 9th July 1910, is published for general information :

(a) From and May 1902.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

Signed, this 14th July 1910.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India

No. 30 }

CALCUTTA, SATURDAY, JULY 23, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA
DEPARTMENT OF COMMERCE AND INDUSTRY

IMPORTS (in hundredweights) of COTTON (raw), WHEAT, RICE (including paddy), GRAM and PULSE, LINSEED, RAPE and MUSTARD SEED, JUTE, and TEA, into certain ports in May 1910, and from 1st January to 31st May 1910 and in the corresponding period of 1909

N.B.—Provinces named in the first and last columns include their chief port or ports. "Madras ports" include the ports of Madras, Pondichery (exclusive of sea imports from Non-British Ports and Foreign countries), Negapatnam, Tuticorin, Calicut, Cocanada, Vizagapatnam, Cuddalore, Cochin, Tellicherry, Cannanore, Masulipatam, Mangalore, Quilon, Porto Novo, and Budgeare. The last eight ports were added from 1st April 1909

(b) Figure for the week ending 18th July 1910.

A. EARLE,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 21st July 1910, based on the Indian Daily Weather Reports of the period.

1. The break in the rains due to the Bombay monsoon continued throughout the week, and only a little rain was given by this current, chiefly along the Himalayas and in the south of the peninsula. The Bay current showed signs of strengthening, but the position of the trough of low pressure in northern India confined it almost entirely to Burma, Eastern Bengal and Assam and Bengal; it was not until the close of the week that a change in the pressure distribution permitted winds from the Bay to penetrate into the submontane districts of the United Provinces. The rainfall of the week was accordingly in defect over the greater part of the country, and was in excess only in the divisions of Assam, Eastern Bengal, Bihar, the North-West Frontier Province and Madras Southeast.

2. *Burma.*—Very little rain fell in the central districts, but elsewhere rainfall though light was fairly general. Skies were moderately to heavily clouded.

Northeast India, including Orissa.—Nearly general rain fell in Eastern Bengal and fairly general rain in Assam and Bengal. Cloud was moderate to heavy. Maximum temperature was in excess in Chota Nagpur and the surrounding districts up to the 18th, when rainfall introduced cooler weather.

The United Provinces, Central India and the Central Provinces.—Rainfall was confined almost entirely to the hills and submontane districts of the United Provinces. Skies were lightly to moderately clouded, and day temperature was in general excess.

Northwest India.—A few falls of rain occurred along the hills and at Mount Abu. Moderate to heavy cloud was present in the southern half of the division and in the west Himalayas, but in the rest of northwest India skies were generally either clear or only lightly clouded. Temperature was in defect in the North-West Frontier Province and the Punjab on the 14th and 15th, and in the former area on the 20th and 21st.

The Peninsula.—Only a few falls of rain were recorded, chiefly in southeast Madras. Skies were lightly to moderately clouded. Temperature was higher than usual in the Deccan.

3. The following are the chief rainfall amounts as reported at 8 hrs. each day:—

| | |
|------------|---|
| July 15th. | Kyaukpada 3.56", Bhamo 2.08", Narayanganj 2.79", Mymensingh 2.33" and Dehra Dun 2.29". |
| " 16th. | Rangoon 3.15", Toungoo 2.32", Myitkyina 3.95", Bahraich 2.27" and Simla 2.13". |
| " 17th. | Mymensingh 2.23", Jalpaiguri 2.78" and Simla 2.02". |
| " 18th. | Dibrugarh 3.25", Cherra Poonjee 3.99", Mymensingh 2.88" and Darjeeling 2.64". |
| " 19th. | Akyab 5.80", Myitkyina 6.35", Sibsagar 4.45", Chakrata 2.82", Simla 2.80", Salem 2.76", Ootacamund 2.77" and Masulipatam 3.35". |
| " 20th. | Purnea 1.93" and Patna 2.06". |
| " 21st. | Gauhati 2.65", Cherra Poonjee 9.62", Sambalpur 2.00" and Chakrata 2.30". |

4. The rainfall of the whole period from the 29th April to the 21st July is 20 per cent or more in excess in the North-West Frontier Province, Sind and the Madras Coast North, and in defect by the same amount in Orissa, the United Provinces, Central India East, Kashmir, Baluchistan, the Madras Deccan, Mysore and Malabar; over the rest of the country it is nearly normal.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 21ST JULY 1910. | | | RAINFALL DATA FROM 20TH APRIL 1910 TO 21ST JULY 1910. | | | SEASONAL PERCENTAGE DEPARTURE FROM NORMAL. | |
|-----------------------------------|--|--|--------------------------------------|---|-------------------------------------|--------------------------------------|---|---------------|
| | Actual rainfall in inches. | Normal rain- fall in inches. | Excess or defect in inches. | Actual rainfall of season to date in inches. | Normal rainfall in inches. | Excess or defect in inches. | This week. | Last week. |

GILBERT T. WALKER,
Director-General of Observatories.

E. D. MACLAGAN,
Secretary to the Government of India.

SIMLA;
The 21st July 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Season and Crop Prospects for the week ending Saturday,
16th July 1910.**

Burma.—The rainfall during the week was generally short. It was moderate along the littoral down to Tavoy and also in the extreme northern districts and was mostly light elsewhere. More rain is wanted in Mergui and in several dry zone districts. Ploughing and sowing for the main rice crops are in progress and transplanting of autumn rice has begun in places. Cultivation of sesamum, cotton, maize and groundnut continues in Upper Burma. Standing crops on the whole are in good condition but want of rain is being felt in parts of Upper Burma for sowing of late crops. The price of unhusked rice is practically stationary.

Eastern Bengal and Assam.—The weather was seasonable with heavy rain particularly in Sylhet, Cachar and Chittagong. Some damage to standing crops by floods is reported from Kamrup. More rain is required for tea in Lakhimpur and Jalpaiguri. Harvesting of jute is in progress and steeping has commenced in low lands. Reaping of autumn rice, transplanting of winter rice and plucking of tea continue. Prospects of autumn rice and jute are fair while those of winter rice and sugarcane are good. The average price of common rice has fallen by one per cent. Cattle disease prevails in Rajshahi, Malda, the Khasi, Jaintia and Naga Hills, Goalpara, Kamrup, Darrang, Nowgong, Sibsagar and Lakhimpur.

Bengal.—Rain fell in all districts excepting Cuttack and Singhbhum. The fall was heavy in Cooch Behar, Darjeeling, Nadia and also in Patna; moderate in parts of Birbhum, Murshidabad, Jessore, Khulna, Purnea and the Sonthal Parganas and light elsewhere. Transplantation of paddy is going on but is being retarded in some districts for want of sufficient moisture. More rain is urgently wanted in most districts of Lower Bengal and also in Gaya, Shahabad, the Sonthal Parganas, Balasore, Puri, Sambalpur, Palamau, Manbhum and Singhbhum. Standing crops are generally doing well. The jute crop is reported to be suffering from want of sufficient moisture in parts of the 24-Parganas; it has also been damaged to some extent in Cooch Behar by the excessive rainfall. The price of common rice has risen in Burdwan, Bankura, the 24-Parganas, Gaud, Shahabad, Darbhanga, Ranchi and Palamau and has fallen in Nadia, Murshidabad, Champaran, Monghyr, Angul, Manbhum and Singhbhum. Cattle disease is reported from Midnapore, Murshidabad, Jessore, Gaya, Saran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, Cuttack, Angul, Puri, Sambalpur, Hazaribagh and Ranchi. The fodder and water supply is sufficient throughout the Province.

United Provinces.—The rainfall was satisfactory in nearly all the Himalayan and Submontane districts. Elsewhere it was quite insufficient, particularly in the Agra, Allahabad and Benares divisions. More rain is now wanted in four-fifths of the Provinces and in many districts the need is urgent as crops are withering and sowings have been retarded. The damage up to date is small but anxiety prevails over large areas and the situation will become very serious if good rain is not received soon. The general condition of cattle is good though sporadic disease is reported from twenty-eight districts. Fodder and supplies are sufficient. Prices have risen in nearly half the districts of the Provinces.

Punjab.—Good to light rain has fallen in all districts except Mianwali. Tobacco is being harvested in Sialkot and the yield is good. Harvesting of extra spring crops is almost completed in Mianwali and the outturn is average. Standing crops are generally in good condition. The sugarcane crop has been damaged by insect pest and on account of want of water in parts of Lyallpur. Sowings of autumn crops continue. Prices are generally rising. The condition of cattle is generally good. Fodder is sufficient. Complaints of a short supply of canal water are still received from the Samundri tahsil of the Lyallpur district.

North-West Frontier Province.—Rain averaging a little over an inch fell in the Peshawar district. No rain fell in Bannu and Dera Ismail Khan except 11 cents in the Tank tahsil. The condition of standing crops is generally average. Autumn sowings are in progress. Hill torrents have damaged extra spring crops to a small extent in Dera Ismail Khan. The fodder and water-supply is sufficient. Water in rivers is rising. The Paharpur canal has been stopped owing to damage done by floods. The condition of cattle is good except in one village of the Nowshera tahsil, in two villages of the Charsadda tahsil and in one village of the Mardan tahsil. The public health is good. Prices of food grains are fluctuating. Prices are:—wheat 14 to 19½, maize 16 to 22½, gram 18½ to 27 and *bajra* 15 to 18 seers per rupee.

Jammu.—The rain during the week was fair. Prices are fluctuating. Wheat sells from 12 to 20 and maize from 14 to 32 seers per rupee. The condition of standing crops is fair except in Jasmirgarh. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—The weather was bright. Spring crops are in good condition. There is no disease among cattle. Fodder is sufficient. Autumn crops are in good condition. Prices are stationary.

Rajputana.—The rainfall during the week was in cents:—Hilly Tracts and Mewar 93, Banswara 92, Alwar 46, Bikaner 32, Udaipur 30, Shahpur 24 and Merwara 21. No rain or practically nothing was received elsewhere. Sowings are in progress except in Karauli and Dholpur where more rain is needed. Damage from grasshoppers is reported from one district in Mewar. Cattle disease is prevalent in parts of Mewar, Banswara, Jhalawar and the Hilly Tracts. Fodder is sufficient. Prices have risen by 1 to 2½ seers in Shahpura, Alwar, Karauli and Dholpur and slightly in Bikaner, Marwar, Bharatpur and Merwara. They have fallen by 1 seer in Jaisalmer and slightly in Mewar, Banswara, Kotah and Tonk.

Central India.—The rainfall was nil in Bundelkhand. It is urgently wanted in Bundelkhand and Bagelkhand. There was partial rain in Malwa and Bhopawar and general and sufficient rain elsewhere. Agricultural stock are good except for some disease in Indore, Bundelkhand and Bhopawar. Prices are generally steady but are rising in Bundelkhand.

Central Provinces.—During the week Balaghat received 3½ inches of rain and Damoh, Jabulpore and Akola had a sprinkling not exceeding 12 cents. The break in the rains has benefited the seedlings of autumn crops and has greatly facilitated sowing which was pushed on. More rain is required now in most districts especially in Saugar and Akola. Incessant and heavy rain in the first fortnight of the month necessitated resowing of crops in parts of Wardha, Nagpur, Chanda, Bhandara and Chhindwara. Elsewhere germination is generally good. The supply of fodder and water is adequate. Cattle are doing well. Prices:—the price of wheat and rice remained stationary in eighteen districts, *four* in twenty-one and gram throughout the Provinces. *Four* fell by 3½ seers per rupee in Chhindwara. There were no marked variations elsewhere.

Feudatory States.—Jashpur had heavy rain amounting to 5½ inches during the week. Light to moderate showers ranging from 23 cents to 3 inches were also received in Kawardha, Khairagarh, Nandgaon, Kanker, Sarangarh, Sakti, Sirguja and Korea. More rain is needed in Khairagarh, Raigarh, Sarangarh and Sakti. Sowing of autumn crops is in full swing and germination is reported to be satisfactory. Fodder and water are sufficient. Prices:—rice became cheaper by two seers per rupee in Sarangarh.

Bombay.—The rain during the week was good in Kanara, Kathiawar, Savantvadi and Kolhapur; moderate in Ratnagiri, Nasik, Bijapur and Mahi Kantha and slight in other districts except Larkana and Hyderabad. The rainfall was beneficial for cultivation of autumn crops but more rain is needed in parts of Surat, the Konkan, the Deccan, Belgaum, Savantvadi and Kolhapur. Sowing of autumn crops generally continues but has been retarded in parts of Sholapur and Belgaum for want of rain and

in Karachi owing to floods. Transplantation is progressing in parts of Sind, Ahmedabad, Kaira, Broach, Kanara, Satara, Belgaum and Savantvadi but has been retarded in parts of Surat, Thana, Colaba, Ratnagiri, Nasik and Poona for want of sufficient rain and in Karachi owing to floods. Seedlings are withering in parts of Thana, Ratnagiri, Poona and Savantvadi. Sowing of cotton is in progress in parts of Ahmedabad, Broach, Surat, East Khandesh and Baroda. The fodder supply is adequate except in parts of Sukkur and Hyderabad. Agricultural stock are sufficient except in parts of Ahmednagar, Poona, Sholapur and Satara and are generally in good condition. Drinking water is generally sufficient except in parts of Dharwar. Irrigation water is adequate except in parts of Poona and Dharwar. Grain stocks are sufficient. Prices have risen in Sukkur, Colaba, East Khandesh and Belgaum and are stationary elsewhere. The quantity purchasable per rupee is in Sind 27 to 41 per cent; in Gujarat 7 to 26 per cent; in the Konkan 2 to 30 per cent; in the Deccan 10 to 30 per cent and in the Karnatak 28 to 37 per cent less than the normal.

Hyderabad.—The average rainfall during the week was 58 cents. Rain was general in the districts of Nander, Gulbarga, Raichur, Nalgonda and Warangal, averaging from 61 cents in Nander to 1 inch 29 cents in Raichur. More rain is needed in all districts. Prospects of early crops depend much on the weather of the next ten or twelve days. The heaviest falls occurred in Warangal, Raichur, Gulbarga, Adilabad and Nalgonda. Weeding of autumn crops has begun in parts and autumn sprouts are generally very fair but have been damaged by insects in parts of Gulbarga, Medak, Nalgonda and Warangal. Early rice sowings are proceeding in many parts of Telingana. Water scarcity is reported in three talukas and cattle disease in eight. Fodder scarcity prevails in seven talukas. Prices:—wheat and coarse rice 6½ and *juar* 12½ seers per rupee. White *juar* is selling in Hyderabad City at 11 and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Karimnagar and the lowest 22 seers in Bidar.

Mysore.—The rainfall was good in Bangalore and Kolar and slight elsewhere. Prices of food grains have risen slightly in Bangalore, Tumkur and Chitaldrug. Standing crops are in good condition. More rain is needed in parts of Tumkur, Mysore, Hassan, Kadur and Chitaldrug. Prospects of the season are generally good. Cattle are healthy. Water and fodder are available.

Coorg.—Rainfall, 37 cents. Ploughing for and transplanting of rice continue. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was good in the Vizagapatam Agency, South Canara, North Arcot, Ramnad, Ganjam, Bellary, South Arcot, Salem, Kurnool, Coimbatore and the Nilgiris and light to fair elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Tanjore, Malabar and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Guntur and Bellary require more rain and some in parts of South Canara are withering. Harvests continue in parts with outturn poor to normal. Pasture is insufficient in parts of Guntur, the Deccan, the Carnatic, North Arcot, Coimbatore, Ramnad and Tinnevely. Fodder is scanty in parts of Godavari, Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in thirteen districts; has fallen in five and has risen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts; has fallen in one and has risen in ten. *Cholam* is stationary in six districts; has fallen in three and has risen in six. *Cumbu* is stationary in seven districts; has fallen in two and has risen in seven. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

Nos. 750-763-E.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

ESTABLISHMENTS.

Simla, the 14th July 1910.

RESOLUTION.

Under the rules laid down in paragraph 185 *et seq.* of the Public Works Department Code, Volume I, soldiers are eligible for appointment in the Public Works and Railway Departments from two sources, *viz.*:

- (i) by direct appointment from the Army under paragraphs 185 to 187 and 195.
- (ii) after a theoretical course at a civil engineering college under paragraph 201.

In the matter of emoluments they are entitled to the staff salaries of their grades in addition to the pay and allowances of their military rank (Public Works Department Code, Volume I, paragraph 14 and notes).

2. It has been observed that in recent years very few military subordinates have entered the Public Works Department, and there would moreover not appear to be any justification for the extra expense entailed by their employment on account of the value of their military training to the Department. For these reasons, the Government of India have had under consideration, for some time past, the question whether the employment of soldiers in the Public Works and Railway Departments as Upper Subordinates should be continued. Before however arriving at a final decision they considered it desirable to obtain the views of local Governments and Administrations on the subject.

3. The general consensus of opinion is in favour of the discontinuance of the employment of soldiers; and the Government of India while averse to closing an avenue of employment to soldiers of the British Army in India, see no reason to continue a higher scale of emoluments to military subordinates than that admissible to civil subordinates. They are accordingly pleased to decide that soldiers entering the Public Works and Railway Departments after the date of this order, either through the civil engineering colleges, or direct from the Army, under the Public Works Department code rules quoted above, shall in future draw the civil pay of the grades to which they may be appointed, appointment through the colleges being as at present to the first grade of overseer. Soldiers, who are at present undergoing a theoretical course in a civil engineering college, will, in the event of their passing the final examination, be permitted to enter the Public Works and Railway Departments under the rules in force at the time they joined the college.

ORDER.—Ordered that this resolution be forwarded to the local Govern-

To the Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma, and Eastern Bengal and Assam, Public Works Department.

The Honourable the Chief Commissioner of the Central Provinces.

The Honourable the Resident at Hyderabad.

The Honourable the Agents to the Governor General for Central India and Rajputana.

The Honourable the Agents to the Governor General and Chief Commissioner, North-West Frontier Province.

ments and Administrations, noted in the margin, for information and guidance, and that it be published in the Supplement to the Gazette of India for information.

Ordered also that this resolution be communicated to the Army and Railway Departments of the Government of India.

L. M. JACOB,

Secretary to the Government of India.

Statement of Approximate Gross Earnings of Indian
Railways.

GOVERNMENT OF INDIA.
RAILWAY DEPARTMENT.
(RAILWAY BOARD.)

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

N.B.—As regards the figures in column *Total earnings*, audited figures have been used as far as possible.

| RAILWAYS. | AVERAGE EARN- ING PER MILE PER WEEK. | | RESULTS OF WORKING DURING 2ND HALF OF YEAR. | | | | RESULTS OF WORKING FOR OFFICIAL YEAR. | | | | | | | |

(a) Opened from 6th July 1910.

(b) From and May 1907.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

Since the 1st July 1910.

Printed and Published for the Government of India at the Government Central Printing Office, Simla.

SUPPLEMENT TO
The Gazette of India

No. 34.

CALCUTTA, SATURDAY, JULY 30, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such *Official Papers* and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

(a) Figure for the week ending 22nd July 1910.

A. EARLE,
Offg. Secretary to the Government of India.

NOS. 1050—1051.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

JUDICIAL.

Simla, the 25th July 1910.

RESOLUTION.

In exercise of the powers conferred by section 2 of the East Indian Contracts Act, 1870 (33 and 34 Vict., Cap. 59), and of all other powers enabling him in this behalf, the Governor General in Council is pleased to direct that in clause E—I, II, III, IV, VI, VII, VIII, and XV of the Resolution of the Government of India in the Home Department, no. 3-Judicial 485-501, dated the 28th March 1895, as amended by the like resolution no. 1038-1039, dated the 23rd July 1909, relating to the execution of deeds, contracts and other instruments on behalf of His Majesty's Secretary of State for India in Council, the words 'Deputy and Assistant Managers' be inserted after the word 'Managers.'

ORDER.—Ordered that the above resolution be communicated to the Railway Department (Railway Board) for information with reference to its office memorandum no. 1254-R.E., dated the 25th April 1910, and that it be published in the Supplement to the *Gazette of India*.

A. EARLE,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 28th July 1910, based on the Indian Daily Weather Reports of the period.

1. The week's rainfall has been dominated by an area of low pressure in the southwest of the Bay, a position extremely unusual until later in the season; and the activity of the Bombay monsoon has been largely diverted from the central parts of the country into the south of the peninsula. In northern India its rainfall has occurred chiefly in the sub-montane districts and in the western portion of northeast India. The Bay current has gained strength, especially in Eastern Bengal and Assam, and the week's rain at Cherrapunji amounted to 79·74", of which 30·25" fell in one day.

2. The rainfall of the week was above the average in the divisions of Upper Burma, Assam, Eastern Bengal, Bengal, Bihar, United Provinces East, Mysore, Malabar, Madras Southeast, Madras Deccan and Madras Coast North; and approximately normal in Chota Nagpur, Orissa, United Provinces West, Berar and Hyderabad.

3. *Burma*.—Rainfall occurred in all parts of the province, but the amounts recorded were generally small. Cloud was moderate to heavy; and during the greater part of the week maximum temperature was in defect in Upper Burma.

Northeast India, including Orissa.—Rainfall on most days was nearly 'general' over the whole division, and was unusually heavy in the Khasi hills. Skies were densely clouded. Maximum temperature was in defect in Eastern Bengal and Assam.

The United Provinces, Central India and the Central Provinces.—Rain was reported from all observatories, but occurred chiefly in the submontane districts of the United Provinces. Skies were moderately to heavily clouded. Maximum temperature was locally in defect in the areas of rainfall.

Northwest India.—Rain fell locally in the submontane Punjab and a few falls occurred in Gujarat and Rajputana. Skies were moderately to heavily clouded along the Himalayas and in the southern half of the division. Maximum temperature was in defect in the North-West Frontier Province on the first three days of the week.

The Peninsula.—Rainfall occurred chiefly in the south, and was heavy on the 28th on the east Madras coast. Skies were moderately to heavily clouded. Day temperature was generally in excess in the Deccan and in defect in southeast Madras.

4. The following are the chief rainfall amounts as reported at 8 hrs. each day:—

July 22nd. Bharno 2·77", Saugor Island 5·85", Burdwan 2·21", Berhampore 2·07" and Patna 5·19".

" 23rd. Bharno 3·07", Cherrapunji 3·54", Dinajpur 2·80", Dehra Dun 3·01", Bangalore 3·96", Trivandrum 5·97" and Tinnevely 3·33".

" 24th. Dibrugarh 4·03", Cherrapunji 14·50", Mymensingh 3·22", Allahabad 2·23", Cawnpore 2·71", Agra 2·08", Chitaldrug 4·52" and Cochin 8·42".

" 25th. Cherrapunji 30·25", Shillong 5·50", Dhubri 4·60", Mymensingh 3·31", Jalpaiguri 3·34", Gorakhpur 2·42" and Salem 3·20".

" 26th. Akyab 6·58", Lashio 3·02", Dhubri 2·43", Silchar 2·23", Shillong 4·50", Cherrapunji 18·65", Burdwan 3·66", Berhampore 2·05" and Cuddapah 3·34".

" 27th. Silchar 2·77", Cherrapunji 6·70", Chittagong 2·24", Mymensingh 2·11", Jalpaiguri 3·00", Darjiling 5·51", Balasore 2·56", Ranchi 2·26", Dehra Dun 2·40", Muktesar 3·04", Jagdalpur 2·46", Simla 2·05" and Nizamabad 2·14".

" 28th. Saugor Island 3·36", Darjiling 3·71", Lucknow 2·85", Dehra Dun 5·42", Chakrata 2·27", Simla 2·58", Waltair 2·29", Nellore 3·02", Madras 4·58" and Negapatam 3·52".

5. The rainfall of the whole period from 27th April to 28th July differs from the normal by less than 20 per cent over by far the greater part of the country; it is 20 per cent or more in excess in Eastern Bengal, the North-West Frontier Province, Sind, Mysore, Madras Southeast and Madras Coast North; and in defect by the same amount in the Bay Islands, Orissa, United Provinces West, Punjab Southwest, Kashmir, Baluchistan, Rajputana West and Central India East.

GILBERT T. WALKER,
Director-General of Observatories.
E. D. MACLAGAN,
Secretary to the Government of India.

Sruti;
The 28th July 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
23rd July 1910.

Burma.—The rainfall was heavy in Akyab, Amherst and the northernmost districts and generally light to moderate elsewhere. More rain is wanted in Prome, practically in the whole of the Irrawaddy division, the southern half of the Tenasserim division and in most of the dry zone districts. Ploughing and sowing for the main rice crops are in progress and transplanting continues in parts. Cultivation of sesamum, cotton, maize and groundnut is progressing in Upper Burma. Agricultural operations have been retarded for want of rain in several districts and young plants are withering in Tavoy, Mergui, parts of Myingyan and in the Kanbalu subdivision of the Shwebo district. Standing crops are poor also in Bassein, Thayetmyo, Minbu and the northern part of Meiktila. In the Ruby Mines slight damage has been done to crops in the riverain area of the Tagaung township owing to the rise of the Irrawaddy. In the Manglun State of the Northern Shan States only three-fourths of the normal cultivation has been undertaken owing to insufficiency of seed grain. The price of unhusked rice has risen considerably in Thayetmyo, Maubin and Pakokku and has fallen considerably in Tavoy. Slight variations are reported from other districts.

Eastern Bengal and Assam.—The weather was rainy. Heavy rain fell almost throughout the Province except in parts of Dacca, Faridpur and Darrang where the fall has been moderate. Some damage to standing crops by high floods has been reported from several districts. More sun is required for tea. Harvesting of jute is in progress and steeping and washing have commenced. Prospects have been affected by floods. Reaping of autumn rice and transplantation of winter rice continue. Their condition is not good owing to the sudden rise of water. Prospects of tea are unfavourable on account of excessive rain. The average price of common rice has risen by about one per cent. Cattle disease prevails in Mymensingh, Noakhali, the Jaintia and Naga Hills, Goalpara, Darrang, Sibsagar and Lakhimpur.

Bengal.—The rainfall was general all over the Province. The fall was heavy in Behar except in Gaya and Bhagalpur and also in Birbhum, Howrah, the 24-Parganas, Darjeeling and Cooch Behar; light in Cuttack, Balasore, Hazaribagh, Singhbhum and Gaya and generally moderate elsewhere. More rain is wanted in most districts of the Burdwan division and also in the 24-Parganas, Gaya, Shahabad, Darbhanga, Balasore, Angul, Sambalpur, Palamanu and Singhbhum for transplantation of paddy and the work is being retarded for want of sufficient moisture in Bankura, Midnapore, Hooghly, Balasore and Singhbhum. Some damage has been done to standing crops by excessive rain and floods in Champaran, Muzaffarpur and Darbhanga and to jute by insect pest in Nadia. The price of rice has risen in Birbhum, Midnapore, Hooghly, Jessore, Gaya, Saran, Monghyr, Darjeeling, Balasore and Singhbhum and has fallen in Bankura. Cattle disease is reported from Midnapore, the 24-Parganas, Murshidabad, Jessore, Patna, Gaya, Saran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Hazaribagh, Manbhum and from all the districts of Orissa except Balasore. The fodder and water supply is sufficient throughout the Province.

United Provinces.—Good rain fell during the week in the Himalayas, central and eastern submontane districts and in parts of Southern Oudh and the south-eastern districts. Elsewhere it was very inadequate, particularly in the Meerut and Rohilkhand divisions in each of which four districts report urgent need of rain. Altogether thirty districts require more rain, the need being urgent in twelve cases. The rainfall of the past week was sufficient to prevent serious damage up to date. Fodder and supplies are sufficient. Agricultural stock are in good condition though sporadic disease exists in twenty-eight districts. The rise in prices throughout nearly three-quarters of the Provinces shows general anxiety.

Punjab.—Rain was received in all districts during the week except Multan. It was light in the Delhi division and light to moderate elsewhere. More rain is wanted in Hissar, Rohtak and Gurgaon. Sowings of autumn crops are in progress; they have been completed in the Rawalpindi and Mianwali districts. Standing crops are generally in good condition. Western winds have dried up the moisture in Gurgaon. Prices are

rising rapidly. The condition of cattle is generally good. Fodder is sufficient. Complaints of short supply of canal water are still being received from the Samundri tahsil of the Lyallpur district.

North-West Frontier Province.—Good rain averaging over 1 inch fell in the Peshawar district and showers in the Bannu and Dera Ismail Khan districts. The rain was beneficial to standing crops and to autumn sowings which are in progress. The condition of standing crops is average. The fodder and water-supply is sufficient. Water in rivers is rising. The Paharpur canal has been stopped. The condition of cattle is good except in one village of the Nowshera tahsil and in two villages of the Mardan tahsil. The public health is good. Prices of food grains are fluctuating. Prices are—wheat 13 to 17½, maize 15 to 23½, gram 17½ to 27 and *bajra* 14 to 17½ seers per rupee.

Jammu.—The rainfall during the week was fair. Prices are stationary. Wheat sells from 12 to 20 and maize from 14 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—The weather was bright. Slight rain fell twice during the week and was beneficial to autumn crops. There is no disease among cattle. Fodder is sufficient. Autumn crops are in good condition. Prices are stationary.

Rajputana.—The rainfall during the week was in cents:—Bikaner (two districts) 53 and 75 and slight at head-quarters, Mewar and the Hilly Tracts 25, Banswara 81, Tonk 88, Bundi 27, Kotah (three districts) 48 to 177 and Karauli 49. Slight showers are reported from Mewar, Partabgarh, Jhalawar, Jaipur, Alwar, Bharatpur, Dholpur and Ajmer. More rain is needed for sowings in Alwar, Karauli, Bharatpur, Dholpur and Ajmer-Merwara. Crops are suffering in Alwar, Karauli and Dholpur. Cattle disease is prevalent in the Hilly Tracts, Banswara and Jhalawar. Fodder is sufficient. Prices have risen from ½ to 2½ seers in Mewar, Kotah, Jaipur, Alwar, Bharatpur, Dholpur and Ajmer-Merwara. They have fallen by 3 seers in Banswara.

Central India.—The rainfall was nil in Gwalior and Bundelkhand and partial elsewhere. More rain is needed except in Malwa. Agricultural stock are good except for some disease in Indore, Bundelkhand and Bhopawar. Prices are normal in Bhopal and Bhopawar, are rising in Gwalior, Baghelkhand, Bundelkhand and Malwa and are fluctuating in Indore.

Central Provinces.—Light to good rain was received during the week throughout the Provinces. Damoh, Jubbulpore, Mandla, Seoni, Chanda, Wardha and Bilaspur had 2 to 5 inches. Elsewhere the quantity registered did not exceed 1½ inches. Balaghat received only 15 cents. The rainfall was most opportune after a good break and benefited the crops greatly. More rain is however needed in rice districts to carry on transplantation and thinning operations successfully and a good shower or two would also be welcome in Jubbulpore, Betul, Nimar, Buldana, Yeotmal and the Vindhyan districts. Sowing of autumn crops still continues in several districts and weeding is in progress in ten districts. Preparation of lands for sowing of spring crops has begun in Saugor, Jubbulpore, Narsinghpur, Nimar and Buldana. Germination is generally satisfactory except in some parts of the Sohagpur tahsil of the Hoshangabad district where it is somewhat defective owing to the recent continued break in the rains. In parts of the Betul and Bhainsdehi tahsils of the Betul district crops were damaged slightly by insect pests or for want of rain. Fodder and water are sufficient everywhere. Agricultural stock are in good condition. Prices:—the price of wheat remained stationary in thirteen districts, gram in fourteen and rice and *juar* in sixteen districts. *Juar* rose in Saugor and fell in Yeotmal by 2 seers per rupee. Elsewhere prices of staple food grains fluctuated slightly indicating a tendency to rise.

Feudatory States.—During the week Kawardha, Chhuikhadan, Khairagarh, Nandgaon, Kanker, Raigarh, Sarangarh, Sakti, Sirguja, Jashpur and Korea had light to moderate rain ranging from 40 cents in Jashpur to 4 inches in Sarangarh. Sowing of autumn crops is in progress. More rain is wanted to push on transplantation and thinning of rice in Nandgaon, Raigarh, Sarangarh and Sakti. Germination is generally good. The supply of fodder and water is adequate. Prices:—rice in Sakti and Jashpur became dearer by 2 seers per rupee. Elsewhere they were steady or fluctuated slightly.

Bombay.—Good rain fell during the week in Dharwar; moderate in Ahmedabad, Kaira, Colaba, West Khandesh, Nasik, Kathiawar, Mahi Kantha and Kolhapur and slight in other districts and the Native States except Sind. More rain is urgently needed in parts of Thar and Parkar, Ahmedabad, Surat, the Konkan, the Deccan, Belgaum, Palanpur, Savantvadi and Kolhapur. Autumn sowings generally continue but are retarded in parts of Kanara, Khandesh, Ahmednagar, Sholapur, Satara and Belgaum for want of rain and in Karachi owing to floods. Transplantation is progressing in parts of Sind, Ahmedabad, Kaira and Broach but has been retarded in parts of Surat, the Konkan, Nasik, Poona, Satara, Belgaum and Savantvadi for want of sufficient rain and in Karachi owing to floods. Seedlings are withering in parts of Thana, Ratnagiri, Kanara, Poona, Savantvadi and Kolhapur. Cotton sowing is progressing in parts of Ahmedabad, Broach, Surat, West Khandesh, Baroda and Cutch. The fodder-supply is generally adequate. Agricultural stock are sufficient except in parts of Ahmednagar, Poona, Sholapur and Satara and are generally in good condition. Drinking water is generally sufficient. Irrigation water is adequate except in parts of Poona and Belgaum. Grain stocks are sufficient. Prices have risen in Karachi, the Upper Sind Frontier, Thana, Colaba, Ratnagiri, West Khandesh and Satara; have fallen in East Khandesh, Bijapur and Belgaum and are stationary elsewhere. The quantity purchasable per rupee is in Sind 32 to 42 per cent; in Gujarat 7 to 26 per cent; in the Konkan 13 to 33 per cent; in the Deccan 11 to 32 per cent and in the Karnatak 26 to 37 per cent less than the normal.

Hyderabad.—The average rainfall during the week was 51 cents. Good rain fell in two districts, fair to light in six and scanty elsewhere. The heaviest falls occurred in parts of the Parbhani, Bidar, Nander and Usmanabad districts. More rain is urgently needed in Raichur, Gulbarga and many parts of Telingana. Aurangabad also needs more rain. Autumn sowings have been suspended for want of rain in parts of Warangal and Karimnagar. Weeding of crops has begun in places. Autumn sprouts have been damaged by insects in places, especially in many parts of Telingana. Lands are being prepared for spring crops. Water scarcity is reported in three talukas and cattle disease in eleven. Fodder scarcity prevails in five talukas. Prices:—wheat and coarse rice 6½ and *juar* 12½ seers per rupee. White *juar* is selling in Hyderabad City at 11 and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Medak and Karimnagar and the lowest 24 seers in Bidar.

Mysore.—The rainfall was good in Bangalore, Kolar and Tumkur and slight elsewhere. Prices of food grains are generally steady. Standing crops are in good condition. More rain is needed in parts of Mysore, Hassan, Kadur and Shimoga. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 2 inches 93 cents. Ploughing for and transplanting of rice continue. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was heavy in the Nilgiris; light to fair in Bellary, Madras, Vizagapatam, Chingleput and Ramnad and good elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Coimbatore, Tanjore and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair, but some in parts of Guntur, Bellary and South Canara require more rain. Harvests continue in parts with outturn poor to normal. Pasture is insufficient in parts of Guntur, the Deccan, the Carnatic, North Arcot, Ramnad and Tinnevely. Fodder is scanty in parts of Godavari, Guntur and Nellore. The condition of cattle is generally good. The price of rice is stationary in sixteen districts; has fallen in one and has risen in seven. The prices of millets have fluctuated as follows:—*Ragi* is stationary in nine districts; has fallen in two and has risen in eleven. *Cholam* is stationary in eight districts; has fallen in two and has risen in five. *Cumbu* is stationary in nine districts; has fallen in three and has risen in four. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

SUPPLEMENT TO
The Gazette of India

No. 323

CALCUTTA, SATURDAY, AUGUST 6, 1910

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.
FINANCE DEPARTMENT.

REPORT UPON THE OPERATIONS OF THE PAPER CURRENCY DEPARTMENT
DURING THE YEAR 1909-10.

No. 126, dated Calcutta, the 30th June 1910.

From—O. T. BARROW, Esq., Head Commissioner of Paper Currency, Calcutta,
To—The Secretary to the Government of India, Finance Department, Simla.

SIR,

I have the honour to submit a report upon the operations of the Paper Currency Department during the year 1909-10.

2. The most interesting feature of the year has been the passing of the new Currency Act II of 1910, by which currency notes of the rupees ten and rupees fifty denominations have been made universal; the sub-circles of Cawnpore, Lahore, Karachi and Calicut have been abolished, and the first three of these constituted separate circles of issue, while at the same time the issue of twenty-rupee notes has been discontinued although those now in circulation will continue to be received and treated in the same way as universal notes. The Act became law only on the 18th February 1910 and the full effect of the universalisation of ten and fifty rupee notes cannot as yet be gauged, but it may be noted that with a view to minimise any tendency to make use of the new universal notes for remittance purposes, it was decided concurrently with the passing of the new Act to offer facilities to Bankers and Merchants to make trade remittances between the currency centres by means of telegraphic orders granted by Government at a reduced rate of premium. At the same time the receipt of notes of the higher denominations in circles other than the circle of issue, in payment of Government dues and in payments to Railways, Post and Telegraph offices, a system which had been found to be the subject of various abuses and the cause of inconvenience to Government interests, was stopped by executive orders. It is as yet too early to say whether the measures taken to facilitate remittances through Government will be sufficient to deter the public from largely utilising the universal notes for that purpose.

General remarks
on features of the
year.

3. The loss of the Government stock of gold which was noticed in last year's report was entirely recovered during the year under review, owing to a reversal of trade conditions and a return to a more normal condition of affairs. Thus the Currency Department held in India on the 1st April 1909 only a trifling sum of about £20,000, while at the close of the year the stock had risen to over £6 millions while the silver stock held against notes which at one time had risen as high as 37 crores of rupees had been reduced at the close of the year to 29 crores, although the actual circulation of notes was higher at the latter date than at the former.

The gross, the net and the active circulation.

4. Statement No. I in the Appendix gives a general view of the circulation of Currency notes: It shows what it has been usual to call the *gross*, the *net*, and the *active* circulation on the last day of each month of the last three years, and also the average of each year. By *gross* circulation is meant the value of all notes that have been issued and not yet paid off: the *net* circulation is this sum less the value of notes held by Government in its treasuries: and the *active* circulation is the *net* reduced by the value of notes held by the Presidency Banks at their head offices, which is subject to large variations dependent upon the condition of trade.

5. It is satisfactory to note that the circulation of notes of low denominations which are used as money still continues to thrive. The five-rupee note in particular is growing in public favour. The net result is an increase in the average gross circulation from 44.52 lakhs to 49.66 lakhs and in the average active circulation from 33.10 lakhs to 37.21 lakhs.

The gross circulation distributed among the Currency Circles.

6. The following statement shows the distribution among the various Circles in thousands of Rupees of the gross circulation:—

| LAST DAY OF | Calcutta. | Cawnpore. | Lahore. | Bombay. | Karachi. | Madras. | Calcutt. | Rangoon. | TOTAL. |
|---------------------------------|-----------|-----------|---------|----------|----------|------------|----------|----------|----------|
| April 1909 | 17,67.63 | 2,38.35 | 2,39.27 | 10,06.38 | 2,17.31 | 5,24.23 | ... | 2,81.48 | 43,64.99 |
| May " | 21,33.49 | 2,06.43 | 3,02.50 | 10,02.81 | 1,94.67 | 5,26.09 | ... | 2,50.66 | 46,77.22 |
| June " | 22,48.02 | 2,29.50 | 3,30.65 | 11,34.44 | 1,64.61 | 5,03.99 | ... | 2,52.21 | 49,29.46 |
| July " | 22,14.61 | 2,38.08 | 3,28.71 | 13,24.81 | 1,49.09 | 5,05.03 | ... | 2,72.61 | 51,53.46 |
| August " | 21,32.36 | 2,62.51 | 3,47.35 | 14,58.79 | 1,53.36 | 5,34.78 | ... | 2,84.28 | 51,73.54 |
| September " | 18,98.44 | 2,86.94 | 3,51.54 | 15,41.38 | 1,83.87 | 5,17.52 | ... | 3,02.51 | 50,82.20 |
| October " | 18,57.33 | 2,70.93 | 3,48.87 | 15,28.36 | 2,00.64 | 5,25.08 | ... | 3,08.67 | 50,49.85 |
| November " | 18,50.41 | 2,42.89 | 3,12.87 | 11,99.56 | 1,77.51 | 5,33.08 | ... | 3,00.71 | 46,53.03 |

| January 1910 | 18,95.43 | 2,46.79 | 3,73.18 | 16,06.96 | 1,39.45 | 5,64.54 | ... | 2,98.12 | 51,84.47 |
| February " | 20,04.56 | 2,47.29 | 3,83.24 | 13,07.56 | 1,43.30 | 5,68.42 | ... | 4,02.46 | 50,56.83 |
| March " | 23,11.40 | 2,24.75 | 3,84.79 | 14,01.38 | 1,54.20 | 6,05.69 | ... | 3,88.62 | 54,49.84 |
| Average for last twelve figures | 20,22.68 | 2,44.28 | 3,48.93 | 13,33.65 | 1,69.08 | 5,49.50(a) | ... | 2,97.35 | 49,66.91 |
| Average for 1908-09 | 17,51.67 | 2,71.65 | 3,16.37 | 10,30.85 | 1,83.29 | 5,54.51 | 20.52 | 3,22.72 | 44,51.58 |
| " for 1907-08 | 20,48.02 | 2,32.14 | 2,87.28 | 12,15.72 | 1,10.06 | 5,38.56 | 18.72 | 2,80.21 | 47,33.31 |

(a) Includes notes of Cisticut Sub-circle which was a separate circle up to 18th February 1910.

Calcutta and Bombay have contributed most largely towards the increase in the circulation. With the exception of the Rs20 denomination, which shows a decrease in both the circles, the increase in all denominations is pronounced. This is no doubt due to the returning prosperity after a year of depression in trade.

7. The details of the gross circulation as on 31st March 1910 for each denomination and in each Circle are as follows:—

| | NUMBER OF NOTES FOR RUPEES. | | | | | | | | TOTAL. | |
|---------------------------|-----------------------------|------------|---------|---------|-----------|--------|--------|--------|------------|--------------|
| | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | Pieces. | Value. |
| Calcutta | 228,540 | 6,980,939 | 43,510 | 50,694 | 466,519 | 24,901 | 33,154 | 6,453 | 7,834,610 | 23,11,39,890 |
| Cawnpore | 67,404 | 211,250 | 21,583 | 22,550 | 68,497 | 7,596 | 5,298 | 252 | 404,496 | 2,24,74,740 |
| Lahore | 288,241 | 521,147 | 82,836 | 39,035 | 113,513 | 12,582 | 5,047 | 553 | 1,063,948 | 3,84,79,395 |

| Karachi | 21,295 | 284,501 | 26,039 | 12,179 | 23,110 | 2,245 | 1,434 | 457 | 372,360 | 1,54,19,715 |
| Madras | 480,085 | 482,938 | 46,796 | 43,140 | 346,736 | 3,780 | 2,400 | 1,127 | 1,507,911 | 6,05,69,895 |
| Rangoon | 41,012 | 1,040,381 | 14,689 | 5,020 | 210,097 | 152 | 1,384 | 204 | 1,314,929 | 3,58,62,850 |
| TOTAL | 2,269,962 | 11,898,008 | 420,948 | 342,314 | 1,436,406 | 62,021 | 88,350 | 12,821 | 16,230,990 | 54,40,84,250 |
| Percentage of Increase | +21.4 | +18.1 | -16.9 | +22.6 | +15.3 | +2.9 | +19.7 | +359.4 | ... | ... |
| Total for 31st March 1909 | 1,860,545 | 9,820,544 | 506,307 | 280,814 | 1,245,600 | 60,263 | 74,117 | 9,435 | 13,866,687 | 43,45,79,505 |
| Percentage of Increase | +17.0 | +2.4 | +3.8 | +4.1 | +3.3 | -5.0 | +2.7 | -20.1 | ... | ... |
| Total for 31st March 1908 | 1,597,355 | 9,141,173 | 487,502 | 262,668 | 1,211,364 | 63,484 | 72,130 | 11,821 | 12,834,407 | 40,68,50,345 |

Details of gross circulation according to denomination of notes for each Circle.

8. Dividing the gross circulation between notes of Rs500 and upwards and notes below Rs500, the values at the end of each of the last three years are shown below in thousands of rupees:—

| | Notes of Rs100 and under. | Percentage of total. | Notes of Rs500 and upwards. | Percentage of total. | Total. |
|---------|---------------------------|----------------------|-----------------------------|----------------------|--------------|
| | Value. R. | | Value. R. | | Value. R. |
| 1907-08 | 24,67,68 | 53 | 22,20,82 | 47 | 46,88,50 |
| 1908-09 | 25,62,80 | 56 | 19,85,99 | 44 | 45,48,79 |
| 1909-10 | 29,65,14 | 54 | 24,75,70 | 46 | 54,40,84 |

The increase in the percentage of notes of the lower denominations has not been maintained, owing not to any falling off in their circulation but to the operations of the Reserve Treasury, the balance of which is almost entirely held in notes of Rs10,000 denomination.

9. The varying proportions in which notes of each denomination have circulated in the various Circles during the last two years are shown below:—

| Denomination of Notes. | CALCUTTA. | | CAWNPORE. | | LAHORE. | | BOMBAY. | | KARACHI. | | MADRAS. | | RANGOON. | | TOTAL OF ALL CIRCLES. | |

10. The variations in the percentages of the two years are very small, except

| | 1909-10. | 1908-09. | 1907-08. | 1906-07. |
|-----------|----------|----------|----------|----------|
| Calcutta | 21 | 21 | 21 | 22 |
| Cawnpore | 49 | 57 | 72 | 58 |
| Lahore | 32 | 33 | 42 | 45 |
| Bombay | 26 | 25 | 25 | 28 |
| Karachi | 29 | 32 | 28 | 31 |
| Madrass | 35 | 40 | 44 | 48 |
| Calicut | ... | 11 | 12 | 13 |
| Rangoon | 26 | 30 | 37 | 44 |
| All India | 26 | 26 | 27 | 27 |

in the case of the five-rupee notes in Karachi and Madras and 10-rupee notes in Cawnpore, Lahore and Burma the use of which is growing rapidly. As usual each Circle shows the same preference for particular denominations of notes. It will be interesting to see what effect the extension of universal

lization to the ten and fifty-rupee notes has upon these figures next year. The average value during the last four years of the notes in circulation in each Circle on the last day of the year is given in the margin, notes of Rs10,000 being excluded as their high value and irregular use only tend to mislead.

Except in Bombay, where there has been a slight increase, and Calcutta, where the figure is the same as the previous year, there have been decreases in the average value of the notes in circulation in all other Circles. But there has been no change in the average value for all India.

The active circulation according to Circles.

11. The *active* circulation is shown in Statement No. I of the Appendix, but it is not possible to bring out by this method the active circulation of *each* Circle during the year because both Treasuries and Presidency Banks have hitherto held notes issued in circles other than their own. The Reserve Treasuries, however, held practically the whole of their balances in home-circle notes, and in the following table the *gross* circulation is accordingly reduced by the note balances of the Reserve Treasuries and is compared with the corresponding figures of the two previous years, in lakhs of rupees :—

| LAST DAY OF | CALCUTTA. | | | BOMBAY. | | | MADRAS. | | | OTHER CIRCLES. | | | TOTAL. | |
|-------------|-----------|----------|----------|----------|----------|----------|----------|----------|----------|----------------|----------|----------|----------|----------|

| March | 16.84 | 16.09 | 18.64 | 8.02 | 9.66 | 13.77 | 4.99 | 4.71 | 5.47 | 10.20 | 10.67 | 11.22 | 40.95 | 41.18 |
| AVERAGE | 17.67 | 15.35 | 18.28 | 10.61 | 9.38 | 12.92 | 4.93 | 4.88 | 5.22 | 9.29 | 11.15 | 10.60 | 42.50 | 47.03 |

There was a large increase in the three principal circles (Calcutta, Bombay and Madras) but other circles show a falling off.

Circulation of universal notes.

12. The table in paragraph 7 shows that there has again been an increase in the circulation of the universal five-rupee note. The circulation of these notes on 31st March 1910 was about 21 per cent. and about 41 per cent. more than what it was on 31st March 1909 and 31st March 1908, respectively. As these small-value notes are not held in any large quantities in the balance of treasuries or Presidency Banks, the increase represents practically an expansion of their *active* circulation among the public. The growing popularity of these universal five-rupee notes is also apparent from a comparison of the average *gross* circulation of five-rupee notes of the several circles excepting Rangoon during the past five years. The figures are given in the margin in lakhs of rupees. The universal five-rupee note was extended to Burma by Act II of 1909 and the

Notes of Circles other than Rangoon.

| | |
|---------|-------|
| 1905-06 | 57.9 |
| 1906-07 | 68.3 |
| 1907-08 | 76.6 |
| 1908-09 | 83.6 |
| 1909-10 | 101.8 |

Rangoon Circles.

| | |
|---------|----|
| 1906-07 | 6 |
| 1907-08 | 6 |
| 1908-09 | 8 |
| 1909-10 | 14 |

figures of average gross circulation of notes of the Rangoon circle noted in the margin show that the circulation rose appreciably after the universalisation. The recorded issues of the universal five-rupee notes for remittance purposes in bundles of 2,000 and over amounted to 16 lakhs against only 1½ lakhs of rupees in 1908-09 and 9 lakhs of rupees in 1907-08; the notes were used for this purpose chiefly between

Bombay and the Punjab, but if such remittances continue, they will no doubt henceforth be made in the higher value universal notes. The practice is, as noticed above, being discouraged by the offer of transfers at a low premium.

As remarked in para. 2 above, 10 and 50 rupee notes were made universal from the 18th February 1910, but, as the change came into effect late in the year, it is not possible yet to judge its effect on the circulation. Statistics of issues of these notes in bundles of the value of Rs 10,000 and over at a time for purposes of remittance show that 10-rupee notes of the value of Rs 7½ lakhs and 50-rupee notes of the value of Rs 5 lakhs were taken for this purpose between the date of their universalisation and the close of the year. When the scheme of universalisation was undertaken, it was anticipated that there would be a tendency to use the universalised notes for remittance, and it was with the object of reducing their use for that purpose that Government decided to accompany the scheme by a reduction of the minimum limits for remittance of funds between currency centres by Government telegraphic transfers and of the rates of premium prescribed for them. The statistics for the short period for which they are available show that, in spite of these precautions, they are being used largely for remittance between Bombay and Surat, Calcutta and Cawnpore, and Lahore and Cawnpore. The question of the adoption of further measures for discouraging their use for remittance is under consideration.

13. The year 1909-10 opened with a stock of gold in the Currency Reserve and Treasuries in India valued at £86,004.5 and the closing balance* was worth £6,425,095.0.*

The monthly transactions are shown below together with those relating to the Gold Standard Reserve :—

| SUMMARY. | Balance on 1st April 1909. | Net transactions with the public, 1909-10. | Net transfer between Treasury and Gold Standard Reserve, 1909-10. | Remittances to England, 1909-10. | Balance on 31st March 1910. |
|-----------------------|----------------------------|--|---|----------------------------------|-----------------------------|
| | £ | £ | £ | £ | £ |
| Currency and Treasury | 86,004.5 | +6,339,090.5 | ... | ... | 6,425,095.0 |
| Gold Standard Reserve | ... | ... | ... | ... | ... |
| GRAND TOTAL | 86,004.5 | +6,339,090.5 | ... | ... | 6,425,095.0 |

In addition to this, gold to the value of £4,500,000 was held in the Currency chest in England.

The net transactions in the year under report resulted in the aggregate in a receipt of nearly £6,339,000 against an issue of £2,600,000 in 1908-09 and £1,000,000 in 1907-08.

The receipts at the Currency Offices from imports amounted during the year to £7,139,000, but as they were received only in the closing months, there was practically no issue of gold till December and the issues from Treasuries and Currency Offices during the year amounted only to £799,900. The following statement compares the receipts from imported sovereigns month by month, with those received in 1907-08, there having been practically no imports during 1908-09 :—

(The figures are in hundreds of pounds sterling).

| | 1907-08. | 1908-09. |
|---------------------|-----------|-----------|
| | £ | £ |
| April | 132,600 | ... |
| May | 1,081,100 | ... |
| June | 1,073,900 | ... |
| July | 734,400 | ... |
| August | 561,000 | ... |
| September | 245,000 | ... |
| October | 163,000 | ... |
| November | 79,500 | 25,000 |
| December | 140,000 | 1,921,300 |
| January | 223,000 | 3,363,700 |
| February | 564,800 | 677,000 |
| March | 250,000 | 952,000 |
| TOTAL | 5,250,300 | 7,139,000 |

The bulk of the imports (£6,800,000) were received at Bombay to finance the cotton trade.

The figures in the margin show the net absorption of sovereigns from Treasuries and Currency Offices in each of the five years ending 1909-10, excluding gold received by import into the country. The absorption in the year under report would have been higher, had gold been available throughout the year.

The following statement compares the net absorption excluding net imports in each Province and Currency Circle during the years 1908-09 and 1909-10 :—

| | Net absorption in round thousands of £ | |
|--|--|----------|
| | 1908-09. | 1909-10. |
| Calcutta Currency and Agencies and India Treasuries | 557,000 | 266,000 |
| Central Provinces and Berar Treasuries | 36,000 | 8,000 |
| Rangoon Currency and Agencies and Burma Treasuries | 338,000 | 40,000 |
| Eastern Bengal and Assam Treasuries | 21,000 | 2,000 |
| Bengal Treasuries | 27,000 | 14,000 |
| Cawnpore Currency and Agencies and United Provinces Treasuries | 399,000 | 113,000 |
| Lahore Currency and Agencies and Punjab and North-West Frontier Treasuries | 665,000 | 146,000 |
| Madras and Calicut Currency and Agencies and Treasuries | 661,000 | 134,000 |
| Bombay and Karachi Currency and Agencies and Treasuries | —260,000 | 52,000 |
| TOTAL | 2,444,000 | 775,000 |

The issues were largest at Calcutta but the absence of any material stock for the major portion of the year diminishes the interest of these figures. The different centres have now again been well supplied with gold.

The details of the gold held in India on the last day of the year are as follows :—

| | Currency. | Treasury and Mint. | Total. |
|---|-------------|--------------------|-------------|
| | £ | £ | £ |
| Current weight sovereigns and half-sovereigns | 5,707,058·0 | 138,760·5 | 5,845,818·5 |
| Light weight do. do. | 494,637·0 | 84,609·5 | 579,246·5 |
| Sovereigns and half-sovereigns more than 3 grs. below standard weight received at bullion value | 21·0 | 9·0 | 30·0 |
| Total | 6,201,716·0 | 223,379·0 | 6,425,095·0 |

14. The balance of the Gold Standard Reserve at the beginning of the year stood at £18,471,406 made up as follows :—

| | £ |
|--|-------------|
| Purchase value of sterling securities | 7,414,510 |
| Coined rupees held in India | 10,586,734 |
| Cash placed by the Secretary of State for India in Council at short notice | 469,818 |
| Outstanding debt from treasury balances | 344 |
| TOTAL | 18,471,406* |

There was no new rupee coinage during the year, but arrear profits amounting to £25,190 were credited to the reserve in the year. A sum of £12,034 was also received as interest on a temporary loan of £2,000,000 granted from the reserve to the Government of India. This loan was taken from the reserve in December 1909 when the treasury balances proved insufficient to meet the drawings of the Secretary of State. It was fully repaid before the 31st March 1910 with interest at $3\frac{1}{2}\%$ per annum. The total balance in India, was thus increased to £10,586,734 + 344 + 25,190 + 12,034 = £10,624,302. A heavy demand for Council Bills however at the beginning and towards the close of the year enabled the Secretary of State to treat £8,090,000 out of his total drawings of the year as on behalf of the Gold Standard Reserve, thus reducing the balance in India to £10,624,302 - 8,090,000 = £2,534,302 which was held entirely in coined rupees.

The income in England arising from dividends on investments, discounts obtained on Treasury Bills and interest on loans placed at short notice amounted to £255,417. British and Colonial Treasury Bills to the nominal value of £3,673,000 but purchased at a cost of £3,621,843 matured and were paid off during the year. The total amount available for investment was therefore £8,090,000 + 255,417 + 3,621,843 = £11,967,260. Of this amount, £9,396,090 was invested in sterling securities of the nominal value of £9,585,000 and a sum of £30,460 was deposited on the 21st March 1910 on allotment of 3% Exchequer Bonds of the nominal value of £1,523,000 to be delivered on the 5th April 1910 on payment of balance of the purchase price. The balance of £2,540,710 (£11,967,260 - 9,396,090 - 30,460) was placed by the Secretary of State as a deposit at short notice, the amount of which accordingly rose from £469,818 at the beginning of the year to £3,010,528 at its close. The purchase value of the sterling securities at the end of the year therefore stood at £7,414,510 (value at the beginning) + 9,426,550 (price of securities purchased

* Differs from the balance shown in the last year's report by £31,759 representing discount on Treasury Bills included in the balance. This discount, instead of being credited as an asset of the Reserve at the time of the purchase of the Bills will, for the future, be credited at the time of re-payment.

during the year including the deposit of £30,460)—3,621,843 (cost price of Treasury Bills paid off during the year) = £13,219,217.

The details of the investment are as follows:—

| | Nominal Value. | | | Cost of Investment. | | |
|---|-------------------|----------|----------|---------------------|----------|----------|
| | £ | s. | d. | £ | s. | d. |
| 2½% Consolidated Stock | 4,665,769 | 18 | 9 | 4,207,463 | 8 | 0 |
| 2½% National War Loan Stock | 867,568 | 3 | 0 | 870,884 | 19 | 11 |
| 2½% Guaranteed Stock (Irish Land) | 438,720 | 9 | 8 | 407,187 | 9 | 10 |

| TOTAL | 13,795,081 | 3 | 5 | 13,219,217 | 7 | 1 |

The balance of the Reserve in India and in England at the end of the year stood therefore at £18,764,047, made up as follows:—

| | |
|--|-------------------|
| Purchase value of sterling securities | 13,219,217 |
| Cash placed by the Secretary of State in Council at short notice | 3,010,528 |
| Coined rupees held in India | 2,534,302 |
| | 18,764,047 |

The Metallic Reserve.

15. The following table shows in lakhs of rupees the gross circulation and the composition of the Metallic Reserve of the Currency Department on the last day of each month of the year:—

| COIN AND BULLION RESERVE. | | | | | | | |
|---------------------------|--------------------|--------------|------------------------|------------------------------|-----------------------------------|---|--|
| Month. | Gross circulation. | Silver Coin. | Gold Coin and bullion. | Silver bullion under coinage | Gold Coin and bullion in England. | Gold Coin and bullion in transit between India and England. | Silver bullion in transit between India and England. |
| April 1909 | 43.65 | 29.79 | 3 | 8 | 2.25 | ... | ... |
| May " | 46.77 | 32.42 | 2 | 8 | 2.25 | ... | ... |
| June " | 49.22 | 34.08 | 1 | 8 | 2.25 | ... | ... |
| July " | 51.53 | 37.48 | 2 | 8 | 2.25 | ... | ... |
| August " | 51.74 | 37.31 | 3 | 8 | 2.25 | ... | ... |
| September " | 50.82 | 36.46 | 3 | 8 | 2.25 | ... | ... |
| October " | 50.50 | 36.13 | 3 | 8 | 2.25 | ... | ... |
| November " | 46.53 | 32.17 | 3 | 8 | 2.25 | ... | ... |
| December " | 48.25 | 31.23 | 2.67 | 8 | 2.25 | ... | ... |
| January 1910 | 51.84 | 29.54 | 7.77 | 8 | 2.25 | ... | ... |
| February " | 50.57 | 27.82 | 8.42 | 8 | 2.25 | ... | ... |
| March " | 54.41 | 29.28 | 9.39 | 8 | 2.25 | ... | ... |

The chief feature of the year has been the restoration of the gold balance.

16. The distribution of the Reserve among the Circles on 31st March 1910 is given below :—

| Circle. | Silver Coin. | Gold Coin and Bullion. | Silver Bullion under Coinage. | Gold Coin and Bullion in England. | Silver Bullion in transit between India and England. |
|-------------|----------------|------------------------|-------------------------------|-----------------------------------|--|
| | R a. | R | R | R | R |
| At Calcutta | 11,86,19,271 6 | 35,21,435 | 7,86,970 | 3,75,00,000 | ... |
| „ Cawnpore | 5,74,22,000 0 | 40,05,030 | ... | ... | ... |
| „ Lahore | 1,56,37,488 0 | 38,72,250 | ... | ... | ... |
| „ Bombay | 1,44,07,206 0 | 7,24,06,604 | ... | ... | ... |
| „ Karachi | 26,80,155 0 | 3,83,625 | ... | ... | ... |
| „ Madras | 3,48,37,460 0 | 34,63,245 | ... | ... | ... |
| „ Rangoon | 4,97,43,015 0 | 52,73,350 | ... | ... | ... |
| | 29,33,46,595 6 | 9,30,25,739 | 7,86,970 | 3,75,00,000 | ... |

42,46,59,304 6 0

| | |
|---|------------------|
| | R a. p. |
| Investment in Government Securities held in India | 42,46,59,304 6 0 |
| Investment in Government Securities held in England | 9,99,99,945 10 0 |
| | 2,00,00,000 0 0 |
| | 54,46,59,250 0 0 |
| Deduct amounts received at Bombay but not paid at Calcutta and Madras | 5,75,000 0 0 |
| | 54,40,84,250 0 0 |

On the corresponding date in 1909 the silver coin balance amounted to Rs 11,86,19,380, the silver bullion under coinage to Rs 7,86,970 and the gold coin and bullion in India and England to Rs 2,28,51,209. There has therefore been a decrease of 1,80 lakhs in the balance of silver coin and an increase of 10,77 lakhs in the balance of gold coin and bullion, the balance under the head "silver bullion under coinage" remaining unchanged.

17. The following statement shows the transactions of the Paper Currency Chest in England* in the year under report :—

| | |
|--------------------------------|-------------------------|
| | In thousands of rupees. |
| Opening Balance | 2,25,00 |
| Addition made during the year— | |
| March | 1,50,00 |
| Closing Balance | 3,75,00 |

A sum of £ 1,000,000 was transferred by the Secretary of State to the Currency Chest in England during March 1910 in aid of Indian Treasury balances.

18. The total investment on 31st March 1910 stood as follows :—

| | | |
|------------------------------|----------------|------------------|
| | Nominal value. | Cost price. |
| | R | R a. p. |
| In Rupee Securities— | | |
| 3½ per cent. Loan of 1842-43 | 8,15,95,000 | 8,00,00,000 0 0 |
| 3 per cent. Loan of 1896-97 | 2,04,86,500 | 1,99,99,945 10 0 |
| | 10,20,81,500 | 9,99,99,945 10 0 |

* The balances in the Paper Currency Chest, in England consisted entirely of gold.

In Sterling Securities—

2½ per cent. Consols

| £ | s. | d. | £ | s. | d. |
|-----------|----|----|-----------|----|----|
| 1,494,952 | 16 | 7 | 1,333,333 | 6 | 8 |

The interest realised and credited to Revenue during the year was as follows:—

| | |
|---------|------------|
| India | R34,70,420 |
| England | £37,374 |

Writing off of
Old Notes.

19. The following statement shows the value of notes written off the circulation during the year under report under the first proviso to section 19 of the Indian Paper Currency Act II of 1910:—

| | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | Total Pieces. | Total Value. |
|-------------------|-----|-------|-----|-----|-----|-----|-------|--------|------------------|-----------------|
| Calcutta | ... | 696 | 360 | 65 | 63 | ... | ... | ... | 1,184 | 23,710 |
| Cawnpore | ... | 39 | 11 | 6 | 8 | ... | ... | ... | 64 | 1,710 |
| Lahore | ... | 48 | 32 | 8 | 3 | ... | ... | ... | 93 | 2,020 |
| Bombay | ... | 350 | 108 | 28 | 61 | ... | ... | ... | 547 | 11,160 |
| Karachi | ... | 15 | 6 | 6 | ... | ... | ... | ... | 27 | 570 |
| Madras | ... | 47 | 20 | 14 | 9 | ... | ... | ... | 90 | 2,470 |
| Calicut | ... | 5 | 2 | 4 | 3 | ... | ... | ... | 15 | 610 |
| TOTAL | ... | 1,200 | 540 | 131 | 149 | ... | ... | ... | 3,020 | 44,250 |
| TOTAL FOR 1908-09 | ... | 1,380 | 486 | 159 | 129 | ... | ... | ... | 3,154 | 44,370 |
| " " 1907-08 | ... | 1,389 | 488 | 223 | 186 | ... | ... | ... | 3,286 | 53,400 |

Issue and Receipt
of Notes.

20. The following have been the issues and receipts of notes during the year:—

| ISSUES. | | RECEIPTS. | |
|---|----------------|--|----------------|
| | R | | R |
| Circulation* 1st April 1909 | 46,66,77,475 | Over the Counter | 1,50,81,30,205 |
| Over the Counter | 1,82,87,71,480 | At Agencies | 1,86,00,875 |
| At Agencies | 4,57,76,755 | From other Currency Circles | 18,61,94,205 |
| In Remittance Transactions— | | In Remittance Transactions— | |
| Between Head Offices and Agencies | 33,53,91,175 | Between Head Offices and Agencies | 34,67,36,155 |
| Between Circles | 55,61,24,390 | Between Circles | 53,98,09,500 |
| Refund of value of Notes written off under section 19, proviso (1), of Act II of 1910 | 920 | Notes written off under section 19, proviso (1), of Act II of 1910 | 44,250 |
| Against gold transferred from Treasury in London | 1,50,00,000 | Balance being Circulation* on the 31st March 1910 | 55,59,34,680 |
| Ditto in India | 73,77,375 | | |
| | 2,78,84,42,095 | | |
| TOTAL | 3,25,51,19,570 | TOTAL | 3,25,51,19,570 |

The total issues and receipts for the last three years are as follows:—

| | Issues. | Receipts. |
|---------|----------------|----------------|
| | R | R |
| 1907-08 | 2,61,67,41,085 | 2,61,67,96,650 |
| 1908-09 | 2,46,76,37,090 | 2,48,51,82,500 |
| 1909-10 | 2,78,84,42,095 | 2,69,98,84,890 |

* Including notes which have been paid off in some other Circle than their own.

The issues have increased by about 32,08 lakhs, and the receipts by 21,47 lakhs as compared with the previous year, the difference being made up as follows:—

| | Issues. R | Receipts. R |
|---------------------------------------|---------------------|---------------------|
| Over the Counter | + 19,23 | + 12,11 |
| Remittance transactions | + 12,48 | + 17,41 |
| From other Currency Circles | ... | —5,37 |
| Other heads | + 37 | —2,68 |
| | <hr/> + 32,08 <hr/> | <hr/> + 21,47 <hr/> |

21. The following table gives the circulation of the six larger circles, and the mean value of their receipts and issues during the year, with the percentage of the former to the latter during the last three years:—

| NAME OF CIRCLE. | IN LAKHS OF RUPEES. | | PERCENTAGE OF AMOUNT IN COLUMN 2 ON THAT IN COLUMN 3. | | |
|--------------------|---|------------------------------------|---|----------|----------|
| | Average circulation on last day of month. | Mean value of Receipts and Issues. | 1909-10. | 1908-09. | 1907-08. |
| Calcutta | 20,23 | 1,02,31 | 19 | 19 | 18 |
| Cawnpore | 2,45 | 17,03 | 14 | 13 | 11 |
| Lahore | 3,49 | 22,62 | 15 | 15 | 15 |
| Bombay | 13,34 | 68,10 | 19 | 20 | 21 |
| Madras | 5,49 | 33,17 | 16 | 18 | 17 |
| Rangoon | 2,97 | 26,70 | 11 | 12 | 9 |

Calcutta, Bombay and Lahore show an increase in the average circulation from the preceding year, but all the other circles show some decrease. The mean value of receipts and issues shows an increase in all circles except Cawnpore and Rangoon, but it is most marked in Calcutta and Bombay.

22. The aggregate issues and receipts of the several denominations of notes both at Offices of Issue and at Agencies during the year were as follows:—

| | NUMBER OF NOTES FOR RUPEES. | | | | | | | | TOTAL. | |
|-----------------------|-----------------------------|------------|-----------|---------|-----------|---------|---------|---------|------------|----------------|
| | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | Number. | Value. |
| Issues | 5,164,943 | 17,360,338 | 1,291,205 | 665,064 | 1,821,244 | 228,107 | 51,175 | 149,038 | 10,233,434 | 2,78,84,42,095 |
| Receipts | 4,770,730 | 15,335,070 | 1,064,887 | 597,224 | 3,532,760 | 227,840 | 339,441 | 145,669 | 10,873,550 | 2,67,98,84,890 |
| More issues | 394,193 | 1,803,468 | ... | 67,840 | 128,584 | 358 | 13,734 | 3,389 | 2,472,466 | 9,00,29,045 |
| " Receipts | ... | ... | 73,392 | ... | ... | ... | ... | ... | 73,392 | 1,47,1,40 |

The average number of notes passed over the Counters at the more important Head Offices on each working day during the past three years, and the daily average of cancellations, are given in the following table:—

| | NOTES CASHED. | | | NOTES ISSUED. | | | NOTES CANCELLED. | | |
|-----------------------|---------------|----------|----------|---------------|----------|----------|------------------|----------|----------|
| | 1907-08. | 1908-09. | 1909-10. | 1907-08. | 1908-09. | 1909-10. | 1907-08. | 1908-09. | 1909-10. |
| At Calcutta | 28,956 | 31,744 | 28,561 | 27,880 | 32,437 | 36,435 | 29,391 | 34,112 | 31,379 |
| „ Bombay | 18,139 | 17,951 | 20,988 | 18,066 | 18,990 | 23,005 | 11,274 | 11,623 | 11,404 |
| „ Madras | 10,985 | 12,587 | 14,411 | 11,224 | 12,755 | 14,773 | 10,636 | 11,746 | 10,936 |
| „ Rangoon | 6,933 | 8,212 | 10,402 | 7,271 | 9,381 | 12,153 | 5,670 | 8,262 | 11,082 |

The numbers of the total issues and cancellations for the year, in thousands of pieces, are given below and compared with the previous year's figures.

| | Circles. | | | | | | | | |
|-------------------------|----------|-----------|---------|---------|----------|---------|----------|----------|--------|
| | Calcutta | Cawnpore. | Lahore. | Bombay. | Karachi. | Madras. | Calicut. | Rangoon. | TOTAL. |
| 1909-10. | | | | | | | | | |
| Issues | 10,602 | 770 | 2,446 | 6,697 | 673 | 4,240 | 212 | 3,573 | 29,223 |
| Cancellations | 8,692 | 604 | 1,579 | 3,284 | 410 | 3,150 | 191 | 3,258 | 21,174 |
| 1908-09. | | | | | | | | | |
| Issues | 9,419 | 739 | 1,899 | 5,484 | 441 | 3,661 | 191 | 2,786 | 24,520 |
| Cancellations | 9,552 | 622 | 1,427 | 3,336 | 362 | 3,371 | 165 | 2,154 | 21,289 |

In the year under report there was an increase in the issue in each Circle, but the cancellations decreased in Calcutta, Cawnpore, Bombay and Madras.

23. The following is the Foreign Note account of the Circles in aggregate:—

| | R | R |
|--|--------------|---------------------|
| Balance held on 1st April 1909 | | 1,17,97,970 |
| Received over the Counter | 17,06,57,195 | |
| From other Circles | 33,13,360 | |
| Received at Agencies (net) | 49,92,135 | |
| | | <u>15,89,62,690</u> |
| TOTAL | | <u>19,07,60,660</u> |
| Remitted to Circles concerned | | 17,96,10,230 |
| Balance on 31st March 1910 | | <u>1,11,50,430</u> |
| TOTAL | | <u>19,07,60,660</u> |

The decrease in the balance was the net result of decreases at nearly all the Circles against a small excess at Calcutta and Lahore. These balances ought to almost entirely disappear as a consequence of the new legislation except in the case of universal notes and of sub-circle notes issued prior to the new Act which are still encashable at the old head circles.

24. The details by Circles of the values of Foreign Circle Notes received over the Counter, as shown above, are as follows :—

| CIRCLE. | CASHED BY | | | | | | | | TOTAL. | | | |
|------------------|--------------|-------------|-------------|-------------|-------------|-----------|----------|----------|--------------|--------------|--------------|--------------|

The total encashments of Foreign Circle Notes were less than those of the last year by about 6.08 lakhs, the decrease being the net result of decreases of 6.13 lakhs at Calcutta, 1.41 lakhs at Bombay and 2 lakhs at Rangoon against increases of 1.00 lakhs at Cawnpore, 40 lakhs at Lahore, 7 lakhs at Karachi and 1 lakh at Calicut.

The most important variations from the preceding years occurred in the Foreign encashment of Cawnpore, Lahore and Karachi Notes. During the year the encashment of Cawnpore and Lahore notes decreased at Calcutta by 4.26 and 2.93 lakhs, respectively, and that of Karachi notes at Bombay decreased by 1.35 lakhs. The encashment of these notes was abnormally high last year; it became normal in the year under report. Elsewhere the variations were not so marked. The numbers will, no doubt, greatly decrease in future years as sub-circle notes are no longer issued. The following statement shows, in lakhs of rupees, the net transfers by means of Foreign Circle Notes between each of the circles during the last two years. The plus figures indicate that transfers to the circle exceeded those from it, and the minus figures represent an opposite movement :—

| | 1908-09. | 1909-10. | Differences |
|----------|----------|----------|-------------|
| Calcutta | + 11.33 | + 4.11 | - 7.22 |
| Cawnpore | - 6.81 | - 1.13 | + 5.68 |
| Lahore | - 6.83 | - 3.30 | + 3.53 |
| Bombay | + 4.57 | + 2.01 | - 2.56 |
| Karachi | - 1.37 | - 2 | + 1.35 |
| Madras | - 67 | - 1.42 | - 75 |
| Calicut | - 12 | - 10 | + 2 |
| Rangoon | - 10 | - 14 | - 4 |

Transactions in
coin and bullion.

25. The transactions in coin and bullion have been as follows:—

| Receipts. | | | Issues. | | |
|---|----------------|-------|---|----------------|------------|
| | R | a. p. | | R | a. p. |
| Balance, 1st April 1909 | 33,50,29,559 | 6 0 | Over the Counter. | | |
| | | | Gold | 1,97,02,747 | 0 0 |
| Over the Counter. | | | Silver | 32,94,65,844 | 0 0 |
| Gold | 10,73,05,928 | 0 0 | At Agencies. | | |
| Silver | 29,15,37,128 | 0 0 | Gold | 17,29,200 | 0 0 |
| At Agencies. | | | Silver | 11,64,35,485 | 0 0 |

| Between Head Offices and Agencies | | | Silver | 28,81,97,876 | 0 0 |
| Gold | 1,36,81,050 | 0 0 | Between Circles | | |
| Silver | 26,44,43,542 | 0 0 | Gold | 2,85,04,500 | 0 0 |
| Between Circles | | | Silver | 8,95,56,644 | 0 0 |
| Gold | 3,85,04,500 | 0 0 | | 42,16,66,486 | 0 0 |
| Silver | 8,95,56,644 | 0 0 | Coin paid on uncurrent and light weight sovereigns | | 1,935 0 0 |
| Rupees received from Mint for uncurrent and light weight sovereigns | 73,79,310 | 0 0 | Coin paid for Home Notes written-off under section 19, proviso (1), of Act II of 1910 | | 44,250 0 0 |
| Gold transferred from Treasury to Currency Chest in England against notes issued in India | 1,50,00,000 | 0 0 | | | |
| Receipts on account of Gold Standard Reserve | 4,50,00,000 | 0 0 | | | |
| Refund of Notes written-off | 920 | 0 0 | | | |
| | 97,86,75,686 | 0 0 | | | |
| TOTAL | 1,31,37,05,245 | 6 0 | Balance on 31st March 1910 | 88,90,45,941 | 0 0 |
| | | | | 42,46,59,304 | 6 0 |
| | | | TOTAL | 1,31,37,05,245 | 0 0 |

The receipts and issues for the past three years are given below:—

| | Receipts. | | Issues. | |
|---------|----------------|-------|----------------|-------|
| | R | a. p. | R | a. p. |
| 1907-08 | 1,31,63,94,859 | 0 0 | 1,31,62,63,774 | 0 0 |
| 1908-09 | 86,21,46,957 | 0 0 | 87,69,17,797 | 0 0 |
| 1909-10 | 97,86,75,686 | 0 0 | 88,90,45,941 | 0 0 |

The net result was an increase in the coin and bullion reserve of 8,96 lakhs. This decrease after adding one lakh and fifty thousands paid at Lahore for an equivalent received at Calcutta in 1908-09, and deducting five lakhs and seventy-five thousands received at Bombay but not paid at Calcutta and Madras until after the 31st March 1910, exactly corresponds with the increase in the circulation as shown in paragraph 7, there having been no addition to the investment of the Reserve during the year. Both the receipts and issues were more than those of the previous year by 11,65 lakhs and 1,21 lakhs, respectively, the increases being made up as follows:—

| | Lakhs of Rupees. | |
|-------------------------|------------------|---------|
| | Receipts. | Issues. |
| Over the Counter | + 5.97 | —6.87 |
| Remittance transactions | —2.60 | +4.37 |
| Other items | +8.28 | +3.71 |
| TOTAL | +11.65 | +1.21 |

Withdrawal of
uncurrent coin.

26. The withdrawals of shroff-marked and uncurrent coin and of rupees

| PROVINCE. | Shroff-marked coin. | Uncurrent coin. | Coin of 1835 mintage. | Coin of 1840 mintage. |
|---|---------------------|-----------------|-----------------------|-----------------------|

| Madras | ... | 6,80 | 79 | 14,70 |
| Bombay | 2 | 3,92 | 40 | 10,55 |
| TOTAL | 6 | 65,50 | 10,37 | 1,33,83 |

bearing the dates 1835 and 1840 are shown in the margin in thousands of rupees. Column 3 includes defective and defaced coin besides light weight coin which is separately dealt with in the next table. The total amount of 1835 coins withdrawn to the end of the year is about 3.32 lakhs, and that of 1840 coins 27.07 lakhs.

27. The following statement shows the number of light-weight silver coins cut and broken during the year under report in the several provinces :—

Cutting of light-weight coin.

| NAME OF PROVINCE. | RUPEES AND HALF RUPEES. | | | | | | SMALL SILVER COIN. | | | |
|------------------------------------|---|---------|--|--------|--|-------|---|---------|--|-------|
| | Reduced in weight over 2 per cent. but not more than 6½ per cent. | | Reduced in weight over 6½ per cent. but not more than 25 per cent. | | Reduced in weight more than 25 per cent. | | Reduced in weight over 12½ per cent. but not more than 25 per cent. | | Reduced in weight more than 25 per cent. | |

| India | 926,733 | 189,720 | 9,393 | 7,562 | 18,355 | 5,014 | 195,357 | 318,994 | 827 | 821 |
| Central Provinces and Berar | 1,510 | 309 | 609 | 125 | 223 | 3 | 6,393 | 5,934 | 2 | 2 |
| Burma | 237,921 | 1,022 | 1,708 | 19 | 140 | ... | 234 | 1,219 | ... | 1 |
| Eastern Bengal and Assam | 36,147 | 125 | 210 | 12 | 101 | 3 | 12 | 315 | 3 | 7 |
| Bengal | 174,627 | 3,863 | 348 | 257 | 193 | ... | 11,638 | 4,191 | ... | ... |
| United Provinces of Agra and Oudh | 1,104,193 | 66,168 | 14,369 | 6,755 | 4,820 | 97 | 195,054 | 182,045 | 391 | 387 |
| Punjab and N.-W. Frontier Province | 699,933 | 14,447 | 4,792 | 4,125 | 1,279 | 147 | 1,914 | 2,916 | ... | 62 |
| Madras | 195,641 | 100,853 | 1,607 | 1,001 | 1,141 | 102 | 185 | 547 | 160 | 209 |
| Bombay | 258,186 | 26,704 | 673 | 566 | 1,839 | 389 | 10,623 | 28,753 | 144 | 236 |
| TOTAL | 3,635,911 | 393,121 | 33,709 | 29,422 | 28,091 | 5,737 | 421,410 | 544,914 | 1,590 | 1,813 |

The total number of light-weight rupees and half-rupees, cut and broken in the course of the year, does not differ materially from that of the previous year. The statistics for small silver show considerable variations, a large increase being reported against India and material decreases in the Punjab and Madras. The former is due to an attempt to apply more strictly in the Calcutta Reserve Treasury the rules for cutting one-fourth and one-eighth rupees which are light-weight, the rules not having been properly followed in the preceding year. Their application however gives great trouble and it is doubtful whether the results are really reliable. Steps are now being independently taken to remove the older and more worn coins from circulation and the result will probably be a diminution of the numbers shown under this head in future years.

As usual the work done at the six larger Currency offices as regards the examination of coins presented was tested by fresh examination at the Mints. The coins sent to the Mints for re-examination were selected by the Currency officers at random from the ordinary receipts across the Counter. The result of the re-examination at the Mints is shown in the following table :—

| | Calcutta. | Bombay. | Madras. | Cawnpore. | Lahore. | Rangoon. |
|--------------------------------------|---------------------|---------------------|---------------------|---------------------|---------------------|---------------------|
| Amount examined. | ₹10,00,000. | ₹9,05,044. | ₹1,85,000. | ₹2,00,000. | ₹5,00,000. | ₹3,00,000. |
| Discovered by Mint. | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. | Discovered by Mint. |
| Counterfeits lost between 2% and 6½% | 22 | 146 | 20 | 11 | 26 | 23 |
| " " 6½% " 12½% | 11,276 | 4,278 | 1,635 | 7,985 | 2,524 | 2,613 |
| " " 12½% " 18½% | 115 | 83 | 20 | 52 | 36 | 40 |
| " " 18½% " 25% | 2 | 6 | 1 | 1 | 2 | 5 |
| TOTAL | 11,405 | 4,312 | 1,676 | 3,048 | 2,588 | 2,681 |

The following statement compares for the last four years the total percentage of light-weights detected at the Mints in the remittances mentioned above :—

| | Percentage detected at the Mints. | | | |
|--------------------|-----------------------------------|----------|----------|----------|
| | 1906-07. | 1907-08. | 1908-09. | 1909-10. |
| Calcutta | 1'134 | '941 | 1'160 | 1'139 |
| Bombay | '682 | '335 | '370 | '482 |
| Madras | '478 | '378 | '557 | '375 |
| Cawnpore | '112 | 1'654 | 1'688 | 1'518 |
| Lahore | 2'494 | '689 | '969 | '512 |
| Rangoon | '849 | '972 | '868 | '886 |

The results compare well with past years, but there is room for improvement in the Calcutta and Cawnpore Currency offices.

False Coinage.

| PROVINCE. | R | ½R | ¼R | 1/8R |
|---|----------|-------|-------|-------|
| India | 27,738 | 1,124 | 801 | 891 |
| Central Provinces and Berar | 1,417 | 36 | 31 | 13 |
| Burma | 8,436 | 210 | 438 | 195 |
| Eastern Bengal and Assam | 4,430 | 37 | 140 | 16 |
| Bengal | 10,153 | 344 | 293 | 271 |
| United Provinces of Agra and Oudh | 19,077 | 317 | 471 | 530 |
| Punjab and North-West Frontier Province | 16,789 | 421 | 589 | 210 |
| Madras | 12,093 | 1,435 | 995 | 1,013 |
| Bombay | 8,656 | 389 | 436 | 448 |
| TOTAL | 1,08,788 | 4,313 | 4,084 | 3,587 |

28. The tables in the margin give the numbers of counterfeit silver coins cut and broken in the different provinces during the calendar year 1909 and the usual comparative statistics for the past ten years. They show that the number of counterfeit rupees discovered in 1909 in the Treasuries, Currency offices and Railway Cash offices in the course of examination of coin received by them is higher by about ten thousand than the number similarly discovered in 1908. The increase has occurred chiefly in Bengal and Madras.

Out of the total number of 1,08,788, 43,045 were detected in Railway Cash offices, 10,782 being found on the North Western Railway alone.

The increase in recent years of the number of counterfeit small silver coins reported as cut is probably due to more careful examination, the new rules for dealing with light-weight small silver coins necessitating a more detailed observation of these coins. The number of counterfeit rupees received

| Year. | R | ½R | ¼R | 1/8R |
|----------------|----------|-------|-------|-------|
| 1900 | 30,190 | 1,692 | 1,780 | 2,097 |
| 1901 | 43,193 | 2,154 | 2,345 | 1,028 |
| 1902 | 55,744 | 2,099 | 2,598 | 1,923 |
| 1903 | 52,736 | 2,221 | 2,146 | 1,812 |
| 1904 | 56,385 | 2,532 | 1,930 | 1,883 |
| 1905 | 65,713 | 2,230 | 2,283 | 1,747 |
| 1906 | 69,632 | 2,438 | 2,416 | 1,502 |
| 1907 | 73,686 | 2,436 | 2,231 | 1,593 |
| 1908 | 98,492 | 3,557 | 3,417 | 3,445 |
| 1909 | 1,08,788 | 4,313 | 4,084 | 3,587 |

at the Mints for examination during the year was 3,885, of which 999 were struck from dies and the rest were castings. Most of the former were well executed, but the majority of the latter consisted of palpable counterfeits made of base

metal. The Bombay Mint received from the Bombay, Baroda and Central India and the Rajputana-Malwa Railways 2,726 exceptionally well-executed coins, of which 954 were struck from dies and the rest were castings. A few very good counterfeits bearing the date 1907 and struck from dies were received. They are suspected to have been imported into India from the Far East, but the number so far detected is very small.

29. Statement II of the Appendix gives by calendar years the number of Annual coinages, whole rupees coined in the Indian Mints from 1835 to 31st March 1910.

The rupee coinage of the year amounted to 208 lakhs, 110 lakhs at Calcutta and 93 lakhs at Bombay. No coinage was undertaken during the year from newly purchased silver, and the entire amount coined was from withdrawn and uncurrent coin.

30. The usual examination of the rupee circulation was made in May 1910. The Rupee coins when 257 Government treasuries each sorted 10,000 rupees according to the dates borne by each. The result is given below with those of the previous fifteen years. Details by Provinces appear in Statement IX of the Appendix.

| " 1910 | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | 1'7 |
| TOTAL | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 |

31. The receipts and issues of small silver at the Currency Offices during the year were as follow :—

| | Receipts. | Issues. | Net Issues. |
|-------------------|--------------|--------------|----------------|
| | R. a. | R. a. | R. a. |
| Half Rupees | 18,13,950 0 | 28,98,858 0 | + 10,84,908 0 |
| Quarter Rupees | 32,37,333 4 | 33,17,433 4 | + 80,100 0 |
| One-eighth Rupees | 21,24,093 6 | 23,35,137 2 | + 2,11,043 12 |
| TOTAL | 71,75,376 10 | 85,51,428 6 | + 13,76,051 12 |
| TOTAL 1908-09 | 89,97,580 2 | 83,01,401 12 | - 6,96,178 6 |

The increase in the net issues is attributable to the revival of trade from the depression caused by famine and other causes in the previous year.

Currency Agencies.

32. The Currency Agencies in all provinces, except those mentioned below are strictly Currency chests opened for resource purposes, whereas at the Agencies proper exchanges with the public take place. Similar exchanges are also allowed at an office opened for the purpose at Allahabad. The chests on the other hand merely permit of the transfer of Treasury funds from one place to another without actual movements of coin, and thus supply a very speedy means of withdrawing Treasury surpluses to head-quarters. On 31st March 1910 the number of Currency chests was 218, and they contained balances amounting to 14.30 lakhs or 2.06 lakhs less than on the corresponding date in the previous year. The balances held in the chests were very high at the close of the previous year owing to an accumulation of coin at the head-quarter offices in the absence of trade demands. With a return to favourable conditions, the chest balances showed a decrease.

The following table distributes the total balance in Agencies on 31st March 1910 in details of circles:—

| | 1907-08. | | | 1908-09. | | | 1909-10. | | |
|-----------------|--------------|----|----|--------------|----|----|--------------|----|----|
| | R | a. | p. | R | a. | p. | R | a. | p. |

| Rangoon " | 1,71,99,000 | ■ | 0 | 2,58,50,000 | ■ | 0 | 2,25,75,000 | 0 | 0 |
| TOTAL | 11,24,72,451 | ■ | 0 | 16,36,08,801 | 0 | 0 | 14,29,80,556 | 0 | 0 |

Currency Agencies under Art. 625, C. A. Code, at which exchanges with the public are allowed are maintained in the following places:—

Punjab—Rawal Pindi.

Simla.

Amballa.

Multan.

Sialkot.

Dera Ghazi Khan.

N.-W. F. Province—Peshawar.

Bannu.

Dera Ismail Khan.

Kohat.

Burma—Mandalay.

On the abolition of the Currency Office at Calicut, arrangements were made to continue exchange facilities to the public through the branch of the Bank of Madras which conducts the treasury business there, the balance of coin and notes required by the Bank being supplied when necessary from the local currency chest.

33. The following is a statement showing the number and value of half-notes and wholly destroyed or mutilated notes in respect of which claims have been admitted during the year under report :—

| Nature of loss. | Number of notes for rupees. | | | | | | | | TOTAL. | |
|--------------------------------|-----------------------------|-------|-----|-----|-------|-----|-------|--------|---------|----------|
| | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | Number. | Value. |
| Whole notes destroyed | ... | 1 | ... | 2 | 35 | 7 | ... | ... | 45 | 7,110 |
| Half-notes { Lost by post | 150 | 549 | 66 | 107 | 480 | 20 | 6 | ... | 1,328 | 76,910 |
| Half-notes { Lost accidentally | 20 | 392 | 45 | 75 | 525 | 26 | 14 | ... | 1,097 | 88,170 |
| Mutilated notes | 10 | 518 | 13 | 6 | 45 | ... | ... | ... | 592 | 10,290 |
| TOTAL FOR 1909-10 | 180 | 1,460 | 124 | 190 | 1,085 | 53 | 20 | ... | 3,112 | 1,82,480 |
| TOTAL FOR 1908-09 | 91 | 1,303 | 93 | 167 | 1,069 | 78 | 63 | ... | 2,864 | 1,32,595 |

The increase in numbers as compared with last year occurs entirely under notes lost by post. Payment of stopped notes, that is, whole notes lost cannot be refused, but if the presenter is not known, he is pointed out to the Police who enquire into the circumstances connected with his possession of the note. There were 1,125 stopped notes on the Calcutta list at the close of the year. During the year 335 such notes were presented and almost all the presenters were pointed out to the Police, one only was prosecuted but there was no conviction. Notes proved to have been wholly destroyed are paid after 20 years, when their value, which has been invested, is paid together with the accrued interest.

34. The forged notes presented during the year have been the following :— Forgers.

| Circle in which presented. | 5 | 10 | 20 | 50 | 100 | 500 | 1,000 | 10,000 | TOTAL |
|----------------------------|-----|-----|-----|-----|-----|-----|-------|--------|-------|
| Calcutta | 1 | 102 | ... | ... | ... | ... | ... | ... | 103 |
| Cawnpore | ... | 6 | ... | ... | ... | ... | ... | ... | 6 |
| Lahore | 1 | 2 | ... | ... | ... | ... | ... | ... | 3 |
| Bombay | ... | 3 | ... | ... | ... | ... | 2 | ... | 5 |
| Karachi | ... | 2 | ... | ... | ... | ... | ... | ... | 2 |
| Madras | ... | ... | ... | ... | ... | ... | ... | ... | ... |
| Rangoon | ... | 3 | ... | ... | ... | ... | ... | ... | 3 |
| TOTAL | 2 | 118 | ... | ... | ... | ... | 2 | ... | 122 |

Thirteen new specimens of forged notes appeared during the year but three of these of the R10 denomination, viz., $\frac{V.A.}{21}$, $\frac{V.A.}{35}$ and $\frac{V.A.}{17}$ were merely variants of the $\frac{P.A.}{63}$ series alluded to in previous years. The others were of the $\frac{V.A.}{6}$, $\frac{V.A.}{20}$, $\frac{U.A.}{47}$, $\frac{U.A.}{50}$, $\frac{U.A.}{52}$, $\frac{U.A.}{79}$, $\frac{U.A.}{80}$, $\frac{U.A.}{83}$ and $\frac{U.A.}{84}$ series of ten-rupee notes and one of the R5 denomination bearing $\frac{R.A.}{86}$ series all of the Calcutta Circle, one of the Bombay Circle of the R1,000 denomination bearing $\frac{C.}{29}$ series and three of the Rangoon Circle of the $\frac{Q.B.}{44}$, $\frac{Q.B.}{57}$ and $\frac{Q.B.}{61}$ series.

In the opinion of the Surveyor General of India, to whom a specimen of the $\frac{V.A.}{17}$ series was sent for examination, "the notes have been printed from photo blocks. The evidence of this is not positive in the case of $\frac{V.A.}{17}$ but is quite clear in the case of $\frac{P.A.}{63}$. The notes have not been printed from the same block but have been photographed from the same original. The ink used is ordinary printing ink. The signature has been printed along with the note but the numbering has been done separately. There is no hand work on the note". All the rest of the notes mentioned above, except the $\frac{U.A.}{83}$ series and those of the Rangoon Circle are reported by the Police to be ordinary hand drawn forgeries, the forgery of the $\frac{U.A.}{83}$ series is still under enquiry. As regards the $\frac{R.A.}{86}$ series note for R5, it may be noted that $\frac{R.A.}{86}$ series belongs to the R10 denomination of the Calcutta Circle and is dated 20th November 1904. The paper used is of the ordinary French quality, the brown colouring is fainter than that of a genuine note, the note seems to have been lithographed or die stamped and the printing does not stand the touch of water. The signature "O. T. Barrow" is well imitated but the forgery on the whole is a clumsy one and not likely to deceive any but the most ignorant.

The Bombay note is an indifferent imitation, the number being written by hand, the Commissioner's signature lithographed, the water mark imitated clumsily and the figures indicating value and the rest of the body of the note printed.

Regarding the Rangoon notes of the $\frac{Q.B.}{44}$ and $\frac{Q.B.}{61}$ series the Surveyor General of India is of opinion that the forgery has been done by the old "anastatic" process. The colouring, figuring and lettering, though well executed, are comparatively faint and get smudged when rubbed. The word "ten" in green is scarcely perceptible. The paper is slightly thicker than the genuine note and bears an imitation of the water mark. The $\frac{Q.B.}{57}$ series note is a crude pen and ink sketch traced by hand on ordinary oiled paper from a genuine note bearing the same number. Two persons were convicted in connection with this note of using a forged note knowing it to be forged and were sentenced to 18 months' simple imprisonment each.

Fraudulent claims.

35. Cases of fraudulent claims of the usual kind in connection with half notes occurred at Calcutta, Lahore, Madras and Calicut and some Rangoon circle R10 notes altered by hand to R50 and R100 respectively found their way into the local Currency Office. Although some of the prosecutions in connection with the fraudulent claims failed, there were convictions in some cases in each circle except Calicut.

In the pending case in Calcutta and in those in Bombay at the close of the last year the accused were acquitted but in one of the Bombay cases an appeal has been made, the result of which is awaited.

36. The following are the usual details of the remittances of whole and half ^{Remittances of} rupees made during the year :— ^{silver.}

Through Circle Offices—

| | |
|------------------------------|-------------|
| Calcutta to Lahore | 2,00,00,000 |
| Bombay to Karachi | 21,00,000 |
| Madras to Bombay | 63,00,000 |

Through Agencies—

| | |
|--|-------------|
| Ajmer to Delhi | 47,00,000 |
| " Agra | 15,00,000 |
| Cawnpore and Agencies to Delhi | 40,00,000 |
| Bombay Agencies to Karachi | 15,00,000 |
| Karachi to Quetta | 34,00,000 |
| Madras Agencies to Bombay | 37,00,000 |
| Cawnpore Agencies to Bombay | 1,00,00,000 |
| " " " Karachi | 40,00,000 |

6,12,00,000

Withdrawn and Uncurrent Coin—

| | |
|---|-----------|
| Cawnpore to Calcutta | 2,01,704 |
| Lahore and Agencies to Bombay | 22,27,300 |
| Rangoon to Calcutta | 80,000 |
| " Bombay | 4,38,280 |

Treasury Remittances—

| | Current. | Withdrawn and uncurrent. |
|---------------------------------------|------------|--------------------------|
| India Reserve | +7,73,000 | +93,14,000 |
| " other Treasuries | +16,81,000 | —7,93,000 |
| Central Provinces and Berar | +1,28,000 | —4,26,000 |
| Burma | —25,000 | —1,93,000 |
| Eastern Bengal and Assam | +2,76,000 | —7,51,000 |
| Bengal | —11,87,000 | —19,06,000 |
| United Provinces | —68,000 | —62,16,000 |
| Punjab | ... | —22,13,000 |
| Madras | —9,58,000 | —22,68,000 |
| Bombay | —6,21,000 | +54,52,000 |

The total volume of the year's remittances in current coin amounted to 6 crores against $5\frac{1}{2}$ in the year 1908-09 and $15\frac{1}{2}$ in 1907-08. The amount of remittances, however, does not, owing to the special circumstances of the year, convey a correct idea as to the trade demand for coin. In the first place, the dullness of trade in the previous year had resulted in an accumulation of coin which was distributed over the several Provinces, so that the demands during the year under report were met locally without a movement of coin to the same extent that would otherwise have been necessary. Thus the remittances which are sent in normal years to Rangoon for the rice trade, and to the United Provinces for opium payments were not required this year. In the second place, the rupees received in the previous year in payment of Demand Drafts sold on London were held in the Gold Standard Reserve at the Presidency towns of Calcutta and Bombay, and the restoration through Council Bill remittances of the Sterling branch of the reserve held in London permitted the release of an equivalent amount of silver coin in India; thus the rupees held in the Gold Standard Reserve at Bombay at the close of the year 1909-10 amounted to 2 crores only against over $8\frac{3}{4}$ crores at its beginning; the difference of $6\frac{3}{4}$ crores

was removed from the reserve against transfers made to it in England and was utilised in meeting the abnormally heavy demand for coin in Bombay for financing the cotton trade.

The usual detailed explanation of movements of coin from one circle to another is given below :—

The only important remittance in the first quarter was one of 2.35 lakhs to the Lahore Circle for issues in connection with the wheat trade, of which 2.00 lakhs were sent from Calcutta and the balance from Ajmer.

The usual feature of the second quarter is the demand at Calcutta in connection with the jute trade. The demand was not heavy and the local stock more than sufficed to meet it.

In the third quarter, 52 lakhs were sent to Delhi, 12 lakhs from Ajmer and the balance from the Cawnpore Circle, and 15 lakhs were sent to Agra from Ajmer, both the supplies being required to meet the demands of the Bank of Bengal. There was an unusually heavy demand for coin at Bombay during this quarter in connection with the cotton trade, but it was met from the transfers of coin from the Gold Standard Reserve.

The demand at Bombay for the cotton trade continued into the last quarter, and remittances aggregating 11 crores had to be sent there, 1 crore from the Madras Circle and an equal amount from the Cawnpore Circle. A remittance of 40 lakhs was also sent to Karachi from the latter circle to meet the requirements of the Spring harvest. The rice trade in Burma was financed from the local stock of coin and no remittance was sent to Rangoon.

37. The absorption of whole and half-rupees during the year as compared with the previous year is shown below :—

In Lakhs of Rupees.

| | 1908-09. | | | | | 1909-10. | | | | |

| Central Provinces and Berar | +37 | -4 | +29 | -49 | +13 | +8 | +20 | +26 | -76 | -22 |
| TOTAL | -7.98 | -7.18 | +3.39 | -3.11 | -14.88 | +47 | -58 | +10.65 | +2.68 | +13.22 |

The net absorption of rupees and half-rupees during the year amounted to 13½ crores of rupees. The figures of absorption or return from circulation during the preceding three years are noted in the margin. The chief feature of the year under report was the unprecedentedly heavy demand for coin in connection with the cotton trade in Bombay in the latter half of the year, which resulted in an absorption of coin to the extent of 11 crores in that Presidency against 3½ crores in 1906-07, the last normal year. The heaviest absorption in the Bombay Presidency in past years was 8 crores in the year 1903-04.

(+ Absorption
— return)
1906-07. +18.00
1907-08. + 3.92
1908-09. -14.88

The most important points regarding the absorption in each quarter of the year are noticed below:—

In the first quarter, the Punjab absorbed 3 crores in connection with the trade in wheat and seeds. Madras also absorbed half a crore in the trade in cereals. These issues were, however, largely counterbalanced by the receipts into treasuries in Burma and the two Bengals in payment of Government Revenue.

The issue of coin in Bengal and Eastern Bengal and Assam in the second quarter for the jute trade was not heavy in the year under report, amounting to 4 crores only; and the usual receipts of Revenue in Burma, Bombay and Northern India resulted in a net return of ½ a crore from circulation in this quarter.

The issues for jute did not continue into the third quarter, except to a small extent in Eastern Bengal and Assam; but the issues in Bombay for financing the cotton trade amounted to 8½ crores.

In the last quarter, Bombay absorbed a further 3½ crores for cotton, while there was an issue of 2 crores in Rangoon for the rice trade.

39. The following statement compares, in lakhs of rupees, the distribution

of whole and half rupees in the Currency Reserve and Treasuries at the end of 1909-10 with that at the end of the two previous years :—

| | 1st APRIL 1908. | | | 1st APRIL 1909. | | | 1st APRIL 1910. | | | PERCENTAGE. | | |
|---|-----------------|-------------|--------------|-----------------|-------------|--------------|-----------------|-------------|--------------|---------------|---------------|---------------|
| | Currency. | Treasury. | TOTAL. | Currency. | Treasury. | TOTAL. | Currency. | Treasury. | TOTAL. | 1908. | 1909. | 1910. |
| India Treasuries | 49 | 26 | 75 | 53 | 37 | 92 | 45 | 29 | 74 | 2'41 | 2'54 | 2'11 |
| Central Provinces and Berar | 1 | 97 | 98 | 20 | 80 | 1,00 | 9 | 1,12 | 1,21 | 3'14 | 2'76 | 3'44 |
| Burma | 3,46 | 51 | 3,07 | 5,63 | 41 | 6,04 | 4,98 | 68 | 5,66 | 12'73 | 16'68 | 16'11 |
| Eastern Bengal and Assam | 1,53 | 41 | 1,00 | 1,78 | 20 | 2,07 | 2,12 | 48 | 2,60 | 6'28 | 5'71 | 7'40 |
| Bengal (including Reserve Treasury, Calcutta) | 6,17 | 78 | 6,95 | 5,08 | 41 | 5,49 | 9,27 | 53 | 9,80 | 22'28 | 15'16 | 27'88 |
| United Provinces | 3,89 | 77 | 4,66 | 7,70 | 63 | 8,33 | 5,74 | 60 | 6,34 | 14'94 | 23'19 | 18'02 |
| Punjab and N.-W. Frontier Province | 2,20 | 65 | 2,85 | 3,68 | 55 | 4,23 | 1,56 | 52 | 2,08 | 9'14 | 10'00 | 5'92 |
| Madras | 2,44 | 83 | 3,27 | 4,10 | 87 | 4,97 | 3,45 | 78 | 4,23 | 10'48 | 13'72 | 12'04 |
| Bombay | 4,97 | 83 | 5,80 | 2,93 | 77 | 3,70 | 1,92 | 87 | 2,49 | 18'60 | 10'22 | 7'08 |
| TOTAL | 25,18 | 6,01 | 31,19 | 31,11 | 5,10 | 36,21 | 19,18 | 5,87 | 25,15 | 100'00 | 100'00 | 100'00 |

The above statement shows that at the end of the year all the provinces except Bombay were well stocked with rupees and half rupees.

Treasury Statistics.

40. The transactions in notes, at the several Government Treasuries during the past three years, have been as follows :—

| | 1907-08. | 1908-09. | 1909-10. |
|--|---------------------|---------------------|---------------------|
| | R | R | R |
| Receipts from the Public in payment of Government dues | 26,78,76,305 | 24,90,06,280 | 29,24,83,875 |
| Receipts from the Public in exchange for silver | 2,87,09,625 | 2,75,52,240 | 3,85,31,430 |
| Receipts from the Public for other notes | 61,60,430 | 86,27,945 | 1,01,52,975 |
| TOTAL RECEIPTS | 30,27,46,360 | 28,51,85,565 | 34,11,68,280 |
| Issues to the Public in payment of Government dues | 12,37,99,695 | 13,43,79,440 | 14,64,93,710 |
| Issues to the Public in exchange for silver | 5,96,25,045 | 7,26,37,150 | 6,55,07,174 |
| Issues to the Public for other notes | 61,60,430 | 86,27,045 | 1,01,52,975 |
| TOTAL ISSUES | 18,95,85,170 | 21,56,43,635 | 22,21,53,859 |

The receipts in payment of Government dues have increased largely in the year under report and the issues slightly. In the case of transactions in exchange for silver, receipts have somewhat risen while issues have declined. The receipts and issues in connection with other notes have been going up steadily.

41. The total Treasury transactions in notes during the three years are shown below in lakhs of rupees :—

| | 1907-08. | 1908-09. | 1909-10. |
|---|--------------|--------------|--------------|
| Government of India | 3,02 | 2,90 | 4,63 |
| Central Provinces and Berar | 1,32 | 81 | 1,14 |
| Burma | 2,89 | 2,92 | 3,47 |
| Eastern Bengal and Assam | 3,31 | 3,09 | 3,30 |
| Bengal | 7,34 | 6,82 | 7,16 |
| United Provinces of Agra and Oudh | 5,44 | 7,89 | 8,14 |
| Punjab and North-West Frontier Province | 8,68 | 9,17 | 10,90 |
| Madras | 8,30 | 7,99 | 8,35 |
| Bombay | 8,93 | 8,49 | 9,24 |
| TOTAL | 49,23 | 50,08 | 56,33 |

42. The following statement gives information as to the ability of Treasuries to cash notes during the past three years :—

| | 1907-08. | 1908-09. | 1909-10. |
|--|-----------------------|------------|------------|
| | Number of Treasuries. | | |
| Where encashment of notes was not refused on any day in the year | 164 | 167 | 161 |
| Where encashment was rarely refused | 48 | 43 | 54 |
| Where encashment was generally refused | 20 | 22 | 16 |
| TOTAL | 232 | 232 | 231 |

Treasuries at branches of the Presidency Banks are excluded from this statement. It is not to be understood from the above figures that a majority of Treasuries could have cashed large values of notes, but merely that they did so in the case of small quantities presented by the ordinary non-trading public. Traders, knowing that it would be useless to ask for large sums in silver in exchange for notes, do not make the attempt.

43. Statement VIII in the Appendix shows the proportions of Treasury and Bank balances which, in each Province, were held in the form of Currency notes. Excluding Reserve Treasuries, the percentage of balances held in notes was :—

| | 1908 Balance in | | 1909 Balance in | | Percentage of notes. | |
|---------------------------|-------------------------|---------|--------------------|---------|-------------------------|-------|
| | Notes. | Cash. | Notes | Cash. | 1908. | 1909. |
| | In thousands of rupees. | | | | Per cent. | |
| Calcutta Circle | 38,84 | 1,20,91 | 36,03 | 1,14,15 | 24 | 24 |
| Bombay " | 27,45 | 74,33 | 33,24 | 74,51 | 26 | 31 |
| Madras " | 15,24 | 69,75 | 17,39 | 80,38 | 18 | 18 |

44. The figures of receipts and expenditure in Statement VI of the Appendix are only approximate, as the accounts of 1909-10 are not yet closed. The charges of the year were less than those of 1908-09 by Rs 1,91,000. This decrease is the net result of smaller charges for note forms due to a reduced supply from England counterbalanced by an increase in the establishment and other charges including larger outlay for the repairs of the Currency Buildings at Calcutta.

Receipts and
Expenditure.

I have the honour to be,

SIR,

Your most obedient Servant,

O. T. BARROW,

Head Commissioner

No. 1.

A. EARLE,

Offg. Secretary to the Government of India.

SPECIAL CENSUS SCHEDULE FOR PERSONS WORKING IN MINES, FACTORIES, ETC.

Nos. 233-249.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

CENSUS.

Simla, the 28th July 1910.

RESOLUTION.

1. The general and household schedules sanctioned for adoption throughout British India at the Census of 1911 were published with the Home Department resolution nos. 67—81 (Census), dated the 31st March 1910. Before the date of that resolution the Census Commissioner for India represented that the general tables of occupations, while they would indicate the main functional distribution of the people, distinguishing workers from dependants, and would give statistics of occupations combined with agriculture, and of occupation by caste, would furnish very meagre information regarding industries and, in particular, no reliable information regarding recent industrial developments. He pointed out that an attempt was made in 1901 to distinguish between workers in factories and those engaged in home industries, and also to distinguish, in the case of factories, between "owners, managers and superior staff" and "operatives", but that the entries in the schedules were far too vague to permit of accurate information on these points being obtained. He therefore recommended that, in addition to the general and household schedule, a special schedule should be prescribed for persons working in mines, factories, etc. His proposal has been generally approved by the local Governments and Administrations and the Government of India have decided to prescribe in connection with the coming census, in addition to the general and household schedule, a special industrial schedule in the form appended to this resolution, to be filled in by the owners or managers of factories, mills, etc., in which at least twenty persons are employed.

2. A list of the industries, with reference to which the Government of India think it desirable that information should be compiled in the form of the special schedule, is attached to this resolution. Local Governments are, however, at liberty to include in the list any other industries for which they desire to have statistics.

3. The examples given below question 1 in the schedule should be chosen locally with reference to the circumstances in each province.

ORDER.—Ordered that a copy of this resolution, with its annexures, be forwarded to all local Governments and Administrations* for information and guidance, and also to the Foreign Department and to the Census Commissioner for India.

A. EARLE,

Offg. Secretary to the Government of India.

District _____ Thana (Tahsil, etc.) or Town _____

Special Census Schedule to be filled in by the Owners, Agents or Managers of Mines, Factories, Works, Mills, etc., in which at least 20 persons are employed.

1. Description of mine, factory, works or mill, etc. 1. _____
(Please state clearly what the nature of the factory, etc. is, e.g., Jute Press, Jute Mill, Wool- len Carpet Weaving Establishment, etc.) _____

2. Name and caste (or nationality, in the case of 2. _____
Europeans) of owner. If a Company, state the name under which it is registered. _____

3. Name and caste (or nationality) of Manager 3. _____

4. Number of persons engaged in direction, super- 4. (a) EUROPEANS AND EURASIANS—
vision and clerical work (i.e., Assistant Managers, supervising engineers, overseers, clerks, etc.) Males _____ Females _____

(b) INDIANS—
Males _____ Females _____

5. Number of skilled workmen (i.e., persons who 5. (a) EUROPEANS AND EURASIANS—
require to be specially trained before they can do the work on which they are employed). Males _____ Females _____

(b) INDIANS—
Males _____ Females _____

6. Number of unskilled labourers (i.e., ordinary 6. (a) OVER 14 YEARS OF AGE—
coolies, chaukidars and menials employed in the mine, works, etc.) Males _____ Females _____

(b) UNDER 14 YEARS OF AGE—
Males _____ Females _____

7. Is any mechanical power employed? If so, state 7. _____
whether water, steam, oil, etc.

8. Is the state of your trade on the 10th March 8. _____
1911 brisker or slacker than usual?

[N.B.—In answering use *one* only of the following phrases, and no other!—

- (1) Much brisker than usual.
- (2) Brisker than usual.
- (3) Somewhat brisker than usual.
- (4) Normal.
- (5) Somewhat slacker than usual.
- (6) Slacker than usual.
- (7) Much slacker than usual.]

LIST OF INDUSTRIES.

Provision of Vegetable Food.

Tea, coffee, cinchona and indigo plantations. Biscuit factories. Flour, oil and rice mills. Bakeries. Sugar factories. Dairy farms. Fish-curing works.

Provision of Drinks, Condiments and Stimulants.

Breweries. Distilleries. Aerated water, opium, ice and tobacco factories. Water works.

Light, Fuel and Forage.

Gas and electric light works. Match factories. Petroleum refineries. Oil mills, Collieries. Forage presses.

Building Materials.

Brick and tile factories. Stone, marble and cement works.

Vehicles and Vessels.

Railway, tramway and coach building factories. Shipwrights.

Supplementary requirements.

Paper mills. Printing presses. Mica-splitting factories.

Furniture.

Furniture factories.

Arms and Ammunition.

Arms and ammunition factories. Arsenal. Gunpowder and gun-carriage factories.

*Textiles, Fabrics and Dress.**(a) Wool.*

Carpets, blankets, woollen cloth and shawl weaving factories. Felt and pashm factories.

(b) Silk.

Silk filatures and mills.

(c) Cotton.

Cotton ginning, cleaning and pressing mills. Thread glazing and polishing factories. Cotton spinning, weaving and other mills. Tent factories. Cotton carpet and rug-making.

(d) Jute, Hemp, etc.

Jute presses. Jute mills. Rope works. Hemp mills. Fibre matting and bag makers.

(e) Dress.

Hosiery and umbrella factories.

*Metals and precious stones.**(a) Gold, silver and precious stones.*

Mints. Gold mines. Jewellery workshops.

(b) Other metals.

Brass foundries. Iron foundries. Iron and steel works. Machinery and engineering workshops. Lock and cutlery works. Aluminium factories. Iron and manganese mines.

Earthenware.

Pottery works.

Wood, Cane, etc.

Carpentry works. Sawmills.

Drugs, Gums, Dyes, etc.

Cutch, lac, soap and chemical factories. Saltpetre refineries. Dye-works.

Leather, etc.

Tanneries, brush and leather factories. Bone mills.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th August 1910, based on the Indian Daily Weather Reports of the period.

1. The area of low pressure in the Bay, referred to in last week's report, travelled slowly northwards and developed into a cyclonic storm when off Orissa. It crossed the coast near False Point and moved in a westnorthwesterly direction, its centre on the 4th being near Bilaspur. Very heavy rain fell to the south of its track in the northeast of the Central Provinces, where Raipur on the 4th reported a fall of 14.58", but the Bay monsoon current was throughout the week comparatively weak and the regions served by it to the north of the depression received very little rain.

2. The Bombay monsoon was much more active than the Bay current and occasioned heavier rain than usual in Gujarat, Rajputana, Central India West and throughout the peninsula, except in Madras Southeast. In the United Provinces fairly general rain was reported on the 2nd and 3rd, and the week's rainfall was equal to the average in the western half.

3. *Burma.*—Rainfall was nearly general in Lower Burma and local in Upper Burma. Skies were moderately to heavily clouded.

Northeast India, including Orissa.—Rainfall was fairly general but comparatively light, except in Orissa at the close of the week where heavy rain was given by the depression in the Bay. Cloud was moderate to heavy.

The United Provinces, Central India and the Central Provinces.—Rain fell in all parts of the division, and was most widespread on the 2nd and 3rd in the United Provinces, and on the 3rd and 4th in the Central Provinces and Central India. Cloud decreased considerably towards the close of the week in the United Provinces. The maximum temperatures reported on the 31st July and 1st August were in moderate to considerable excess in Central India and the west of the Central Provinces.

Northwest India.—Scattered falls of rain occurred in the Punjab, chiefly along the hills, but rainfall was nearly general in west Rajputana and fairly general in Gujarat and east Rajputana. Skies were densely clouded in the southern half of the division. Temperature was locally in defect in the areas of rainfall.

The Peninsula.—Very little rain fell in southeast Madras and the Madras Deccan, but in other parts of the peninsula rainfall was fairly general, some moderately heavy falls being recorded on the north Madras coast. Cloud was moderate to heavy. Maximum temperature was below the normal during the first few days of the week in Mysore and Madras.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

July 29th. Bhamo 2.45", Jalpaiguri 3.90", Darjiling 3.94", Purnea 2.17", Dehra Dun 4.30", Chakrata 2.53", Sutna 2.87", Karwar 3.33", Mangalore 4.53", Ahmednagar 5.40" and Aurangabad 4.69".

" 30th. Dinajpur 2.52", Dehra Dun 2.93", Goa 3.90", Karwar 6.00" and Nizamabad 2.09".

" 31st. Jalpaiguri 5.18" and Ratanagiri 5.55".

August 1st. Chakrata 3.69", Akola 3.16" and Surat 3.15".

" 2nd. Tavoy 4.76", Silchar 2.35", Allahabad 1.87", Mainpuri 3.65", Chakrata 2.72", Saugor 2.06", Mount Abu 2.77", Rajkot 3.88" and Gopalpur 3.27".

" 3rd. Balasore 2.14", False Point 2.89", Cuttack 4.81", Raipur 2.62", Simla 2.01" and Deesa 1.95".

" 4th. Tavoy 7.60", Moulmein 4.07", Cuttack 3.96", Sambalpur 4.86", Pendra 2.72", Raipur 14.58", Chanda 2.15", Surat 2.35", Ahmedabad 2.31" and Rawalpindi 2.39".

5. The rainfall of the whole period from 29th April to 4th August is 20 per cent or more in excess in Eastern Bengal, the North-West Frontier Province, Sind, Mysore, Madras Southeast and Madras Coast North; and in defect by the same amount in the United Provinces, Central India East, Kashmir, Punjab Southwest and Baluchistan. Over the rest of the country rainfall differs from the normal by less than 20 per cent.

SIMLA;
The 4th August 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
30th July 1910.

Burma.—The rainfall was fairly general and mostly moderate. Ploughing and sowing for winter rice continue and transplantation is progressing. Sowing of sesamum and groundnut is in progress. Crop prospects have been improved by the recent rains and are on the whole good; but in parts of Sandoway, Prome, Mergui, Thayetmyo, Minbu, Meiktila and Myingyan young plants are yet in a poor condition owing to insufficiency of rain. In the Tigyain township of Katha miscellaneous crops have been damaged slightly by flood. The price of unhusked rice has risen considerably in Myaungmya and Tavoy and has fallen considerably in Thayetmyo. Elsewhere prices are practically stationary.

Eastern Bengal and Assam.—The rainfall was heavy except in Malda where it was light. The heavy downpour has caused high floods in Assam and in parts of Eastern Bengal with some damage to standing crops. Cutting and steeping of jute are in progress and prospects are fair. Harvesting of autumn rice is going on and considerable damage by floods is reported from several districts. Transplanting of winter rice continues. Prospects are fair. Plucking of tea is progressing but its condition is not satisfactory. More warmth is required. The average price of common rice has fallen by one per cent. Cattle disease prevails in Chittagong, Malda, the Naga Hills, Goalpara, Darrang, and Sibsagar.

Bengal.—The rainfall was general all over the Province, the fall being heavy in Burdwan, Patna, Champaran, Purnea, Darjeeling, the Sonthal Parganas, Cooch Behar and in parts of Hazaribagh, Saran, Birbhum, Midnapore and the districts of the Presidency division; light in Hooghly and Palamau and moderate in the rest of the Province. Transplantation of winter rice is going on but more rain is wanted for the purpose in parts of Birbhum, Bankura, Hooghly, Howrah, Khulna, Gaya, Shahabad, Sambalpur, Palamau and Manbhum. Transplantation is reported to be retarded for want of sufficient moisture in Bankura and Manbhum while it has been stopped temporarily on low lands on account of excessive rain and floods in Champaran, Bhagalpur and Purnea. Damage has been done to jute by insect pest in Nadia and the Sonthal Parganas and to autumn crops by floods in Champaran, Muzaffarpur, Bhagalpur and Purnea. The price of common rice has risen in Midnapore, Nadia, Murshidabad, Jessore, Champaran, Muzaffarpur, Monghyr, Bhagalpur, Purnea, Darjeeling, the Sonthal Parganas, Sambalpur, Manbhum and Cooch Behar and has fallen in Shahabad and Saran. Cattle disease is reported from sixteen districts. The fodder and water-supply is sufficient throughout the Province.

United Provinces.—Heavy rain fell in the Himalayan and most of the submontane districts; also in the south-east. Elsewhere the rainfall, either during or just after the close of the week, greatly improved prospects and lessened anxiety. Urgent need for rain is now reported only from Meerut and parts of Agra and Hamirpur, though fifteen other districts require more rain mostly for transplantation of rice. Some damage has been caused by floods in the eastern submontane districts especially in Gorakhpur. Weeding, sowing of delayed autumn crops and ploughing for spring crops are in full swing. Fodder and supplies are ample. Sporadic cattle disease is reported from twenty-eight districts. The rain has checked the recent rise in prices which are generally stationary.

Punjab.—The rainfall was moderate in Ambala, Jullundur, Sialkot and Rawalpindi and light in other districts except Ferozepore and Multan where no rain was received. More rain is needed in certain districts. Sowings of autumn crops continue in several districts. Standing crops are generally in good condition. Crops depending on rain have been scorched badly by dry winds in Rohtak. Prices are generally unsettled. The condition of cattle is generally good. Fodder is sufficient. Complaints of a short supply of canal water are still being received from the Samundri tahsil of the Lyallpur district.

North-West Frontier Province.—Moderate showers fell all over the Province during the week and were beneficial to standing crops. Autumn sowings are in progress. The condition of standing crops is average. The fodder and water-supply is sufficient. The Paharpur canal has been stopped. The condition of cattle is good except in one village of the Nowshera tahsil and in two villages of the Charsadda tahsil. The public health is good. Prices of food grains are fluctuating. Prices are:—wheat 13 to 15½, maize 15 to 22½, gram 15½ to 25 and *bajra* 15 to 18 seers per rupee.

Jammu.—The rain during the week was good. Prices are fluctuating. Wheat sells from 12 to 22 and maize from 19 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—The weather was bright and warm. There is no disease among cattle. Fodder is sufficient. Autumn crops are in good condition. Prices are stationary.

Rajputana.—The rainfall during the week was in cents:—Jodhpur 35, the Hilly Tracts and Mewar 126, Banswara 74, Partabgarh 30, Tonk 35, Bundi 120, Kotah 224, Jhalawar 122, Jaipur 137, Kishangarh 71, Alwar 64, Karauli 126 and Ajmer 88. There was no rain or practically none elsewhere. Crops are withering in some places in Bharatpur for want of rain. Further sowings have commenced in Karauli and Dholpur. Damage by grass-hoppers is reported in one district of Mewar and slight damage in Jaipur for want of rain. Cattle disease prevails in Mewar, the Hilly Tracts, Banswara, Kishangarh and Ajmer. Fodder is sufficient. Prices have risen by 1½ seers in Shahpura, by 1 seer 5 chataks in Bundi and by 13 chataks in Mewar and slightly in Bikaner, Jhalawar, Alwar and Dholpur. They have fallen by 1 seer 9 chataks in Karauli, by 8 chataks in Partabgarh, Kotah, Jaipur and Ajmer and slightly in Jaisalmer, Bharatpur and Merwara.

Central India.—The rainfall was general but insufficient in Gwalior, Bhopal and Bundelkhand. Crops have been damaged slightly in Malwa and Bhopawar. Agricultural stock are generally good except for some disease. Prices continue high in Baghelkhand, are fluctuating in Indore and are steady elsewhere.

Central Provinces.—During the week light to heavy rain fell in all districts. The principal falls in inches were:—Buldana 6, Drug 5, Saugor, Raipur and Amraoti each 4 and Bilaspur, Akola and Yeotmal each 3; in Narsinghpur, Hoshangabad, Nimar, Mandla, Seoni, Chhindwara, Balaghat and Chanda the rainfall ranged from 1 to 2½ inches. Elsewhere the quantity registered did not exceed 69 cents. The rain was not evenly distributed everywhere and more rain is needed especially in rice districts except in Berar and a few districts of the Central Provinces. Sowing of autumn crops has not yet been completed in Damoh, Jubbulpore, Mandla, Hoshangabad, Betul, Wardha, Chanda, Bhandara, Drug, Raipur, Yeotmal and Amraoti. Weeding in eleven districts and ploughing of land for sowing of spring crops in seven districts continue. Caterpillars have begun to damage rice seedlings in parts of the Chanda and Garchiroli tahsils of the Chanda district, but this would be remedied by a good shower. The condition of standing crops is generally good and germination is satisfactory. The supply of fodder and water is sufficient. Cattle are doing well. Prices:—The price of wheat remained stationary in twelve districts, rice in sixteen, gram in seventeen and *jwar* in nineteen districts. Wheat became cheaper by 2 seers per rupee in Nimar.

Federal States.—Raigarh had 4½ inches of rain during the week. The rainfall in other States ranged from 54 cents to 3 inches. Sowing of autumn crops still continues. More rain is urgently required in Nandgaon and Sakti to facilitate transplantation and thinning operations. Kawardha, Chhuikhadan and Sarangarh also want rain. Germination is generally good everywhere. Fodder and water are sufficient. Prices:—wheat became dearer by 2 seers per rupee in Jashpur.

Bombay.—Heavy rain fell during the week in Colaba, Kanara, Baroda, Savantvadi and Kolhapur; good in Surat, Thana, Ratnagiri, Khandesh, Nasik, Ahmednagar, Sholapur, and Kathiawar; moderate in Ahmedabad, Kaira, Broach, Poona, Satara, the Karnatak, Cutch, Mahi Kantha and Rewa Kantha and slight in the Panch Mahals and Palanpur.

The rainfall was general and beneficial but more is needed in parts of Thar and Parkar, Ahmedabad, Kaira, the Konkan, West Khandesh, Nasik, Poona, Sholapur, Belgaum, Dharwar, Palanpur and Kolhapur. Autumn sowings generally continue. Transplantation is progressing in parts of Sind, Ahmedabad, Kaira, Surat, the Konkan, Belgaum and Savantvadi but has been retarded in parts of Nasik, Poona and Satara for want of sufficient rain and in Karachi owing to floods. Cotton sowing is progressing in parts of Ahmedabad, Broach, Surat, West Khandesh, Baroda and Cutch. The fodder-supply is generally adequate. Agricultural stock are sufficient except in parts of Ahmednagar, Poona, Sholapur and Satara and are generally in good condition. Drinking water is generally sufficient. Irrigation water is adequate except in parts of Poona and Belgaum. Grain stocks are sufficient. Prices have risen in Hyderabad and Kanara; have fallen in Karachi, Sukkur, Khandesh and Bijapur and are stationary elsewhere. The quantity purchasable per rupee is in Sind 31 to 40 per cent; in Gujarat 7 to 26 per cent; in the Konkan 13 to 33 per cent; in the Deccan 11 to 30 per cent and in the Karnatak 22 to 37 per cent less than the normal.

Hyderabad.—The average rainfall for the Dominions was 2 inches 62 cents during the week. The rainfall was general averaging in the Mahrattwara-districts from 1 inch 37 cents in Raichur to 3 inches 22 cents in Aurangabad and in Telingana from 2 inches 15 cents in Nalgonda to 3 inches 59 cents in Adilabad. Prospects are satisfactory. The heaviest falls occurred in the Aurangabad, Adilabad, Parbhani, Karimnagar, Mahbubnagar, Nalgonda and Nander districts. Autumn sowings are proceeding and weeding of autumn crops has begun in many parts. Autumn sprouts are generally fair except in parts of Raichur and Warangal. Crops have been damaged somewhat by insects in parts of Telingana. Water scarcity is reported in three talukas and cattle disease in twelve. Fodder scarcity prevails in four talukas. Prices:—wheat and coarse rice 6½ and *juar* 13 seers per rupee showing a fall of one-fourth seer in the price of *juar*. White *juar* is selling in Hyderabad City at 11 and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Medak and Karimnagar and the lowest 24 seers in Bidar.

Mysore.—The rainfall was good throughout the State. Prices of food grain are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 7 inches 87 cents. Transplanting of rice continues. Prices of food grains are stationary. The public health is fair. Water and fodder for cattle are sufficient.

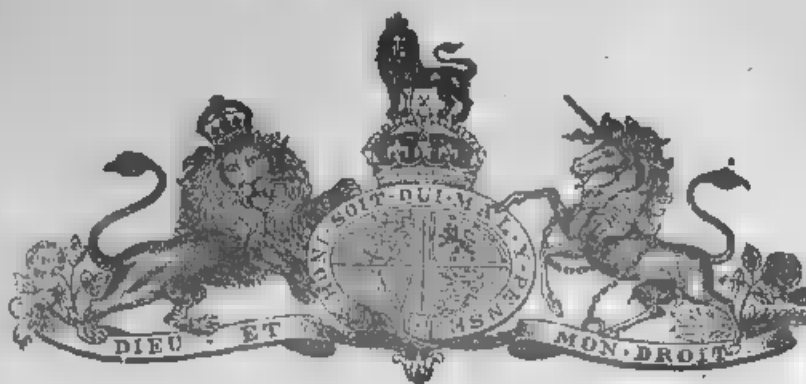

Madras.—The rainfall was very heavy in South Canara, Madras, North Arcot and Malabar; heavy in Godavari, Anantapur, Bellary, Cuddapah and Salem; light to fair in Tinnevely and Madura and good elsewhere. The rainfall in eighteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Anantapur, Cuddapah, South Arcot, Coimbatore, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair, but some in parts of Guntur require more rain and some in parts of Bellary have been damaged by grass-hoppers. Harvests continue in parts with outturn poor to normal. Pasture is insufficient in parts of Guntur, the Deccan, Coimbatore, Ramnad and Tinnevely. Fodder is scanty in parts of Godavari, Guntur, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in eighteen districts; has fallen in four and has risen in two. The prices of millets have fluctuated as follows:—*Ragi* is stationary in ten districts; has fallen in six and has risen in six. *Cholam* is stationary in five districts; has fallen in seven and has risen in three. *Cumbu* is stationary in four districts; has fallen in six and has risen in six. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

Statement of Approximate Gross Earnings of Indian
Railways.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India

No. 33 }

CALCUTTA, SATURDAY, AUGUST 13, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

A. EARLE,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 11th August 1910, based on the Indian Daily Weather Reports of the period.

1. The cyclonic storm lying over Bilaspur at the close of the previous week continued to advance in a westnorthwesterly direction, but decreased rapidly in intensity and disappeared almost completely by the morning of the 6th: it occasioned moderate to heavy rain in the Central Provinces and light to moderate rain in the north of the Bombay Deccan, Gujarat and south Rajputana. On the disappearance of the storm rainfall diminished considerably, but a large increase took place on the 8th when rain was reported from practically all parts of the country east of the line joining Rajkot and Rawalpindi. Rainfall was almost as widespread on the 9th, but thereupon it decreased and on the last two days of the week was confined to a comparatively small area.

2. The Bay monsoon has given unusually heavy rain in Burma and the Bay Islands; while the rainfall due to the Arabian Sea current has been above the average in Sind, Gujarat, Rajputana West, Central India, the Central Provinces, Chota Nagpur, the Bombay Deccan, Mysore and Malabar.

3. *Burma*.—Rainfall was nearly general and in parts heavy in Lower Burma, and fairly general in Upper Burma. Cloud was moderate to heavy.

Northeast India, including Orissa.—Rainfall was comparatively light; but it was fairly widespread in Eastern Bengal and Bengal with the exception of Bihar. Cloud was only light to moderate over the greater part of northeast India on the first three days; it then increased and for the rest of the week skies were moderately to heavily overcast.

The United Provinces, Central India and the Central Provinces.—Rain fell locally in the United Provinces, but nearly general rain fell on most days in Central India and the Central Provinces. Cloud was light to moderate in the United Provinces and moderate to heavy elsewhere; and maximum temperature was in local defect in the Central Provinces.

Northwest India.—There was more rain than usual in Sind, west Rajputana and Gujarat, and rainfall was fairly general in east Rajputana, but in the Punjab there was only one day of widespread rain and the rest of northwest India was practically rainless. Skies were moderately to heavily clouded in the southern half of the division. Temperature fell rapidly and was in general defect on the 9th in the Punjab and west Rajputana.

The Peninsula.—Nearly general rain was reported throughout the week from the west coast, during the first few days from Mysore, and on the 9th from the Bombay Deccan and Hyderabad; in other parts of the division rainfall was generally light and local. Cloud was moderate to heavy except on the 10th and 11th, when the west coast and Mysore were the only heavily clouded areas. Temperature was in defect on several days in Mysore, the Bombay Deccan and Hyderabad.

4. The following summarises the chief amounts of rainfall as reported at 8 hrs. each day:—

| | |
|-------------|--|
| August 5th. | Myitkyina 5'40", Sibsagar 2'23", Chittagong 3'32", Indore 2'11", Hoshangabad 8'67", Seoni 2'76", Nagpur 3'19", Pachmarhi 2'62", Rajkot 2'36", Belgaum 2'00" and Mercara 2'12". |
| " 6th. | Moulmein 3'00", Diamond Island 3'10", Kyaukpyu 5'05", Akyab 5'09", Sibsagar 3'33", Bogra 3'06", Dehra Dun 2'61", Bhuj 2'41", Karachi 1'06" and Mercara 2'62". |
| " 7th. | Mergui 3'95", Hazaribagh 3'05", Gorakhpur 2'50" and Bahraich 2'08". |
| " 8th. | Moulmein 3'63", Silchar 2'13", Sambalpur 3'44", Dehra Dun 3'65", Neemuch 2'35", Chanda 3'00", Pachmarhi 3'14", Mount Abu 6'21" and Deesa 2'73". |
| " 9th. | Kyaukpyu 3'40", Sambalpur 2'15", Saugor 2'53", Jubbulpore 3'30", Mount Abu 2'91", Poona 2'24" and Belgaum 2'18". |
| " 10th. | Moulmein 3'25", Akyab 4'90", Dibrugarh 2'90", Saugor 2'65", Hyderabad (Sind) 1'30" and Rajkot 2'16". |
| " 11th. | Tavoy 3'53", Kyaukpyu 3'06", Akyab 6'23", Myitkyina 2'35", Ranchi 2'27" and Nowgong 4'23". |

5. The only divisions in which the rainfall for the whole period from the 29th April to the 11th August is as much as 20 per cent in defect are the United Provinces, Central India East, Punjab Southwest and Baluchistan; an excess of 20 per cent or more is shown in the North-West Frontier Province, Sind, Gujarat, Mysore, Madras Southeast and Madras Coast North. In all the remaining divisions rainfall differs from the normal by less than 20 per cent.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 11TH AUGUST 1910. | | | RAINFALL DATA FROM 1ST APRIL 1910 TO 11TH AUGUST 1910. | | | | |
|-----------------------------------|--|--|--------------------------------------|--|-------------------------------------|--------------------------------------|---|---------------|
| | Actual rainfall in inches. | Normal rain- fall in inches. | Excess or defect in inches. | Actual rainfall of season to date in inches. | Normal rainfall in inches. | Excess or defect in inches. | SEASONAL PERCENTAGE DEPARTURE FROM NORMAL. | |

Director-General of Observatories.
E. D. MACLAGAN,
Secretary to the Government of India.

Memorandum on the monsoon conditions prevailing during June and July, with anticipations for August and September 1910.

WEATHER IN INDIA DURING JUNE AND JULY.

1. (a) The Bay current arrived upwards of a fortnight before its normal date but it was not very vigorous, and, except for a short interval about the middle of the month, failed to extend into the United Provinces. The Arabian Sea current on the other hand arrived at the average date and, notwithstanding its great unsteadiness, provided considerably more than the usual amount of rain.

In July the monsoon conditions were feebly marked, and over a large part of the country an almost complete break in the rains obtained in the second and third weeks.

(b) The combined rainfall of the two months in the plains of India fell short of the normal by 6 per cent. The defect was however neither universal nor large in amount, the only areas where it reached or exceeded 25 per cent being Central India East (47 per cent), the United Provinces West (34 per cent), Lower Burma (31 per cent) and the Bay Islands (25 per cent). On the other hand precipitation was markedly in excess in the North-West Frontier Province (2½" or 108 per cent), Sind (4" or 141 per cent), Mysore (4" or 64 per cent), Madras Southeast (3½" or 97 per cent) and Madras Coast North (5" or 53 per cent). The local distribution was thus rather irregular.

2. The following tables give for June, July, and the total period the actual rainfall, the departure from normal and the percentage departure from normal for the chief political divisions and sub-divisions :—

| Division. | JUNE. | | | JULY. | | | PERIOD, JUNE AND JULY. | | |
|----------------------------------|---------------|------------------------|-----------------------------------|---------------|------------------------|-----------------------------------|------------------------|------------------------|-----------------------------------|
| | Actual, 1910. | Departure from normal. | Percentage departure from normal. | Actual, 1910. | Departure from Normal. | Percentage departure from normal. | Actual, 1910. | Departure from normal. | Percentage departure from normal. |
| Burma ... | 15.2 | -3.1 | -17 | 16.3 | -5.0 | -23 | 31.5 | -8.1 | -20 |

ANTICIPATIONS FOR AUGUST AND SEPTEMBER 1910.

3. With regard to the monsoon conditions of the present month and September a statistical examination of the data, going back as far as 1865 in some cases, shows that preceding conditions over a large part of the earth's surface are directly or indirectly connected with the weather in India: and in some cases the relationship is close enough to form the basis of a forecast in general terms. The data for 1910 for the most important areas previous to June were given in the memorandum of the 5th June, and the information obtained since that time is as follows:—

(a) SOUTH AMERICA.

4. Pressure at Buenos Ayres was in excess in July by 0.3 m.m.

(b) AUSTRALIA.

5. The average pressure was below normal in June by '06" and in July by '02".

(c) THE INDIAN OCEAN.

6. *Mauritius*.—The barometer fluctuated widely: thus pressure was in defect in the first eleven days of June and again during the last three weeks of July, normal or almost so in the last nineteen days of June, and in excess from July 3rd to the 9th. Taking the average over June there was a defect of about '015", and over July of '045".

Zanzibar.—Pressure was below the average by '01" in June and '02" in July. The air movement was on the whole of the usual character. Rainfall was unusually scanty in June (82 per cent in defect), and well above the normal in July.

Seychelles.—Pressure and winds were nearly normal both in June and July. Rainfall was lighter than usual throughout.

Logs of vessels.—In the Arabian Sea, according to the available information, strongly marked monsoon conditions obtained from about the middle of June onwards, except for a short interval in July corresponding roughly with the break over the land area when the current was much less strong than usual. The lack of strength probably had its origin in equatorial regions, for variable winds were recorded at Zanzibar during the week preceding the setting in of the break over India. There is evidence that winds were very variable in the central portion of the equatorial belt in June and presumably also during a part of July, and the feebleness of the Bay monsoon was in part at least due to this condition.

(d) NORTHEAST AFRICA.

7. The monsoon rainfall of Abyssinia may be estimated from the Roseires gauge on the Blue Nile: the height was above the average in the second half of May and somewhat below it at the middle of June. At the beginning of July it was normal and on the 16th slightly below it. On the 1st August it was a metre, a large amount, below the average.

(e) SNOWFALL IN THE MOUNTAIN REGIONS TO THE NORTH AND WEST OF INDIA DURING JUNE AND JULY.

8. No snow fell during June and July in the Afghan mountains, and in general the accumulations at the end of July were not above the average.

In Kashmir there were a few falls, but they were apparently light and local. The snow accumulations on the Karakoram mountains are said to be greater

than usual. In Leh weather was very cloudy in the last part of July and rain and snow fell on the surrounding heights.

Little or no snow fell in the Punjab Himalayas and the accumulations there in the beginning of August were not as thick as usual.

In Kumaon and Garhwal the aggregate amount of snowfall received during the period did not exceed the normal, and the quantity of the snow remaining unmelted in the beginning of August was almost certainly less than usual.

The information available thus shows that during the past two months there has been no such abnormal snowfall as would tend to cut short or weaken the activity of the monsoon currents.

DISCUSSION OF THE DATA.

9. As far as the total rainfall of August and September is concerned the general pressure distribution outside India has during the past two months been of the same character as in April and May, decidedly favourable but unsteady. In these respects there is a fairly close resemblance to 1907; but the fact that in 1907 there had been heavy snowfall while the present year shows no excess of the kind, enables a distinction to be drawn between the two cases: it appears therefore that, although the total monsoon rainfall may perhaps be below the average, the deficiency is not likely to be large. Regarding the local distribution of rainfall it may be inferred from the absence of heavy snowfall that there is little likelihood of a deficiency of rain in northwest India by comparison with that over the rest of the country.

The present deficiency in the United Provinces has been chiefly due to the weakness of the Bay monsoon; at times when that current has penetrated up the Gangetic plain rainfall there has been comparatively light; and when the activity of the Bombay current has extended over northern India it has shown itself chiefly in the submontane districts. Those parts of the United Provinces which are not close to the hills have accordingly suffered, and, as abnormal features tend to persist, it appears doubtful whether any marked improvement in this respect will occur. It occasionally occurs however, later in the season, that a cyclonic storm takes a more northerly route than that of the disturbance which has just passed through the country, and so gives abundant precipitation in the eastern half of Central India and in the United Provinces.

The situation may be summarised as follows:—

- (a) The general outlook appears more uncertain than usual, but there is no reason for expecting a large defect in the total amount of rainfall during August and September.
- (b) The unsteadiness in the monsoon, especially in that of the Arabian Sea, is likely to persist, and there will probably be marked breaks as well as periods of plentiful rainfall.
- (c) The quantity of snow on the hills is not sufficient to exert any prejudicial influence upon the rainfall of northwest India.
- (d) The weakness of the Bay current is likely to continue, and there is no cause for anticipating an early large improvement in the rainfall of the Gangetic plain.

SIMLA;

The 6th August 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
6th August 1910.

Burma.—The rainfall was practically general. It was heavy in the Arakan and Tenasserim divisions and moderate elsewhere except in Myingyan where no rain fell. Ploughing and sowing for the main rice crop continue and are approaching completion in parts while transplanting progresses. Agricultural operations for winter rice in Thayetmyo are at a standstill for want of rain. Sowing for maize, groundnut, *juar* and sesamum continues. Crop prospects are generally more favourable but in parts of the dry zone, more rain is wanted. Some damage has been caused by floods to autumn rice in parts of the Maubin and Pantanaw townships of the Maubin district. The price of unhusked rice has risen considerably in Thaton and an unimportant change has occurred in eight other districts.

Eastern Bengal and Assam.—The rainfall was heavy but less than that of the previous week except in parts of the Rajshahi and Assam Valley divisions. Floods are subsiding gradually. Plucking of tea is progressing. Its prospects have been considerably improved and are now fairly hopeful. Harvesting of jute continues although it has suffered to some extent from floods. Transplantation of winter rice is progressing and prospects are fairly good. Cutting of autumn rice is going on. Considerable damage from floods has been reported from several districts. Cotton and sugarcane promise well. The average price of common rice has risen by about one per cent. Cattle disease prevails in Chittagong, Malda, the Naga Hills, Goalpara, Darrang, Sibsagar and Lakhimpur.

Bengal.—The rainfall was general all over the Province, the fall being heavy in Orissa; moderate in Ranchi, Manbhum, Saran, Howrah, the 24-Parganas, Jessore, Khulna and Darjeeling and generally light elsewhere. Transplanting of paddy is going on but more rain is urgently wanted for the purpose in parts of Burdwan, Birbhum, Bankura, Hooghly, the 24-Parganas, Murshidabad, Patna, Gaya, Shahabad, Purnea, Palamau and Manbhum. Weeding of autumn crops continues. Harvesting of jute has commenced in some districts. Serious damage to autumn crops and the newly planted cold weather paddy has been caused by floods in Darbhanga and in parts of Monghyr. Damage by excessive rain and floods is also reported from Champaran and Muzaffarpur. The price of common rice has risen in Bankura, Monghyr, Cuttack, Sambalpur, Hazaribagh and in the Patna and Tirhut divisions and has fallen in Murshidabad, Jessore, the Sonthal Parganas and Balasore. Cattle disease is reported from Midnapore, Murshidabad, Jessore, Patna, Gaya, Champaran, Muzaffarpur, Darbhanga, Monghyr, Bhagalpur, Purnea, the Sonthal Parganas, Angul, Puri, Sambalpur, Hazaribagh, Manbhum and Cooch Behar. The supply of fodder and water is sufficient throughout the Province.

United Provinces.—The rainfall was general and large in amount in the Himalayan, the north, central and central submontane districts. More rain is needed in parts of the western submontane districts, the upper and central Doab, South Oudh and the south-eastern districts, particularly for rice. The rainfall, however, was sufficient to remove immediate anxiety. Floods are subsiding in the eastern submontane districts. Prospects on the whole are fair and in a few districts good. Sowing of millets, transplantation of rice and weeding and ploughing for spring crops are in progress. Cattle are generally healthy though twenty-six districts report sporadic disease. Fodder and supplies are ample. Prices have fallen in ten districts and are generally stationary elsewhere.

Punjab.—Light to moderate rain has fallen during the week. There is more or less general want of rain throughout the Province. Sowings of autumn crops continue except in Delhi, Rawalpindi and Mianwali. The condition of standing crops is generally good to average. Crops in Delhi are poor. They are suffering for want of sufficient rain in the south eastern districts of the Province. Prices are rising in Delhi, Jullundur, Lahore, Amritsar, Sialkot, Rawalpindi and Multan; are falling in Ferozepore and are unchanged elsewhere. The condition of cattle is generally good. Fodder is sufficient. Complaints of a short supply of canal water are being received from the Samundri and Toba Tek Singh tahsils of the Lyallpur district.

North-West Frontier Province.—Light to moderate rain fell during the week averaging 3 cents in Peshawar to 94 cents in Swabi and was beneficial to standing crops. More rain is needed in the Peshawar tahsil. Autumn sowings are in progress. The condition of standing crops is average. The fodder and water-supply is sufficient. Irrigation from canals in the Peshawar district is satisfactory. The condition of cattle is good except in one village of the Nowshera tahsil and one village of the Mardan tahsil. The public health is good. Prices of food grains are falling slightly. Prices are:—wheat 13½ to 17½, maize 15 to 22½, gram 17½ to 25 and *bajra* 16½ to 18 seers per rupee.

Jammu.—The rainfall during the week was good. Prices are stationary. Wheat sells from 12 to 22 and maize from 19 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—Slight rain fell once during the week and was beneficial to autumn crops. There is no disease among cattle. Fodder is sufficient. Autumn crops are in good condition. Prices are stationary.

Rajputana.—Rain was reported in all States and in Ajmer-Merwara. The maximum fall was 666 cents in Jaisalmer and the minimum 91 cents in Kishangarh. Bikaner and Bharatpur, however, report slight showers. More rain is urgently needed in Bharatpur. Standing crops are generally good but are withering in places in Bharatpur for want of rain. Cattle disease is prevalent in a few places in Melwar, the Hilly Tracts, Banswara and Ajmer. Fodder is sufficient. Prices show a tendency to fall.

Central India.—The rainfall was general but insufficient in Gwalior. Crops have been damaged slightly in Gwalior, Indore, Malwa and Bhopawar. Agricultural stock are generally good except for some disease in parts of Gwalior, Indore, Bundelkhand and Bhopawar. Prices continue high in Baghelkhand, are fluctuating in Indore and are steady elsewhere.

Central Provinces.—During the week moderate to heavy rain fell all over the Provinces. It was well distributed and did much good to standing crops. Raipur had the heaviest fall of 20 inches which caused floods in villages and some damage to rice where thinning operations were in progress. Nimar received only 2 inches while in the remaining districts the rainfall ranged between 4 and 12 inches. In Bilaspur the 5 inches received were insufficient for the completion of thinning of rice in high lying land and more rain is also required in Jabulpore. A break is desirable in Wardha and Raipur. Sowing of autumn crops still continues in Damoh, Jabulpore, Mandla, Narsinghpur, Nimar and Yeotmal. Transplantation and thinning are in full swing in rice districts. Weeding of autumn crops and preparation of land for sowing of spring crops are in progress in several districts. Prospects, at present, are generally good. Fodder and water are adequate. Agricultural stock is in good condition. Prices:—The price of wheat remained stationary in fourteen districts, gram in eighteen, rice in nineteen and *juar* in twenty. Fluctuations are unimportant elsewhere and generally exhibit a tendency to fall.

Feudatory States.—The rainfall during the week measured, in inches :—Nandgaon 12, Chhuikhadan 8, Kanker 7, Sirguja 3, Raigarh and Jashpur each 2 and Korea 1. Sowing of autumn crops and thinning and transplantation of rice are in full swing. The condition of standing crops is generally good. The supply of fodder and water is sufficient. Prices :—Rice became cheaper by 2 seers per rupee in Jashpur.

Bombay.—Heavy rain fell during the week in the Konkan, Nasik, Poona, Satara, Belgaum, Kathiawar, Baroda, Palanpur, Mahi Kantha, Rewa Kantha, Savantvadi and Kolhapur; good in Gujarat, Khandesh and Cutch; moderate in Karachi, Thar and Parkar, Ahmednagar and Dharwar and slight in Sukkur, Larkana, Hyderabad, the Upper Sind Frontier, Sholapur and Bijapur. The rainfall was general and beneficial but more is needed in parts of Ahmedabad, Kaira, Kanara, Sholapur, Satara, Belgaum, Dharwar and Kolhapur. Autumn sowings generally continue. Transplantation is progressing in parts of Sukkur, Larkana, the Upper Sind Frontier, Ahmedabad, Surat, Kaira, the Konkan, Nasik, Ahmednagar, Poona, Belgaum and Savantvadi but has been retarded in Karachi owing to floods. Cotton sowing is progressing in parts of Ahmedabad, Broach, Surat, West Khandesh, Baroda and Cutch. The fodder-supply is adequate. Agricultural stock is sufficient except in parts of Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. Water for drinking and irrigation is generally sufficient. Grain stocks are sufficient. Prices have risen in Karachi; have fallen in Ahmedabad, Kanara and Ahmednagar and are stationary elsewhere. The quantity purchasable per rupee is in Sind 32 to 44 per cent; in the Konkan 13 to 33 per cent; in the Deccan 11 to 30 per cent and in the Karnatak 22 to 37 per cent less than the normal. In Gujarat the quantity purchasable per rupee ranged from normal to 26 per cent less than the normal.

Hyderabad.—The average rainfall for the Dominions was 1 inch 83 cents during the week. The rainfall was good everywhere averaging from 1 inch 19 cents in Bir to 3 inches 85 cents in Nizamabad. The heaviest falls occurred in the Nander, Aurangabad, Nizamabad and Bidar districts. Autumn sowings have been suspended in the Lingsugur taluka of the Raichur district for want of rain. Autumn crops are generally fair except in parts of Raichur owing to inadequate rain and are still being damaged by insects in some parts of Telingana. Spring sowings began in parts, especially in parts of the Mahbubnagar district. Water scarcity is reported in three talukas and cattle disease in fifteen. Fodder scarcity prevails in five talukas. Prices :—wheat and coarse rice 6½ and *juar* 13½ seers per rupee, showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City between 12 and 13 seers per rupee, showing a fall of 1 seer in the price of white *juar*. The highest price in districts is 8 seers in Karimnagar and the lowest 24 seers in Bidar.

Mysore.—The rainfall was good in Hassan, Kadur and Shimoga and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 13 inches 49 cents. Transplanting of rice continues. Prices of food grains are rising. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in the Vizagapatam Agency, Malabar, South Canara, the Nilgiris and Ganjam; heavy in the Vizagapatam littoral; good in Godavari, Kistna and Guntur; nil in Trichinopoly, Madura and Ramnad and light to fair elsewhere. The rainfall in sixteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Anantapur and Cuddapah. Standing crops in parts of Vizagapatam have been affected by excessive rain; some in parts of Bellary have been damaged by insects and some in parts of Guntur require more rain. Harvests continue in parts with outturn poor to normal. Pasture is

insufficient in parts of Guntur, Bellary, Anantapur, South Arcot, Coimbatore and Ramnad. Paddy is scanty in parts of Godavari, Nellore, North Arcot, Coimbatore, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair. Cattle are generally good. The price of rice is stationary in sixteen districts; has fallen in one and has risen in seven. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in seven and has risen in seven. *Cholam* is stationary in five districts; has fallen in five and has risen in five. *Cumbu* is stationary in five districts; has fallen in five and has risen in six. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are sufficient.

Nepal—*Report for the quarter ending 15th July 1910*:—Potatoes, wheat and barley were harvested in April and May in the hills and in the Nepal Valley; the crops generally were up to a fair average. The rains broke early in June and enabled the transplanting of rice in the low lands to be commenced in good time. The rainfall has continued steadily to the benefit of rice cultivation and the standing crops of rice and pepper in the valley and of maize in the hills are at present in good condition. A break in the rains and some more sunshine is, however, desirable especially for maize. The fruit crop has not been plentiful, plums especially suffering from the rain and from windy weather. Prices of food stuffs have been normal with the exception of that of *ghi* which has ruled high owing to importation having been checked by the fear of cholera which has prevented its being brought to the Nepal Valley from the hills. The rainfall was 27·18 inches as compared with 29·96 inches during the same period last year. No disease among cattle has been reported.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Shimla.

SUPPLEMENT TO
The Gazette of India.

No. 34. } SIMLA, SATURDAY, AUGUST 20, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,
the 18th August 1910, based on the Indian Daily Weather
Reports of the period.**

1. The Arabian Sea monsoon has throughout the week given rain chiefly in Bihar, the United Provinces, the western submontane districts and the south of the peninsula, while the Bay current has been confined principally to Burma and Eastern Bengal and Assam.

2. A low pressure area formed in Bengal and moving northwestwards gave heavy rain in south Bihar, while a succession of heavy falls occurred at Gorakhpur, where the week's rainfall amounted to over 24 inches: Dehra Dun also received heavy rain, but very little fell in the southwestern districts of the United Provinces, in the area represented by Jhansi, Agra and Mainpuri.

3. The week's rainfall has been below the average over the greater part of the country: it has been in excess in Eastern Bengal and Assam, Chota Nagpur, Bihar, the United Provinces, the east and north Punjab and southeast Madras; and has been approximately normal in Lower Burma, Bengal proper, Orissa, Mysore and Malabar.

4. *Burma.*—Only a few falls of rain occurred in Upper Burma, but in Lower Burma rainfall was nearly general. Skies were moderately to heavily clouded.

Northeast India, including Orissa.—Nearly general rain fell daily in Eastern Bengal and Assam, and fairly general rain in Bengal. Skies were moderately to heavily clouded, and in Bihar day temperature was lower than usual.

The United Provinces, Central India and the Central Provinces.—Rainfall in the United Provinces was fairly general except in the area represented by Mainpuri, Agra and Jhansi; in Central India East and the Central Provinces fairly general rain fell during the first part of the week, but on the remaining days there were only a few light falls. Cloud was light in the dry area of the United Provinces and moderate to heavy elsewhere; and the maximum temperatures reported on the 12th, 13th and 14th were below the normal in Central India East, the Central Provinces and parts of the United Provinces.

Northwest India.—There were occasional falls of rain in all parts of the Punjab except the extreme Southwest, and there were local showers in Kashmir, Rajputana and Gujarat. Skies were moderately to heavily clouded along the Himalayas and in the south of the division, and were generally clear or only lightly clouded elsewhere. Day temperature was lower than usual on the 13th, 14th and 15th in the Punjab and Rajputana.

The Peninsula.—Rainfall was light and local in character, the Konkan being the only area where it was nearly general. Cloud was light to moderate over the greater part of the division.

5. The following gives the chief amounts of rainfall as reported at 8 hrs. each day:—

- August 12th. Kyaukpyu 2'95", Akyab 5'60", Myitkyina 2'20", Jessore 3'15",
Gorakhpur 2'55", Lucknow 1'60", Bareilly 3'67", Roorkee 1'92",
Delhi 1'70" and Sialkot 2'98".
- " 13th. Akyab 4'60", Chittagong 3'47", Jessore 2'18", Dinajpur 2'25",
Sambalpur 2'37", Ranchi 3'84", Hazaribagh 2'27", Gorakhpur
2'25", Benares 1'57", Cawnpore 1'90", Bareilly 2'75", Meerut
2'34", Roorkee 3'94", Dehra Dun 5'90", Raipur 1'92", Simla
2'88", Ambala 2'40" and Sialkot 1'93".
- " 14th. Cherrapunji 7'45", Patna 3'34", Gaya 5'71", Gorakhpur 2'65",
Benares 3'32", Dehra Dun 3'11", Simla 2'30" and Gulmarg 2'05".
- " 15th. Tavoy 6'48", Toungoo 2'82", Bhamo 1'96", Dhubri 2'10", Cherrapunji
8'02", Bogra 2'36", Jalpaiguri 4'12", Darjiling 2'70" and Manga-
lore 3'79".
- " 16th. Lashio 3'11", Cherrapunji 8'20", Dinajpur 3'60", Patna 3'56", Gorakh-
pur 4'80" and Dehra Dun 3'14".
- " 17th. Jalpaiguri 3'35", Patna 4'40", Gorakhpur 5'70" and Dehra Dun 5'01".
- " 18th. Tezpur 5'64", Gorakhpur 3'10", Bahraich 3'20", Dehra Dun 3'60" and
Negapatam 3'05".

6. The rainfall for the whole period from the 29th April to the 18th August is in defect by as much as 20 per cent only in the divisions of Central India East, Rajputana East, Baluchistan and Hyderabad South; it is 20 per cent or more in excess in Eastern Bengal, the North-West Frontier Province, Sind, Mysore, Madras Southeast and the Madras Coast North; and is within 20 per cent of the normal amount over the remainder of the country.

Season and Crop Prospects for the week ending Saturday,
13th August 1910.

Burma.—Heavy rain fell in Arakan and Tenasserim. It was mostly light in the dry zone but no rain fell in Pakokku and Lower Chindwin. Elsewhere the rainfall was moderate. Ploughing and sowing for the main rice crop have been completed in a few places and transplanting is progressing. Sowing of millet continues generally and reaping of early sesamum has commenced in Lower Chindwin. Crop prospects have been improved by recent rains but more rain is still required in Thayetmyo, Yamethin, Pakokku, Minbu and the Ruby Mines where crops in the higher lands are suffering. Some damage has been done to rice crops caused by floods of the Irrawaddy in the Maubin and Katha districts and sowing of autumn rice in Mandalay has been impeded from the same cause. The price of unhusked rice has risen considerably in Bassein and Mergui and has fallen considerably in Toungoo. Elsewhere prices are practically stationary.

Eastern Bengal and Assam.—More rain fell during the week. The fall was heavy in the Chittagong division and in parts of Mymensingh, Bakarganj, Bogra, Pabna, Sylhet and Lakhimpur and moderate elsewhere. The heaviest fall amounted to 17 inches at Patuakhali. Plucking of tea, harvesting of jute and autumn rice and transplantation of winter rice are in progress. Prospects are generally fair. Cotton and sugarcane are doing well. The average price of common rice has risen by about one per cent. Cattle disease prevails in Dacca, Mymensingh, Chittagong, Malda, the Naga Hills, Goalpara, Darrang and Sibsagar.

Bengal.—The rainfall was general all over the Province. It was heavy in South Bihar and in Birbhum, Jessore, Saran, Darjeeling, Sambalpur, Hazaribagh, Palamau and Cooch Behar; light in Champaran, Monghyr, Cuttack and Balasore and generally moderate elsewhere. Transplantation of paddy is going on but more rain is wanted for that purpose in parts of Birbhum, Bankura, Midnapore, the 24-Parganas, Hooghly, Murshidabad, Khulna, Purnea, the Sonthal Parganas and Puri. Damage by insects to the jute crop is reported from Nadia. Considerable damage has been caused by the recent floods in parts of Darbhanga. Heavy floods are reported from Puri but the extent of damage is not yet known. Injury to autumn crops by floods has been caused also in Gaya, Muzaffarpur, Monghyr, Bhagalpur, Cuttack and Murshidabad. The price of common rice has risen in Nadia, Murshidabad, Gaya, Shahabad, Champaran, Bhagalpur and Puri and has fallen in Saran, Darbhanga, Monghyr, Cuttack, Sambalpur and Palamau. Cattle disease is reported from fifteen districts. The fodder and water-supply is sufficient throughout the Province.

United Provinces.—The rainfall was generally copious and satisfactory but a few districts in the Doab need rain and in a few places elsewhere more rain is wanted for transplantation of rice. Prospects are generally good except for millets which are being sown in several districts. Autumn sowings are now complete. Weeding, transplantation of rice and ploughing for spring crops are in progress. Sporadic cattle disease is reported from thirty districts but the general condition of live stock is satisfactory. Fodder and supplies are ample. Prices are nearly stationary with a downward tendency.

Punjab.—Good rain has fallen in Ambala, Jullundur, Amritsar and Sialkot; moderate in Hissar, Rohtak, Delhi, Lahore, Shahpur and Rawalpindi and light elsewhere. More rain is wanted in Hissar, Rohtak and Delhi. The condition of standing crops is good to average in Shahpur and Mianwali; average in Lyallpur and Multan; poor in Delhi and parts of Shahpur and good elsewhere. Sowings of autumn crops continue. Ploughings for the next spring crops are in progress in Jullundur, Lahore and Lyallpur. The unirrigated crops are suffering for want of rain in Rohtak. Damage to crops by rats is reported from parts of Ferozepore and by floods in low-lying lands in parts of Amritsar. Prices are generally rising. The condition of cattle is generally good. Fodder is sufficient except in parts of Shahpur. Complaints of a short water-supply on account of rotational closures of canals are still being received from the Samundri and Toba Tek Singh tahsils of the Lyallpur district.

North-West Frontier Province.—Good rain fell during the week in Peshawar and Bannu but none in Dera Ismail Khan. Autumn sowings are in progress. The condition of standing crops is average. The fodder and water-supply is sufficient. Irrigation from the Pabarpur canal has commenced. The condition of cattle is good except in one village of the Mardan talsil. The public health is good. Prices of food grains are fluctuating. Prices are:—wheat 13½ to 16½, maize 19½ to 22½, gram 16½ to 23 and *bajra* 17 to 18 seers per rupee.

Jammu.—The rainfall during the week was good. Prices are stationary. Wheat sells from 12 to 22 and maize from 19 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—It rained twice during the week. The rain was beneficial to autumn crops. There is no disease among cattle. Fodder is sufficient. Autumn crops are in good condition. Prices are stationary.

Rajputana.—The rainfall was general. The maximum fall was 12 inches 47 cents in Banswara and the minimum 31 cents in Jaisalmer. Autumn sowing and weeding are in progress. Deficiency of rain in Kishangarh has affected agricultural prospects very considerably. Standing crops are good. Damage from grass-hoppers is reported from one district of Mewar. Cattle disease is still prevalent in Mewar and the Hilly Tracts but is subsiding in Banawara. Fodder is sufficient. Prices show a tendency to fall.

Central India.—The rainfall was general and sufficient. Crops have been damaged slightly in parts of Indore, Malwa and Bhopawar. Agricultural stock is good except for some disease in parts of Indore, Bundelkhand, Malwa and Bhopawar. Prices are fluctuating in Indore and are steady elsewhere.

Central Provinces.—During the week light to moderate rain fell in all districts except Amraoti. In the Vindhyan districts and the Chhattisgarh division the rainfall was between 3 and 4 inches. Jubbulpore, Narsinghpur, Hoshangabad, Mandla, Nagpur, Bhandara, Balaghat, Wardha and Yeotmal had from 1 to 2½ inches. Elsewhere the quantity registered did not exceed 70 cents. The rainfall was fairly well distributed in Chhattisgarh and has greatly benefited standing crops all over the Province. More rain is needed in Saugor and Nimar and a break will be welcome in Narsinghpur, Drug and Akola. Sowing of *juar* in Chanda, of rice and *til* in Jubbulpore and of *kodon*, *kutki* and *til* in Saugor, Mandla, Narsinghpur and Hoshangabad continues and weeding is well forward everywhere. Thinning and transplantation are rapidly proceeding in the rice districts. The condition of crops is generally good. Ploughing of land for sowing of spring crops is in progress in Saugor, Seoni, Nimar, Betul, Chhindwara, Wardha, Chanda and Buldana. Sugarcane is doing well in Bhandara and Betul. The supply of fodder and water is sufficient. Cattle are healthy. Prices:—The price of wheat remained stationary in thirteen districts, gram and rice in eighteen and *juar* in nineteen. Wheat in Chhindwara and Drug became cheaper by 2 and 4 seers per rupee respectively. Variations are unimportant elsewhere and generally indicate a downward tendency.

Frontier States.—Moderate to heavy rain fell during the week in ten States ranging from 1½ inches in Kanker to 14 inches in Raigarh. A break would be beneficial to crops in Kawardha and Raigarh. Sowing of autumn crops is approaching completion and thinning and transplantation of rice continue. Prospects are favourable. Pasturage and water are adequate. Prices:—The price of rice rose in Jashpur and fell in Korea by 2 and 3 seers per rupee respectively. Elsewhere they were steady.

Bombay.—Heavy rain fell during the week in Surat, the Konkan, Nasik, Poona, Satara, Belgaum, Kathiawar, Mahi Kantha, Rewa Kantha, Savantvadi and Kolhapur; good in Thar and Parkar, the Panch Mahals, West Khandesh, Baroda, Palanpur and Cutch; moderate in Karachi, Hyderabad, Ahmedabad, Kaira, Broach, East Khandesh and Ahmednagar and slight in Sukkur, Larkana, the Upper Sind Frontier, Sholapur, Bijapur and Dharwar. The rainfall was general and beneficial but more is needed in parts of Kaira, Sholapur, Satara, Belgaum, Dharwar and Kolhapur. A break is needed in parts of Ahmedabad, the Panch Mahals, Broach, Surat and West Khandesh. Autumn sowings continue in parts of Sind, Ahmedabad, the Panch Mahals, Kaira, the Deccan, Baroda, Palanpur, Cutch, Mahi Kantha and Savantvadi but have been retarded in West Khandesh

owing to excessive rain. Transplantation is progressing in parts of Sukkur, Larkana, the Upper Sind Frontier, Ahmedabad, Kaira, the Konkan, the Deccan, Belgaum and Baroda. Cotton sowing continues in parts of Ahmedabad, Bijapur, Baroda, Cutch and Kolhapur, but has been retarded in Broach owing to continuous rain. Standing crops have been damaged slightly by insects in Karachi, the Upper Sind Frontier, Belgaum and Dharwar, by rats in Karachi, by floods in Hyderabad and by excessive moisture in Ahmednagar. Crops are generally in good condition elsewhere. The fodder-supply is generally adequate. Agricultural stock is sufficient except in parts of Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. Water for drinking and irrigation is generally sufficient. Grain stocks are sufficient. Prices have risen in Bijapur, have fallen in Karachi, Hyderabad, the Upper Sind Frontier, West Khandesh and Ahmednagar and are stationary elsewhere. The quantity purchasable per rupee in Sind 20 to 41 per cent; in the Konkan 13 to 33 per cent; in the Deccan 11 to 30 per cent and in the Karnatak 26 to 37 per cent less than the normal. In Gujarat the quantity purchasable per rupee ranged from normal to 21 per cent less than the normal.

Hyderabad.—The average rainfall was 80 cents during the week. The rainfall was fair to light in Telingana and scanty in Mahratwara except the Parbhani and Nander districts. The heaviest fall was over 4 inches in Adilabad. Autumn sowings are proceeding in many places. Autumn crops are being weeded and are generally fair except in parts of Raichur where they are withering for want of rain. Damage by insect pests is reported in some parts of Telingana. It is, however, decreasing. Early rice sowings continue throughout Telingana. Weeding has also begun in places. Lands are being prepared for spring crops and sowings have begun in many places, especially in the Mahbubnagar district. Water scarcity is reported in two talukas of the Raichur district and cattle disease in ten. Fodder scarcity prevails in three talukas. Prices:—wheat and coarse rice 6½ and *juar* 13½ seers per rupee. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Karimnagar and the lowest 25 seers in Bidar.

Mysore.—The rainfall was good in Hassan, Kadur and Shimoga and slight elsewhere. Prices of food grains have fallen slightly in Hassan and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 6 inches 87 cents. Transplanting of rice continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in Malabar and South Canara; heavy in the Vizagapatam Agency; good in Ganjam, the Vizagapatam littoral, Godavari and the Nilgiris; nil in Tinnevely and light to fair elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Anantapur, Cuddapah, Tanjore, Tinnevely, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Vizagapatam have been affected by excessive rain, some in parts of Bellary have been damaged by insects and some in parts of Guntur require rain urgently. Harvests continue in parts with outturn poor to normal. Pasture is sufficient in parts of Bellary, South Arcot, Coimbatore and Ramnad. Fodder is scanty in parts of Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in eighteen districts; has fallen in two and has risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seventeen districts; has fallen in three and has risen in two. *Cholam* is stationary in seven districts; has fallen in seven and has risen in one. *Cumdu* is stationary in eight districts; has fallen in five and has risen in three. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.

PLAGUE.

Simla, the 18th August 1910.

The following preliminary statement of plague seizures and deaths reported in India, during the week ending the 13th August 1910, is published for general information :

| Presidency or Province. | Division. | Districts, States, Towns of 10,000 or more inhabitants, and Ports. | Plague seizures. | Plague deaths. |

CALCUTTA, SATURDAY, AUGUST 27, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

N.B.—Provinces named in the first and last columns include their chief port or ports. "Madras ports" include the ports of Madras, Pondicherry, exclusive of sea imports from Non-British Ports and Foreign countries), Negapatam, Tuticorin, Calicut, Cocanada, Vizagapatam, Cuddalore, Cochin, Tellicherry, Cannanore, Masulipatam, Bangalore, Quilon, Porto Novo, and Madagarc. The last eight ports were added from 1st April 1909.

RESULT OF THE MEASURES ADOPTED IN THE DIFFERENT PROVINCES FOR
THE DESTRUCTION OF WILD ANIMALS AND VENOMOUS SNAKES
DURING THE YEAR 1909.

Nos. 4736—4749.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

PUBLIC.

Simla, the 19th August 1910.

RESOLUTION.

The total number of persons killed by wild animals in 1908, which had exceeded the total of the preceding four years, rose still further in 1909 to 2,607. The increase is specially noticeable in the number of deaths attributed to tigers in Madras, where the figures rose from 170 in 1908 to 291. In the districts of Coimbatore and Vizagapatam the ravages of tigers were particularly noticeable, and the Collectors of those districts have been asked to report whether any special steps can be taken to deal with the matter. In the same Presidency the number of deaths due to leopards rose from 45 in 1908 to 91, while unclassified wild animals accounted for 80 deaths as compared with 4 in 1908. In Bengal the number of deaths caused by tigers fell from 455 in 1908 to 383. The Chota Nagpur and Orissa divisions show a very high rate of mortality under this head, though it is satisfactory to note that in the former division the number has decreased. There was also a decrease in Hazaribagh, mainly due to the payment in 1908 of special rewards of Rs. 500 for every tiger killed within certain specified areas. In the same province the number of deaths caused by leopards rose from 94 in 1908 to 135. In Gaya there was an increase under this head from 24 in 1908 to 45. The number of deaths caused by wolves in Bengal fell from 184 in 1908 to 167. But the deaths in Hazaribagh from this cause rose from 75 in 1908 to 95, notwithstanding that a special reward of Rs. 20 was sanctioned for every wolf killed within the jurisdiction of certain thanas in that district. The reward has now been raised to Rs. 50.

In the United Provinces the total number of deaths caused by wild animals rose from 194 in 1908 to 237. The increase is almost entirely due to one man-eating leopard in the Almora district and another in the Bahraich district. The former has now been living on human beings for several years. Many attempts have been made to kill it, but it has so far escaped. A reward of Rs. 500 has been offered for its destruction. It is to be hoped that the efforts of the local authorities will result in the removal of this animal. The Bahraich leopard established a reign of terror amongst the villages bordering on the Sohelwa forest for more than three months. It carried off watchers from *machans* and sheds, entered villages and attacked the inhabitants. The people eventually refused to trust themselves abroad after nightfall. The leopard was fortunately shot last October.

In Eastern Bengal and Assam there was a regrettable increase in the number of deaths, which rose from 331 in 1908 to 546. In the Rajshahi division tigers and leopards claimed 88 victims as against 37 in 1908; while in the districts of Rajshahi and Bakarganj no less than 54 and 33 persons, respectively, are said to have been killed by wild pig. Crocodiles were responsible for nearly one-third of the casualties in the province, and were especially deadly in the creeks and rivers of Faridpur and Bakarganj. The variations in other provinces are not great. Though jackals are not shown separately in the return, the Government of Eastern Bengal and Assam reports that these animals devoured no less than 54 infants in two districts alone.

2. The total mortality amongst human beings caused by snake-bite rose from 19,738 in 1908 to 21,363. All provinces, except Bengal and the United Provinces, contributed to the increase. A number of alleged cures of snake-bite by the use of the Brunton lancet are reported. In view, however, of the impracticability

of sifting the evidence as to the species of snake whose bite was said to have been cured and as to the way in which the lancet was used, it is impossible to regard each case reported as an actual cure. In the Bombay Presidency the lancet was tried in the Northern Division in 16 cases, in 13 of which it proved successful, the snakes being identified as poisonous in 7 cases only in the Ahmedabad district. With a view to bringing the remedy within easy reach of the villagers and popularising the use of the lancet, the Collector of Thana has issued 20 lancets to selected patils in the Umbergaon Peta, where mortality from snake-bite is the highest in the district. In the Central Division the lancet was successfully used in 14 cases, but in 7 of these only were the snakes identified as venomous. In Sind the lancet proved successful in 20 cases out of the 23 in which it was tried, but the evidence is rendered valueless owing to the fact that the number of cases in which the snakes were identified as venomous is not accurately reported. In Burma the distribution of the lancet has been continued throughout the province, and in this province and the Central Provinces a large number of cases are reported in which it is said to have been used with success, but here also the statistics are of little scientific value for the same reason.

3. The number of cattle killed by wild animals was 94,196 against 87,607 in 1908. In Madras the total number destroyed fell from 12,427 in 1908 to 11,369. In Bombay, Bengal, the United Provinces, the Punjab, Burma and Coorg there was some increase. The greatest destruction was caused by leopards, the number of victims falling to them being 43,485 against a total of 94,196 animals destroyed by all other kinds of wild beasts. Tigers accounted for 30,616; wolves for 12,638; hyenas for 3,535; and other animals for 3,606. The damage done by tigers was greatest in Bengal and Eastern Bengal and Assam where they accounted for 7,050 and 9,646 animals, respectively. Leopards were most destructive in Madras, Bengal, and the United Provinces, in each of which provinces they killed over 8,000 animals. Wolves accounted for 6,301 and 4,311 animals in Bombay and Bengal, respectively; and hyenas for 3,006 animals in Bengal. The distribution of the figures under the various heads however cannot be accepted as absolutely reliable for, as the Government of the United Provinces reports, there is no systematized method of reporting or of checking reports while in a considerable proportion of cases the identity of the animal causing death must necessarily be conjectural; nor indeed would any more elaborate system of reporting or checking reports be feasible without an amount of trouble to officials and inconvenience (if not annoyance) to the people, which would be altogether incommensurate with the value of the information to be obtained. The number of cattle killed by snake-bite is reported to be 10,641 against 10,700 in 1908.

4. The number of wild animals destroyed was 17,449 or about 500 less than the number reported in 1908. Nearly 5,000 leopards, and 1,473 tigers, 2,850 wolves, and over 2,000 bears were killed in the course of the year and nearly a lakh and a half of rupees was paid as rewards for the destruction of animals. The sum paid in 1908 was Rs. 1,55,188. The total number of snakes killed rose from 70,732 in 1908 to 88,503; and the rewards paid for their destruction rose from Rs. 2,271 to Rs. 2,499.

5. The number of licenses issued under the Indian Arms Act, 1878, in forms VIII and XI, is shown as 61,804 against 27,609 in 1908. The great discrepancy in the figures is due to the fact that one local Government erroneously included under the heading of licenses issued during the year, the number of previously existing licenses which had been renewed. The total number of licenses in force during the year 1909 was 190,934 against 197,641 in 1908.

ORDER.—Ordered that a copy of this Resolution be forwarded to local Governments and Administrations* and that it be published in the Supplement to the *Gazette of India* for general information; also that a copy be forwarded to the Director-General of Commercial Intelligence.

A. EARLE,

Offg. Secretary to the Government of India.

* Including the Hon'ble the Chief Commissioners of the North-West Frontier Province and Ajmer-Merwara and the Hon'ble the Resident in Mysore.

(a) Excludes 22 licenses withdrawn and 3 destroyed.

(b) Increase is due to the conversion of licenses in Form VIII to those in Form XI.

NOTE.—Figures for the years previous to 1908 represent the number of licenses issued for destruction of wild animals or protection of crops in Form XI only except in Burma where licenses in Form VIII were shown. For 1908 licenses issued for sport, protection or display in Form VIII have been included and combined totals shown.

(a) Figures for the week ending 19th August 1910.

A. EARLE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 25th August 1910, based on the Indian Daily Weather Reports of the period.

1. During the first two days of the week the rainfall given by both monsoon currents was restricted chiefly to Burma, Eastern Bengal and Assam, the sub-Himalayas and the south of the peninsula. On the 21st a shallow depression which had formed in the Bay moved into the south Deccan and carried rainfall into the north of the peninsula. Pressure changed with extreme rapidity during the next 48 hours, and the Arabian Sea monsoon at the same time became more active, with the result that rainfall increased considerably and at the close of the week was occurring in all parts of the country.

2. An important feature in the week's rainfall was the unusually heavy rain received in the west of the United Provinces, the Punjab and the Deccan; an excess was also shown in Upper Burma, the North-West Frontier Province, Rajputana West, Mysore and Madras Southeast. Less rain than usual occurred in Lower Burma, Bengal the east of the United Provinces and of the Central Provinces, Central India, Sind, Gujarat and on the west coast of the peninsula.

3. *Burma.*—Very little rain was reported from Lower Burma on the 20th, 21st and 22nd; and in Upper Burma the 23rd was the only day when rainfall was nearly general. Skies were moderately clouded.

Northeast India, including Orissa.—Rainfall was on the whole light and local; it was most widespread in Eastern Bengal and Assam on the 19th, 20th and 21st, and in Bengal on the 24th and 25th. Cloud varied considerably from day to day and was heaviest on the 24th; the maximum temperature recorded on the 23rd was generally higher than usual.

The United Provinces, Central India and the Central Provinces.—Rainfall occurred at nearly every station during the week; it was on most days very sparse, but became more general on the 23rd, 24th and 25th. Cloud was only light to moderate during the first part of the week; and day temperature was higher than usual in the Central Provinces and Central India.

Northwest India.—Fairly general rain was reported from the east and north Punjab on the 22nd, 24th and 25th, the southwest Punjab on the 25th and the North-West Frontier Province on the 20th, 23rd and 25th; a few falls occurred in Rajputana and Gujarat almost daily. Cloud was light to moderate except on the 24th and 25th when skies were heavily overcast in the extreme north, the east Punjab, south Rajputana and Gujarat; while temperature was higher than usual during the first few days in Kashmir and lower for the rest of the week in the extreme north.

The Peninsula.—Rainfall was generally light and local; it was most widespread on the 21st, 22nd, 24th and 25th. Cloud was at first light to moderate, but on the 24th it became heavier; maximum temperatures considerably below the normal were reported from southeast Madras and Mysore on the 20th and 21st.

4. The following are the chief amounts of rainfall as reported at 8 hrs. of each day:—

August 19th. Dinajpur 2'00".

" 20th. Mandalay 2'29", Monywa 3'00", Dibrugarh 2'41", Mymensingh 3'81" and Dehra Dun 2'84".

" 21st. Madura 4'42".

" 22nd. Silchar 2'87", Dehra Dun 2'14", Murree 4'02", Rawalpindi 2'55" and Kodaikanal 2'62".

" 23rd. Yamethin 2'28", Chittagong 7'28", Jubbulpore 2'14", Madura 2'15" and Trichinopoly 2'00".

" 24th. Akyab 4'45", Calcutta 2'22", Balasore 2'55", Darbhanga 2'18", Bareilly 3'75", Simla 2'90", Sialkot 2'18", Guibarga 3'95, Hyderabad (Deccan) 4'39", Mangalore 2'85" and Kurnool 2'05".

" 25th. Agra 2'26", Ludhiana 3'04", Sialkot 4'44", Bikaner 3'00", Jaipur 2'30", Jubbulpore 2'82", Bangalore 2'01" and Cuddapah 6'93".

5. The rainfall of the whole period from the 29th April to the 25th August is only in defect by as much as 20 per cent in the divisions of Central India East, Rajputana East and Baluchistan. It is within 20 per cent of the normal amount in all the remaining divisions, except in the following where it is more than 20 per cent in excess: Eastern Bengal, the North-West Frontier Province, Sind, Mysore, Madras Southeast, the Madras Deccan and the Madras Coast North.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 25TH AUGUST 1910. | | | RAINFALL DATA FROM 19TH APRIL 1910 TO 25TH AUGUST 1910. | | | | |

E. D. MACLAGAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
20th August 1910.

Burma.—The rainfall was heavy or moderate in the districts round the sea coast. Scanty showers fell in the inland districts. Sowing of winter crops has been retarded and young plants have been affected in some districts of the central region for want of rain. Pakokku for the third week in succession reports no rain. Inundation of the Irrawaddy is higher than the normal and some damage by floods is reported from Tharrawaddy and Maubin. Sowing and planting of winter crops are proceeding normally except where they have been retarded by drought or flood. The price of unhusked rice has risen slightly in Pakokku but is only slightly above the normal. In other districts prices are practically stationary.

Eastern Bengal and Assam.—The weather was seasonable. The rainfall has been general, being heavy in parts of the Assam, Chittagong and Rajshahi divisions and moderate elsewhere. Plucking of tea, transplanting of winter rice and harvesting of jute and summer rice are in progress. Prospects of standing crops are generally fair. The average price of common rice has risen by one per cent. Cattle disease is reported in Mymensingh, Chittagong, Malda, the Naga Hills, Goalpara, Kamrup, Nowgong and Sibsagar.

Bengal.—During the week the rainfall was general over the Province, the fall being heavy in Birbhum, Patna, Saran, Champaran, Darjeeling, Cooch Behar and in parts of Shahabad, Muzaffarpur, Purnea and the Sonthal Parganas; moderate in Monghyr, Bhagalpur, Balasore, Hazaribagh, Manbhum, the 24-Parganas, Nadia, Murshidabad and Jessore and generally light elsewhere. Transplantation of paddy continues. More rain is wanted in parts of Midnapore, Hooghly, the 24-Parganas, Khulna, Purnea and Singhbhum. Floods have caused considerable damage in parts of Puri and some injury to standing crops in Nadia, Murshidabad, Patna, Gaya, Shahabad, Saran, Champaran, Muzaffarpur and Cuttack. Sugarcane is generally doing well. The price of common rice has risen in Midnapore, Hooghly, Jessore, Khulna, Patna, Champaran, Muzaffarpur, Monghyr and Darjeeling and has fallen in Nadia, Gaya, Darbhanga, Bhagalpur, Hazaribagh, Ranchi, Manbhum and Singhbhum. Cattle disease is reported from twelve districts and scarcity of fodder from parts of Darbhanga only. The supply of water is sufficient throughout the Province.

United Provinces.—The rainfall was ample except in the Upper Doab, parts of the Central Doab and the Jhansi district. In some of the eastern districts, especially in Gorakhpur, floods have caused some damage and a break in the rains is needed. Weeding, transplantation of rice and ploughing for spring crops are in full swing and in some districts harvesting of early crops has begun. Prospects are now good except in areas of short rainfall. The general condition of live stock is satisfactory but disease is reported from thirty-three districts. Fodder and supplies are ample. Prices are generally stationary.

Punjab.—Generally speaking light to moderate rain has fallen throughout the Province except in Lahore. The rainfall was unevenly distributed and the heaviest falls, in inches, were :—in Naraingarh in Ambala district 2'49, in Sialkot Sadr 2'67, in Bhera in Shahpur 2'23 and in Rawalpindi Sadr 5'79. The south-eastern and south-western districts received the least rainfall ranging from '07 to '45 in the Delhi division and '08 to 1'27 in the Multan division. More rain is badly needed in Hissar, Rohtak, Gurgaon, Delhi and Mianwali. Sowings of autumn crops and ploughings for the next spring crops

continue.¹ The condition of standing crops is good in Ambala, Jaitundur, Ferozepur, Lahore, Amritsar, Sialkot and Rawalpindi; good to average in Hissar and Shahpur; average in Lyallpur and Multan and poor in Rohtak, Delhi and parts of Shahpur. Crops are withering for want of rain in Gurgaon. *Taramira* is being sown in parts of Ambala. Damage to crops by rats is reported in parts of Ferozepur and by floods in parts of Amritsar and Mianwali. Prices have risen slightly in some districts. The condition of cattle is generally good. Fodder is sufficient except in parts of Shahpur. Complaints of a short canal water-supply are still being received from the Toba Tek Singh and Samundri tahsils in the Lyallpur district. The water-supply is short in the western parts of the Shahpur district.

North-West Frontier Province.—The rainfall during the week was good in the Peshawar district and light in Bannu and Dera Ismail Khan and was beneficial to standing crops. Autumn sowings are in progress. The condition of standing crops is average. The fodder and water-supply is sufficient. Irrigation from the Paharpur canal is satisfactory. The condition of cattle is good. The public health is good. Prices of food grains are fluctuating. Prices are :—wheat 13½ to 17½, maize 13½ to 23½; gram 16½ to 25 and *bajra* 15 to 18 seers per rupee.

Jammu.—The rainfall during the week was good. Prices are stationary. Wheat sells from 12 to 22 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair except in the Kishtwar tahsil. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—Slight rain fell during the week and was beneficial to autumn crops. There is no disease among cattle. Fodder is sufficient. Autumn crops are in good condition. Prices are stationary.

Rajputana.—Rain fell in Bikaner, Mewar, Banswara and Partabgarh varying from 35 to 68 cents. The Hilly Tracts of Mewar and the Merwara district report 33 and 40 cents respectively. Light showers fell in Kishangarh, Karauli, Bharatpur and Ajmer. More rain is needed in Jaisalmer, Kishangarh, Alwar and Bharatpur. Standing crops are withering in some parts of Bharatpur but are in fair to good condition in other States and in Ajmer-Merwara. Cattle disease is prevalent in Banswara and Merwara. Fodder is sufficient. Prices have fallen in Merwara, Banswara, Bundi, Kotah and Jhalawar by 1 to 4 seers but have risen in Shahpura, Dholpur and Ajmer by 1 to 1½ seers.

Central India.—The rainfall was general and sufficient. Crops have been damaged slightly by excessive rain in parts of Malwa and Bhopawar but the recent break was favourable to growth. Agricultural stock is good except for some disease in parts of Indore, Bundelkhand, Malwa and Bhopawar. Prices are fluctuating in Indore, are falling in Bhopawar and are steady elsewhere.

Central Provinces.—Betul had 4 inches of rain during the week and the rainfall in Saugor, Jubbulpore, Nimar, Nagpur, Wardha, Amraoti and Yeotmal was between 1 and 2 inches. Elsewhere it did not exceed 77 cents. More rain is required in Damoh, Jubbulpore and Mandla. Sowing of *mil* and rice in Damoh and Jubbulpore, of *til* and *kutki* in Saugor, Mandla, Narsinghpur, Hoshangabad, Betul and Buldana and of *juar* in Chanda is still in progress. Weeding of autumn crops and transplanting and thinning in the rice districts are going on. More rain is required in Chanda to facilitate transplantation of rice. Slight damage to crops occurred in parts of Nimar, Akola and Buldana by insect pests. The condition of crops is satisfactory. Preparation of land for sowing of spring crops continues in eleven districts. Pasturage and water are adequate and cattle are doing well. Prices :—The prices of staple food grains were very steady.

Feudatory States.—Sirguja, Jashpur and Korea received 17, 6 and 5 inches of rain respectively. Light rain was also received in other States. Sowing of autumn crops, weeding, transplantation and thinning of rice and ploughing of land for sowing of spring crops are in progress. Prospects are good. Prices:—Rice rose in Bastar by 4 seers per rupee. There were no marked fluctuations elsewhere.

Bombay.—Heavy rain fell during the week in Kanara, Savantvadi and Kolhapur; good in Colaba, Ratnagiri, Bhapur, Kathiawar and Mahi Kantha; moderate in Surat, Thana, Nasik, Belgaum, Dharwar and Rewa Kantha and slight elsewhere except in Sind. The rainfall was general and beneficial but more is needed in parts of Ahmedabad, Kaira, Ratnagiri, Kanara, Poona, Sholapur, Satara, Belgaum and Dharwar. Autumn sowings continue in parts of Karachi, Larkana, Ahmedabad, Kanara, West Khandesh, Nasik, Poona, Satara, Belgaum, the Gujarat Native States and Savantvadi. Transplantation is progressing in parts of Sukkur, Larkana, the Upper Sind Frontier, Ahmedabad, Kaira, Kanara, Nasik, Ahmednagar, Poona, Satara and Belgaum. Cotton sowing continues in parts of Ahmedabad, Broach, Surat, Bhapur, Dharwar, Baroda, Cutch and Kolhapur. Standing crops have been damaged slightly by insects in Karachi, the Upper Sind Frontier, Nasik, Ahmednagar, Belgaum and Dharwar. Crops are generally in good condition elsewhere. The fodder-supply is generally adequate. Agricultural stock is sufficient except in parts of Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. Water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in the Upper Sind Frontier and Kaira; have fallen in Larkana, the Panch Mahals, West Khandesh and Dharwar and are stationary elsewhere. The quantity purchasable per rupee is in Sind 26 to 41 per cent; in the Konkan 13 to 33 per cent; in the Deccan 11 to 30 per cent and in the Karnatak 26 to 35 per cent less than the normal. In Gujarat the quantity purchasable per rupee ranged from normal to 26 per cent less than the normal.

Hyderabad.—The average rainfall for the Dominions was 7 cents. The rainfall was scanty averaging in different districts between 2 to 20 cents. The autumn crop is fair except in Raichur and Gulbarga, is withering in some parts of Telingana especially in parts of Medak, Mahbubnagar, Nalgonda and Warangal for want of rain and has been damaged by insects in parts of Nalgonda and Parbhani. Weeding of the early rice crop has begun in parts. Water scarcity prevails in two talukas and cattle disease in fourteen. Fodder scarcity is reported in four talukas. Prices:—wheat 5½, coarse rice 6½ and *juar* 13½ seers per rupee showing a fall of one-fourth seer in the price of wheat and *juar*. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Karimnagar and the lowest 25 seers in Bidar.

Mysore.—The rainfall was good in Bangalore, Kolar, Mysore, Kadur and Shimoga and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 3 inches 54 cents. Transplanting of rice continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in South Canara; heavy in Madras and Tanjore; good in Ganjam, Vizagapatam, Godavari, Beilary, Cuddapah, Chingleput, South Arcot, North Arcot, Coimbatore, Trinchinopoly, Ramnad, Malabar and the Nilgiris and light to fair elsewhere. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Anantapur, Cuddapah, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Vizagapatam have been affected by excessive rain and some in parts of

Bellary have been damaged by locusts. Harvests continue in parts with outturn fair to normal. Pasture is insufficient in parts of Bellary, Coimbatore and Ramnad. Fodder is scanty in parts of Ganjam, Godavari, Guntur, Cuddapah, Nellore, North Arcot and Tinnevely. The condition of cattle is generally good. The price of rice is stationary in eighteen districts; has fallen in three and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eleven districts; has fallen in six and has risen in five. *Cholam* is stationary in seven districts; has fallen in six and has risen in two. *Cumbu* is stationary in eight districts; has fallen in six and has risen in two. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

CENTRAL PRINTING OFFICE

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India.

No. 36. } SIMLA, SATURDAY, SEPTEMBER 3, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the copy of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday the 1st September 1910, based on the Indian Daily Weather Reports of the period.

1. The Bay monsoon current has continued weak; and Lower Burma, Assam and Eastern Bengal are the only divisions in the region served by it where rainfall has been approximately normal: in Upper Burma and the whole of the province of Bengal the week's rainfall was in considerable defect.

2. The Arabian sea current, on the other hand, displayed much activity in the peninsula and northwest India; and rainfall was in excess by more than 20 per cent in Madras, Southeast, Mysore, the Deccan, Central India West, Rajputana, the Punjab, the North-West Frontier Province and Kashmir. The North-West Frontier Province and the Punjab Southwest received more than five times as much rain as usual.

3. The rainfall of the week was in defect not only in Upper Burma and the province of Bengal, but also in the Central Provinces, Central India East, the United Provinces East, Sind, Gujarat and the Konkan. It was slightly above the normal in the United Provinces West.

4. A large fall of temperature followed the rainfall in northwest India, and maximum temperatures from 15° to 25° lower than usual were recorded at several observatories in the extreme north; but the rapidity with which temperature recovered itself showed that no large amount of snow had fallen in the neighbouring mountain ranges.

5. *Burma.*—Rainfall was fairly general but light in Lower Burma, and local in Upper Burma. Skies were moderately clouded.

Northeast India, including Orissa.—On most days there were only a few falls of rain reported, chiefly from Eastern Bengal and Assam, but at the close of the week rainfall increased in the northern districts. Skies were moderately clouded.

The United Provinces, Central India and the Central Provinces.—Fairly general rain fell in the United Provinces and Central India, and local falls occurred in the Central Provinces. Cloud was moderate to heavy except in parts of the United Provinces.

Northwest India.—Very little rain fell in Gujarat, and none in Sind and Baluchistan, but rainfall occurred at most stations in the Punjab, Kashmir, the North-West Frontier Province and Rajputana. Skies were heavily clouded in the area of rainfall, but they cleared as rain ceased and on the 1st September cloud was reported from only the eastern districts of the division. The precipitation caused unusually low temperatures in the northern half of the division.

The Peninsula.—Rainfall was fairly general in Mysore and the Deccan on most days of the week; and on the 26th and 27th in south Madras. Skies were heavily clouded on the Konkan coast and in the south, and lightly to moderately clouded elsewhere. Day temperature was lower than usual in southeast Madras.

6. The following are the principal amounts of rainfall as reported at 8 hrs. each day:—

| | |
|----------------|---|
| August 26th. | Yamethin 2.58", Bareilly 1.70", Lahore 1.62", Sialkot 1.85", Rawalpindi 2.10", Khushab 1.66", Murree 2.69", Gulmarg 2.40", Cherat 6.50" and Peshawar 2.10". |
| " 27th. | Sibsagar 2.05", Berhampore 3.75", Cherat 4.50" and Cuddalore 2.26". |
| " 28th. | Agra 1.40" and Simla 2.12". |
| " 29th. | Mainpuri 1.31", Dehra Dun 4.36" and Trichinopoly 3.33". |
| " 30th. | Akyab 5.37", Dhubri 4.36", Akola 2.06", Sambhar 2.14" and Bangalore 2.43". |
| " 31st. | Cherrapunji 15.76", Berhampore 3.81", Mysore 3.75" and Cuddapah 2.09". |
| September 1st. | Tavoy 4.86", Moulmein 4.00", Mymensingh 3.59", Bogra 3.37" and Ahmednagar 2.42". |

7. It will be seen from the following table that the only divisions in which the total amounts of rainfall for the period from the 29th April to 1st September are as much as 20 per cent in defect are Orissa, Central India East, Kashmir and Baluchistan. An excess of 20 per cent or more is shown in Eastern Bengal, the North-West Frontier Province, Sind, Mysore, the Madras Deccan, southeast Madras and the Madras Coast North: in the remaining divisions rainfall differs from the normal by less than 20 per cent.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 31ST SEPTEMBER 1910. | | | RAINFALL DATA FROM 19TH APRIL 1910 TO 1ST SEPTEMBER 1910. | | | | |
|-----------------------------------|---|--|--------------------------------------|---|-------------------------------------|--------------------------------------|---|---------------|
| | Actual rainfall in inches. | Normal rain- fall in inches. | Excess or defect in inches. | Actual rainfall of season to date in inches. | Normal rainfall in inches. | Excess or defect in inches. | SEASONAL PERCENTAGE DEPARTURE FROM NORMAL. | |
| | | | | | | | This week. | Last week. |

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
27th August 1910.

Burma.—The rainfall in Lower Burma was light in amount and sporadic. Beneficial showers are reported from most districts of the central dry region including Pakokku and from the northern districts. Prospects have improved slightly in the dry region but more rain is still wanted there. Both the Irrawaddy and the Chindwin rivers are reported to be above the normal level and are rising. This promises an extension of the cold weather alluvial cultivation in the central regions. Floods have done damage or delayed planting in four districts of Lower Burma and in Mandalay and Bhamo. In Lower Burma the condition of standing crops is generally good or fair and an average crop is expected. There are no important changes in the prices of unhusked rice which remain generally not far from the normal. In the Shan States the price of cleaned rice continues high.

Eastern Bengal and Assam.—The weather was seasonable. The rainfall was less than that of the previous week, the fall being heavy in parts of the Chittagong division and light to moderate elsewhere. Tea is doing well. Plucking is going on and prospects are good. Harvesting of jute and summer rice continues but the latter crop has suffered considerably from floods. Transplantation of winter rice is in progress. Prospects are generally fair. Sugarcane and cotton promise well. The average price of common rice has risen by about one per cent. Cattle disease is reported in Chittagong, the Khasi, Naga and Gayo Hills, Goalpara, Kamrup, Darrang, Nowgong and Sibsagar.

Bengal.—The rainfall was general all over the Province, the fall being heavy in Nadia, Murshidabad and the Sonthal Parganas; moderate in Burdwan, Hooghly, Howrah, the 24-Parganas, Jessore, Saran, Muzaffarpur, Darbhanga, Purnea, Darjeeling, Cuttack, Palamau and Cooch Behar and light elsewhere. Transplantation still continues. More rain is wanted for winter paddy in Bankura, Midnapore, the 24-Parganas, Khulna and Puri. Damage to autumn crops by floods and excessive rain is reported from Nadia, Murshidabad, Saran, Muzaffarpur, Monghyr and the Sonthal Parganas. Insects have done some injury to jute in Nadia and to winter and autumn rice in Muzaffarpur and Cuttack. Standing crops are generally in good condition except in the tracts where they have been damaged by floods. The price of common rice has risen in Murshidabad, Gaya, Bhagalpore and Cuttack and has fallen in Burdwan, Bankura, Jessore, Patna, Champaran, Darbhanga, the Sonthal Parganas, Sambalpur, Hazaribagh and Manbhum. Cattle disease is reported from Muzaffarpur, Monghyr, Bhagalpur, Purnea, the Sonthal Parganas, Puri, Sambalpur, Ranchi and from all the districts of the Presidency division except Khulna. Fodder is dear in parts of Bankura. The water-supply is sufficient throughout the Province.

United Provinces.—The rainfall was generally ample and sufficient in areas of short rainfall in the Doab to meet immediate needs. Prospects on the whole are good. Weeding of standing crops and ploughing for winter sowings continue. Early autumn crops are being harvested in Oudh and the south-eastern districts. Sporadic cattle disease is reported in most districts but the general condition of live stock is satisfactory. Fodder and supplies are ample. Prices have fallen in eleven districts and are stationary elsewhere.

Punjab.—Good to moderate rain has fallen throughout the Province. The heaviest falls were in Sialkot, Rawalpindi and Lyallpur, ranging from 10 to 7 inches. More rain is still needed in Delhi. Sowings of autumn crops and ploughings for the next spring crops are in progress. Autumn sowings have been retarded by incessant rains in Sialkot. The condition of crops is good in Gurgaon, Ambala, Jullundur, Lahore, Amritsar, Shahpur, Lyallpur and in the irrigated tracts of Hissar; fair in Delhi, Mianwali and in the unirrigated parts of Hissar and average in Multan. Crops have been damaged to

some extent by floods in Ferozepore, Sialkot and Mianwali and by excessive rain in Rawalpindi. Prices are falling generally. A rise in the price of wheat is reported in Rawalpindi and Multan only. The condition of cattle is generally good. Fodder is sufficient. Complaints of a short canal water-supply are still being received from the Samundri and Toba Tek Singh tahsils in the Lyallpur district.

North-West Frontier Province.—Light showers fell in Bannu and Dera Ismail Khan but excessive rain ranging between 3 and 10·66 inches fell in the Peshawar district causing considerable damage to crops and buildings. The condition of standing crops is average. Autumn sowings are nearing completion. The fodder and water-supply is sufficient. Irrigation from the Paharpur canal continues. The condition of cattle is good except in one village of the Charsadda tahsil. The public health is good. Prices of food grains are fluctuating. Prices are :—wheat $13\frac{1}{8}$ to $17\frac{1}{8}$, maize 15 to $23\frac{1}{2}$; gram $16\frac{1}{8}$ to 25 and *bajra* $17\frac{1}{2}$ to $18\frac{1}{2}$ seers per rupee.

Jammu.—The rainfall during the week was good. Prices are stationary. Wheat sells from 12 to 22 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—It rained three times during the week. The rain was beneficial to autumn crops. There is no disease among cattle. Fodder is sufficient. Autumn crops are in good condition. Prices are stationary.

Rajputana.—Rain was reported from all States except Bikaner and Jodhpur and from Ajmer-Merwara. The maximum fall was 442 cents in Jhalawar and the minimum 52 cents in Partabgarh. Prospects have improved in Kishangarh, Alwar and Bharatpur owing to the recent rains. Agricultural operations are in progress and land is being prepared for spring crops. Standing crops are fair to good. Slight damage is reported from excessive rain in Banswara and from insects in Jaipur. Cattle disease prevails in several villages in Merwara. Fodder is sufficient. Prices generally show a tendency to fall considerably.

Central India.—The rainfall was partial and insufficient in Gwalior but general and sufficient elsewhere. Crops are in good condition though they have been damaged slightly in parts of Bhopawar by excessive rain. Cattle are generally in good condition except for some disease in parts of Indore and Bhopawar. Prices are fluctuating in Indore, have fallen slightly in Malwa, and are steady elsewhere.

Central Provinces.—Good rain was received during the week. It was well distributed with useful breaks at intervals. Yeotmal and Betul had the heaviest falls of 8 and 6 inches respectively. Elsewhere the rainfall ranged from 34 cents in Raipur to 5 inches in Chhindwara. More rain is needed in Balaghat where only 76 cents were received. Sowing of *til* and *kutki* in Jubbulpore and Damoh, of *juar* in Chhindwara and of *til* in Hoshangabad, Nimar, Nagpur, Chanda and Buldana is in progress. Weeding of autumn crops and ploughing of land for sowing of spring crops are in full swing. Transplantation of rice continues in Seoni and Chanda and is nearing completion in Bhandara. The condition of standing crops is generally good everywhere but in the Multai tahsil of the Betul district where *juar* has suffered slightly from continuous rain. Fodder and water are ample. Agricultural stock is in good condition. Prices :—Fluctuations in the prices of staple food grains are unimportant and generally indicate a tendency to fall.

Feudatory States.—Nine States received rain during the week, ranging between 27 cents and 5 inches. More rain is required in Sarangarh. Sowing of *kutki* and *til* continues in places. Weeding of autumn crops and preparation of land for spring crops are in progress everywhere. Pasturage and water are adequate. The condition of crops is satisfactory. Prices are steady.

Bombay.—Heavy rain fell during the week in parts of Colaba, Ratnagiri, Savantvadi and Kolhapur; good in Thana, Kanara, the Deccan, Belgaum, Kathiawar, Mahi Kantha, Rewa Kantha and Baroda; moderate in Gujarat, Bijapur, Dharwar and Palanpur and slight in Sion. The rainfall was sufficient except in parts of Ahmedabad, Kaira,

Kanara, Sholapur, Belgaum and Dharwar where more rain is needed for autumn crops. Autumn sowing continues in Ahmedabad, Kanara, West Khandesh, Nasik, Poona, Satara, Palanpur, Baroda, Cutch, Rewa Kantha and Savantvadi. Transplantation continues in Larkana, the Upper Sind Frontier, Ahmedabad, Kaira, Kanara, Nasik, Poona, Satara and Belgaum. Sowing of cotton continues in Ahmedabad, Broach, Surat, West Khandesh, Bijapur, Dharwar, Baroda, Cutch and Kolhapur. Standing crops are generally in good condition except for slight damage by insects in parts of the Upper Sind Frontier, Ahmednagar, Poona and Belgaum and by rats in Karachi. Lands are being prepared for spring cultivation in Sukkur, Larkana, Broach, the Deccan and Belgaum. The fodder-supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is adequate. Grain stocks are sufficient. Prices have risen in the Panch Mahals and Kanara; have fallen in Surat and Bijapur and are stationary elsewhere. The quantity purchasable per rupee is in Sind 25 to 41 per cent; in the Konkan 13 to 33 per cent; in the Deccan 5 to 30 per cent and in the Karnatak 26 to 35 per cent less than the normal. In Gujarat the quantity purchasable per rupee ranged from normal to 26 per cent less than the normal.

Hyderabad.—The average rainfall for the Dominions was 2 inches 61 cents. The rainfall was good in Mahratwara except Aurangabad and Usmanabad where the average was 1 inch 49 cents and 1 inch 43 cents respectively. In Telingana, except Karimnagar, the average rainfall was 77 cents. The heaviest falls occurred in parts of the Gulbarga, Bidar, Nander and Nizamabad districts. The rain was beneficial to autumn and early rice crops. The situation is satisfactory except in parts of Raichur and some isolated tracts owing to inadequate rain or to insect pests which are decreasing. Autumn crops are being generally weeded. Early rice sowings are proceeding in most parts of Telingana. Water scarcity prevails in the Lingsugur taluka. Cattle disease is reported in fifteen talukas and fodder scarcity in four. Prices:—wheat 6½, coarse rice 6½ and *juar* 13½ seers per rupee showing a fall of one-fourth seer in the price of *juar*. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13 seers per rupee. The highest price in districts is 8 seers in Karimnagar and the lowest 25 seers in Bidar.

Mysore.—The rainfall was good throughout the State. Prices of food grains are steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 2 inches 29 cents. Transplanting of rice continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in South Canara; heavy in Bellary, Cuddapah, North Arcot and Trichinopoly; good in the Circars, Kurnool, Anantapur, Nellore, Chingleput, South Arcot, Salem, Tanjore, Madura, Ramnad, Malabar and the Nilgiris and light to fair elsewhere. The rainfall in seventeen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Anantapur, Cuddapah, Trichinopoly, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Vizagapatam have been affected by excessive rain and some in parts of Bellary have been damaged by locusts. Harvests continue in parts with outturn fair to normal. Pasture is insufficient in parts of Nellore and Ramnad. Fodder is scanty in parts of Ganjam, Godavari, Guntur, Nellore, North Arcot and Tinnevely. The condition of cattle is generally good. The price of rice is stationary in nineteen districts; has fallen in three and has risen in two. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts; has fallen in nine and has risen in six. *Cholam* is stationary in four districts; has fallen in nine and has risen in two. *Cumbu* is stationary in six districts; has fallen in eight and has risen in two. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

(a) Opened from 6th July 1910.

(b) From 2nd May 1902.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

Sindia, the 1st September 1910.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO The Gazette of India

No. 37.]

CALCUTTA, SATURDAY, SEPTEMBER 10, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

J. S. MESTON
Secretary to the Government of India

Continuation Sheet of Supp.
sent to the Gazette of India published at
Calcutta.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

CENSUS.

Simla, the 6th September 1910.

The following resolution is published for general information :

A. EARLE,

Offg. Secretary to the Government of India.

Resolution nos. 313—330 (Census), dated the 2nd September 1910.

In the Home Department resolution nos. 233—249, dated the 28th July 1910, a special schedule was prescribed, in connection with the census of 1911, for persons working in mines, factories, etc. Appended to the resolution was a list of the industries, with reference to which it was directed that information should be compiled in the form of the special schedule, and it was explained that local Governments were at liberty to include in it any other industries for which they wished to have statistics.

2. The desirability of including certain other industries in the scope of the enquiry in all provinces having since been brought to the notice of the Government of India, they have decided to substitute the revised list of industries, which is annexed, for the list attached to the resolution of the 28th July 1910. Local Governments will of course still be at liberty to include such other industries in the list as may seem to them desirable.

ORDER.—Ordered that a copy of this resolution, with its annexure, be forwarded

* Madras.
Bombay.
Bengal.
United Provinces.
Punjab.
Birma.
Eastern Bengal and Assam.

Central Provinces.
Coorg.
North-West Frontier Province.
Rajputana.
Central India.
Baluchistan.
Superintendent of Port Blair.

to all local Governments and Administrations* for information and guidance, and also to the Foreign Department and the Department of Commerce and Industry† and to the Census Commissioner for India

† With a copy of the Home Department resolution nos. 233—249, dated the 28th July 1910, and annexures.

for information.

A. EARLE,

Offg. Secretary to the Government of India.

LIST OF INDUSTRIES.

1. *Provision of Food.*

A. EARLE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
3rd September 1910.

Burma.—The rainfall was heavy in the maritime districts of Tenasserim; moderate or heavy in Arakan and generally light in the rest of Lower Burma. Six districts of the dry central region report beneficial showers but the rainfall was generally scanty in other districts of Upper Burma where more rain is still wanted. Sowing and planting in Lower Burma are proceeding normally except where they have been delayed by floods. Replanting of the principal flooded area has begun. Prices of unhusked rice are about normal in four districts and below normal in two.

Eastern Bengal and Assam.—The weather was seasonable. The rainfall was general, the fall being heavy in Sylhet and parts of the Rajshahi division and light to moderate elsewhere. Harvesting of summer rice and jute continues. Transplantation of winter rice and plucking of tea are progressing. Prospects of jute and winter rice are fair and those of other standing crops good. The average price of common rice is practically stationary. Cattle disease is reported in Malda, Goalpara, Kamrup, Darrang, Nowgong, Sibsagar, Lakhimpur and the Garo Hills.

Bengal.—The rainfall was general all over the Province, the fall being heavy in the 24-Parganas, Bhagalpur, Darjeeling, Cooch Behar and in parts of the Sonthal Parganas; light in Midnapore, Khulna, Saran, Champaran, Hazaribagh, Singhbhum and in the districts of the Orissa division and moderate elsewhere. More rain is urgently wanted in parts of Midnapore, Hooghly, Khulna and Purnea for transplantation of paddy and in Bankura, the 24-Parganas, Howrah, Puri, Sambalpur, Singhbhum and Ranchi for standing paddy crops and for weeding operations. Transplantation still continues in several districts. Harvesting of jute is going on and that of summer paddy and Indian corn has commenced in some districts. Some damage has been done by floods and excessive rain in parts of Jessore, Saran and the Sonthal Parganas. Insects are doing injury to paddy in Cuttack. The price of common rice has risen in Bankura, Nadia, Patna, Saran, Bhagalpur, Angul, Manbhum and Cooch Behar and has fallen in Burdwan, Jessore, Champaran, Monghyr, Sambalpur, Hazaribagh and Singhbhum. Cattle disease is reported from sixteen districts. Fodder is reported to be dear in parts of Bankura. The supply of water is sufficient throughout the Province.

United Provinces.—There was satisfactory rain throughout the Province. The condition of standing crops is good and prospects are now generally favourable. Weeding of standing crops and ploughing for winter sowings continue while in Oudh and the south-eastern districts harvesting of early autumn crops is in progress. Sporadic cattle disease is prevalent in most districts but the general condition of agricultural stock is satisfactory. Fodder and supplies are ample. Prices are falling in most districts and are stationary elsewhere.

Punjab.—Good to moderate rain has fallen in the districts of the Delhi division and light rain elsewhere. No rain was received in Amritsar. Sowings of autumn crops and ploughings for spring crops are in progress. Sowings of *toria*, turdips, gram and *Tarumira* have commenced in Shahpur. The condition of standing crops is generally good to fair in the Delhi division and good elsewhere except in parts of Ferozepore and Multan where crops are average. They are suffering for want of rain in Mianwali. More rain is also wanted in Delhi. Crops have been damaged slightly by floods in parts of Sialkot and Shahpur and by rats in parts of Ferozepore. Prices are general

unsettled. They are falling in 5 districts and rising in 1. The condition of cattle is generally good. Fodder is sufficient.

North-West Frontier Province.—No rain fell during the week except slight showers in the Tank and Kulachi tahsils of the Dera Ismail Khan district. The condition of standing crops and the expected outturn are average. Sowings of spring crops have commenced in the Swabi tahsil of Peshawar and in the Dera Ismail Khan district. The fodder and water-supply is sufficient. Irrigation from the Paharpur canal continues. The condition of cattle is good except in two villages of the Mardan tahsil, in one village of Charsadda, in one village of Bannu and in certain villages of the Dera Ismail Khan tahsil. The public health is good. Prices of food grains are fluctuating. Prices are :—wheat 12½ to 17½, maize 15 to 23½, gram 16½ to 25 and *bajra* 15½ to 18½ seers per rupee.

Jammu.—The rain during the week was slight. Prices are stationary. Wheat sells from 12 to 22 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—No rain fell during the week. The condition of crops is average. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—Rain was reported from all States and from Ajmer-Merwara. The maximum fall was 537 cents in Tonk and the minimum 71 cents in Jodhpur. More rain is needed in Bharatpur. Agricultural operations are in progress. Standing crops are fair to good. Slight damage is reported from excessive rain in Merwara and Banswara and from worms in the western division of Jaipur. Cattle disease prevails in Mewar, Banswara and Merwara. Fodder is sufficient. Prices have fallen considerably in most places.

Central India.—The rainfall was general and sufficient. The weather is cool and cloudy. Crops are in good condition though they have been damaged slightly in parts of Gwalior and Bhopawar by insects. Cattle are generally in good condition except for some disease in parts of Indore, Bhopal, Bundelkhand and Bhopawar. Prices are fluctuating in Indore, have fallen slightly in Gwalior and Malwa and are steady elsewhere. Prospects are generally favourable except in parts of Bundelkhand.

Central Provinces.—During the week moderate to heavy rain fell throughout the Provinces except in Nimar and Akola where the quantity registered did not exceed 65 cents. Betul had the heaviest fall of 7 inches and in the remaining districts the rainfall ranged from 2 to 5 inches. A break would be welcome in Betul, Narsinghpur, Hoshangabad, Nagpur, Akola and Amraoti. Insect pests have slightly damaged the *til* crop in Saugor. Autumn crops in Wardha and Betul and cotton plants in parts of Akola and Yeotmal have suffered somewhat from excessive rain. Sowing of *til* continues in Hoshangabad, Chindwara, Wardha, Nagpur and Chanda. Harvesting of minor crops has been started in Jubbulpore and Nimar. Preparation of land for sowing of spring crops and weeding of autumn crops are in progress everywhere. Transplantation of rice has been almost completed in Seoni, Chanda, Bhandara, and Balaghat. The state of standing crops is excellent in Damoh, Mandla and Buldana and generally good elsewhere. The supply of fodder and water is adequate. Cattle are doing well. Prices :—The price of *juar* remained stationary in thirteen districts, of wheat in fifteen, of gram in sixteen and of rice in eighteen. Gram in Saugor and *juar* in Nimar, Buldana and Yeotmal became cheaper by 2 seers per rupee. No marked variations are reported elsewhere and prices generally exhibit a downward tendency.

Feudatory States.—Light to moderate rain was received during the week. More rain is needed in Sarangarh. Sowing of *til* and *kutki*, weeding of autumn crops and preparation of land for sowing of spring crops continue in Sakti. Grasshoppers are damaging the rice crop in places. Otherwise prospects are generally good. Fodder and water are sufficient. Prices are steady.

Bombay.—The rain during the week was heavy in parts of Dharwar and Kolhapur; good in the Konkan, the Deccan, Bijapur and Savantvadi; moderate in Kaira, Kathiawar, Mahi Kantha and Rewa Kantha and slight in the Upper Sind Frontier, Ahmedabad, the Panch Mahals, Surat, Baroda and Palanpur. There was no rain elsewhere. The rainfall was sufficient except in parts of Thar and Parkar, Ahmedabad, Kaira, Surat, Ratnagiri and Kanara where more rain is needed. A break is needed in parts of Khandesh and Ahmednagar. Autumn transplantation continues in Larkana, Ahmedabad, Kaira, Kanara and Nasik. Sowing of cotton continues in Ahmedabad, Broach, Surat, West Khandesh, Bijapur, Dharwar, Cutch and Kolhapur. Standing crops are generally in good condition except for slight damage by insects in parts of Hyderabad and the Upper Sind Frontier and by grasshoppers in Ahmednagar, Poona and Dharwar. Lands are being prepared for spring cultivation in parts of Sind, Kaira, Broach and the Deccan. The fodder-supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is adequate. Grain stocks are sufficient. Prices have risen in Hyderabad; have fallen in Ahmedabad, Colaba, Ahmednagar, Bijapur and Dharwar and are stationary elsewhere. The quantity purchasable per rupee is in Sind 29 to 41 per cent; in the Konkan 13 to 29 per cent; in the Deccan 5 to 30 per cent and in the Karnatak 24 to 31 per cent less than the normal. In Gujarat prices ranged from 3 per cent more to 26 per cent less than the normal.

Hyderabad.—The average rainfall for the Dominions was 2 inches 63 cents. The rainfall was good in Mahrattwara averaging between 2 inches 36 cents in Aurangabad and 6 inches 45 cents in Usmanabad. It was fair in Telingana, averaging 1 inch 28 cents. The heaviest falls occurred in Raichur, Parbhani and Usmanabad. The rain was beneficial to the autumn and early rice crops. Harvesting of autumn crops has begun in places. Insect pests are decreasing but the castor seed crop is especially being damaged by insects in parts of Nalgonda. Early rice sowings are much limited in area in parts of the Gulbarga and Mahbubnagar districts. Water scarcity prevails in the Lingsugur taluka of the Raichur district where the situation has improved considerably. Cattle disease is reported in sixteen talukas and fodder scarcity in one. Prices:—wheat 6½, coarse rice 6½ and *juar* 13½ seers per rupee. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13 seers per rupee. The highest price in districts is 8 seers in Karimnagar and the lowest 26 seers in Bidar.

Mysore.—The rainfall was good throughout the State. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 3 inches 53 cents. Transplanting of rice continues. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was heavy in Bellary and South Canara; good in the Circars, except Ganjam, the Deccan, the Central Carnatic, except Coimbatore, the South, except Tinnevely, Malabar and the Nilgiris and light to fair elsewhere. The rainfall in seventeen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Kurnool, Anantapur, Cuddapah, Trichinopoly, Tanjore, Ramnad, Malabar, South Canara and the Nilgiris and insufficient in parts

of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by insects and some in parts of Guntur and Tinnevely require more rain. Harvests continue in parts with outturn fair to normal. Pasture is insufficient in parts of Guntur and Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Nellore, North Arcot and Tinnevely. The condition of cattle is generally good. The price of rice is stationary in fifteen districts; has fallen in six and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts; has fallen in twelve and has risen in two. *Cholam* is stationary in three districts; has fallen in eleven and has risen in one. *Cumbu* is stationary in four districts; has fallen in ten and has risen in two. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 8th September 1910, based on the Indian Daily Weather Reports of the period.

1. Rainfall occurred chiefly in Burma, Bengal, the Central Provinces, the United Provinces and Central India East; and some heavy falls were recorded in the neighbourhood of Jhansi and Nowgong. With the exception of the western Himalayas and east Rajputana there was no rain in northwest India, and there was very little in southeast Madras. Rainfall was heavier than usual in Burma, Bengal, Central India East, the east of the Central Provinces, the west of the United Provinces and in the Konkan, and was within 20 per cent of the normal in the rest of the United Provinces and of the Central Provinces, in Eastern Bengal, east Rajputana, the Madras Deccan and Malabar.

2. A depression appeared at the head of the Bay on the 3rd and persisted there through the week, but caused comparatively little rainfall.

3. *Burma.*—Nearly general rain fell in Lower Burma almost daily, and in Upper Burma on the 2nd and 6th. Skies were moderately to heavily clouded.

North-east India, including Orissa.—Rainfall was scanty in Assam, but was abundant in Bengal, chiefly in the southwestern districts. Cloud was heavy in the southwest of the division and was light to moderate elsewhere; temperature was locally higher than usual.

The United Provinces, Central India and the Central Provinces.—Rain fell in all parts of the division, and was most widespread in the United Provinces on the 4th and 6th and in the Central Provinces on the 3rd. A heavy fall of $10\frac{1}{2}$ " was reported from Jhansi on the 6th. The amount of cloud varied from day to day, but cloud was generally lightest in the United Provinces; maximum temperature was lower than usual during the latter half of the week in the Central Provinces.

Northwest India.—A few falls of rain occurred in the west Himalayas and east Rajputana. Skies were almost clear except in the south and east.

The Peninsula.—Very little rain fell in southeast Madras, and in other parts of the peninsula it occurred chiefly on the 2nd, 3rd and 4th. Cloud was moderate or heavy up to the 6th, and then decreased. Maximum temperature was on several days lower than usual in the Deccan and Mysore.

4. The following statement summarises the chief amounts of rainfall as reported at 8 hrs. each day:—

| | |
|----------------|--|
| September 2nd. | Port Blair 2·87", Tavoy 4·41", Diamond Island 3·85", Gaya 1·86" and Bellary 2·18". |
| " 3rd. | Tavoy 4·53", Yamethin 1·85" and Monywa 2·90". |
| " 4th. | Mergui 3·40", Tavoy 4·27", Barisal 2·77", Calcutta 4·86", Jessore 2·52", Burdwan 2·15", Bareilly 7·20", Nagpur 3·06" and Pachmarhi 4·33". |
| " 5th. | Tavoy 3·65", Moulmein 5·40", Myitkyina 3·93", Jalpaiguri 2·10", Darjiling 3·77", Nowgong 1·92", Jubbulpore 2·16", Raipur 1·90" and Chanda 2·93". |
| " 6th. | Mergui 3·07", Tavoy 4·22", Moulmein 3·90", Sambalpur 4·63", Jhansi 10·30", Nowgong 4·22" and Sutra 2·04". |
| " 7th. | Tavoy 3·15", Akyab 3·91", Cuttack 2·86", Sambalpur 2·71", Meerut 2·83" and Nowgong 4·19". |
| " 8th. | Mergui 4·03", Tavoy 4·85", Akyab 4·42", Bhamo 2·46", Chaibassa 2·70", Darbhanga 2·05", Gaya 2·81" and Kotah 3·01". |

5. The rainfall of the whole period from the 29th April to the 8th September is as much as 20 per cent in defect only in Baluchistan and Kashmir, divisions where rainfall at this time of the year is comparatively unimportant. It is more than 20 per cent. in excess in the North-West Frontier Province, Sind, the Madras Deccan, Mysore and Madras Southeast.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 8TH SEPTEMBER 1910. | | | RAINFALL DATA FROM 30TH APRIL 1910 TO 8TH SEPTEMBER 1910. | | | | |

SUPPLEMENT TO

The Gazette of India.

No. 38. } SIMLA, SATURDAY, SEPTEMBER 17, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of two Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 15th September 1910, based on the Indian Daily Weather Reports of the period.

1. A shallow depression was shown over the central districts of the United Provinces on the 9th and moved northwestwards, breaking up in the western Himalayas on the 11th. It caused widespread and in parts heavy rain in the United Provinces and the east Punjab, and probably snowfall in Ladak. Its disappearance was followed by the withdrawal of the monsoon from the Punjab; and during the remainder of the week rainfall occurred chiefly in Burma, northeast India and the Peninsula.

2. More rain than usual was recorded in Bihar, Chota Nagpur, the United Provinces, the Punjab East and North, Central India West, the Central Provinces East, Berar and Hyderabad North, the excess in these divisions amounting to more than 20 per cent of the normal.

3. *Burma.*—Rainfall was widespread in Lower Burma, and local in Upper Burma. Cloud was moderate to heavy.

Northeast India, including Orissa.—On the 8th and 11th nearly general rain fell over the greater part of the division, but on the remaining days rainfall was more or less local in character. Skies were lightly to moderately clouded.

The United Provinces, Central India and the Central Provinces.—Rainfall occurred throughout the week in parts of Central India and of the Central Provinces, but very little rain of importance was reported from the United Provinces after the 11th. On most days, skies were clear or only lightly clouded in the United Provinces, and moderately to heavily clouded elsewhere; and temperature was lower than usual on the 10th.

Northwest India.—Moderate to heavy general rain was reported from the east Punjab on the 9th, 10th and 11th, and a few falls from Kashmir and east Rajputana, but there was practically no rain after the 11th, and cloud disappeared from the greater part of northwest

India. Night temperature was lower than usual throughout the week in Baluchistan, and day temperature on the 10th and 11th in the east and north Punjab, the North-West Frontier Province and Ladak.

The Peninsula.—Fairly widespread rain occurred on the 13th and 14th in the Konkan, the Bombay Deccan and Hyderabad, but in other parts of the Peninsula the rainfall of the week was scanty. Cloud was light on the first three days of the week and was moderate to heavy on the remaining days.

4. The following are the chief amounts of rainfall as reported at 8 hrs. of each day:—

| | |
|----------------|--|
| September 9th. | Rangoon 3'13", Ranchi 4'38", Gaya 4'66", Allahabad 2'43", Hoshangabad 5'38" and Pachmarhi 2'34". |
| " 10th. | Jessore 2'85", Roorkee 1'94", Chakrata 2'13", Muktesar 2'08" and Delhi 4'00". |
| " 11th. | Roorkee 4'68", Dehra Dun 3'85", Chakrata 5'78", Muktesar 2'48", Simla 2'83", Ambala 4'20" and Ludhiana 2'51". |
| " 12th. | Tavoy 3'95". |
| " 13th. | Saugor Island 2'02", Chanda 4'00", Nizamabad 2'47" and Masuli- patam 3'30". |
| " 14th. | Tavoy 4'05", Jagdalpur 1'91" and Nizamabad 3'79". |
| " 15th. | Akyab 3'45", Darjiling 3'34" and Neemuch 1'96". |

5. The following table shows that for the whole period from the 29th April to the 15th September rainfall is in excess by more than 20 per cent in the North-West Frontier Province, Sind, Mysore, Madras Southeast and the Madras Deccan; and in defect by the same amount in Central India East, Kashmir and Baluchistan.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 15TH SEPTEMBER 1910. | | | RAINFALL DATA FROM 29TH APRIL 1910 TO 15TH SEPTEMBER 1910. | | | | |

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
10th September 1910.

Burma.—The rainfall was heavy in the southern districts of the Tenasserim division. In other parts of Lower Burma it was general but unevenly distributed. Reports were not received from eight districts of Upper Burma owing to an interruption in Railway and Telegraph communication by the breach of an irrigation tank in the Meiktila district. Other districts report moderate showers both in the dry zone and in the north. Planting and sowing of winter crops are proceeding normally except in a few localities where they have been delayed by floods. Rain is still deficient in Central Burma. Prices of unhusked rice are above normal in four districts and below normal in four.

Eastern Bengal and Assam.—The weather was seasonable. Good rain has fallen throughout the Province, the heaviest fall being 7 inches at Patuakhali. Harvesting of summer rice is nearly finished and that of jute continues. Transplantation of winter rice is still in progress. Plucking of tea is going on. Prospects of winter rice are fair and those of tea, sugarcane and cotton good. The average price of common rice is almost stationary. Cattle disease is reported in Mymensing, Malda, Goalpara, Kamrup, Darrang and the Garo Hills.

Bengal.—The rainfall was general all over the Province. The fall was heavy in Gaya, Sambalpur, Ranchi, Singhbhum and in parts of Shahabad; light in Burdwan, Birbhum, Hooghly, Patna, Champaran, Muzaffarpur, Bhagalpur, Purnea, Puri and Cooch Behar and moderate elsewhere. Harvesting of jute and summer paddy is going on. Transplantation of winter paddy still continues in some districts. Standing crops in most districts are in good condition. Prospects are fair. The price of common rice has risen in Hooghly, Patna, Angul and Cooch Behar and has fallen in Burdwan, Howrah, Nadia, Gaya, Saran, Champaran, Monghyr, Bhagalpur, Hazaribagh and Ranchi. Cattle disease is reported from twelve districts. The supply of fodder and water is sufficient throughout the Province.

United Provinces.—The rainfall was excellent throughout the Provinces. Prospects are now very fair to good. Harvesting of millets, maize and early rice is in progress and ploughing for spring sowings and weeding continue. Sporadic cattle disease is still prevalent in most districts but the general condition of agricultural stock is good. Fodder and supplies are ample everywhere. Prices continue to show a downward tendency in most districts.

Punjab.—Good rain has fallen in the Delhi division as well as in the Jullundur district and light to moderate rain in Amritsar, Sialkot, Shahpur and Rawalpindi. Harvesting of *chena* and picking of cotton have commenced in Ambala and Lahore respectively. The condition of standing crops is generally good. It is average in Sialkot, Mianwali and Multan and average to bad in parts of Ferozepore. Ploughings for and sowings of spring crops are in progress throughout the Province. Great millet has been injured slightly by insects in parts of Rohtak and rice by blight in parts of Sialkot. Prices are generally unsettled. They are falling in six districts and rising in two. The condition of cattle is generally good. Fodder is sufficient except in parts of Ferozepore. Complaints of a short supply of canal water are being received from the Samundri tahsil of the Lyallpur district. The canals are working by rotational closures of the different branches in the latter district.

North-West Frontier Province.—Light rain fell during the week. More rain is wanted in the Dera Ismail Khan district. The condition of standing crops is average.

Spring sowings have commenced. The fodder and water supply is sufficient. Irrigation from the Paharpur Canal continues. The condition of cattle is good except in one village of the Charsadda tahsil and in certain villages of the Dera Ismail Khan tahsil. The public health is good. Prices of food grains are fluctuating. Prices are :—wheat $12\frac{1}{2}$ to $18\frac{1}{2}$, maize 15 to $22\frac{1}{2}$, gram $16\frac{1}{2}$ to $23\frac{1}{2}$ and *bajra* 18 to $18\frac{1}{2}$ seers per rupee.

Jammu.—The rainfall during the week was slight. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—No rainfall during the week. The condition of crops is average. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—Rain was received during the week all over Rajputana and Ajmer-Merwara except Jaisalmer, Sirohi and Mewar. The maximum fall was 1305 cents in Jhalrapatan and the minimum 36 cents in Partabgarh. Slight showers fell in Jodhpur and Bhanswara and practically *nil* in the hilly tracts of Mewar. Agricultural operations are in progress almost everywhere. Standing crops and prospects are good. Their condition is improving in Bharatpur. Slight damage to crops by grasshoppers and excessive rain is reported in Mewar and Banswara respectively. Cattle disease prevails in Mewar, Banswara and the Merwara district. Fodder is sufficient. Prices are rising in Shahpura by one seer, in Karauli by one seer ten chataks, in Dholpur eight chataks and slightly Jaipur and Ajmer. They are falling or steady elsewhere.

Central India.—The rainfall was general. It was very heavy in the Bundelkhand States where the situation has been much improved. Agricultural operations are in progress in connection with spring crops. Crops are in excellent condition but have been damaged slightly on low-lying lands in parts of Gwalior and Bhopawar. Fodder is abundant. Cattle are in good condition except for some disease in parts of Indore, Bhopal, Baghelkhand and Bhopawar. Prices are high in Baghelkhand, are falling in Indore, Bundelkhand and Bhopawar and are steady elsewhere. Prospects are generally favourable.

Central Provinces.—The weather has been warm and cloudy. Light to moderate rain fell in all districts with breaks at intervals and was generally beneficial. The principal falls, in inches, were :—Hoshangabad 6, Chanda 5 and Wardha 3. Elsewhere the quantity registered at head-quarters ranged from 7 cents in Nimar to 24 inches in Amraoti. A break is desirable in Damoh, Wardha, Akola and Amraoti. *Juar* and cotton in Amraoti and autumn crops in Betul, Wardha and Yeotmal have been damaged slightly by excessive moisture. In Nagpur and Chanda sowing of *till* is still in progress. Reaping of minor crops continues in Jubbulpore, Mandla, Narsinghpur and Nimar. Weeding of autumn crops and ploughing of land for sowing of spring crops are well advanced. Prospects are generally satisfactory. Fodder and water are ample and agricultural stock is in good condition. Prices are fluctuating but show a tendency to fall.

Feudatory States.—Light to moderate rain fell during the week, ranging from 68 cents in Kawardha to 6 inches in Sarangarh. Weeding of autumn crops and preparation of land for sowing of spring crops are in full swing. The condition of standing crops is good everywhere. The supply of pasturage and water is adequate. Prices are steady.

Bombay.—The rainfall during week was heavy in parts of Kanara, Ratnagiri, Savantvadi and Kolhapur, moderate in Colaba and Belgaum and slight elsewhere except in Sind, Ahmedabad, Kaira, Broach, Baroda and Palanpur. More rain is need in parts of Gujarat, the Konkan, West Khandesh, Belgaum and Cutch. Transplantation of autumn crops continues in Larkana, Ahmedabad, Kanara and Nasik. Sowing of cotton continues in Ahmedabad, Broach, Surat, West Khandesh, the Karnatak, Kolhapur and Cutch.

Standing crops are generally in good condition except for slight damage by rats in parts of Karachi, by insects in the Upper Sind Frontier, by grasshoppers in Ahmednagar, Poona, Belgaum and Dharwar and by floods in Hyderabad. Lands are being prepared for cultivation of spring crops in parts of Sind, Broach, the Deccan and Bijapur. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Ratnagiri and Kanara, have fallen in the Panch Mahals, Khandesh, Poona, Bijapur and Belgaum and are stationary elsewhere. The quantity purchasable per rupee is in Sind 29 to 41 per cent; in the Konkan 13 to 29 per cent; in the Deccan 5 to 30 per cent, and in the Karnatak 18 to 31 per cent less than the normal. In Gujarat prices ranged from 3 per cent more than the normal to 26 per cent less.

Hyderabad.—The average rainfall in the Dominions was 1 inch 53 cents. The rain was generally good in most parts of Mahratwara and fair in Telingana where the average was highest. Karimnagar received 1 inch 58 cents and Nizamabad 71 cents. The heaviest falls occurred in parts of the Parbhani and Usmanabad districts. The situation is now satisfactory but damage has been caused by excessive rain in the Mudhol and Rajura talukas and by insufficient rain in isolated parts of Telingana. Autumn crops are being weeded and harvested in places. Lands are being prepared for spring crops and sowings have begun in places. Water scarcity is reported from the Lingsugur taluka. Cattle disease prevails in fifteen talukas. Prices:—wheat 6½, coarse rice 6½ and *juar* 13½ seers per rupee. White *juar* is selling in Hyderabad City at 11½ and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Karimnagar and the lowest 26 seers in Bidar.

Mysore.—The rainfall was good in Kadur and Shimoga and slight in other districts. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 3 inches 63 cents. Transplanting of rice is almost complete. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in South Canara; heavy in Malabar; good in the Vizagapatam Agency and the Nilgiris; *nil* in South Arcot, Madura and Tinnevely and light to fair elsewhere. The rainfall in sixteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Anantapur, Cuddapah, Trichinopoly, Tanjore, Ramnad, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by locusts and some in parts of Cuddapah by excessive rain and insects. Harvests continue in parts with outturn fair to normal. Pasture is insufficient in parts of Guntur and Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in thirteen districts; has fallen in six and has risen in five. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts; has fallen in six and has risen in five. *Cholam* is stationary in five districts; has fallen in six and has risen in four. *Cumbu* is stationary in five districts; has fallen in seven and has risen in four. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.

PLAGUE.

Simla, the 15th September 1910.

The following preliminary statement of plague seizures and deaths reported in India, during the week ending the 10th September 1910, is published for general information :

(a) Opened from 1st July 1910.

(b) From 2nd May 1909.

C. F. ANDERSON, Captain, R.E.,
Secy Secretary, Railway Board.

Made, the 15th September 1910.

Printed and Published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO The Gazette of India.

No. 39.]

CALCUTTA, SATURDAY, SEPTEMBER 24, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

MODIFICATION IN RULES OF THE RULES REGARDING THE RECRUITMENT OF ASSISTANTS IN THE GOVERNMENT OF INDIA SECRETARIATS.

NOS. 1409—1417.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

Simla, the 23rd September 1910.

RESOLUTION.

IN rule 1 of the rules regarding the recruitment of Assistants in the Government of India Secretariats published with the Home Department Resolution nos. 817-825, dated the 6th July 1910, the minimum educational qualifications prescribed for Europeans were a pass by the Cambridge Senior Local or the High School Examination, or Matriculation Examination of a University. The Governor General in Council has now decided to recognise the Oxford Senior Local Examination as affording evidence of the possession by European candidates of the required educational qualifications. The Government of India have further decided that the maximum age limit for registration, which was fixed at 24 years, shall be raised to 25, without prejudice to the rule which directs the removal of a candidate's name from the register on his attaining the age of 25 years. The Government of India are accordingly pleased to direct that the following revised rule shall be substituted for rule 1 of the rules cited above:—

"The minimum educational qualifications required of candidates for the First Division will be, in the case of Europeans, a pass by the Oxford or Cambridge Senior Local, or the High School Examination or Matriculation Examination of a University, or such other examinations not inferior to these as may from time to time be notified by the Governor-General in Council, and in the case of Indians a University Degree. Persons belonging to any province in India so qualified and provided they are not less than 18 nor more than 25 years of age and are able to produce satisfactory evidence as to their character and antecedents and such other particulars as the Government of India may require, are eligible for registration for appointments to the First Division."

ORDER.—Ordered that a copy of the above Resolution be published in the Supplement to the *Gazette of India*.

Foreign Department.
Finance "
Department of Revenue and Agriculture.
Public Works Department.
Army Department.
Finance (Military Finance).
Department of Commerce and Industry.
Railway Department (Railway Board).

Ordered also that a copy of the Resolution be forwarded to the Departments of the Government of India noted in the margin for information and guidance.

A. EARLE,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 22nd September 1910, based on the Indian Daily Weather Reports of the period.

1. A depression in Baghelkhand caused fairly general rain in the United Provinces, Central India East and the Central Provinces at the beginning of the week, but on its disappearance on the 18th rainfall decreased in the north central parts of the country, and for the rest of the week the rainfall due to the Arabian Sea current occurred chiefly in the Peninsula. More rain than usual was received in Bihar, the United Provinces East, Central India East, the Central Provinces West, Berar, the Deccan and Malabar, but rainfall was below the average in Bengal (excluding Bihar), the Madras Coast North, Madras Southeast and the whole of northwest India. There was practically no rain to the west of Central India and of the United Provinces.

2. *Burma.*—Rainfall occurred at nearly every station on the 20th and 21st, but on the remaining days it was more or less local in character. Skies were moderately clouded.

Northeast India, including Orissa.—More rain than usual fell in Bihar but there was very little in Bengal and only local rain in Eastern Bengal and Assam. Skies were moderately to heavily clouded in the north and lightly to moderately clouded elsewhere.

The United Provinces, Central India and the Central Provinces.—Rainfall was fairly general in the west of the Central Provinces, but only local falls occurred in the rest of the division. Skies were moderately clouded.

Northwest India.—A few falls of rain were reported from the east Punjab and east Rajputana. Skies were clear or only lightly clouded except in parts of Rajputana where cloud was moderately heavy. Day temperature was higher than usual in Kashmir, and towards the close of the week an excess was also shown in the southwest Punjab and Baluchistan.

The Peninsula.—Rainfall was fairly general on the west coast, in Mysore and the Madras Deccan; and local in the Bombay Deccan, Hyderabad and on the north Madras coast. Cloud was light in the extreme south and moderate to heavy elsewhere; and temperature was locally lower than usual in the Deccan, Mysore and the central districts of the east coast.

3. The following are the chief amounts of rainfall as reported at 8 hrs. of each day:—

September 16th. Myitkyina 2'02" and Jubbulpore 3'04".

" 17th. Gaya 2'40", Allahabad 2'92", Sangor 2'76" and Cuddapah 2'91".

" 18th. Slipper Island 2'87", Tavoy 3'25", Jalpaiguri 2'55", Nowgong 2'96" and Hoshangabad 1'93".

" 20th. Tavoy 2'53", Jalpaiguri 5'20", Darjiling 2'70", Darbhanga 1'90", Sholapur 2'15", Bilapur 1'90" and Gulbarga 2'05".

" 21st. Mergui 3'10", Bassein 3'03", Yamethin 1'86", Mandalay 2'03", Maymyo 4'41", Monywa 1'80", Tezpur 0'54", Chittagong 2'08", Mymensingh 2'41", Amraoti 1'91", Chanda 2'70", Nizamabad 2'61" and Gulbarga 2'45".

" 22nd. Silchar 1'93" and Patna 5'04".

4. The rainfall for the whole period from the 29th April to the 22nd September is within 20 per cent of the normal in most divisions; the only exceptions are Kashmir and Baluchistan where a deficiency of 20 or more per cent is shown; and Berar, the North-West Frontier Province, Sind, Mysore, the Madras Deccan and Madras South-east where there is a similar excess.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 22ND SEPTEMBER 1910. | | | RAINFALL DATA FROM 29TH APRIL 1910 TO 22ND SEPTEMBER 1910. | | | SEASONAL PERCENTAGE DEPARTURE FROM NORMAL. | |
|-----------------------------------|---|--|--------------------------------------|--|-------------------------------------|--------------------------------------|---|---------------|
| | Actual rainfall in inches. | Normal rain- fall in inches. | Excess or defect in inches. | Actual rainfall of season to date in inches. | Normal rainfall in inches. | Excess or defect in inches. | This week. | Last week. |

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
17th September 1910.

Burma.—The rainfall was good in Lower Burma. Reports from the Upper Burma districts are incomplete owing to an interruption in railway communication but good rain has fallen in Pakokku where it was badly wanted and there have been showers in several other dry zone districts. Planting and sowing of winter rice are proceeding normally in Lower Burma and its prospects are good. Autumn crops are poor in the dry zone but prospects of the winter crop are fair, while the recent high rise of rivers promises a satisfactory dry weather crop. The price of unhusked rice is generally normal.

Eastern Bengal and Assam.—The weather was seasonable. The rainfall has been general. It was heavy in parts of Bakarganj, Noakhali, Jalpaiguri, Cachar, Sylhet and the Naga Hills districts and light to moderate elsewhere. The heaviest fall recorded was 16 inches at Sunamganj. Harvesting of summer rice has been almost finished but that of jute is still going on. Transplantation of planted rice still continues. Plucking of tea is in progress. Ploughing of fields for spring crops has commenced in Rajshahi and the Assam Valley districts. Prospects of winter rice are fair and those of cotton, sugarcane and tea good. The average price of common rice has fallen by about one per cent. Cattle disease prevails in Goalpara, Kamrup, Darrang, Nowgong and the Garo Hills.

Bengal.—The rainfall was fairly general all over the Province. The fall was heavy in Darjeeling and Cooch Behar, generally moderate in the Bhagalpur, Orissa and Chota Nagpur divisions and in Birbhum, the 24-Parganas, Patna, Gaya, Shahabad, Saran and Darbhanga and light elsewhere. More rain is wanted in Bankura, Midnapore, Hooghly, Howrah, the 24-Parganas, Khulna and Purnea. Harvesting of jute and other autumn crops is going on. Transplantation of winter paddy still continues in some districts. Standing crops are in good condition in most districts. Damage by insects to paddy is reported from Sambalpur. The price of common rice shows a downward tendency. It has risen in Nadia, Jessore, Khulna and Darbhanga and has fallen in Burdwan, Midnapore, Patna, Gaya, Shahabad, Saran, Champaran, Monghyr, Bhagalpur, the Southal Parganas, Balasore, Palaman and Manbhum. Cattle disease is reported from sixteen districts. The fodder and water supply is sufficient throughout the Province.

United Provinces.—Satisfactory rain fell throughout the Provinces. Autumn crops are thriving and prospects are good. Maize, small millets and early rice are being harvested. Ploughing and manuring of fields for spring crops are in full swing. Sporadic cattle disease continues in most districts but the general condition of agricultural stock is satisfactory. Fodder and supplies are ample. Prices continue to fall over more than half the Provinces and are stationary elsewhere.

Punjab.—The rainfall was good in parts of Rohtak and Ambala, moderate in Delhi and parts of Sialkot and light in Rawalpindi. More rain is wanted in parts of Sialkot and in the Mianwali district. Picking of cotton is in progress in Lahore. Maize is being reaped in Ambala and rice is being harvested in parts of Shahpur. The condition of standing crops is average in Multan and in parts of Ferozepore, below average in parts of Lyallpur and good elsewhere. Crops are suffering for want of rain in Mianwali. Ploughings for and sowings of spring crops are in progress. Insects are injuring great millet in parts of Rohtak and slight damage to crops by rats is reported in parts of Ferozepore. Prices are falling generally. The condition of cattle is generally good. Fodder is sufficient except in parts of Ferozepore and Mianwali.

North-West Frontier Province.—No rain fell during the week. Rain is wanted for spring sowings which are in progress. The condition of standing crops is average. The fodder and water supply is sufficient. Irrigation from the Paharpur Canal continues.

The condition of cattle is fair but disease is reported in several villages of the Province. The public health is good. Prices of food grains are fluctuating. Prices are :—wheat 13½ to 17½, maize 15 to 24½, gram 16½ to 26 and *bajra* 18 to 18½ seers per rupee.

Jammu.—Slight rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—It rained on one occasion during the week. The rain was beneficial to standing crops. There is no disease among cattle. Prices are stationary.

Rajputana.—The rainfall reported from Udaipur was 60 cents, from Bharatpur 40 and from Dholpur 66. Slight or practically no rain fell elsewhere. Agricultural operations are in progress. Standing crops are generally good but the cotton crop has been damaged in one district of Mewar. Cattle disease is prevalent in the Banswara and Merwara districts. Fodder is sufficient. Prices are falling.

Central India.—The rainfall during the week was general and sufficient. Harvesting of autumn crops has commenced in some places and an abundant yield is expected. Sowings of spring crops are in progress. Crops are in excellent condition but have been damaged slightly by insects in Indore, Malwa and Bhopawar. Fodder is plentiful. Cattle are in good condition but some disease exists in all the Agencies excepting Gwalior. Prices are fluctuating in Indore; they are high in Baghelkhand, falling in Gwalior, Bundelkhand and Bhopawar and steady elsewhere. Prospects are generally favourable.

Central Provinces.—Light to moderate rain was received during the week all over the Provinces. The quantity registered at head-quarters ranged from 2 to 5 inches in the districts of the Jubbulpore division, from 2 to 4 inches in the Nagpur division and Betar, from 1½ to 2 inches in Chhattisgarh and from 1 to 3 inches in the Nerbudda division. A break is needed in Damoh, Betul, Nagpur, Wardha and Betar, except Baldana, but more rain is required in the Janjgir tahsil of Bilaspur. Continuous rain has retarded sowing of *til* and ploughing of land for spring sowings in Chanda and Wardha. Excessive moisture has slightly damaged autumn crops in some districts. Harvesting of minor crops is in progress in Jubbulpore, Mandla, Seoni, Hoshangabad and Nimar. Preparation of land for sowing of spring crops and weeding of autumn crops continue in several districts. The condition of standing crops is generally satisfactory. The supply of fodder and water is adequate. Cattle are healthy. Prices :—wheat remained stationary in twelve districts, gram in fifteen and rice and *juar* in seventeen. *Juar* in Saugor, rice in Mandla and gram in Chhindwara fell by 2 seers per rupee. *Juar* also became cheaper by 3 seers in Baldana.

Feudatory States.—Nandgaon and Sirguja each had 8 inches of rain during the week. In other States the rainfall did not exceed 4 inches. Weeding of autumn crops and preparation of land for sowing of spring crops continue. The condition of standing crops is good except in Kawardha where cotton and *til* have suffered somewhat from excessive rain. Fodder and water are sufficient. Prices :—wheat fell by 2 seers per rupee in Nandgaon and Jashpur. Prices were steady elsewhere.

Bombay.—The rainfall during the week was good in parts of East Khandesh, Ahmednagar, Sholapur, Savantvadi and Kolhapur, moderate in Colaba, Nasik, Bijapur and Dharwar and slight in other districts of the Presidency Proper and in Thar and Parkar. More rain is needed in parts of Gujarat, the Konkan, West Khandesh, Ahmednagar, Belgaum, Palanpur, Cutch and Thar and Parkar. Standing crops are suffering from want of moisture in Cutch. They have been damaged slightly by rats in parts of Karachi, by insects in Sukkur, Larkana and the Upper Sind Frontier, by grasshoppers in Ahmednagar, Poona, Belgaum and Dharwar and are generally good elsewhere. Harvesting of autumn crops has commenced in Ahmedabad, the Panch Mahals, Kaira, Ratnagiri, Khandesh, Nasik, Baroda and Savantvadi. Lands are being prepared for cultivation of spring crops in parts of Sind, Ahmedabad, the Panch Mahals, Broach

and the Deccan. Sowing of spring crops is in progress in parts of Broach, Ahmednagar, Poona, Sholapur, Satara, Bijapur, Belgaum and Baroda. Cotton sowing is in progress in parts of Bijapur, Dharwar and Kolhapur. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara, but is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have fallen in Hyderabad, Ahmedabad, Kaira, East Khandesh, Sholapur, Satara and Bijapur and are stationary elsewhere. The quantity purchasable per rupee is in Sind 27 to 41 per cent; in the Konkan 13 to 29 per cent; and in the Karnatak 10 to 35 per cent less than the normal. In Gujarat prices ranged from 6 per cent more than the normal to 25 per cent less and in the Deccan from 5 per cent more to 20 per cent less.

Hyderabad.—The average rainfall in the Dominions was 3 inches 60 cents. The rain was general. It was excessive in the Nander and Parbhani districts and fair in Telingana and other parts of Mahrattwara. The heaviest falls occurred in parts of Nizamabad, Medak and Nander. Some damage has been done to autumn crops, especially the cotton crop, by excessive rain in Parbhani and generally in parts of Nander and Usmanabad. A good autumn crop is assured and conditions for spring sowings are favourable. Some damage has been caused to the castor-seed crop by insects in a part of one district. Early rice lands are being sown but the area is limited especially in parts of the Gulbarga and Mahbubnagar districts. Weeding of the crop has begun in many places. Water scarcity prevails in the Lingsugur taluka but is reported to be decreasing. Cattle disease is reported in fifteen talukas. Prices:—wheat 6½; coarse rice 6½; and *juar* 14 seers per rupee showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City at 11½ and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Karimnagar and the lowest 26 seers in Bidar.

Mysore.—The rainfall was slight during the week throughout the State. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 3 inches. Transplanting of rice has been completed. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was heavy in the Vizagapatam Agency; good in Ganjam, the Vizagapatam littoral, Godavari, Kistna, Guntur, the Deccan, Madras and South Canara; nil in Tinnevely and light to fair elsewhere. The rainfall in eighteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Bellary, Anantapur, Cuddapah, Trichinopoly, Tanjore, Ramnad, Malabar, South Canara and the Nilgiris and insufficient in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by locusts and some in parts of Guntur and Salem require more rain. Harvests continue in parts with outturn fair to normal. Pasture is insufficient in parts of Guntur and Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Cuddapah, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in eighteen districts and has fallen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in ten districts; has fallen in nine and has risen in three. *Cholam* is stationary in eight districts; has fallen in six and has risen in one. *Cumbu* is stationary in five districts; has fallen in nine and has risen in two. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

Printed and Published for the GOVERNMENT OF INDIA *at the* GOVERNMENT CENTRAL PRINTING OFFICE, Shole,

SUPPLEMENT TO
The Gazette of India.

No. 40.}

CALCUTTA, SATURDAY, OCTOBER 1, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

New-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA
DEPARTMENT OF COMMERCE AND INDUSTRY

N.B.—Provinces named in the first and last columns include their chief port or ports. "Madras ports" include the ports of Madras, Pondicherry, Karaikal, and Yanam (from Non-British Ports and Foreign countries), Negapatam, Tuticorin, Calicut, Cocanada, Vizagapatam, Cuddalore, Cochin, Tellicherry, and other ports. The last eight ports were added from 1st April 1909.

(a) Figures for the week ending 16th September 1910.

A. EARLE,

Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 29th September 1910, based on the Indian Daily Weather Reports of the period.

1. Conditions were unsettled throughout the week in the Bay and, although they did not result in any cyclonic storm, they influenced the distribution of rainfall, which accordingly occurred chiefly in the Peninsula, the central parts of the country and Lower Burma. At the close of the week a depression appeared over Gujarat and the adjacent sea area, and was the cause of moderately heavy rain in the Konkan.

2. The rainfall of the week was 20 per cent or more in excess in the Bay Islands, Lower Burma, Orissa, Chota Nagpur, Central India, the Central Provinces (except Berar), the Konkan, the Bombay Deccan, Hyderabad and Madras. It was more than 20 per cent in defect in Upper Burma, Eastern Bengal and Assam, the United Provinces East, the Punjab, Kashmir, Rajputana and Gujarat.

3. *Burma*.—Rainfall was fairly general in Lower Burma, but only a few falls occurred in Upper Burma. Skies were moderately clouded.

Northeast India, including Orissa.—Only local falls of rain were reported, and skies were lightly to moderately clouded.

The United Provinces, Central India and the Central Provinces.—Rainfall was recorded at every observatory in the Central Provinces and Central India, being most widespread in these areas on the 28th; in the United Provinces it was restricted to local falls. Skies were generally clear or only lightly clouded except in the west and south of the Central Provinces.

Northwest India.—A few falls of rain occurred in Kashmir, the southeast Punjab, east Rajputana and Gujarat. Skies were clear or lightly clouded; and up to the 26th temperature was higher than usual in Kashmir.

The Peninsula.—Rainfall was nearly general on most days in all parts of the Peninsula except the southeastern districts. Skies were moderately to heavily clouded, and temperature was locally lower than usual.

4. The following are the principal amounts of rainfall as reported at 8 hrs. each day:—

| | |
|-----------------|---|
| September 23rd. | Shillong 2'00" and Balasore 1'82". |
| " 24th. | Cherrapunji 3'60", Jessore 2'03", Cuddalore 3'90", Kurnool 3'20", Vizagapatam 2'54" and Ootacamund 2'23". |
| " 25th. | Karwar 2'12" and Hyderabad (Deccan) 1'94". |
| " 26th. | Chittagong 3'00", Raipur 2'53", Gulbarga 2'95" and Calicut 2'26". |
| " 27th. | Thayetmyo 1'90", Poona 1'74", Gopalpur 2'58", Vizagapatam 3'23" and Cocanada 2'66". |
| " 28th. | Tavoy 3'30" and Balasore 2'20". |
| " 29th. | Mergui 4'76", Tavoy 3'46", Moulmein 5'75", Raipur 1'77", Aurangabad 2'84", Sholapur 3'39", Bombay 3'27", Ratnagiri 2'06", Goa 3'35", Mormugao 2'25" and Karwar 2'10". |

5. The rainfall of the whole period from the 29th April to the 29th September is 20 per cent or more in excess in the North-West Frontier Province, Sind, the Bombay Deccan, Mysore, the Madras Deccan, Madras Southeast and the Madras Coast North; and in similar defect in Kashmir and Baluchistan. Over the remainder of the country it differed from the normal by less than 20 per cent.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 29TH SEPTEMBER 1910. | | | RAINFALL DATA FROM 29TH APRIL 1910 TO 29TH SEPTEMBER 1910. | | | | |
|-----------------------------------|---|--|--------------------------------------|--|-------------------------------------|--------------------------------------|---|---------------|
| | Actual rainfall in inches. | Normal rain- fall in inches. | Excess or defect in inches. | Actual rainfall of season to date in inches. | Normal rainfall in inches. | Excess or defect in inches. | SEASONAL PERCENTAGE DEPARTURE FROM NORMAL. | |
| | | | | | | | This week. | Last week. |

GILBERT T. WALKER,
Director-General of Observatories.
E. D. MACLAGAN,
Secretary to the Government of India.

SIMLA;
The 29th September 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
24th September 1910.

Burma.—The rainfall was good in Lower Burma. Reports have not been received from six districts of Upper Burma, but last week's belated reports are favourable and good rain has fallen in districts from which reports have been received. The usual operations for winter rice are proceeding normally in Lower Burma and prospects remain good. Standing crops in Upper Burma are satisfactory. The prices of unhusked rice have fallen slightly at Rangoon and Bassein but they are generally normal.

Eastern Bengal and Assam.—More rain fell during the week, the fall being heavy in parts of Chittagong, Rajshahi and the Surma Valley divisions and moderate elsewhere. The heaviest fall recorded was 20 inches at Sunamganj. Steeping and washing of jute still continue. Harvesting of summer rice and transplantation of winter rice are nearly finished. Plucking of tea and ploughing of fields for mustard are in progress. Sowing of pulses has commenced in places. Prospects of winter rice are fair and cotton and sugarcane promise well. The average price of common rice has risen about one per cent. Cattle disease prevails in Malda, Goalpara, Kamrup, Darrang, Nowgong and the Garo Hills.

Bengal.—The rainfall was general all over the Province. The fall was heavy in Birbhum, Patna, Saran, Purnea and Darjeeling; moderate in Midnapore, Hooghly, Gaya, Shahabad, Champaran, Muzaffarpur, Darbhanga, Balasore, Puri, Ranchi and in the Presidency division and light elsewhere. The rainfall has been beneficial but more rain is wanted for standing crops in Burdwan, Bankura, Midnapore and Hooghly. Harvesting of autumn crops is in progress. Transplantation of winter paddy is well nigh completed. Weeding is going on. The condition of standing crops is good in most districts. Damage by insects is reported from Sambalpur. The price of common rice has fallen in Burdwan, Bankura, Jessore, Shahabad, Champaran, Darbhanga, Bhagalpur, Purnea, the Sonthal Parganas, Hazaribagh, Ranchi and Palamau and has risen in Madia, Murshidabad and Monghyr. Cattle disease is reported from Midnapore, Jessore, Bhagalpur, Purnea, Angul, Sambalpur, Hazaribagh, Ranchi and Maubhum and from the Patna and Tirhut divisions except Shahabad and Saran. The fodder and water supply is sufficient throughout the Province.

United Provinces.—Rain fell throughout the Provinces. The rainfall was heavy in a few Himalayan and submontane districts and light elsewhere. Harvesting of maize, small millets and early rice continues. Cotton-picking has commenced and sowing of gram has begun. Preparation of fields for spring crops is in full swing and prospects are generally good. Sporadic cattle disease is reported in thirty-three districts but the general condition of agricultural stock is satisfactory. Fodder and supplies are ample everywhere. Prices have again fallen over nearly half the Provinces and are stationary elsewhere.

Punjab.—Slight rain has fallen in parts of Delhi and Ambala. Harvesting of autumn crops is in progress in certain districts. Ploughings for and sowings of spring crops are in progress. The condition of standing crops is average in Lahore and Multan, average to below average in Lyallpur, average to poor in Mianwali, average to bad in parts of Ferozepore, good to fair in Hissar and good elsewhere. Crops are suffering for want of rain in Mianwali. Insects are injuring great millet in parts of Rohtak and slight damage by rats is reported from parts of Ferozepore. Crops have been damaged to some

extent by river floods in Gurgaon, Delhi and parts of Ferozepore. Prices are generally unsettled. They are rising in three districts and falling in seven. The condition of cattle is generally good. Fodder is sufficient except in parts of Ferozepore and Mianwali. Complaints of a short canal water supply are being received from three tahsils of the Lyallpur district.

North-West Frontier Province.—No rain fell during the week except slight showers in the Mardan and Peshawar tahsils. Sowings of spring crops are in progress. The condition of standing crops and the expected outturn are average. The fodder and water supply is sufficient. Very little irrigation is being done from the Paharpur canal. The condition of cattle is good though disease is prevalent in some villages. The public health is good except in some villages of the Charsadda, Nowshera and Peshawar tahsils and in several northern villages of the Dera Ismail Khan tahsil. Malarial fever is prevalent in the Nowshera tahsil. Prices of food grains are falling slightly. Prices:—wheat 13½ to 17½; maize 15 to 27½; gram 16½ to 26 and *bajra* 18 to 20 seers per rupee.

Jammu.—There was no rain during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—It rained on one occasion during the week. There is no disease among cattle. Fodder is sufficient. Prices are stationary.

Rajputana.—The rainfall reported, in cents, was:—Mewar 21; Partabgarh 163; Bundi 61; Kotah 144; Jhalawar 59 and Karauli 31. No rain was received elsewhere. Agricultural operations continue. Standing crops are in good condition except for slight damage by hot winds in Marwar, by heavy rains in some parts of Partabgarh, by insects in Tonk and by insects and a break in the rains in the Jaipur district. Cattle disease is prevalent in Mewar, Banswara, Jhalawar, Bharatpur and Merwara. Fodder is sufficient. Prices are falling in most places.

Central India.—No rain fell during the week in Malwa. It was insufficient in parts of Indore and general elsewhere. Harvesting of autumn crops and sowings of spring crops continue. Crops are generally in excellent condition but they have been damaged slightly by insects in parts of Indore and by excessive rain in Bhopal, Malwa and Bhopawar. The weather is cloudy and unsettled and bright dry weather is now required for maturing and harvesting the crops. Fodder is plentiful. Cattle disease is reported in all Agencies except Gwalior and Malwa. Prices are falling generally and are fairly easy everywhere. Prospects are generally favourable.

Central Provinces.—The weather has been showery but heavy falls were also received measuring 9 inches in Yeotmal, 6 inches in Bilaspur and Wardha and 5 inches in Narsinghpur. The average rainfall to date has been exceeded in several districts, especially in Wardha, Nagpur, Yeotmal and Raipur. The average has not yet been reached in Saugor, Damoh, Jubbulpore, Mandla and Nimar but these districts have had sufficient rain. In tracts under cotton and *jwar*, crops have suffered in low-lying lands from excessive moisture. The general condition of standing crops is satisfactory but a break in the rains is now necessary. Reaping of minor crops continued in Damoh, Mandla, Seoni, Hoshangabad, Nimar, Betul and Chanda. Fodder and water are sufficient and cattle are doing well. Prices:—The price of *jwar* in Nimar became cheaper and that of gram in Chhindwara dearer by 4 seers per rupee. In Buldana *jwar* fell by 2 seers. Prices are falling slightly in most districts.

Feudatory States.—During the week Sakti had 5 inches of rain. In the remaining States the quantity registered ranged between 45 cents and 3 inches. Grasshoppers

continue to damage rice in Sakti. Otherwise the condition of crops is generally good. The supply of fodder and water is adequate. Prices—rice in Sarangarh, Sakti and Jashpur fell from 2 to 3 seers per rupee.

Bombay.—The rainfall during the week was heavy in parts of Ahmednagar; good in Nasik, Sholapur, Satara, Bijapur, Dharwar, Savantvadi and Kolhapur, moderate in Surat, the Konkan, West Khandesh and Belgaum and slight elsewhere, except in Sind. The rainfall was general and sufficient but more rain is needed in parts of Thar and Parkar, Gujarat, Colaba, Kanara, West Khandesh, Satara, Belgaum and Baroda. Standing crops are suffering from insufficient moisture in parts of Ahmedabad and Cutch and from excessive moisture in Ahmednagar. They have been damaged slightly by rats in Karachi, by insects in Larkana, Hyderabad and the Upper Sind Frontier, by grasshoppers in Ahmednagar, Poona, Belgaum and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing in Hyderabad, Thar and Parkar, Ahmedabad, the Panch Mahals, Kaira, Ratnagiri, Baroda, Mahi Kantha, Rewa Kantha and Savantvadi. Lands are being prepared for cultivation of spring crops in parts of Sind, the Panch Mahals, Khandesh, Nasik, Poona, Satara and Rewa Kantha. Sowing of spring crops is in progress in Broach, Poona, Sholapur, Satara, Bijapur, Belgaum, Baroda and Rewa Kantha. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara but is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have fallen in Hyderabad, the Upper Sind Frontier, the Panch Mahals, Kaira, Broach, Nasik and Ahmednagar and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent; in the Konkan 13 to 29 per cent and in the Karnatak 10 to 35 per cent less than the normal. In Gujarat prices ranged from 10 per cent more than the normal to 26 per cent less and in the Deccan from 25 per cent more to 23 per cent less.

Hyderabad.—The average rainfall in the Dominions was 2 inches 18 cents. The rain was general but somewhat excessive in the Gulbarga and Usmanabad districts and fair to good in other places. The heaviest fall occurred in Seram in the Gulbarga district. Rain and crop reports are satisfactory in all talukas of the Raichur district. The autumn crop is fair to good but has suffered from rain in parts of the Parbhani and Nander districts. Harvesting of autumn crops has begun in some places. Lands are being prepared for spring crops and sowings are proceeding. Cattle disease is prevalent in sixteen talukas. Prices:—wheat 6½; coarse rice 6½ and *juar* 14½ seers per rupee showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City at 11½ seers and yellow *juar* at 13 seers. The highest price in districts is 8 seers in Karimnagar and the lowest 26 seers in Bidar.

Mysore.—The rainfall was good during the week throughout the State. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 5 inches 84 cents. The condition of the rice crop is good. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in Kurnool; heavy in Godavari, Kistna, Guntur, Bellary, Anantapur and South Canara; good in Vizagapatam, Cuddapah, Nellore, Chingleput, Malabar and the Nilgiris; nil in Tinnevely and light to fair elsewhere. The rainfall in sixteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Godavari, Kistna, Bellary, Anantapur, Cuddapah, Trichinopoly, Tanjore, the west coast of Ramnad and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in

parts of Bellary have been damaged by locusts and some in parts of Gunur, Salem and Coimbatore require more rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in twelve districts, has fallen in nine and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts, has fallen in sixteen and has risen in one. *Cholam* is stationary in three districts, has fallen in seven and has risen in five. *Cumbu* is stationary in six districts, has fallen in nine and has risen in one. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

(a) From and May 1909.

(c) Opened from 6th July 1910.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India.

No. 41.}

CALCUTTA, SATURDAY, OCTOBER 8, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

(a) Figures for the week ending 23rd September 1910.

A. EARLE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 6th October 1910, based on the Indian Daily Weather Reports of the period.

1. The depression in Gujarat referred to in last week's report, extended northwards, and caused abnormally heavy rain in the west of the United Provinces and the adjacent districts of the Punjab. As this depression filled up another appeared off the Orissa coast and, travelling to the neighbourhood of Cawnpore, occasioned widespread rain in the east of the United Provinces. Both depressions also gave rain in the central parts of the country and the north of the Peninsula, but on their disappearance rainfall ceased in all these areas and at the end of the week was occurring only in Burma and northeast India.

2. The rainfall of the week was more or less in large excess in Assam, Bengal, the United Provinces, the Punjab East and North, Rajputana East, Gujarat, Central India, Berar, the Central Provinces, the Konkan, Hyderabad North and the Madras Coast North. The only areas where rainfall was more than 20 per cent in defect were Eastern Bengal, Kashmir and the south of the Peninsula.

3. *Burma.*—Rainfall was local and generally light. Skies were lightly clouded.

Northeast India, including Orissa.—Fairly general rain was reported from Bengal and Eastern Bengal on the 3rd, but during the rest of the week there were only local falls. Skies were moderately clouded.

The United Provinces, Central India and the Central Provinces.—Rainfall was nearly general, and in parts heavy, in the west of the United Provinces on the first four days of the week, and in the east of the United Provinces on the 2nd and 3rd October; it was fairly general on most days in Central India, and more or less local in the Central Provinces. Cloud was moderate to heavy, and temperature was much lower than usual where heavy rain fell.

Northwest India.—Rainfall occurred during the first half of the week in the southeast Punjab and east Rajputana, but there was practically no rain on the remaining days. Skies were heavily clouded in the area of rainfall and were clear or only lightly clouded elsewhere. Temperature was lower than usual in the Punjab and Rajputana.

The Peninsula.—Rainfall was light and local. Cloud was moderate to heavy at the beginning of the week, but became light at the end. Day temperature was in defect locally in the north of the Peninsula.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

| | |
|-----------------|---|
| September 30th. | Saugor Island 3'50", Pachmarhi 3'05", Veraval 2'25", Bombay 4'76", Ratnagiri 2'82" and Cekanada 2'17". |
| October 1st. | Muktesar 3'09", Bareilly 3'70", Mainpuri 2'10", Agra 6'68", Jaipur 1'92", Kotah 2'30", Bombay 3'83" and Gopalpur 3'76". |
| " 2nd. | Bareilly 6'30", Meerut 4'88", Roorkee 4'31", Dehra Dun 3'62", Chakrata 3'31" and Delhi 6'00". |
| " 3rd. | Toungoo 2'45", Myitkyina 2'25", Lucknow 2'70", Bahraich 3'19", Agra 3'31", Meerut 2'18" and Roorkee 4'22". |
| " 4th. | Gorakhpur 2'17". |
| " 5th. | Dibrugarh 2'63". |
| " 6th. | Akyab 4'42" and Tezpur 2'19". |

5. The rainfall of the whole period from the 29th April to the 6th October is within 20 per cent of the normal everywhere, except in Kashmir and Baluchistan where it is more than 20 per cent in defect, and in the North-West Frontier Province, Sind, Berar, Mysore, the Madras Deccan and the Madras Coast North where it is 20 per cent or more in excess.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 5th OCTOBER 1910. | | | RAINFALL DATA FROM 1st APRIL 1910 TO 6th OCTOBER 1910. | | | | |

Secretary to the Government of India.

SIMLA:
The 6th October 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
1st October 1910.

Burma.—The rainfall was heavy in Tenasserim, moderate in the rest of Lower Burma and mostly light in Upper Burma. Reports for ten districts have not been received. Sowing and transplanting of winter rice have nearly been completed in Lower Burma and are progressing normally in Upper Burma. Operations have been retarded by floods in parts of four districts. Standing crops are on the whole in good condition and prospects are favourable. The price of unhusked rice has risen considerably in Pegu and has fallen considerably in Tharrawaddy. Slight variations are reported for three other centres. Prices are generally normal.

Eastern Bengal and Assam.—Less rain was received during the week. No rain fell in Darrang and Nowgong but the fall was fairly heavy in parts of the Chittagong division, Bakarganj and Mymensingh and light to moderate elsewhere. Steeping and washing of jute continue. Transplantation of winter rice and harvesting of autumn rice have been nearly completed. Ploughing of fields for spring crops, plucking of tea and sowing of pulses are in progress. Prospects of cotton, sugarcane, tea and winter rice are good. The average price of common rice has fallen about one per cent. Cattle disease prevails in Goalpara, Kamrup, Darrang and the Garo Hills.

Bengal.—The rainfall during the week was general over the Province. The fall was heavy in Cuttack, Balasore, Puri and also in Manbhum and Singhbhum; moderate in Hooghly, Khulna, Muzaffarpur, Darbhanga, Purnea, the Sonthal Parganas, Angul and Ranchi and light in the rest of the Province. More rain is wanted for standing crops in Bankura, Midnapore, Hooghly, the 24-Parganas and Murshidabad. Harvesting of autumn crops is in progress. Weeding of winter rice continues. The condition of winter rice and other standing crops is good in most districts. The price of common rice has fallen in Burdwan, Midnapore, Nadia, Murshidabad, Jessore, Patna, Gaya, Saran, Muzaffarpur, Darbhanga, the Sonthal Parganas, Angul, Hazaribagh and Palamau and has been stationary in the remaining districts. Cattle disease is reported from thirteen districts. The fodder and water supply is sufficient throughout the Province.

United Provinces.—Excessive rain fell at the close, or just after the close, of the week over a large part of the Provinces causing some damage to standing crops especially in low-lying tracts. The state of prices however indicates no material damage to general prospects. Cotton-picking and harvesting of maize and millets continue. The heavy rainfall retarded in places the preparation and sowing of fields for spring crops and fine weather is now required. The condition of agricultural stock continues good but sporadic cattle disease is reported from twenty-nine districts. Supplies are everywhere ample. Prices have fallen in fourteen districts and are for the most part stationary elsewhere.

Punjab.—The rainfall during the week was heavy to good in the Delhi division; moderate in Jullundur and light in parts of Rawalpindi and Mianwali. Autumn crops are being harvested in certain districts. Ploughings for and sowings of spring crops continue. The condition of standing crops is average in Delhi, Lahore, Sialkot and Multan, average to below average in Lyallpur, average to poor in Mianwali, average to bad in parts of Ferozepore, good to fair in Hissar and good elsewhere. Crops are withering for want of rain in parts of Sialkot, Shahpur and Mianwali. Insects are injuring rice in Ambala and great millet and maize in parts of Lyallpur. Slight damage by rats is reported from Ferozepore. Crops have also been damaged to some extent by heavy rainfall in Gurgaon and Delhi. Prices have fallen slightly. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. Complaints of a short canal water supply are still being received from the Toba Tek Singh and Samundri tahsils in the Lyallpur district. Water is scarce in parts of Mianwali.

North-West Frontier Province.—Slight showers fell during the week in the Hazara and Kohat districts and in the Swabi and Mardan tahsils of the Peshawar district. Rain is badly wanted in the Dera Ismail Khan district. The condition of standing crops and the expected outturn are average. Rice is being reaped and cotton picked in some parts of the Peshawar district. Sowings of spring crops are in progress. The fodder and water supply is sufficient throughout the Province. Very little irrigation is being done from the Paharpur canal. Cattle are generally in good condition but disease is prevalent in some villages of the Peshawar tahsil and in one village of the Charsadda tahsil. The public health is generally good. Malarial fever is prevalent in the Dera Ismail Khan district. Prices of food grains show a tendency to fall. Prices :—wheat $13\frac{3}{8}$ to $18\frac{7}{8}$; gram 16 to 26; maize 15 to $29\frac{1}{4}$ and *hajra* 15 to 25 seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

Rajputana.—The rainfall reported, in cents, was :—Banswara 116; Partabgarh 58; Tonk 461; Bundi 391; Kotah 354; Jhalawar 86; Jaipur 265; Alwar 551; Karauli 517; Dholpur 539 and Ajmer 24. Bharatpur received 17 inches. No rain or practically none fell elsewhere. The rain though sufficient for crops has left many tanks in Ajmer-Merwara empty. Agricultural operations are in progress. Standing crops are generally good. Damage by insects is reported in Tonk and by heavy rains in Bharatpur and Karauli. Crops are withering in Sambhar for want of rain. The outturn in Bharatpur may be below the average unless good sunshine follows the heavy rains. Cattle disease is prevalent in Mewar, Banswara, Jhalawar, Bharatpur and Merwara. Fodder is sufficient. Prices are low and have a tendency to fall.

Central India.—The rainfall was general and sufficient in all the Agencies but was somewhat excessive in Gwalior and Malwa. Harvesting of autumn crops and sowing of spring crops continue. Crops are generally in excellent condition but have been damaged slightly by insects and excessive rain in Gwalior, Bhopal, Malwa and Bhopawar. The weather continues overcast and unsettled and bright clear weather is now badly wanted for maturing and harvesting crops. Fodder is plentiful. Some cattle disease prevails in all Agencies except Gwalior and Malwa. Prices are falling slowly everywhere.

Central Provinces.—Light to moderate rain was received during the week throughout the Provinces. The quantity registered at head-quarters ranged from 35 cents to 4 inches in the districts of Jubbulpore division, 3 to 5 inches in the Nerbudda division, 1 to 4 inches in the Nagpur division, 2 to 4 inches in the Chhattisgarh division and $1\frac{1}{2}$ to 5 inches in Berar. A break would now be welcome especially in the important *juar* and cotton-growing districts where crops have suffered somewhat from excessive moisture. Harvesting of early sowrice and *mahua* crops, weeding of autumn crops and preparation of land for sowing of spring crops have been retarded in several districts owing to continuous rain. The condition of standing crops is generally good. The supply of fodder and water is adequate. Agricultural stock is in good condition. Prices :—The price of wheat remained stationary in 12 districts, gram in 14, rice in 15 and *juar* in 17. Gram in Jubbulpore and Raipur and *juar* in Betul and Buldana fell from 2 to 3 seers per rupee. Elsewhere fluctuations were unimportant and generally indicate a tendency to fall.

Feudatory States.—During the week Nandgaon had heavy rain amounting to 9 inches. Elsewhere the rainfall was from 62 cents to 3 inches. A break is needed in Sakti and Sirguja. Excessive rain has damaged *til* in Kawardha. The condition of crops is generally satisfactory. Fodder and water are sufficient. Prices :—Wheat, gram and kodon in Chhuikhadan and rice in Udaipur became cheaper by 2 to 3 seers per rupee. Wheat in Jashpur rose by 2 seers.

Bombay.—The rainfall during the week was heavy in parts of the Konkan, Nasik, Ahmednagar and Savantvadi; good in Surat, Khandesh, Poona, Satara, Bijapur, and Kathiawar; moderate in Ahmedabad, the Panch Mahals, Kaira, Dharwar, Baroda, Mahi Kantha and Rewa Kantha and slight in Broach, Palanpur and Cutch. The rainfall was sufficient and generally beneficial. Standing crops have been damaged slightly by excessive rain in Ratnagiri, Nasik, Ahmednagar, Bijapur and Savantvadi, by rats in Karachi, by insects in Larkana, by grasshoppers in Ahmednagar, Poona and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing in parts of Sind, Gujarat, Thana, Ratnagiri, Baroda, Mahi Kantha and Rewa Kantha. Lands are being prepared for cultivation of spring crops in parts of Sind, the Panch Mahals, West Khandesh, Nasik, Poona, Satara and Rewa Kantha. Sowing of spring crops continues in Broach, Satara and Baroda but was retarded by excessive rain in Nasik, Ahmednagar, Poona and Bijapur. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Prices have risen in Ahmedabad, have fallen in other Gujarat districts, the Upper Sind Frontier, Bijapur, Dharwar and parts of the Deccan and Konkan and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent; in the Konkan 13 to 29 per cent and in the Karnatak 2 to 25 per cent less than the normal. In Gujarat prices ranged from 18 per cent more than the normal to 23 per cent less and in the Deccan from 25 per cent more to 19 per cent less.

Hyderabad.—The weather during the week was showery. Heavy rain fell in the Aurangabad division. The total rainfall for the season was nearly 50 inches in the Nander district, over 50 inches in Parbhani and 38 inches in Aurangabad. The cotton crop has suffered especially in the Nander district and the loss is estimated at about 25,000 bales but it is too early to form an opinion. Sowings of spring crops have been retarded in places by the heavy rainfall. Raichur has benefited much by the rainfall. Prospects are good on the whole but settled weather is required.

Mysore.—The rainfall was slight in Kolar and Mysore and good elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 4 inches 44 cents. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in South Canara; heavy in the Vizagapatam littoral, Godavari, Kistna and Bellary; good in Ganjam, the Vizagapatam Agency, Guntur, Kurnool, Anantapur, Nellore, Chingleput, South Arcot, Malabar and the Nilgiris; nil in Tinnevely and light to fair elsewhere. The rainfall in fifteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in the Circars, Bellary, Anantapur, Cuddapah, Trichinopoly, Ramnad, Malabar, South Canara and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by excessive rain and grasshoppers and some in parts of Guntur, Salem, Coimbatore, Madura, Ramnad and Tinnevely require more rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in ten districts, has fallen in ten and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in six districts, has fallen in twelve and has risen in three. *Cholan* is stationary in four districts, has fallen in six and has risen in five. *Cumbu* is stationary in five districts, has fallen in eight and has risen in three. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

RESOLUTION.

No. 7038--7039-221, dated Simla, the 6th October 1910.

REPORT ON THE WORKING OF THE POST OFFICE OF INDIA DURING THE YEAR
1909-10.

READ—

The Report on the working of the Post Office of India during the year 1909-1910.

ORDER.—Ordered that a copy of the Report be forwarded to the Finance Department for information.

Ordered, also, that the report be published in the Supplement to the *Gazette of India*.

W. MAXWELL,
Secretary to the Government of India.

ANNUAL REPORT

ON

THE POST OFFICE OF INDIA

FOR THE YEAR

1909-1910.

No. 190-S.—B.P., dated Simla, the 26th September 1910.

*From—The Hon'ble Mr. C. STEWART-WILSON, I.C.S., Director-General of the Post Office of India,
To—The Secretary to the Government of India, Department of Commerce and Industry.*

I have the honour to submit the Annual Report on the Post Office of India for the official year 1909-10.

2. The administration of the Department was in my hands throughout the year. Charge of the Post Office.

3. From the following figures some idea will be formed of the magnitude of the business of the Indian Post Office at the present time. At the close of 1909-10, the numerical strength of its staff was 92,163, the number of post offices open was 18,642, and the mileage of mail lines was 156,761 representing an annual travel of over 135 millions of miles. During the year, nearly 920 millions of articles, including nearly 26½ millions of registered articles, were given out for delivery; stamps worth more than 1½ million pounds were sold for postal purposes; over 24½ million money orders representing a total value of more than 29 million pounds sterling were issued; a sum of nearly 5½ million pounds was realised on account of tradesmen and others through the value payable system; over a million insured articles representing a total insured value of nearly 17 million pounds were posted, while the amount paid as compensation was only about £500; pensions to the amount of more than £171,000 were disbursed to Native military pensioners in the Punjab; 7,701 lbs. of quinine were sold to the public; and over 5½ millions of telegraph messages were sent from telegraph offices under the control of the Post Office, representing a total revenue of £213,750 as compared with postal expenditure of £78,000 on account of such offices. The number of accounts open in the Savings Bank on the 31st March, 1910, was 1,378,916 with a total balance of over 10½ million pounds sterling. The total revenue and expenditure for the year, after making the various administrative adjustments, amounted to £1,943,275 and £1,986,755, respectively. Magnitude of business.

Principal
events,
inland post.

4. There were during the year few changes in the inland post which directly affected the public.

On the 1st April, 1909, the last two remaining minor circles, Central Provinces and Rajputana, were abolished and in their place the Central Circle was created.

The reforms in sorting which were alluded to in last year's report were proceeded with. Their success was manifest, and in the course of the current year their completion may be expected.

The field post offices in North China were maintained, and special postal arrangements were made as usual for military camps, etc., and for the tour of His Excellency the Viceroy.

There was a strike of drivers on the Madras and Southern Mahratta Railway in May, 1909, which temporarily interfered with the running of mail trains. Special arrangements were, however, made to cope with the difficulties and few serious delays to the mails occurred.

The great cyclone of 17th October last disorganised for the time the steamer and train services of Eastern Bengal. One postal servant lost his life in the storm. Interruptions in the mail service due to breaches on the railways were not more than usual.

The Calcutta-Madras mail train ran off the line and was wrecked at Ennore on 19th June, 1909, and the Inspector of Sorting travelling in the mail van was killed. The Madras inward Postal Special train was also wrecked on 4th March, 1910, at Bhalwani in collision with a goods train.

Only in the Central Circle did plague appear in a more virulent form than last year. The deaths among all employés from the disease were 85 as against 62 in the preceding year.

Increases in
pay of postal
servants.

5. As in previous years, the necessity of the pay of postal servants keeping pace with increase in responsibilities and in cost of living has been constantly borne in mind. During the year under report increases in pay were sanctioned in the case of 8 head postmasters, 23 deputy and assistant postmasters, 1,077 sub-postmasters, and 484 branch postmasters. The pay of 575 clerks and sorters, 1,721 postmen and village postmen, 1,172 runners, and 619 other inferior servants was also raised. In spite of the badness of the year financially, no fewer than 5,679 postal officials have had their pay and prospects improved.

Principal
events,
foreign post.

6. The foreign money order system was extended to Anguilla in the West Indies; to Benadir (Italian Somaliland); to the Chatham, Cook, Fanning, Penrhyn and Savage Islands in the Pacific Ocean; to the French Colonies on the West Coast of Africa; and to the Island of Madagascar. Arrangements were concluded during the year for the introduction, from the 1st April, 1910, of a direct exchange of money orders between India and the Orange River Colony (in place of the previously existing service through Natal) and between India and Siam. The maximum limit of amount for a single money order was raised to £20 in the case of the exchange with Mexico and to £40 in the case of that with Bulgaria.

The rates of postage applicable to parcels for France, Italy, Egypt, and a large number of other countries were reduced in consequence of the British Post Office having agreed to the application of the reduced charges for sea transit—contemplated by Article 3 of the Parcel Post Convention of Rome—to the services performed by the P. and O. steamers between Bombay and Marseilles *via* Aden and Port Said and between Port Said and Brindisi. Reductions were

also effected in the rates of postage on parcels for Canada, North-Eastern Rhodesia, the German offices in Morocco, Netherlands-India, and the Seychelles.

The foreign parcel post was extended to the Malay States of Kedah and Kelantan and insurance to destination was made available for foreign registered letters addressed to German New Guinea, to certain places in the Caroline, Marianne (or Ladrone) Marshall, and Palaos (or Pelew) Islands, and to the British postal agencies in Turkey at Beyrout, Constantinople, Salonica, and Smyrna.

The parcel post service from India to Servia had to be suspended owing to the Servian Postal Administration having imposed certain conditions on the acceptance of postal parcels for that country which could not be complied with by the Indian Post Office.

Arrangements were made, in the case of uninsured parcels exchanged between India on one side and Gibraltar, Hongkong, Mauritius, the Seychelles, and New Zealand on the other, for the payment under certain conditions of compensation not exceeding 25 francs (Rs. 15-0-0), in the event of loss of, damage to, or abstraction from, such parcels.

A revised agreement was entered into with the Chinese Imperial Postal Administration for the establishment of direct mail communication between the Chinese provinces of Yunnan, Kweichow, and Szechwan and Burma *via* Bhamo in Upper Burma and *via* Kengtung in the Southern Shan States.

7. According to the sanctioned time tables of the Peninsular and Oriental Steam Navigation Company the steamers carrying the mails from Europe were due to arrive at Bombay at 6 A.M. on Friday of each week. During the year under report, 52 weekly mails were received, and the mail steamers arrived at Bombay on 51 occasions on Friday and once on Sunday. In the case of the Friday arrivals, the contract time was exceeded on five occasions; while, in the solitary instance of a Sunday arrival, the delay was due to an accident to the S. S. "China" in the London Docks. The shortest time occupied in the transit of the mail from London to Bombay was 13 days, 7 hours, while the average time for the year was 13 days, 9 hours, and 32 minutes. In the opposite direction, that is, from Bombay to London, the quickest transit was 12 days, 22 hours, and 2 minutes, the average time for the year being 13 days, 12 hours, and 51 minutes.

Working of
the P. and O.
contract.

Section I.—Post Offices and Postal Communications.

(1) Post Offices and Letter-boxes.

8. Appendix I shows the number of post offices, letter-boxes and village postmen in each circle at the close of the year, compared with those in existence at the close of the previous year. There was an increase during the year of 243 post offices and 2,176 letter-boxes. The increase in the number of post offices was greatest in the Bengal and Eastern Bengal and Assam Provinces. The number of post offices in charge of school masters and other persons not being regular servants of the Department rose from 11,918 to 12,149.

Post offices
and letter-
boxes

(2) Postal Communications.

9. In Appendix I is also shown the length of line over which mails were conveyed in each circle by the various agencies employed by this Department.

Postal
communica-
tions.

The total figures for the year under report and for the preceding year are given in the following statement :—

| | | | Railway. | Nature of postal communications. | | | |
|----------------------|---------|-----|----------|----------------------------------|------------------------|----------|---------|
| | | | | Roads and boats. | Mail cart, tonga, etc. | Steamer. | Total. |
| Mileage at close of | 1908-09 | ... | 21,518 | 96,299 | 9,522 | 19,083 | 156,422 |
| | 1909-10 | ... | 32,340 | 95,671 | 9,576 | 19,174 | 156,761 |
| Increase or decrease | ... | ... | + 822 | - 628 | + 54 | + 91 | + 339 |

* Revised figure.

The figure 156,761 represents a total annual travel of over 135 millions of miles.

Section II.—Correspondence and Parcels—Postage Stamps.

(1) Correspondence and Parcels.

Statistics of postal articles.

10. The estimated number of postal articles of all kinds, exclusive of money orders and parcels, issued for delivery during the year, added to the actual number of parcels, amounted to over 919½ millions, or 44 millions in excess of the corresponding figure of the preceding year. Statistics showing the different classes of articles delivered in the various postal circles during 1909-10 will be found in Appendix II, and a general summary of the results is given in the following statement :—

| Classes of postal articles. | 1908-09. | 1909-10. | Increase (+) or decrease (-). | Percentage of increase (+) or decrease (-). |
|------------------------------------|-------------|-------------|-------------------------------------|---|
| Letters, paid | 327,395,044 | 343,380,659 | + 15,985,615 | + 4.88 |
| “ unpaid | 38,072,793 | 42,228,596 | + 4,155,803 | + 10.92 |
| “ registered | 18,703,647 | 20,101,618 | + 1,397,971 | + 7.45 |
| Total letters | 384,176,484 | 405,710,873 | + 21,534,389 | + 5.61 |
| Postcards | 383,746,244 | 402,597,499 | + 19,851,255 | + 5.17 |
| Total letters and postcards | 767,922,728 | 808,308,372 | + 41,385,644 | + 5.39 |
| Registered newspapers | 50,107,799 | 51,395,989 | + 1,288,190 | + 2.57 |
| Book and pattern packets | 51,034,486 | 52,407,534 | + 1,373,048 | + 2.69 |
| Total articles of the letter mail | 869,115,013 | 913,111,895 | + 43,996,882 | + 5.06 |
| Parcels—registered | 4,080,621 | 4,297,142 | + 216,521 | + 5.31 |
| “ unregistered | 2,060,198 | 2,115,090 | + 54,892 | + 2.66 |
| Total parcels | 6,140,819 | 6,412,232 | + 271,413 | + 4.42 |
| Grand total of all postal articles | 875,255,832 | 919,524,127 | + 44,268,295 | + 5.06 |

The slackness of trade in the country during the year consequent on the bad harvests of the year before and the general commercial depression throughout the world accounts for the comparatively small increase. The slow development of our parcel traffic during the last two years is specially noticeable.

The diagram opposite this page shows graphically the growth of postal traffic in its principal branches since 1854.

11. The second table in Appendix I shows, for each postal circle, the number of post offices, letter-boxes, and postal articles in relation to area, population, and literate population, taking the figures of the last census.

Average number of postal articles per head of population.

* Altogether there were 3.23 postal articles—letters, postcards, packets, and parcels—per head of the total population and 57.72 postal articles per head of the literate population according to the last census. As in previous years, the number of postal articles per head of the total population was highest in Bombay where it was 6.73.

12. The foreign correspondence received for delivery in India is included in the total figures contained in Appendix II. The estimated number of letters and postcards received from the United Kingdom was over 11½ millions, as compared with about 11½ millions in the preceding year, while the number of newspapers, book-packets, and samples received was a little over 11 millions, as compared with over 11½ millions in the previous year. The estimated number of letters and postcards despatched to the United Kingdom from this country during the year under report was about 10½ millions, as compared with nearly 9 millions, and the number of newspapers, book-packets, and samples was nearly 2 millions, as compared with about 1½ millions during 1908-09.

Foreign correspondence.

As regards correspondence exchanged with countries other than the United Kingdom, the figures for the year under report are based on the fresh statistics recorded in October, 1909. The estimated number of letters and postcards received in India from such countries was nearly 5½ millions in the year under report, while that of newspapers, book-packets, and samples received was 4½ millions. The estimated numbers of (1) letters and postcards and (2) newspapers, book-packets, and samples despatched to such countries were about 6½ millions and 3 millions, respectively.

13. The total number of parcels sent by the foreign post from this country during the year was 286,049, as compared with 267,569 during the previous year, and the number of parcels received was 384,296, as compared with 354,134* in 1908-09. There was thus an increase of 6.91 per cent. in the number of foreign parcels despatched and of 8.52 per cent. in the number received.

Foreign parcels.

The numbers of parcels sent to, and received from, the United Kingdom during the year were 123,701 and 276,890, respectively, as compared with 122,220 and 261,534, respectively, during 1908-09. The percentage which this traffic bears to the total of our foreign parcel traffic remains fairly stationary. In the parcel exchanges with countries other than the United Kingdom, there was, as usual, some development, but, except in the case of Ceylon, they remain unimportant. The numbers of parcels sent to and received from these countries during the year were 161,017 (of which 101,024 were for Ceylon) and 106,930, respectively, as compared with 143,781 and 92,079*, respectively, in the preceding year.

* These are revised figures.

Delivery
work of the
year.

14. Appendix II shows that the number of letters, postcards, newspapers, and packets issued for delivery and of parcels posted amounted to 919,524,127 and these figures, added to the 24,418,682 money orders issued for payment, make a grand total for all these classes of articles of 943,942,809, as compared with 898,886,127 in 1908-09, being an increase of 5.01 per cent. as against one of 5.82 per cent. in the previous year. Of these 943,942,809 articles, it is estimated that 940,839,537 or 99.67 per cent. were actually delivered or paid.

Work of
Dead Letter
Offices.

15. The total number of postal articles, excluding money orders, consigned to the Dead Letter Offices during the year was 9,215,748, representing a satisfactorily small increase over the previous year of only .18 per cent. as against 8.96 per cent. in 1908-09 and 10.48 per cent. in the preceding year.

Detailed information showing the distribution among the Dead Letter Offices and the manner of disposal of the articles which reached them, is given in Appendix III. More than 30½ per cent. of the articles received were redirected to the addressees, while more than 43½ per cent. were issued for return to the senders. Less than 9 per cent. of the total number of articles issued by the Dead Letter Offices came back to them as undelivered, and the total number of articles finally deposited as "Dead," that is as undeliverable either to addressees or senders, was 2,963,653. This represents 32 out of every ten thousand of the total number of articles given out at post offices for delivery, and includes a large number of articles which from their nature were not susceptible of delivery, such as articles with no address at all. In Bengal, Madras, and Bombay alone on an average about 136 articles were posted every day with no address whatever, and many of these contained money or valuables. In articles opened in the five larger Dead Letter Offices, cheques, hundis, currency notes, bills of exchange, coins, and other property of the nominal value of nearly 5½ lakhs of rupees were found. The great majority of these articles were successfully delivered either to the addressees or the senders. Among the articles thus delivered was one containing a number of small diamonds posted in an unpaid cover.

(2) Postage Stamps.

Sale of
postage
stamps and
stationery.

16. Details of the issues from treasuries of ordinary postage stamps, postcards, embossed envelopes, and wrappers and also of service postage stamps, postcards, and envelopes will be found in Appendix IV. The total value of ordinary postage stamps and postal stationery issued during the year amounted to over three crores of rupees, showing an increase of more than 44½ lakhs over the value of issues during the previous year. The total value of service stamps and stationery issued exceeded 46 lakhs, being an increase of more than 2½ lakhs upon last year's figure.

The quarter-anna ordinary adhesive stamp continued to command the highest sale, the total number sold having increased from 167 millions in the previous year to 185 millions during the year under report. The quarter-anna single postcard had the next largest sale, but, owing to the increasing use of postcards of private manufacture, the sale decreased from over 119½ millions in 1908-09 to 116½ millions. The half-anna adhesive stamp comes next, and its issues (including the stamps in booklets) were over 110½ millions. This was followed by the small half-anna envelope, which is sold for the face value of the stamp, with a sale of 69 millions as against 70 millions in the previous year. Of the ordinary stamps the sale of the 4 anna, 8 anna and 1 rupee denominations was smaller

during the year under report than in the previous year. As regards the 4 anna and the 8 anna stamps this is due to the increase from the 1st January, 1909, of the minimum rate for telegrams from 4 annas to 6 annas. There has been a large corresponding increase in the sale of 6 anna stamps. The demand for the 1 rupee stamp rose abnormally in 1908-09 for the payment of telegraph charges. The issue of the 2 rupees, 3 rupees and 5 rupees stamps to departmental telegraph offices was stopped for some months in 1908, and no stamps of higher value than 5 rupees were available in the country till January, 1909. With greater sales of the stamps of high value there was a natural falling-off in the sale of the 1 rupee stamps in the year under report.

In addition to postage stamps, non-judicial and court-fee stamps are sold in many post offices; but, except in Burma, the postmaster acts as a private vendor in respect of these stamps, and they do not form part of the post office balance. In Burma, where general stamps are kept by postmasters in the same way as postage stamps, the sales amounted to Rs. 75,509.

The new 6 anna service stamps and 25 rupees ordinary and service stamps indented for during the previous year reached this country during the year and were put into circulation for the first time.

Section III—Insurance and Value-payable Post.

(1) Insurance.

17. During the year under report 1,044,957 letters and parcels were insured for transmission by post, the aggregate insured value being nearly 25½ crores of rupees. The following statement shows the year's business, as compared with that of the preceding year:—

| | Insured letters. | | Insured parcels. | | Total. | | |
|---|------------------|--------------|------------------|--------------|-----------|--------------|-----------------|
| | Number. | Value. | Number. | Value. | Number. | Value. | Insurance fees. |
| | | R | | R | | R | R |
| 1908-09 | 455,715 | 9,77,80,817 | 507,474 | 13,51,64,305 | 963,189 | 23,29,45,122 | 3,10,046 |
| 1909-10 | 534,527 | 11,60,09,027 | 510,430 | 13,85,97,232 | 1,044,957 | 25,46,06,259 | 2,33,623 |
| Percentage of increase (+) or decrease (-). | + 17.29 | + 18.64 | + 1.69 | + 2.54 | + 9.28 | + 9.30 | + 7.60 |

The average amount for which each letter was insured was Rs. 217, as compared with Rs. 215 in the preceding year, and the average amount for which each parcel was insured was Rs. 272, as compared with Rs. 270 in 1908-09.

18. During the year, one hundred and sixty-seven claims for compensation were made in respect of insured articles, as compared with one hundred and eleven in 1908-09. Fifty-nine claims were admitted, the loss having been caused in fifty-three cases by fraud or negligence on the part of postal servants, in one case by accident and in the remaining five cases by highway robbery. The total amount paid in satisfaction of these claims was Rs. 8,046-4-4, as against Rs. 10,489-2-6 in 1908-09. Of this the sum of Rs. 5,377-3-5 was recovered, so that the actual loss to the Department was Rs. 2,669-0-11, as against Rs. 7,936-15-0 in the previous year.

(2) Value-payable post.

Value-payable business.

19. The total number of value-payable articles of all kinds sent through the post was 6,870,979 as compared with 6,393,575 in the previous year. The total amount declared for recovery was eight crores of rupees, as against nearly seven crores in the preceding year. There was thus an increase of 7.66 per cent. in the number of articles and of 6.75 per cent. in the amount specified for recovery. The number of value-payable articles posted in the city of Calcutta was 2,025,494, as compared with 1,811,512 in the preceding year, and the Department realised on the delivery of these articles and paid over to the tradesmen of Calcutta a total sum of Rs. 2,35,52,396 or over one and a half million pounds sterling. The number of value-payable articles posted in the city of Bombay rose from 924,689 to 983,369 during the year under review and the amount realised on the delivery of the articles and paid to the senders was Rs. 1,13,87,441, or over three-quarters of a million pounds sterling.

The increase extended to all classes of value-payable articles. The average value of each article posted was Rs. 11-14-2, as compared with Rs. 11-15-10 in 1908-09.

The number of value-payable articles despatched from India to Ceylon was 80,720 of the aggregate value of Rs. 7,35,069 as compared with 71,558 articles valued at Rs. 6,07,983 in 1908-09.

Section IV.—Money Orders.

General money order business.

20. Appendix V (a) shows the entire money order transactions (including value-payable money orders) of the Department year by year for a period of ten years, separate figures being given for inland and foreign money orders. The total number of money orders issued during 1909-10 was 24,669,161 as compared with 23,877,637 in the previous year, and the total amount remitted was more than 43½ crores, as compared with over 42½ crores in the year 1908-09. Foreign money orders constitute, as usual, a very small percentage (3.17) of the entire transactions of the year.

Inland money orders.

21. Appendix V (b) shows the issues and payments of inland money orders for 1909-10 by postal circles and compares the results of the year with those of the previous year. More than 23½ million inland money orders, ordinary and telegraphic, of the aggregate amount of nearly 40 crores of rupees were issued during the year; and the commission amounted to something over 46½ lakhs of rupees. There was an increase over the transactions of the previous year of 3.27 per cent in the number of inland money orders issued, of 1.98 in their amount, and of 2.26 in the commission realised.

The average amount of an inland money order was Rs. 16-11-8 as compared with Rs. 16-15-1 in the preceding year.

Telegraphic money orders.

22. Appendix V (b) also gives separate figures for telegraphic money orders. There was an increase both in the number and in the amount of such orders issued, as well as in the postal commission realised, which amounted to Rs. 2,92,086 as compared with Rs. 2,85,469 in the preceding year. The average amount of a telegraphic money order was Rs. 85-7-2, as compared with Rs. 91-6-11 in 1908-09.

Special money order business.

23. The special classes of money orders for the payment of land revenue, rent, and miscellaneous Government dues are included under inland money orders

in Appendix V (b). Separate figures for these classes of orders are given in the table below. With one exception, the totals under each class show a satisfactory increase as compared with the corresponding figures of the previous year, which are also given. The exception is in the number of orders in payment of miscellaneous Government dues which is less by 8,629 than during the year before.

| Circle. | REVENUE MONEY ORDERS. | | | | RENT MONEY ORDERS. | | | | OFFICIAL MONEY ORDERS. | | | |
|-----------------------------------|-----------------------|----------------|--------------------|--------------------|--------------------|----------------|------------------|------------------|------------------------|----------------|------------------|------------------|
| | NUMBER. | | VALUE. | | NUMBER. | | VALUE. | | NUMBER. | | VALUE. | |
| | 1908-09 | 1909-10 | 1908-09 | 1909-10 | 1908-09 | 1909-10 | 1908-09 | 1909-10 | 1908-09 | 1909-10 | 1908-09 | 1909-10 |
| Bengal ... | 222,475 | 250,635 | R 16,54,906 | R 18,02,902 | 44,500 | 47,627 | R 7,05,021 | R 7,57,913 | 140,709 | 164,629 | R 31,11,069 | R 34,57,477 |

| TOTAL ... | 683,021 | 740,776 | 1,11,10,709 | 1,16,93,227 | 198,683 | 210,651 | 26,89,768 | 29,82,614 | 356,258 | 347,626 | 53,31,433 | 53,67,884 |

* Approximate figures.

The revenue money order system is not in force in Burma; the rent money order system is not in force in the Punjab, Madras, Bombay, and Burma; and the system of remitting miscellaneous Government dues by money order is not in force in the Central Circle and Bombay.

24. Figures relating to the money order exchanges with foreign countries will be found in Appendix V (c). This shows (1) sterling money order exchanges, which are in force with the United Kingdom and its colonies and with foreign countries generally, and (2) rupee money order exchanges, which are in force chiefly with countries and places in the Far East and Africa. The money order transactions with the Native States of India which have separate postal arrangements are also included, for convenience, in this Appendix. These figures call for no special remark.

25. During the year under report there was a further increase in the sales of British postal orders, the total number of orders sold being 341,981, as compared with 309,048 in the preceding year, and the total value (including poundage) £232,103, as compared with £214,480 in 1908-09. The chief increases occurred in the Punjab and North-West Frontier Circle and in Bengal. Of the total number of British postal orders sold, 161,808 were of the value of £1, 37,708 of the value of 10s., and 26,983 of the value of 5s. each. 64,660 orders of the aggregate value of £42,654-18s.-0d. were paid in this country in 1909-10, and of these, 8,156, of the value of £4,547-11s.-2d., were orders issued and paid in India, as compared with 6,052 of the value of £3,232-17s.-0d. issued and paid in the preceding year. The net commission realised by the Indian Post Office on the sales of the year was Rs. 12,199, as compared with Rs. 10,793 during the previous year.

Section V.—Post Office Savings Banks.

General
results of the
year.

26. Appendix VI shows in detail, according to postal circles, the Savings Bank transactions of the year, as compared with those of the previous year. There were 1,378,916 active accounts in existence on the 31st March, 1910, showing a net increase of 60,284 or 4·57 per cent. The total amount at credit of depositors at the close of the year exceeded 15 crores 86½ lakhs and was about 63½ lakhs or 4·17 per cent. more than the balance at the close of the preceding year.

The deposits and withdrawals, exclusive of all transfers, increased and decreased by over 32½ lakhs and 24½ lakhs, respectively, and the interest paid increased by over 1½ lakhs.

The 1,378,916 active accounts were composed of:—

| | Crores. | Lakhs. |
|---|---------|--------|
| 70,764 Security deposit accounts with a balance of about | R | 0 76½ |
| 9,528 Public accounts with a balance of over | " | 0 61½ |
| 572 Regimental and other conjoint accounts with a balance of over | " | 0 17½ |
| 169,864 Minors' accounts with a balance of over | " | 2 69½ |
| 1,128,138 Ordinary accounts with a balance of over | " | 11 61½ |

The figures show that 94·14 per cent. of the accounts, and 90·21 of the total balance of 15 crores 86½ lakhs represent savings of private persons. Of the total number of accounts open at the close of the year, 1,298,052 were held by private persons. In only 6,211 of these accounts, or 48 per cent., as compared with 6,343 or 51 per cent. in the previous year, were deposits subject to 6 months' notice of withdrawal, the deposits in the remaining accounts being at call. The number of accounts held by natives of the country represents 91·13 per cent. of the total number open at the close of the year.

Occupation
of depositors.

27. In Appendix VI will be found a classification, according to their occupation, of depositors in the Post Office Savings Bank. It will be seen that, as in the preceding year, the largest number of accounts were held by the under-mentioned classes of depositors in the following order:—

- (1) persons of no occupation or whose incomes are derived from others, classed as "Indefinite" in the statement,
- (2) the professional class, and
- (3) the domestic servant class.

Investment
in Govern-
ment secu-
rities.

28. The number of Government promissory notes purchased through the Post Office was 3,114 of the nominal value of Rs. 16,27,300, as compared with 3,107 of the nominal value of Rs. 16,42,500 in the previous year. The number of Government promissory notes sold was 736 of the nominal value of Rs. 4,88,500, as compared with 745 of the nominal value of Rs. 5,39,000. The nominal value of the Government promissory notes held in the custody of the Accountant-General, Post Office and Telegraphs, at the close of the year on account of depositors in the Post Office Savings Bank was Rs. 64,48,900, as compared with Rs. 57,59,300 on the 31st March, 1909. The value of securities in the custody of the Accountant-General, Post Office and Telegraphs, in the 3½ per cent. loans was Rs. 63,95,400 and in the 3 per cent. loans Rs. 53,500. During the year under report, 1,300 investment certificates for fractional amounts of Government promissory notes of the nominal value of Rs. 3,60,226 were

purchased, as compared with 1,401 investment certificates of the nominal value of Rs. 3,91,257 purchased in the previous year. The number of investment certificates sold was 779 of the nominal value of Rs. 1,93,394, as compared with 697 of the nominal value of Rs. 1,56,902 sold in the preceding year.

29. An estimate of the financial results of the working of the Savings Bank is given below, as directed in Resolution No. 2428 of the 13th May, 1902, issued by Government in the Finance and Commerce Department :—

Financial
effect of the
Post Office
Savings
Bank.

| Receipts. | Amount. | Expenditure. | Amount. |
|--|-----------|---------------------------------------|-----------|
| | R | | R |
| Interest at $4\frac{1}{2}$ per cent. per annum on the balance of the deposits. | 54,46,320 | Interest actually paid to depositors. | 44,77,394 |
| | | Estimated cost of managing the bank. | 6,00,591 |
| Total ... | 54,46,320 | Total ... | 50,77,985 |

Section VI.—Miscellaneous.

30. The statement below shows the transactions of the Post Office Guarantee Fund. The balance at credit of the Fund, including the nominal value of Government securities held on its behalf, rose from Rs. 10,41,380 on the 31st March, 1909, to Rs. 10,47,810 on the 31st March, 1910. The amount decreed against the Fund was Rs. 24,313 as compared with Rs. 11,634 in the previous year. A sum of Rs. 5,590 was paid as gratuities to servants of the Department or their heirs under the powers given by Government, and a sum of Rs. 1,029 was advanced at an easy rate of interest to servants of the Department for various purposes.

Post Office
Guarantee
Fund.

A sum of Rs. 37,455 was added to the Fund during the year on account of interest :—

| RECEIPTS. | | | CHARGES. | | |
|---|--|----------|---|--|----------|
| | Government securities (nominal value). | Cash. | | Government securities (nominal value). | Cash. |
| | R | R | | R | R |

| | 7,27,300 | 3,52,371 | | 7,27,300 | 3,52,379 |

* Market value on 31st March, 1910—Rs. 5,83,398.

Complaints
by the public.

31. The number of complaints recorded as having been made by the public was 51,483 against 51,124 in 1908-09, being an increase of only 70 per cent. as compared with an increase of 5'01 per cent. in the number of articles carried. The number of cases in which the complaints were found to be justified was 16,648 against 16,442 in 1908-09. Though it is fully acknowledged that these 16,648 complaints by no means represent all the justifiable causes of complaint given to the public during the year, it is at least of some interest to observe that they represent a percentage of only '0018 on the total number of articles carried during the year.

Complaints
regarding
special classes
of articles.

32. During the year under report, 5,331 complaints were received regarding the special classes of postal articles shown in the following statement :—

| | Registered articles other than parcels and insured value-payable articles. | Ordinary registered parcels. | Insured letters and insured parcels. | Value-pay- able regis- tered articles of all kinds. | Total for 1909-10. | Total for 1908-09. |
|-------------------------------------|---|------------------------------------|---|--|-----------------------|-----------------------|
| Number of complaints re- ceived. | 2,721 | 1,631 | 347 | 1,232 | 5,331 | 4,615 |

Out of these, enquiries showed that in 3,064 cases the Post Office was in no way to blame. In 862 cases no definite conclusion had been arrived at when the year closed, while in 1,405 cases, or 26'3 per cent. of the total, the complaints were well-grounded. Of the well-grounded complaints, 284 were made in respect of more than 2½ millions of ordinary registered parcels, 109 in respect of over a million of insured articles, 441 in respect of nearly 3½ millions of value-payable registered articles, and 571 in respect of more than 18½ millions of registered articles of other kinds. The figures for complaints in respect of registered parcels for the last three years (864, 1,074, and 1,270) are eloquent of the growth in size of ladies' hats and of the faith so unworthily bestowed on mere cardboard boxes to keep them safe in transit.

The number of inland registered articles in respect of which claims for compensation were dealt with was 599 as compared with 431 in the previous year. Compensation amounting to Rs. 3,197-1-1 was paid in respect of 227 articles, while applications for compensation were rejected in the case of 228 articles. At the close of the year, 160 cases were still under enquiry.

Offences
servants
the Post
Office.

33. The number of cases in which servants of the Post Office were held to

| | 1908-09. | | 1909-10. | |
|-------------------------------------|------------------------|----------------------------|------------------------|----------------------------|
| | Number of cases. | Number of offenders. | Number of cases. | Number of offenders. |
| Convictions in Courts of law. | 321 | 285 | 330 | 273 |
| Cases department- ally punished. | 232 | 286 | 239 | 247 |
| | 553 | 571 | 569 | 520 |

be guilty of offences punishable by law as well as the number of such servants punished in those cases are shown in Appendix VII, and a summary of the figures is given in the margin. There were 84 cases of misappropriation of office cash, 144 money order frauds, 11 savings bank frauds, and 83 cases of theft from mails or post offices. Most of the remaining offences were committed in respect of

letters, parcels, or other postal articles entrusted to the Post Office for conveyance.

Among the offenders convicted or departmentally punished were 55 departmental postmasters and 34 clerks, 87 extraneous agents in charge of post offices, 224 postmen and village postmen, 33 runners, and 25 officials of the Railway Mail Service. The defalcations and losses amounted to Rs. 46,947-0-9, as compared with Rs. 65,197-9-6 in the previous year. Of this sum Rs. 27,462-8-3 was recovered from the offenders or their sureties, Rs. 4,747-2-0 was decreed against the Post Office Guarantee Fund, Rs. 83-7-4 was written off as irrecoverable, and Rs. 14,653-15-2 had still to be adjusted at the close of the year.

34. The offences against the Post Office committed by persons not belonging to the Department included nine cases of money order frauds involving a sum of Rs. 645 and two cases of fraudulent withdrawals from the Savings Bank amounting to Rs. 175. There were also ninety-eight cases of theft of Government money from the mails and post offices, besides cases of highway robbery, which are dealt with separately. The total amount stolen was Rs. 14,161-15-6, of which Rs. 3,661-2-10 was recovered, Rs. 107-5-2 was decreed against the Guarantee Fund, Rs. 1,030-15-0 written off as finally lost, and Rs. 9,362-8-6 remained unadjusted at the close of the year.

35. There were 29 cases of highway robbery of the mails, as compared with 35 in the previous year. Of these, nineteen occurred in British territory and ten in Native States.

Of the robberies that occurred in British territory, six took place in Madras, four in the Punjab, four in the United Provinces, three in Bombay, and two in Bengal.

Two cases were attended with loss of life. On the night of the 22nd April, 1909, a runner carrying mails from Tekkalakota to Bellary in Madras was murdered by robbers who carried away the whole mail. Four men were arrested on suspicion, but were discharged for want of evidence. The second case occurred on the North-West Frontier on the Fort Sandeman-Daraban line. The mails from Daraban and Moghalkot Shirani due at Fort Sandeman on the 21st March, 1910, were robbed in transit and the trooper accompanying them was murdered. The mails were recovered intact. The murder of the trooper, which was ascertained to have been due to a private feud, was referred to the Shirani *jirga*, which agreed to arrange a settlement according to tribal custom.

Two other cases, though not attended with loss of life, may be mentioned. On the 7th August, 1909, thirteen parcel bags were being conveyed from Karaikudi to Oyakondan Siruvayal in the district of Madurai in Madras. The bags were in a bullock cart in charge of an overseer, who was driving it himself when he was attacked and overpowered by a band of robbers, who drove the cart into the jungle and unloaded it. The overseer was left bound hand and foot, but managed to reach the outskirts of the nearest village, whence he sent word to the local Police. Eight of the thirteen bags were found unopened in the jungle. Seven men were subsequently arrested, of whom six were sentenced to various terms of rigorous imprisonment. The second case occurred in the Native State of Bastar during the local rising of February, 1910, during the early stages of which the mail communications between the post offices in the State were seriously disorganised. Two runners' huts and some letter-boxes were destroyed, and some mails were carried off.

Government suffered a loss in this class of case amounting to Rs. 14,326-5-6. Of this sum, Rs. 569-5-0 represents cash and stamps stolen. The entire mail

was recovered in eight cases, and part of the mail in thirteen cases. In the remaining eight cases the whole mail was lost. Eight prosecutions were instituted, in five of which convictions were obtained.

In addition to the cases of actual highway robbery mentioned above, there was one unsuccessful attempt to rob the mails. This took place in British territory.

Casualties.

36. These were unfortunately not the only cases during the year in which lives of postal servants were lost. On the 15th May, 1909, a runner in Coorg, while waiting at a stage to receive the incoming mails, was accidentally shot dead by an Indian sportsman. On the 12th June, 1909, a runner in the Punjab was exchanging mails from the footboard of a mail van, when, the train starting suddenly, his foot slipped and he was run over and killed. On the 16th November, 1909, the sub-postmaster of Malkhanagar in the district of Dacca and a postman of the office were brutally murdered in their beds. Robbery was apparently not the object as nothing was taken away. The police enquiry into the case has not yet been concluded. On the 8th December, 1909, a village postman in Bengal was murdered while sleeping in a school house in his beat, having been taken for the school master against whom his assailants had a grudge. Some of them have since been secured and are under trial. In the same month, a postman in the Bombay Presidency, while returning from his beat, was bitten by a venomous snake and died. On the 3rd February, 1910, a runner in Bengal was carried off by a tiger. On the 21st of the same month a mail overseer and a village postman in Burma were severely beaten by some villagers who took the former for a plague inspector against whom they had a grudge. The village postman subsequently died from the injuries received. Three arrests have been made and the accused are under trial. On the 26th February, 1910, a village postman in the Punjab, while out on his beat, was decoyed into a field of sugar-cane and was there murdered for the sake of an insured parcel which he had in his possession. The reported assailants were subsequently arrested by the police, but the enquiry into the case had not been concluded when the year closed.

It is a matter for congratulation that the Leh and Gilgit lines were entirely free from accidents during the year under report.

During the year seventeen post offices and one mail office were destroyed by fire and the severe cyclone of October, 1909, destroyed several post offices in Bengal and Eastern Bengal.

Post Office staff.

37. Appendix VIII, an abstract of which is given in the margin, shows the

| Postal Officials. | 1908-09. | 1909-10. |
|--|----------|----------|
| Chief Officers of Direction, Accounts Officers, and Heads of Circles and Superintendent, Workshop, Aligarh | 33 | 34 |
| Superintendents, Probationary Superintendents, Assistant Superintendents and Inspectors | 622 | 649 |
| Postmasters, including Deputy, Assistant, Sub, and Branch postmasters | 6,674 | 6,666 |
| Extraneous agents, such as schoolmasters and station masters | 11,918 | 12,149 |
| Clerks | 13,704 | 14,301 |
| Postmen and other servants | 25,486 | 26,373 |
| Village postmen | 8,292 | 8,378 |
| Road establishment | 20,377 | 20,461 |
| Signallers and other servants employed wholly for telegraph work in combined offices | 3,674 | 3,132 |
| Total | 91,187 | 92,163 |

entire staff of the Department, the numbers in the different classes being shown separately for each postal circle. On the 31st March, 1910, the numerical strength of the Post Office establishment was 92,163 as compared with 91,187 at the

close of 1908-09. This included 264 pensioned soldiers of the Native Army, of whom 52 were non-commissioned officers and 212 sepoy. The number of women employed was 82, of whom all except 9 were either Europeans or Eurasians.

The total number of servants of the Department dismissed during the year was 569 as against 612 in the previous year. Of this number 256 were postmen or village postmen and 33 belonged to the road establishment.

38. The number of officials of the Post Office who joined the General Provident Fund during the year was 3,315, representing about seven per cent of the total number of officials eligible for admission, and 801 of the officials who joined paid subscriptions at the maximum rate. The majority of the subscribers were clerks (including signallers) but it is gratifying to note that 581 were postmen and village postmen.

39. The charges incurred during the year on account of printing work done by private presses amounted to Rs. 17,438, as compared with Rs. 22,572 in the year 1908-09.

Section VII.—Non-Postal Branches of the Post Office.

40. During the year under report 113 combined post and telegraph offices were opened, and 8 previously existing offices were closed. There was, therefore, a net increase of 105 in the total number of combined offices as compared with a net increase of 113 during 1908-09 and 107 during 1907-08. Of the 113 new combined offices 111 were opened at places which had previously been without a Government Telegraph Office and 79 at places where there had previously been neither a Government nor a Railway telegraph office. The total number of combined offices open on the 31st March, 1910, was 2,483 as compared with 2,378 on the 31st March of the preceding year. The number of postal servants who qualified as signallers was 631 and the total number of signallers employed was 3,930 as compared with 3,455 at the close of 1908-09. There were 1,113 boys employed as messengers in these offices as compared with 1,067 at the close of the preceding year.

41. In Appendix IX will be found the traffic statistics of combined offices as supplied by the Telegraph Department. According to these there was an increase of 29,545 or 51 per cent in the number of messages sent; and a decrease of 710,926 or 12.07 per cent in the number received, and of Rs. 13,379 or 41 per cent in the revenue realised on sent messages as compared with the figures of the previous year. The apparent decrease in the number of messages received is due to the inclusion this year of paid messages only. In former years both paid and free messages were included. The revenue from messages despatched from combined offices is given as Rs. 32,06,255, as compared with Rs. 32,19,634 during the preceding year, while the total number of messages (excluding free messages) sent is given as 5,783,614 and the number received as 5,177,478.

42. In addition to the telegrams sent and received by the 2,483 combined offices, there were 52,927 telegrams booked at receiving post offices for despatch by post to telegraph offices as compared with 56,956 in the previous year. The revenue realised on these telegrams was Rs. 28,022 as compared with Rs. 31,704 in 1908-09.

The number of telegrams received at post offices in the Persian Gulf on account of the Indo-European Telegraph Department was 440 against 628 in the year 1908-09, and fees to the amount of Rs. 3,077 were realised, as compared with Rs. 4,002 in the previous year.

Carrying
agency on the
Kalka-Simla
line.

43. From the 1st February, 1910, the day mails between Kalka and Simla were conveyed by the Kalka-Simla State Railway and from the same date the horse establishment was greatly reduced. The gross expenditure on the service was Rs. 1,50,710 as compared with Rs. 1,82,557 in the previous year, while the receipts amounted to only Rs. 17,402 as compared with Rs. 25,857. The decrease in revenue is due to the fact that passengers now travel almost exclusively by the railway. The net cost of the line to Government was Rs. 1,33,308 as against Rs. 1,56,700 in the previous year, showing a reduction of Rs. 23,392.

Receipt of
salt revenue
at post offices.

44. The Post Office acted as agent for the receipt of salt revenue at certain selected offices in the Punjab and North-West Frontier, United Provinces, Bengal, and Central Circles. The following comparative figures show that there was a slight increase in the small business done through the Post Office:—

| | | 1909-10. | 1908-09. |
|---|-----|---------------|--------------|
| Post offices authorised to receive salt revenue | No. | 312 | ... |
| Indents received | ... | No. 1,756 | ... 307 |
| Quantity of salt indented for | ... | Mds. 5,52,144 | ... 1,520 |
| Value | ... | R 6,19,121 | ... 403,417 |
| Postal commission realised | ... | R 1,097 | ... 4,63,619 |
| | | | ... 964 |

Sale of
quinine at
post offices.

45. The Post Office obtained for sale to the public about 7,701 lbs. of quinine as compared with 7,549 lbs. in the previous year.

Postal Insur-
ance Fund.

46. Appendix X shows the operations of the scheme of Life Insurance, Endowment Assurance, and Monthly Allowances, as compared with those of the previous year, and Appendix XI shows the financial results of the administration of the Postal Insurance Fund up to the end of the year under report. During the year 2,180 new policies were issued of the aggregate value of Rs. 28,75,960, of which 430 of the aggregate value of Rs. 6,26,194 were life insurance policies, while 1,750 of the aggregate value of Rs. 22,49,766 were policies of endowment assurance. The total sum realised on account of premia on old and new policies taken together amounted to Rs. 10,89,663 as compared with Rs. 9,93,955, the revised figure for the previous year. Claims to the extent of Rs. 4,41,148 were discharged as compared with Rs. 4,14,741 during the preceding year; while ninety-nine life insurance policies representing a gross sum of Rs. 1,26,650 and two hundred and seventeen endowment assurance policies representing Rs. 2,13,851 either lapsed or were surrendered or cancelled. The lapses and surrenders during 1908-09 were ninety-two life insurance policies representing a gross assurance of Rs. 1,17,250 and one hundred and eighty-two endowment assurance policies representing Rs. 2,04,443.

Of the 2,180 persons holding policies issued during the year, 2,135 were pure Asiatics by race. Two women employed under Government were insured during the year, so that there are now sixteen female policy-holders in all.

The general results of the past two years are summarised below:—

| Life Insurance and Endowment Assurance. | | Up to the 31st March 1909. | Up to the 31st March 1910. |
|---|-----|----------------------------|----------------------------|
| Number of lives insured | ... | 20,772 | 22,952 |
| | | R | R |
| Amount received in premia | ... | 71,16,765 | 82,06,428 |
| Amount of insurance | ... | 2,85,02,049 | 3,13,78,009 |
| Amount of claims met | ... | 24,09,747 | 28,50,895 |

At the close of the year there were 19,249 active policies in existence, representing an aggregate of Rs. 2,65,96,125, of which 8,329 were held by Post Office servants and 10,920 by persons employed in other Departments. Four new contracts for monthly allowances were entered into during the year and there were 129 such contracts in existence at the end of the year, the total of the monthly allowances contracted for being Rs. 1,258-11-5.

Four life annuities were purchased from the Post Office under Article 807 of the Civil Service Regulations.

47. The pensions of 36,332 pensioners of the Native Army were paid through the agency of the Post Office in the Punjab and North-West Frontier during 1909-10, as compared with 35,387 in 1908-09 and the amount paid on this account was Rs. 25,65,222-8-5, as compared with Rs. 24,8,362-4-7 in the previous year. The Post Office received only Rs. 19,239-2-7 for this service, almost all of which was, as usual, swallowed up in paying for the establishment, forms and printing required for this special service, so that the Post Office is doing this important and difficult work practically free of cost to Government. Payment of military pensioners.

Section VIII.—Financial Results.

48. The total receipts and charges of the year as shown in the Post Office Summary accounts and given in Appendix XII are as under:—

| Receipts. | | Charges. | |
|-------------|-------------|-------------|-------------|
| 1908-09. | 1909-10. | 1908-09. | 1909-10. |
| R. | R. | R. | R. |
| 2,73,84,300 | 2,89,16,324 | 2,76,29,469 | 2,79,62,580 |

According to the figures above, the charges for 1909-10 exceeded the charges for 1908-09 by Rs. 3,33,111, the receipts for 1909-10 exceeded the receipts for 1908-09 by Rs. 15,32,024 and the receipts for 1909-10 exceeded the charges for the same year by Rs. 9,53,744.

49. The receipts for 1909-10 include a sum of Rs. 2,26,50,980 on account of the Post Office share of the total revenue from the sale of postage and unified stamps as compared with the sum of Rs. 2,12,76,030 included on the same account in the receipts for 1908-09. The large increase of Rs. 13,74,950 shown by a comparison of these two figures cannot be taken as entirely due to the growth of business in the year, although the general depression of trade was somewhat less on the whole during 1909-10 than during 1908-09. Some portion of the increase must be accounted for by the fact that, as surmised in the report for 1908-09, the sum allotted to the Post Office as its share of the total revenue from the sale of postage and unified stamps for that year was less than the sum that would have been due to it if there had been a correct computation of the share of the Telegraph Department. Revenue from postage stamps.

50. With regard to the small increase in charges, it should be explained that whereas the figure for 1908-09 includes a sum of Rs. 11,62,258 on account of grain compensation allowance and the "Fiftieth Anniversary Bonus," the figure for 1909-10 includes only Rs. 6,91,653 on the same account. If these special Charges.

items of expenditure are left out of consideration, the ordinary charges for 1909-10 exceed those for 1908-09 by Rs. 8,03,716 as compared with Rs. 13,03,503 representing the excess of the ordinary charges for 1908-09 over 1907-08. This result has been obtained only by very careful attention and by avoiding all expenditure that was not urgently necessary.

I am glad to be able to say that the Stationery and Printing bill of the Department was substantially smaller for 1909-10 than for 1908-09, though this is not apparent from a comparison of the figures in Appendix XII to the reports for the two years. To the figure Rs. 10,77,822 shown for 1908-09 must be added not only a sum of Rs. 4,590 which was subsequently adjusted but also the large sum of Rs. 1,19,000 on account of stationery supplied to the contractors which was omitted from the original statement submitted by the Superintendent of Government Printing. The real total for 1908-09 was thus Rs. 12,01,412 as compared with Rs. 10,88,928 representing the expenditure for 1909-10. Expenditure under this head continues to be very strictly watched.

Financial
position of
the Post
Office.

51. Appendix XII shows also under a distinct head (II) certain charges which appear in the Finance and Revenue Accounts but not in the Post Office Accounts. These charges are reproduced in the margin and, if their total be added

| | R |
|---|----------|
| Stores from England | 11,085 |
| Payments under postal arrangements with Lords of the Treasury ... | 8,12,820 |
| Total ... | 8,23,905 |

to those given in the table in the preceding paragraph, the total charges of the year amount to Rs. 2,87,92,485. It

will thus be seen that there was a surplus of Rs. 1,23,839 on the year's transactions as shown in the Finance and Revenue Accounts. In order, however, to arrive at the true financial result of the year's administration, it is necessary to add to the charges a further sum of Rs. 12,67,765 representing the net balance of the items shown in the margin. The result is that the charges exceeded the

| | Details. | Total. |

receipts by Rs. 11,43,926. After taking credit for the sum of Rs. 2,65,111 representing the net expenditure during the year on account of unremunerative establishments formerly paid from District Post Funds, the deficit is reduced to Rs. 8,78,815. This figure, however, does not take into account the

services rendered by the Department to a large number of Native States in carrying their official correspondence free of charge in accordance with the arrangements under which their postal systems have been amalgamated with the Indian

Post Office. The total value of these services for the year 1909-10 has been estimated at Rs. 2,26,610 so that the final deficit was Rs. 6,52,205 as compared with Rs. 16,26,984 in 1908-09.

This deficit, it may be noted, is approximately equal to the sum representing the estimated cost of managing the Post Office Savings Bank (*vide* paragraph 29) for which no credit is allowed to this Department. In spite, therefore, of the enormous reduction in rates which unfortunately coincided with two bad years, the Post Office has shown a real deficit for only one year. There is every reason to hope that for the year 1910-11 it will show a moderate surplus which will continue to grow thereafter.

52. The following figures show the financial result of the amalgamation of the posts in the Kashmir and Jammu State with the Imperial Post Office. Financial result of working the posts in Kashmir.

The amalgamation took place in November, 1894, and, except in 1905-06, when there was a small surplus, the working of the Kashmir post offices has always resulted in a loss, owing to the very expensive lines which have to be maintained to serve Gilgit and Leh. The total revenue in 1909-10 was Rs. 1,78,800 as compared with Rs. 1,88,891 in 1908-09, and Rs. 1,60,307 in 1907-08. The expenditure during 1909-10 was Rs. 2,29,627 against Rs. 2,21,577 in 1908-09 and Rs. 2,14,483 in 1907-08, the actual deficit during the year being Rs. 50,828. The decrease in revenue was due mainly to the reduced sale of service stamps to the Durbar, as the purchases in 1908-09 had been above the actual requirements. The increase in expenditure was chiefly due to necessary revision of establishment.

Section IX.—Personal Matters.

53. During the year under report, Mr. W. T. van Someren, C.I.E., officiating Postmaster-General, Bombay, retired after a long and meritorious service. Mr. van Someren's success in organising the Indian Field Post Office had earned for him the well deserved honour of a Companionship in the Order of the Indian Empire, and the excellent work done by him in this important branch will long be remembered. Personal matters.

Soon after the year closed, the Department suffered a serious loss in the retirement of Mr. W. F. Cockell, Deputy Director-General, than whom the Post Office has probably never had a more zealous, careful and generally useful officer. With him I have lost a very highly valued adviser.

I have the honour to be,

SIR,

Your most obedient servant,

C. STEWART-WILSON,

Director-General of the Post Office of India.

SCHEDULE OF PRINCIPAL STEAMER SERVICES, 1909-10.

By the British India Steam Navigation Company.

- (1) Direct communication three times a week between Calcutta and Rangoon.
- (2) Weekly communication between Chittagong, Akyab, Kyaukpyu, Sandoway (during fair season only) and Rangoon.
- (3) Weekly direct communication between Madras and Rangoon.
- (4) Communication three times a week between Rangoon and Moulmein.
- (5) Weekly communication between Rangoon, Tavoy and Mergui.
- (6) Fortnightly communication between Moulmein, Yeh, Palaw, Tavoy, Mergui and Bokpyin.
- (7) Weekly direct communication between Bombay and Karachi.
- (8) Weekly communication between Bombay and Karachi *via* the Coast ports.
- (9) Weekly communication between Karachi and Busrah *via* the Persian Gulf ports.
- (10) Weekly communication between Karachi and Busrah *via* the principal Persian Gulf ports.
- (11) Daily communication between Tuticorin and Colombo.
- (12) Fortnightly service from Negapatam to the Straits.
- (13) Additional services between any of the ports served by the above-mentioned lines and between any of the ports on the Coromandel Coast and Rangoon.

Under contract with the Post Office from 1st May, 1904, on an annual subsidy of Rs 15,00,000.

- (14) Direct weekly communication between Rangoon and Penang.

Under contract with the Post Office from 1st July, 1908, on an annual subsidy of Rs 70,000.

By the Asiatic Steam Navigation Company.

- (15) Six-weekly communication between Calcutta and Port Blair, with extensions to Madras and Rangoon.

The consideration is not in the form of a subsidy, but of guaranteed rates for the transport of Government stores; the contract is for five years, from 1st July, 1909, and is terminable after the five years by a notice of six months.

By the Irrawaddy Flotilla Company, Limited.

- (16) Communication three times a week between Rangoon and Bassein.
- (17) Daily communication (Sundays excepted) between Bassein and Myaungmya.
- (18) Daily communication (Sundays excepted) between Promo and Thayetmyo and Minbu.
- (19) Communication twice a week between Thayetmyo and Pakokku.
- (20) Daily communication (Sundays excepted) between Magwe and Sale.
- (21) Daily communication (Sundays excepted) between Sale and Pakokku.
- (22) Daily communication (Fridays excepted) between Myingyan and Pakokku.
- (23) Weekly communication between Pakokku and Kindat.
- (24) Weekly communication (provided the depth of the water permits) between Kindat and Homalin.

Under contract with the Burma Government for a period of five years from 1st November, 1908. The annual subsidy is Rs 1,41,000, of which Rs 41,236 is paid by the Post Office.

By the Irrawaddy Flotilla Company, Limited—contd.

- | | |
|---|--|
| (25) Communication six times a week between Katha and Bhamo. | { Under contract with the Burma Government to continue in force until twelve months' notice is given by either party. The annual subsidy is R 18,000, of which R 4,666 is paid by the Post Office. |
| (26) Weekly communication between Moulmein and Kya-in. | { Under contract with the Burma Government to continue in force until six months' notice is given by either party. The subsidy R 100 per mensem is paid by the Burma Government. |
| (27) Daily communication between Rangoon, Pyapon, Maubin and Yandon. | { Under contract with the Burma Government to continue in force until six months' notice is given by either party. The annual subsidy is R 4,800, of which R 960 is paid by the Post Office. |
| (28) Communication three times a week between Moulmein, Shwegun and Kama-maung. | { Under contract with the Burma Government to continue in force until six months' notice is given by either party. The annual subsidy is R 6,000, of which R 1,200 is paid by the Post Office. |
| (29) Communication three times a week between Moulmein and Kyondo. | { |
| (30) Daily communication (Sundays excepted) between Moulmein and Natmaw. | { Under contract with the Burma Government to continue in force until six months' notice is given by either party, the subsidy, which is paid by the Burma Government, being R 260 per mensem. |
| (31) Daily communication (Sundays excepted) between Moulmein and Kado. | { |
| (32) Daily communication between Rangoon and Kyauktan. | { Under contract with the Post Office to continue in force until two months' notice is given by either party. The annual subsidy is R 1,500, of which R 1,200 is paid by the Burma Government. |
| (33) Daily communication between Wakema and Myaungmya. | { |
| (34) Daily communication between Myaungmya and Moulmein. | { |
| (35) Daily communication between Wakema and Moulmein. | { Under contract with the Post Office to continue in force until two months' notice is given by either party, the monthly subsidy being R 280. |
| (36) Daily communication between Wakema and Kyonmagu. | { |

By the Arakan Company, Limited.

- | | |
|---|---|
| (37) Communication three times a week between Akyab and Butthidaung. | { |
| (38) Communication thrice a week between Akyab and Paletwa. | { |
| (39) Communication once a week between Akyab and Kyauktaw. | { |
| (40) Communication once a week between Akyab and Myaungbwe. | { Under contract with the Burma Government for five years from 1st April, 1905. Subsidy R 70,750 a year is paid by the Burma Government. |
| (41) Weekly communication between Akyab and Sakanmaw via Myebon and Kyaukpyu. | { |
| (42) Weekly communication between Akyab and Sandoway via Kyaukpyu. | { |
| (43) Weekly communication (during fair season only) between Sandoway and Gwa. | { |
| (44) Weekly communication between Akyab and Kyaukpyu. | { Under contract with the Burma Government from 18th June, 1909, to continue in force until six months' notice is given by either party. Subsidy R 11,000 a year is paid by the Burma Government. |

By the Euphrates and Tigris Steam Navigation Company.

- | | |
|--|--|
| (45) Weekly communication on the river Tigris between Basrah and Bagdad. | { Under contract for ten years, from the 1st May, 1904, with His Majesty's Secretary of State for India. Subsidy R 24,000 per annum: steamers to run in connection with line No. (10). |
|--|--|

By Messrs. Apcar & Co., Calcutta, and Jardine, Matheson & Co., Hong-Kong.

- (46) Communication at irregular intervals between Calcutta and the Straits Settlements and Hong-Kong, the dates of departure being regulated mainly with reference to the Calcutta opium sales. } The consideration is not in the form of a money subsidy but of a guarantee of certain concessions constituting just as effective a subsidy as a money payment.

By the Peninsular and Oriental Steam Navigation Company.

- (47) Fortnightly communication between Calcutta and Colombo, touching occasionally at Madras. } Non-contract lines maintained by the company in connection with the China and Australian mail services. Under Article 40 of the contract between the Peninsular and Oriental Steam Navigation Company and His Majesty's Postmaster-General relating to the conveyance of the East India, China, and Australia mails, mails sent by these non-contract steamers are conveyed without any payment other than the subsidy specified in that contract.
- (48) Fortnightly communication between Bombay and Colombo. }

By other Agencies.

- (49) By the Bombay Steam Navigation Company.—Daily communication between Bombay and Goa. } Under contract with the Post Office from 1st October, 1909, to 31st May, 1910. The monthly subsidy paid by the Post Office is R 3,000, towards which the Goa Government contributes R 200.
- (50) By M. G. Bwin and Brothers.—Weekly communication between Kyaukpyu and Cheduba, Kyaukpyu and Ramree, Sandoway and Singaing Sandoway, Taungup and Kyaukpyu. } Under contract with the Burma Government for five years from 1st April, 1905. Subsidy R 23,200 a year.
- (51) By Messrs. Cowasjee, Dinshaw and Brothers.—Weekly communication between Aden, Berbera and Zeyla. } Under contract with the Government of the Somaliland Protectorate for twelve months, from 1st April, 1909, to 31st March, 1910. The monthly subsidy is R 1,050, of which sum R 300 is at the sole charge of the Protectorate Government, and the balance, *viz.*, R 750, is paid in equal shares by the Protectorate Government and the Indian Post Office.
- (52) By the Retriever Flotilla Company.—Communication four times a week between Chittagong and Cox's Bazar. } Under contract with the Post Office (from 1st June, 1908, to 31st May, 1913. Subsidy R 5,700 a year.

APPENDICES.

Appendix I.

Statement showing, according to postal circles, (1) the number of post offices, letter-boxes and village postmen, and (2) the distances over which mails were conveyed by railway, mail carts, runners and steamers at the close of the year 1909-10 and of the preceding year.

SUPPLEMENT TO
The Gazette of India.

No. 42. } SIMLA, SATURDAY, OCTOBER 15, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,
the 13th October 1910, based on the Indian Daily Weather
Reports of the period.**

1. The Bombay monsoon current was inactive and gave only a few falls of rain, chiefly in the extreme south of the Peninsula, while the Bay current was confined almost entirely to Burma and Eastern Bengal and Assam; there was fairly general rain in Burma throughout the week and in Eastern Bengal and Assam on the 8th and 9th.

2. A feeble disturbance of the winter type affected the extreme north on the 11th. It gave hardly any rain at the reporting stations; but, from the very rapid fall of temperature which followed it in both Kashmir and Baluchistan, it would appear probable that it occasioned more important precipitation in the form of snow in the higher ranges to the north and west.

3. The rainfall of the week was 20 per cent or more in excess in Burma, Eastern Bengal and Assam, Bengal proper, Orissa, the Central Provinces, Hyderabad North and Mysore; and there was a deficiency of half an inch or more in Bihar, the United Provinces East, Berar, the Konkan, Malabar and the Madras Deccan.

4. *Burma.*—Rainfall was fairly general, and skies were moderately to heavily clouded.

Northeast India, including Orissa.—Rain fell locally in Eastern Bengal and Assam and a few falls occurred in Bengal, especially in the coast districts. Cloud was moderate to heavy except on the 10th and 11th, when skies were only lightly clouded.

The United Provinces, Central India and the Central Provinces.—Weather was dry except for a few falls of rain in the Central Provinces. Skies were practically cloudless in the United Provinces, but there was moderate to heavy cloud on most days in the Central Provinces; and on the 11th and 12th the night temperatures reported were higher than usual in this area.

Northwest India.—A light fall of rain occurred at Sonemarg, and snow probably fell on the higher ranges. On the 11th cloud appeared in the extreme north and increased in the south of the division, but on all the remaining days skies were practically clear. Maximum temperature was higher than usual in Kashmir and Baluchistan until precipitation in the extreme north caused it to fall below the normal: it was in local defect in Gujarat and east Rajputana.

The Peninsula.—There were a few falls of rain, chiefly in the extreme south. Skies were lightly to moderately clouded.

5. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

| | | |
|---------|-------|---|
| October | 7th. | Mergui 2'44", Lashio 2'11", Darjiling 1'92", Bogra 3'49" and Seoni 2'44". |
| " | 8th. | Mandalay 1'38", Lashio 2'30", Silchar 2'15" and Cocanada 1'78". |
| " | 9th. | Myitkyina 2'82", Jalpaiguri 2'70" and Jessore 4'13". |
| " | 10th. | Cherrapunji 3'64", Cuttack 2'51", Salem 1'82" and Kodaikanal 2'07". |
| " | 11th. | Lashio 3'48", Salem 2'60" and Nellore 2'55". |
| " | 12th. | Bhamo 3'48", Mysore 1'87" and Gopalpur 1'70". |
| " | 13th. | Balasore 2'87", Mysore 3'02", Madura 2'13", Trichinopoly 3'35" and Salem 1'75". |

6. The rainfall for the whole period from the 29th April to the 13th October is within 20 per cent of the normal every where, except in Kashmir and Baluchistan, where it is more than 20 per cent in defect, and in the North-West Frontier Province, Sind, Mysore and the Madras Deccan, where it is more than 20 per cent in excess.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 13TH OCTOBER 1910. | | | RAINFALL DATA FROM 29TH APRIL 1910 TO 13TH OCTOBER 1910. | | | | |

E. D. MACLAGAN,
Secretary to the Government of India.

SIMLA:
The 13th October 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
8th October 1910.

Burma.—The rainfall during the week was practically general and mostly moderate. Transplanting of winter rice continues in parts of Upper Burma but has been delayed in Lower Chindwin for want of rain. Replanting in flooded areas of the Delta districts is progressing. Reaping of early sessamum has been nearly completed and sowing of late sessamum and cultivation of miscellaneous crops are in progress. The condition of standing crops is on the whole good and prospects are favourable. The price of unhusked rice has risen considerably in Tharrawaddy and slightly in three other districts. It has fallen slightly in one district. Prices are generally normal.

Eastern Bengal and Assam.—The rainfall has been heavy in parts of Rajshahi, the Surma Valley and the Assam Valley divisions and light to moderate elsewhere. Harvesting of summer rice and jute and transplanting of winter rice have been practically completed. Ploughing for spring crops, plucking of tea and sowing of pulses are in progress. Prospects of standing crops are good. The average price of common rice is practically unchanged. Cattle disease prevails in Malda, Goalpara, Kamrup, Nowgong and the Garo Hills.

Bengal.—The rainfall during the week was fairly general over the Province. The fall was heavy in Birbhum, Nadia, Jessore, Patna, Shahabad, Muzaffarpur, Darjeeling, Cooch Behar and in parts of Gaya, Murshidabad, Saran, Champaran, Darbhanga and the Sonthal Parganas; moderate in Midnapore, Cuttack, Sambalpur and Hazaribagh and light elsewhere. More rain is wanted in Burdwan, Bankura, Midnapore and the 24-Parganas. Harvesting of autumn crops still continues. Preparation of lands for spring crops has commenced. Winter paddy and sugarcane are doing well. Some damage to paddy by insects is reported from Sambalpur. The price of common rice has risen in Burdwan, Khulna, Hazaribagh and Singhbhum and has fallen in Bankura, Nadia, Patna, Monghyr, Bhagalpur and Ranchi. Cattle disease is reported from ten districts. The supply of fodder and water is sufficient throughout the Province.

United Provinces.—Heavy rain fell at the beginning of the week over a large part of the Provinces causing some damage to cotton and the larger millets. Rivers rose suddenly to full flood, but except in two or three districts inundations are reported to have caused little damage beyond retarding sowings for spring crops in the flooded areas. The general condition of standing crops continues good and prospects are favourable. Cotton-picking and harvesting of rice, maize and millets continue. Preparations for spring crops which were checked by rain are again in full swing. Sporadic cattle disease is reported from twenty-six districts but the general condition of agricultural stock is good. Fodder and supplies are ample. Prices are generally stationary.

Punjab.—Good to light rain has fallen in Rohtak and parts of Hissar and Delhi. Autumn crops are being harvested in certain districts. Ploughings for and sowings of spring crops continue. The condition of standing crops is average in Lahore, Sialkot, Multan and parts of Hissar and Ferozepore, average to below average in Lyallpur, average to poor in Mianwali and good elsewhere. Crops are withering for want of rain in Sialkot and Mianwali. Cotton in Rohtak and great millet and bulrush millet in Delhi

have been damaged by heavy rainfall. Slight damage by rats is reported from Ferozepore. Prices are generally unsettled. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali.

North-West Frontier Province.—No rain fell during the week. It is badly wanted in the Dera Ismail Khan district. The condition of standing crops is generally good in Peshawar and average elsewhere. Picking of cotton and reaping of rice are in progress in the Peshawar district. Sowings of spring crops continue. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal has been stopped. The condition of cattle is generally good but disease is prevalent in one village of the Charsadda tahsil of the Peshawar district, in the Tank tahsil and in the Dera tahsil of the Dera Ismail Khan district. The public health is generally good. Seasonal fever is prevalent in the Dera Ismail Khan district. Prices of food grains are generally stationary. Prices :—wheat $13\frac{1}{4}$ to $18\frac{1}{4}$; gram $17\frac{1}{4}$ to 26 ; maize 15 to $29\frac{1}{4}$ and bajra 18 to 25 seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 18 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

Rajputana.—The rainfall reported, in cents, was :—Bikaner 22 ; Dungarpur 58 ; Banawara 142 ; Partabgarh 160 ; Tonk 46 ; Bundi 61 ; Jhalawar 110 ; Jaipur 20 ; Alwar 109 ; Karauli 82 ; Dholpur 424 and Ajmer 83. No rain or practically none fell elsewhere. Agricultural operations for both autumn and spring crops are in progress. Crops are generally good but the outturn is much below the average in Bharatpur. Slight damage by winds is reported in Marwar, by grass-hoppers in Mewar and by heavy rains in Karauli and Bharatpur. Cattle disease prevails in Mewar, Banawara, Karauli and Merwara. Fodder is sufficient. Prices are rising in Mewar, Shahpura and Ajmer and are steady or falling elsewhere.

Central India.—The rainfall was heavy in the Indore, Malwa and Bhopawar Agencies and has caused some damage to cotton, rice and other crops. The weather is clear and bright. Crops are now maturing rapidly and promise an abundant yield. Harvesting of autumn crops and preparation of ground for spring crops are in progress. Fodder is plentiful. Cattle are generally in good condition but some disease exists in parts of Bhopal, Bundelkhand and Bhopawar. Prices are falling in Bhopal and Baghelkhand and are steady elsewhere.

Central Provinces.—The rainfall has been slight. A break has now occurred and is doing good to crops. Harvesting of early rice and minor crops and preparation of land for sowing of spring crops have been resumed. Sowing of gram in Mandla, of linseed in Chanda and Raipur and of pulses in Betul has commenced. Prospects are good. The estimated outturn of 64 for the Central Provinces and Berar is 111 and 87 per cent of the normal respectively. Fodder and water are sufficient everywhere. Cattle are doing well. Prices are falling slightly.

Feudatory States.—The rainfall in the States during the week did not exceed 2 inches. Cutting of rice in places and ploughing of land for sowing of spring crops are in progress. The condition of standing crops is generally good. Fodder and water are

adequate. Prices :—wheat and gram in Kanker fell by 2 and 3 seers per rupee respectively. Rice sells cheaper by 2 seers in Sakti.

Bombay.—The rainfall during the week was heavy in parts of Ratnagiri; good in Thana, Colaba, East Khandesh, Kathiawar and Savantvadi; moderate in the Panch Mahals, Kanara, Nasik, Ahmednagar, Poona, Satara Dharwar, Mahi Kantha, Rewa Kantha and Kolhapur and slight in Ahmedabad, Kaira, Broach, Surat, West Khandesh, Sholapur, Bijapur, Belgaum and Baroda. The rainfall was general and sufficient. Standing crops are suffering from insufficient moisture in Palanpur and from excessive moisture in Ratnagiri, Nasik and Sholapur. They have been damaged slightly by rats in Karachi, by insects in Sukkur, by grass-hoppers in Nasik, Ahmednagar, Poona, Belgaum and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing in parts of Sind, Gujarat, the Konkan, the Deccan, Cutch, Baroda, Rewa Kantha and Savantvadi. Lands are being prepared for cultivation of spring crops in parts of Sind, Gujarat, West Khandesh, Nasik, Poona and Rewa Kantha. Sowing of spring crops continues in Broach, Ahmednagar, Poona, Satara, Sholapur, Belgaum, Bijapur and Baroda. The fodder supply is generally adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Prices have risen in Poona, have fallen in Karachi, Larkana, Ahmedabad, Kaira, Colaba, Kanara, East Khandesh, Satara, Sholapur, Belgaum and Dharwar and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent; in the Konkan 13 to 29 per cent and in the Karnatak 2 to 21 per cent less than the normal. In Gujarat prices ranged from 18 per cent more than the normal to 23 per cent less and in the Deccan from 30 per cent more to 23 per cent less.

Hyderabad.—The average rainfall in the Dominions was 1 inch 9 cents. The rain was almost general. It was heavy in the Aurangabad and Nander districts and fair to light in other parts. The heaviest fall occurred in Jintur in the Parbhani district. Autumn crops are fair to good except in parts of Aurangabad, Parbhani, Nander and Usmanabad where they have suffered from excessive rain. Cotton plants are being rooted up in parts and land is being prepared for spring crops. Some damage has been caused by insects to crops in parts of the Raichur district but prospects are satisfactory. The early rice crop is being weeded. Lands are under preparation for spring crops and sowings are in progress but have been suspended in parts where the rain was excessive and continuous. Cattle disease prevails in some talukas. Prices :—wheat 6½; coarse rice 6½ and *juar* 14½ seers per rupee, showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City at 12 seers and yellow *juar* at 13½ seers per rupee. The highest price in districts is 8 seers in Karimnagar and the lowest 2½ seers in Bidar.

Mysore.—The rainfall was good in Tumkur and slight elsewhere. Prices of food grains are generally steady. Markets are well supplied. Standing crops are in good condition but more rain is needed in parts of Bangalore, Kolar, Mysore, Hassan and Kadar. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 18 cents. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was good in the Circars except Ganjam and light to fair elsewhere. The rainfall in thirteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in the Circars, Bellary, Anantapur, Cuddapah, Trichinopoly, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in Chingleput and

in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by grass-hoppers, some in parts of Kurnool have been damaged by excessive rain and some in parts of Chingleput, North Arcot, Salem, Coimbatore, Madura and Tinnevely are in urgent need of rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in eleven districts, has fallen in six and has risen in seven. The prices of millets have fluctuated as follows :—*Ragi* is stationary in eight districts, has fallen in ten and has risen in four. *Cholam* is stationary in five districts, has fallen in five and has risen in two. *Cumbu* is stationary in three districts, has fallen in nine and has risen in four. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

No. 7148-45.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

(MERCHANT SHIPPING.)

Simla, the 12th October 1910.

RESOLUTION.

It was recently suggested to the Government of India that, in the form of agreement for the engagement of lascars in India, provision should be made rendering it obligatory on the masters of foreign vessels engaging lascar crews to obtain the sanction of the resident British Consular Officer to all alterations in the agreement occurring at foreign ports. The suggestion was referred to the maritime Local Governments and has been unanimously approved by them. The Governor General in Council is accordingly pleased to direct, under section 27 of the Indian Merchant Shipping Act, 1883 (V of 1883), that the following additional stipulation shall be inserted after the last additional stipulation at the foot of the first page of the form of lascar agreement:—

" Additional stipulation which must be entered into and signed by the owner of a foreign vessel or by the master on his behalf:—

I hereby further agree, in the event of any alteration being effected in this agreement before or after arrival at any foreign port by reason of the engagement, discharge, transfer, leaving behind, desertion or death of any lascar or other native seaman employed under this agreement or through any other cause, to report such alteration for the sanction of the resident British Consular Officer at such port and to submit this agreement to the said Consular Officer for the purpose of having a memorandum of such alteration endorsed thereon and certified by him and to pay to the said Consular Officer the fees prescribed in this behalf by the Consular Fees (Amendment) Order in Council, 1910, or any other Order for the time being in force.

Owner or Master."

Ordered that the Resolution be published in the Supplement to the *Gazette of India*.

W. MAXWELL,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.

PLAGUE.

Simla, the 13th October 1910.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India.

No. 43. } SIMLA, SATURDAY, OCTOBER 22, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,
the 20th October 1910, based on the Indian Daily Weather
Reports of the period.**

1. The rainfall of the week occurred chiefly in northeast India excluding Bihar, the south of the Peninsula and on the north Madras coast. There was but little rain in Burma, and none to the northwest of a line joining Karwar and Purnea. An excess of 20 per cent or more was received in the divisions of Assam, Eastern Bengal, Bengal proper, Chota Nagpur, Orissa, the Madras Coast North, Mysore and Malabar; and there was a deficiency of half an inch or more in Lower Burma, Bihar, Berar, the Konkan, the Bombay Deccan, Hyderabad North, and Madras Southeast.

2. The low pressure conditions over the Bay usually associated with the gradual retreat of the monsoon were well marked, and at the close of the week weather was apparently disturbed in the centre of the Bay.

3. *Burma.*—Only a few falls of rain were reported, chiefly from the northern districts where skies were moderately to heavily clouded; in the rest of the division cloud was light.

Northeast India, including Orissa.—No rain fell in Bihar and only one or two falls occurred in Chota Nagpur, but rainfall on most days was fairly general in the rest of the division. Skies were moderately clouded; and maximum temperature was lower than usual in Assam, and locally in Eastern Bengal, Bengal proper and Orissa.

The United Provinces, Central India and the Central Provinces.—Raipur and Jagdalpur were the only places that had rain, and skies were clear or lightly clouded except in the southeast of the Central Provinces. Unusually low night temperatures were reported on the last three days of the week.

Northwest India.—There was no rain and skies were cloudless. Night temperature was in defect in parts of Rajputana and of the east and north Punjab.

The Peninsula.—Rainfall was fairly general in Mysore, Malabar and on the north Madras coast, and a few falls occurred in southeast Madras and the southeast of Hyderabad. Skies were clear or lightly clouded in the northwest of the Peninsula and were moderately to heavily clouded elsewhere; and day temperature was locally lower than usual on the north Madras coast.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

| | | |
|---------|-------|--|
| October | 14th. | Silchar 1·89", Barisal 1·80" and Calcutta 1·86". |
| " | 15th. | Myitkyna 3·63", Silchar 2·04", Cochin 2·43" and Trivandrum 4·62". |
| " | 16th. | Mymensingh 1·99", Bangalore 1·93" and Negapatam 1·85". |
| " | 17th. | Silchar 2·12", Mymensingh 1·88", Saugor Island 1·82", Jessore 2·59" and Chaibassa 2·13". |
| " | 18th. | Cherrapunji 3·72", Mysore 1·91", Calicut 4·00", Cochin 2·90" and Trivandrum 2·70". |
| " | 19th. | Silchar 1·75" and Vizagapatam 1·86". |
| " | 20th. | Masulipatam 2·15". |

5. The rainfall of the whole period from the 29th April to the 20th October is in excess by 20 or more per cent in the North-West Frontier Province, Sind, Mysore, the Madras Deccan and on the Madras Coast North; and is in defect by the same amount in Kashmir and Baluchistan.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 20TH OCTOBER 1910. | | | RAINFALL DATA FROM 29TH APRIL 1910 TO 20TH OCTOBER 1910. | | | SEASONAL PERCENTAGE DEPARTURE FROM NORMAL. | |

GILBERT T. WALKER,
 Director-General of Observatories,
 E. D. MACLAGAN,
 Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
15th October 1910.

Burma.—The rainfall was generally heavy in the northernmost section and light to moderate elsewhere. Transplanting of winter rice has been nearly completed in Upper Burma. Replanting in flooded areas of three Delta districts continues. Reaping of early sesamum, cutting of maize, plucking of cotton and sowing of pulses are progressing. Standing crops are on the whole in good condition and prospects are satisfactory. The price of unhusked rice has risen considerably in Bassein and slightly in two other districts. Prices are generally normal.

Eastern Bengal and Assam.—The rainfall during the week was general. It was heavy in parts of the Dacca, Chittagong and Surma Valley divisions and light to moderate elsewhere. The heaviest fall was 11 inches at Hailakandi. Ploughing for spring crops is in active progress. Sowing of pulses is still going on. Plucking of tea continues. Prospects are favourable. Winter rice, sugarcane and cotton promise well. The average price of common rice has risen one per cent. Cattle disease prevails in Malda, Goalpara, Nowgong, Lakhimpur and the Garo Hills.

Bengal.—Rain fell in all the districts of the Province except Patna, Shahabad, Saran, Champaran, Darjeeling and Palamau. The fall was heavy in Burdwan, Bankura, Midnapore, Hooghly, the 24-Parganas, Nadia, Jessore, Khulna, Cuttack and Balasore, moderate in Puri and Singhbhum and light elsewhere. The recent rain has been beneficial to the winter rice crop but more rain is wanted for the purpose in parts of Midnapore and Murshidabad. Harvesting of autumn crops is still in progress. Preparation of lands for spring crops continues and sowings have commenced in some districts. Prospects of standing crops are good. Some damage to paddy by insects and to *kalai* by floods is reported from Sambalpur and Murshidabad respectively. The price of common rice has risen in Midnapore, Gaya, Saran, Darbhanga, the Sonthal Parganas, Hazaribagh, Ranchi, Manbhum and in all the districts of the Presidency division except the 24-Parganas and has fallen in Champaran, Monghyr and Bhagalpur. Cattle disease is reported from eleven districts. The supply of fodder and water is ample throughout the Province.

United Provinces.—The weather was seasonable and the week practically rainless. Sugarcane and other standing crops are flourishing. Cotton picking and harvesting of autumn crops continue. Ploughing operations are in full swing and sowing of gram, barley and linseed has begun in places. Prospects are good. Sporadic cattle disease is reported from twenty-six districts but the general condition of stock is good. Fodder and supplies are ample everywhere. Prices are for the most part stationary.

Punjab.—No rain fell during the week. Autumn crops are being harvested in certain districts. Picking of cotton is in progress. Ploughings for and sowings of spring crops continue. The condition of standing crops is good to average in Hissar and Ferozepore, average in Lahore, Sialkot and Multan, average to below average in Lyallpur, fair to poor in Mianwali and good elsewhere. Crops are withering owing to drought in parts of Mianwali. Rain is also wanted in Shahpur. The outturn of autumn crops which are being harvested is generally good to average and that of cotton is average to below average in Lyallpur. Bulrush millet has become dark in parts of Rohilk owing to incessant rain and cotton has also been damaged to some extent for the same cause. Autumn crops have been damaged slightly by rats in Ferozepore. Prices are generally unchanged. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. Complaints of a short water supply are being received from the Samundri and Toba Tek Singh tahsils in the Lyallpur district.

North-West Frontier Province.—No rain fell during the week. It is badly wanted in the Dera Ismail Khan district. The condition of standing crops and their expected outturn are average. Maize is being reaped and cotton picked in the Mardan tahsil of the Peshawar district. Harvesting of *bajra* has commenced in the Dera Ismail Khan district. Sowing of spring crops is in progress. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. Cattle are generally in good condition but disease is prevalent in one village of the Nowshera tahsil of the Peshawar District and in one village of the Dera Ismail Khan tahsil. The public health is generally good. Malarial fever is prevalent in the Nowshera and Mardan tahsils of the Peshawar district. Prices of food grains are fluctuating. Prices:—wheat 13½ to 18½; gram 17½ to 25; maize 15 to 28½ and *bajra* 16 to 35 seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

Rajputana.—No rain fell during the week. Agricultural operations are in progress. Standing crops are generally good but they have been damaged by heavy rainfall in Bharatpur where the probable outturn will be much below the average. Some damage by unfavourable winds is reported in Marwar and by insects in one district of Mewar. Cattle disease is prevalent in Mewar, Banswara, Karauli and Merwara. Fodder is sufficient. Prices have risen in Jhalawar, Jaipur, Kishangarh, Bharatpur and Ajmer and are steady or falling elsewhere.

Central India.—The rainfall during the week was slight in parts of Malwa and Bhopawar. No rain fell elsewhere. The weather is excellent. Cotton, oilseeds and other crops have been damaged slightly by insects in Gwalior, Bhopal, Malwa and Bhopawar. Harvesting of autumn crops and preparation of land for spring crops continue. Cattle are generally in good condition except for some disease in Bhopal and Bundelkhand. Prices are falling in Bhopal, Baghelkhand and Bundelkhand and are steady elsewhere.

Central Provinces.—The weather has been clear and cool. Only Raipur had 30 cents of rain during the week. No more rain is required at present anywhere. Harvesting of autumn crops and ploughing of land for sowing of spring crops are in progress. Sowing of spring crops has already been started in some districts. Picking of cotton has begun in places in Buldana and Yeotmal. The condition of standing crops is generally good everywhere. The supply of fodder and water is adequate. Cattle are healthy. Variations in prices are unimportant and indicate a downward tendency.

Feudatory States.—During the week three States received rain ranging from 2 to 3 inches. Cutting of rice and sowing of spring crops continue. Prospects are good. Pasturage and water are ample. Prices:—gram in Kanker and rice in Jashpur became dearer by 2 seers per rupee.

Bombay.—The rainfall during the week was moderate in parts of Dharwar, Savantvadi and Kolhapur and slight in the Konkan, the Deccan, Belgaum, Kathiawar and Rewa Kantha. Standing crops are suffering from insufficient moisture in the Upper Sind Frontier and Palanpur. They have been damaged slightly by rats in Karachi, by insects in Sukkur and Larkana, by grasshoppers in Nasik, Ahmednagar, Poona and Belgaum and are generally good elsewhere. Harvesting of autumn crops is progressing generally. Cotton picking has commenced in Thar and Parkar, Khandesh and Baroda. Lands are

being prepared for cultivation of spring crops in parts of Sind, Gujarat, West Khandesh, Nasik, Poona, Baroda and Rewa Kantha. Sowing of spring crops continues in parts of Gujarat, the Deccan, the Karnatak and Baroda. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Kaira and Khandesh, have fallen in the Upper Sind Frontier, Broach and Ratnagiri and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 12 to 40 per cent; in the Konkan 13 to 22 per cent and in the Karnatak 3 to 21 per cent less than the normal. In Gujarat prices ranged from 12 per cent more than the normal to 23 per cent less and in the Deccan from 17 per cent more to 23 per cent less.

Hyderabad.—The average rainfall in the Dominions was 42 cents. No rain-fell in Mahratwara except the Gulbarga and Raichur districts. The fall in Telingana averaged between 5 cents in Adilabad and 1 inch 80 cents in Nalgonda. The heaviest fall occurred in the Nalgonda district. General prospects are fair. Autumn crops are fair to good but they have suffered from excessive rain in parts of the Aurangabad, Parbhani and Nander districts and in some isolated places. Autumn cotton has suffered especially and in some places the area under the crop is being prepared for spring crops. The condition of spring crops is favourable and that of the early rice crop fair to good. Cattle disease prevails in fifteen talukas. Prices:—wheat 6½; coarse rice 6½ and *jwar* 15 seers per rupee, showing a fall of ½ seer in the price of *jwar*. White *jwar* is selling in Hyderabad City at 12 seers and yellow *jwar* at 13½ seers per rupee. The highest price in districts is 8 seers in Karimnagar and the lowest 2½ seers in Parbhani, Nander, Usmanabad and Bidar.

Mysore.—The rainfall during the week was good throughout the State. Prices of food grains are steady. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 3 inches 64 cents. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall during the week was very heavy in the Nilgiris; heavy in Salem, Coimbatore and Madura; good in the Circars, Anantapur, Nellore, Chingleput, South Arcot, North Arcot, Trichinopoly, Ramnad, Malabar and South Canara and light to fair elsewhere. The rainfall in fourteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in Ganjam, Vizagapatam, Kistna, Guntur, Kurnool, Bellary, Anantapur, Cuddapah, Nellore, Trichinopoly, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by grasshoppers, some in parts of Kurnool and Anantapur have been damaged by excessive rain and some in parts of Chingleput, Coimbatore, Madura, Ramnad and Tinnevely are in urgent need of rain. Harvests continue in parts with outturn generally fair to normal. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in nine districts, has fallen in eleven and has risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in eight districts, has fallen in nine and has risen in five. *Cholam* is stationary in eight districts, has fallen in five and has risen in two. *Cumbu* is stationary in five districts, has fallen in nine and has risen in two. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

A. EARLE,

Offg. Secretary to the Government of India.

No. 916-82 I.

GOVERNMENT OF INDIA.

PUBLIC WORKS DEPARTMENT.

CIVIL WORKS.

Irrigation.

Simla, the 13th October 1910.

Review of Irrigation in India in 1908-09.

Irrigation works in India are divided into two main classes, *viz.*, major and minor works. Major works are sub-divided into:—

- (a) Productive works, the capital of which is provided from borrowed money.
- (b) Protective works, designed as a protection against famine, the capital of which is provided from the Famine Insurance Grant. Capital and revenue accounts are kept for all major works.

Minor works are constructed from funds provided out of the general revenues of India and are sub-divided into:—

- (a) Works for which capital and revenue accounts are kept.
- (b) Works for which only revenue accounts are kept.
- (c) Works for which neither capital nor revenue accounts are kept.

A—MAJOR WORKS.

I.—Productive Works.

2. Productive works are expected to yield sufficient revenue to pay their working expenses and the interest on the outlay expended on their construction. No project is now sanctioned as a productive work unless it can be shown beyond reasonable doubt that on full development it will fulfil these conditions. But the same standard did not obtain in former years, and thus it has happened that several large irrigation works which were financed from borrowed capital, are not remunerative. There are 13 such works, *viz.*, four in Bengal, seven in the Deccan and Gujarat, and two in Madras. They are still retained on the list of productive works, but current expenditure against their capital account is now charged against the general revenues of India. The total loss on these 13 works has amounted to about 10½ crores. But though they have proved financial failures in the ordinary commercial sense, they have been indirectly of great value in securing large areas of cultivation against the vicissitudes of the seasons.

3. The remaining works in operation, 40 in number, satisfy productive conditions. These works paid collectively 10·42 per cent on their capital outlay during the year, while the surplus revenue, after paying interest charges, which they had contributed to the general revenues of the country up to the end of 1908-09, amounted to 33½ crores of rupees against 30½ crores, the capital invested on them. The financial results, the area irrigated and the mileage in operation for all productive works in operation are shown separately by provinces in Statements I and II.

4. The total area irrigated by all the productive works including branches in Native States of the Punjab amounted to 14,624,000 acres. Towards this total the Punjab canals contributed more than 5½ million acres, a larger area than attained in any other province. The return on capital is also highest in the Punjab where the canals yielded 12·58 per cent. The Lower Chenab Canal, despite the abnormally heavy monsoon rainfall and a severe

epidemic of fever which caused heavy mortality amongst the cultivators irrigated about two million acres and yielded a net revenue of about 84 lakhs, equivalent to a return of 22.56 per cent on the capital invested. The year generally was a prosperous one for the colony. On the Upper Bari Doab Canal, although the rainfall was twice as heavy as that of the preceding year, the acreage sown with the aid of canal water was larger than that of 1907-08.

5. On account of the unusually heavy monsoon in the United Provinces the irrigated area, 2,511,000 acres, fell short of the results of 1907-08 by 676,000 acres. The net revenue shewed a defect of about Rs. 2,67,000 compared with the preceding year. The smaller area irrigated was partly responsible for this result, but other contributing causes are said to be (1) reduction in the rate for sugarcane from Rs. 10 to Rs. 8-10-8 per acre from 1st April 1908, in the Saharanpur, Muzaffarnagar and Meerut Districts, and (2) remissions and reductions made in the rabi demand for 1907-08, collected in the year under review owing to the low river supplies being insufficient to meet the full requirements of the crops at the critical period of ripening.

6. In Madras the figures relating to the acreage under irrigation and the net revenue realised do not differ materially from those of the previous year. In this Presidency the financial results of the productive works taken as a whole are seriously affected by the poor results of the Kurnool-Cuddapah canal, the capital cost of which exceeds 2½ crores of rupees while the area irrigated during the year did not exceed 66,000 acres. The net revenue realised amounted to 1½ lakhs of rupees, representing 0.06 per cent on the capital outlay.

7. In Sind the area of irrigation amounted to 1,351,974 acres, exceeding that of the previous year by 240,743 acres. It is satisfactory to note that the net revenue also surpassed that of the previous year by Rs. 2,03,695. The Sind canals are entirely dependent upon the height and duration of the floods in the Indus during the irrigating season. The inundation of the year was very favourable, the necessary level of the river being reached on a timely date and maintained for a period sufficient to bring crops to maturity. The year was distinguished by one of the greatest floods on record. The Ghotki floods over the left bank above Rohri were of great volume and long duration and silted the Nara supply channel so severely that the greater part of the rabi supply was cut off. The rainfall was very irregular over the whole of Sind. In many places it was considerable and of much benefit to the crops, while in others it was excessive and caused some damage.

8. In the Bombay Deccan and Gujarât, the canal works are limited in scope in comparison with those of other provinces. The area irrigated in the period covered by this review amounted to 87,814 acres only. As stated in paragraph 2 above, the works are not remunerative.

9. In Bengal, the Hijili Tidal canal is used purely for navigation purposes; the three other canals, viz., the Orissa, the Midnapore and the Sone, are also so utilised, but they are primarily intended for irrigation. The area served by these canals during the year 1908-09 exceeded a million acres, and although these works failed to fulfil productive conditions, there is no doubt about their indirect value, considering that the estimated value of the crops raised on the area irrigated by them in the year under review amounted to Rs. 5,37,00,000, a sum which is more than four-fifths of their total capital cost.

10. Both in Burma and in the North-West Frontier Province the irrigated area exceeded 20,000 acres.

11. The importance of productive works may be gauged roughly by the value of the crops which are produced by their agency. In the year under review the estimated value of the crops irrigated by productive works amounted to about 53½ crores of rupees, exceeding the capital cost incurred on them by more than 11½ crores. With the completion of the important works now under construction, viz., the Upper Jhelum, Upper Chehab and Lower

Bari Doab canals in the Punjab, the Upper Swat River canal in the North-West Frontier Province, the Nagavalli River project in Madras and the Mōn and Ye-u canals in Burma considerable additional areas will be brought under cultivation.

II.—Protective Works.

12. There were in operation in the year under review 17 protective works which together irrigated a total of 352,103 acres. The majority are small tank works situated in the Central Provinces, where irrigation is still in its infancy. The works in the Central Provinces were sanctioned as experimental works, in accordance with the recommendations of the Irrigation Commission, to test how far the people were willing to resort to irrigation for the maturing of their crops and what water rates they were prepared to pay. The results obtained are generally gratifying and show that the people are beginning to realise the great advantages of irrigation. In the year 1907-08 the rainfall was somewhat deficient, while in the year under review it was if anything over the average; yet the area irrigated in the latter was 25,413 acres against 25,973 acres in the former. The average water rate paid during the year on these works was Rs. 1.14 per acre. Particulars of all protective works are given in Statements IV, V, and VI.

B—MINOR WORKS.

III.—Works for which capital and revenue accounts are kept.

13. There were ninety-four works so classed in 1908-09, the majority of which are in Bombay and Madras. Seven are purely navigation works.

The net revenue paid by works of this category during the year under review amounted to Rs. 29,37,724 (excluding navigation canals) or a return of 7.95 per cent on the capital outlay, against 6.50 per cent in the previous year. Nearly all the minor works in Sind return exceptionally high percentages; but as some large projects, with which it is intended to amalgamate them, are under consideration, their transfer to major works has been postponed for the present.

Excluding the area shown under Burma, *viz.*, 456,366 acres, which is not under irrigation, but represents the area of cultivation on lands reclaimed by river flood embankments, the area irrigated by minor irrigation works during 1908-09 was 1,511,093 acres against 1,346,543 acres in the previous year.

Statements VII and VIII give particulars of individual works.

IV.—Works for which only revenue accounts are kept.

14. There are numerous minor works for which separate capital accounts are not kept, either because they are not sufficiently important, or because, having been constructed by the former rulers of the country, their capital cost is not known. For such works only revenue accounts are kept; they are credited with a share of the land revenue depending on their maintenance, and are debited with all expenditure incurred on construction, extension, improvements and maintenance. Particulars for the year 1908-09 are shown in Statement X.

V.—Works for which neither capital nor revenue accounts are kept.

15. There is a third important class of minor works, chiefly existing in the Madras Presidency, for which neither capital nor revenue accounts are kept. The Madras works include over 28,000 tanks and 6,000 irrigation channels, the improvements and repairs of which are executed by the Public Works Department, or, in the case of the smaller works, by civil officers. The areas irrigated by these small works in 1908-09 aggregated 3,327,833 acres, (or slightly less than the area irrigated by all the major works in the Presidency taken together), compared with 3,295,815 acres in 1907-08.

16. The following table summarizes the results of irrigation works for all India during 1905-09 in comparison with those of the two previous years :—

Financial and irrigation results of irrigation works in operation in India.

| Class of work. | Capital outlay to end of the year on works in operation. | Gross revenue during the year. | Net revenue during the year. | Percentage of net revenue on capital outlay to end of year. | Area irrigated. |
|--|--|--------------------------------|------------------------------|---|-----------------|
| | Rs. | Rs. | Rs. | Per cent. | Acres. |
| I and II.—Major Works. } I.—Productive } II.—Protective | 44,78,65,472 | 5,27,62,279 | 3,46,43,504 | 7.74 | 14,976,094 |
| III.—Minor works for which capital and revenue accounts are kept (including works under construction.) | 6,06,14,690 | 47,37,626 | 29,73,013 | 4.90 | 1,967,464 |
| IV.—Minor works for which only revenue accounts are kept. | | 59,74,725 | 19,94,633 | ... | 2,416,588 |
| V.—Works for which neither capital nor revenue accounts are kept. | | 86,88,014 | 42,03,374 | ... | 3,403,231 |
| Total 1908-09 ... | 50,84,80,162 | 7,21,42,644 | 4,38,14,529 | (a) 7.40 | 22,768,377 |
| Total 1907-08 ... | 50,24,77,911 | 6,94,59,957 | 4,20,55,143 | (a) 7.24 | 21,948,431 |
| Total 1906-07 ... | 48,87,84,154 | 7,36,56,194 | 4,74,40,754 | (a) 8.19 | 22,224,249 |

(a) Percentages calculated on works of classes I, II and III.

The total area irrigated was 22½ million acres, while the value of the crops raised by the works for which capital accounts are kept is estimated at Rs. 61½ crores, or about 121 per cent of the capital outlay expended on them.

ORDER.—Ordered that this Review be forwarded to the Finance and

The Governments of Madras, Bombay, Bengal, the United Provinces of Agra and Oudh, the Punjab, Burma and Eastern Bengal and Assam.
The Honourable the Chief Commissioner of the Central Provinces.
The Chief Commissioner of Coorg.
The Honourable the Resident at Hyderabad.
The Honourable the Agents to the Governor-General for Central India, Rajputana and Baluchistan.
The Honourable the Agent to the Governor-General and Chief Commissioner, North-West Frontier Province.
Comptroller and Auditor-General, Public Works Branch.

Revenue and Agricultural Departments and to the local Governments and Administrations in the Public Works Department, noted on the margin, for information.

Ordered, also, that the Review be published in the Supplement to the *Gazette of India*.

Ordered, further, that a copy of the Review be forwarded to His Majesty's Secretary of State for India for information.

L. M. JACOB,

Secretary to the Government of India.

Documents accompanying.

Statements I to XI.

No. 7420—7440-183.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

TELEGRAPHS.

Simla, the 19th October 1910.

RESOLUTION.

READ—

The Administration Report of the Indian Telegraph Department for the year 1909-10.

ORDERED that copies of the Report be forwarded to His Majesty's Secretary of State for India, the Home and Finance Departments, the Accountant General, Post Office and Telegraphs, all Local Governments and Administrations and the Government of Ceylon, for information.

Ordered, also, that the Report be published in the Supplement to the *Gazette of India*.

W. MAXWELL,

Secretary to the Government of India.

ADMINISTRATION REPORT.

OF THE

INDIAN TELEGRAPH DEPARTMENT

FOR

1909-10.

GENERAL REPORT.

Statistical information relating to the growth of the Department from its commencement up to date is given in a convenient form in Appendix E.

2. The capital account at the close of the year amounted to Rs. 10,89,70,113, the expenditure on that head in 1909-10 being Rs. 25,19,323 which includes Rs. 2,57,778, the outlay in the Public Works Department on telegraph buildings. General Capital account, App. B.

3. The revenue earned having been Rs. 1,21,19,219 and the working expenses Rs. 1,21,12,784, the surplus amounts to Rs. 6,435 representing a return on capital outlay of '006 per cent. Revenue account, App. B.

4. As compared with the previous year, the working expenses have increased by Rs. 3,67,454 as follows:—

| | | | | | Increase. | Decrease. |
|------------------|-----|-----|-----|-----|-----------|-----------|
| | | | | | Rs. | Rs. |
| General Charges | ... | ... | ... | ... | 1,22,703 | ... |
| Line Maintenance | ... | ... | ... | ... | ... | 28,329 |
| Signalling | ... | ... | ... | ... | 2,73,080 | ... |
| Total | | | | | 3,95,783 | 28,329 |
| Net Increase | | | | | 3,67,454 | ... |

The increase under general charges is due, to a certain extent, to the introduction of the new Time Scale of pay for Superintendents and Assistant Superintendents brought into effect from the 19th of December 1909; but mainly to a smaller share of establishment charges having been debited to capital works consequent on less outlay during the year under that head. The decrease under line maintenance is due to repairs to lines in the previous year having been specially heavy. The increase under signalling is due partly to a slight increase in the clerical and petty establishments of signal offices as well as to annual increases of pay to the staff arising from the reorganisation.

5. The receipts from all sources amounted to Rs. 1,21,19,219.28 compared with Rs. 1,33,53,051 in the previous year, the decrease being made up as follows:—

| | Increase. | Decrease. |
|---|-----------|-----------|
| | Rs. | Rs. |
| Message Revenue | ... | 11,61,573 |
| Rent of wires and instruments leased to Railways and Canals. | ... | 70,778 |
| Rent of Local and Private lines and recoveries from guarantors. | ... | 4,166 |
| Miscellaneous | 2,685 | ... |
| Total ... | 2,685 | 12,36,517 |
| Net Decrease ... | ... | 12,33,832 |

The decrease in the value of telegrams is associated with a decrease in their number, the value having decreased by 11.65 per cent and the number by 7.41 per cent. The decrease in value is made up of Rs. 11,12,246 under paid telegrams and Rs. 49,327 under *pro forma* value of news free and concessional telegrams. The decrease in paid telegrams which is entirely under Inland is made up as follows:—

| | Increase. | Decrease. |
|------------------------|-----------|-----------|
| | Rs. | Rs. |
| Inland State | ... | 8,29,238 |
| Inland Private | ... | 4,58,140 |
| Foreign State | 3,108 | ... |
| Foreign Private | 1,72,004 | ... |
| Total ... | 1,75,112 | 12,87,358 |
| Net Decrease ... | .. | 11,12,246 |

The decrease under Private may be attributed to general depression in internal trade. The decrease under State is doubtless due to the instructions issued to Government officials in Government of India, Department of Commerce and Industry, Resolution No. 1861-1894-50, dated the 4th of March 1909, to reduce the number and length of State telegrams and to use the lower class as a general rule. The average value of an Inland State telegram, since the introduction of the revised tariff from 1st January 1909, has fallen from Rs. 1'823 to Rs. '943.

6. Appendix F and the diagram of curves immediately following it show by figures and by curves, respectively, the variations that have occurred during the last 17 years in the number of paid telegrams and in the working expenses per paid telegram under the heads "Line Maintenance" and "Signalling". Details of the Departmental expenditure under those heads for the past five years are given in Appendix B, but, in calculating the expenses per telegram for the purposes of this diagram, all charges not properly debitable to Departmental traffic, such as those for Railway and Private Line offices, have been excluded.

The curve denoting the number of paid telegrams shows a fall for the first time since 1898-99; the reasons for which are explained in paragraphs 5 and 44 to 46.

7. On the 31st of March 1910, there were 9,037 telegraph offices of all kinds in India and Burma, of which 7,225 were open for paid telegrams and 1,812 for purely administrative purposes. Of the former 279 were departmental, 2,483 combined, 4,451 railway and 12 canal offices as compared with 6,973 in the previous year made up of 280 departmental, 2,378 combined, 4,304 railway and 11 canal offices. This Department technically supervised 3,999 railway and canal offices of which 2,444 were open to the public for paid message traffic. There were also 2,276 telegraph offices controlled and supervised by railway companies, of which 2,019 were open to the public.

Telegraph
Offices, Appendices
B and E.

8. The system maintained by the Telegraph Department was augmented during the year by a net increase of 2,682 miles of line and 6,671 miles of wire, including cable, and at its close comprised 72,746 miles of line and 287,266 miles of wire and cable. Of the latter 88,488 miles were used by railways, 7,008 miles by canals, 13,368 miles were worked in connection with telephone exchanges and private lines and 178,402 miles were for departmental purposes.

Extensions, para-
graphs 68 to 75—
Appendices A and
E.

9. The subscriptions to the Telegraph Department for telephone and similar services rendered during the calendar year 1909 amounted to Rs. 4,88,875 being an increase of Rs. 81,929 over the figures of the previous year. The average annual subscriptions for the past five years amounted to Rs. 3,44,185.

Telephones, De-
partmental.

10. The gross earnings of the Telephone Companies during the calendar year 1909 amounted to Rs. 9,53,435 being an advance of Rs. 1,48,864 over those of the previous year. The largest increase recorded is in that of the Bengal Telephone Company, Calcutta, which amounted to Rs. 78,144. The average annual collective earnings of the Companies during the past five years were Rs. 7,30,777.

Telephone Com-
panies.

EVENTS OF INTEREST.

11. In February, the Government of India announced that the Secretary of State had sanctioned the reorganisation of the Upper ranks of the Department, a matter which had been under consideration for some time.

Reorganisation
of the Department.

12. Under the old scheme, the organisation of the Department was as follows. For Telegraphic purposes, the whole of India was divided into twenty divisions, each in charge of a Superintendent. Each division included two or more minor charges known as Sub-divisions, of which there were 73, the more important of them being in charge of Assistant Superintendents, i.e., junior officers of the Superior Staff, and the less important in charge of Sub-Assistant Superintendents who are Upper Subordinates.

13. In addition to the Heads of Divisions, there were eight officers of the same rank who were also immediately subordinate to the Director-General, *viz.*, the four Superintendents in charge of the Calcutta, Bombay, Madras and Agra Offices, the Superintendent of the Check Office, the Electrician, the Superintendent of Telegraph Stores, and the Superintendent of the Telegraph Workshops. The whole Department was controlled by a Director-General assisted at Headquarters by nine officers as follows:—

- 1 Deputy Director-General.
- 2 Directors for Construction and Traffic.
- 2 Deputy Directors for Construction and Traffic.
- 1 Personal Assistant.
- 1 Superintendent in the Traffic Branch.
- 2 Superintendents usually posted to the Direction.

14. This organisation was defective in several respects. There were as many as 28 Subordinate Officers, whose powers were very limited, in direct correspondence with the Director-General; and the latter officer was consequently overwhelmed with a mass of unimportant references. The five Officers of the Department next in seniority to the Director-General were all stationed at Headquarters. This concentration of so many senior officers at Headquarters and the lack of adequate devolution of responsibility hampered the administration of the Department.

15. The most important changes to be introduced included the formation of eight Circles, each in charge of a Director, coterminous with the existing Postal Circles. The number of Divisions to be increased from 20 to 34, and all Sub-Divisions abolished. Many of the powers exercised by the Director-General are delegated to Directors, while the powers of Superintendents are materially increased. The formation of a purely Technical Branch under an Electrical Engineer-in-Chief, was sanctioned. The scheme also provided for the appointment of a Chief Store-keeper, recruited outside the Department, and for placing the Check Office under a Civil Accounts Officer.

16. The cadre of the Department was entirely changed. The Direction formerly consisted of the Director-General, Deputy Director-General, two Directors—these four being the most senior officers in the Department—and two Deputy Directors. Under the new scheme the post of Deputy Director-General is abolished and in addition to the Director-General there are 10 Directors, eight in charge of Circles, and two at headquarters. The appointments held by Directors are interchangeable. Directors are divided into four classes; the first class containing two on pay of Rs. 2,250; the second class, also two, with pay of Rs. 2,000; the third and fourth classes have three in each with pay of Rs. 1,750 and 1,500 respectively. At the same time all the Superintendents were placed on an incremental scale of pay rising from Rs. 380 to Rs. 1,250 in the case of the Imperial Service officers, and from Rs. 250 to Rs. 900 for Provincial Service officers.

17. Hitherto recruitment for the Provincial Branch of the Superior Staff of the Department was through the Thomason Civil Engineering College at Rurki, where a special class for the training of candidates was maintained. It was found that the Telegraph class at Rurki failed to attract candidates from more than one province and that there has been a complete absence of healthy competition.

18. The maintenance of a special Telegraph Class at one College was necessitated by the fact that the other Colleges did not make any provision, in their ordinary curriculum, for training in electrical engineering. This condition of things is, however, rapidly disappearing and in the course of a few years, it is anticipated, that the colleges in India will be able to maintain thoroughly equipped classes in electrical engineering, quite apart from the requirements of the Telegraph Department. In future it is intended to make appointments to the Provincial Service by selection from the graduates in the engineering classes

of any college which gives a suitable and adequate training in electrical engineering.

19. An Officer of the Provincial Service will be eligible for appointment as Director of Telegraphs if fully qualified to perform the duties attaching to the appointment; and of the thirty-four divisions now established, it is intended that twelve shall ultimately be filled by officers of that service.

20. A new scale of pay was also sanctioned for the Sub-Assistant Superintendents, General Branch, rising from Rs. 250 to Rs. 400, the eight senior officers being allowed to rise to Rs. 500. The Assistant Superintendents and Superintendents were brought on to the new scale from the 19th of December 1909. The Directors under the new scheme and the Sub-Assistant Superintendents (who were to be styled Deputy Superintendents in future) were not to be brought on to the new scale of pay till the 1st April 1910, the date on which the Circles were to be introduced. It was decided that one appointment in the Gazetted ranks of the Provincial Service should be given every two years to a specially selected Upper Subordinate, after the existing surplus of officers has been absorbed.

21. The number of Volunteers on the rolls in the Department during the year was 1,001 (33 per cent of the signalling establishment) being an increase of 13 compared with the previous year. Of this number 624 were extra-efficient, 318 efficient and 59 non-efficient. By way of encouragement, prizes aggregating Rs. 1,070 were granted for proficiency in drill and shooting. Rifle Volunteers.

22. At the annual camp of exercise of the Bombay Volunteer Rifles held at Santa Cruz from the 29th of January to the 5th of February 1910, the "D" (Telegraph) Company distinguished itself by the exceptionally large attendance on parades, which was 84.8 per cent of the total strength, and the general discipline and good work put in by the members. At the annual inspection of the Corps, "D" Company was selected for Company evolution before the General Officer Commanding the Bombay Brigade, and acquitted itself very creditably. The Commandant highly commended the Company in his address to the Battalion at the conclusion of the inspection parade.

23. The following trophies were won by this Company during this year:—

- (a) His Royal Highness The Prince of Wales Ambulance Shield; open to teams of six Volunteers (other than Railway men) from any Corps in India or Burma. The examination was held this year at Jubbulpore, subject "First Aid" to the injured; St. John's Ambulance Association.
- (b) The Leslie Challenge Cup for long distance marching and Tactical Shooting under service conditions.
- (c) The Bayley Challenge Cup for General Efficiency.
- (d) The Tenant Memorial Drill Challenge Cup for the largest percentage of members putting in the maximum number of parades.
- (e) The Nicholson Challenge Cup for long range shooting.
- (f) Wyer Cup for long distance shooting.
- (g) Lord Harris Cup for drill.

24. The last three trophies were won outright by the Company and are now in its possession.

25. At the annual competition for (a) held at Jubbulpore on the end of March 1910, the Bombay Volunteer Rifle Corps was represented by six men from the Telegraph Company, who won the shield and medals, the team scoring 80 per cent of marks. This is the third year in succession in which the staff of the Bombay Telegraph office have won this trophy.

26. The number of Volunteers on the roll of "F" (Telegraph) Company, 2nd (Presidency) Calcutta Volunteer Rifles, was 2 officers and 108 non-commissioned officers and men, of which 27 were marksmen, 76 first class shots, 4 second class shots and one non-efficient.

27. Colonel P.M. Ball, V.D., Commanding the Agra Volunteer Rifles, wrote as follows regarding the Telegraph Company belonging to the Agra office:—

"It is a pleasure to me to be able to record my appreciation of the progress made by the Telegraph "B" Company during the current year; there has been a great improvement in the firing, the attendance at all parades has been good, the discipline of the Company is excellent, and the members have taken much more interest and shown greater keenness in their work, and I think it is not too much to say that "B" Company, as it is now, will compare favourably with any other company of Volunteers in India."

Bastar Rising.

28. The Telegraph operations in connection with a disturbance which broke out in the Bastar State in February 1910 were not large. Three Telegraphists accompanied the punitive Police Force sent to quell the disturbance and in all twenty-eight camp offices were opened and closed. No special wires were erected except a short line of about two miles in length put up in Jagdalpur itself. As only repairing outfit was taken with the Telegraph party there were no posts or wire available for these two miles of line, but Telegraphist Martyris proved his resourcefulness by borrowing two miles of barbed wire from a Missionary and erected this on wooden posts; this line was in use for over ten days and worked well.

International Telegraph Conference.

29. The International Service Regulations, which were passed at the quinquennial International Telegraph Conference of the various Telegraph Administrations and Cable Companies, held at Lisbon, referred to in paragraph 12 of last year's report, were brought into effect from the 1st of July 1909. The following is a summary of the more important alterations in the rules for Foreign Telegrams which were introduced from that date:—

- (i) The rules regarding Code language were modified to the extent, that the syllables shall be capable of pronunciation according to the ordinary usage of one of the eight accepted languages.
- (ii) The Administrations of Great Britain, France and Germany were appointed as a Committee of Control, in order to examine all codes that may be presented to them to determine if they are unobjectionable.
- (iii) Combinations or alterations of words sought to be concealed by reversing the order of letters, or syllables, were prohibited.
- (iv) Artificial words may not contain the accented letters *ä, á, a°, é, ù, ö* and *ü*.
- (v) The combinations, *æ, aa, ao, æ, ue* and *ch* are to count as two letters each in artificial words.
- (vi) Telegrams addressed to a reforwarding agency, which is known to be organised for the purpose of evading payment of the full rate chargeable for the transmission of telegrams, by acting as intermediaries for the receipt of telegrams and for their re-transmission to a destination beyond, may be stopped.
- (vii) The stipulations relating to telegrams "*To follow*" by order of the sender, and telegrams to be re-transmitted by order of the addressee, which were not binding on such of the Extra-European Administrations as declared their inability to apply them, were made applicable to both *régimes*.
- (viii) Signs of punctuation, apostrophes and hyphens may be transmitted, and consequently charged for, on the formal request of the sender.
- (ix) The period for the preservation of telegrams was extended from eight to ten months.
- (x) In groups of letters and figures used as commercial marks, each letter and figure is counted as one character; five characters,

whether wholly or partly letters and figures, counting as one word. For example, the commercial marks 197A-199A and +3-M which were formerly counted as four and two words, respectively, are now counted as two words (9 characters) and one word (3 characters) respectively.

The alterations enumerated in paragraphs (i), (iii), (iv), (v), (viii) and (x) were made applicable to Inland telegrams also.

30. The Deposit System of Accounts referred to in paragraph 45 of last year's report has not found much favour with the public, except in Calcutta and Bombay, although the rate of commission for the upkeep of Deposit Accounts was reduced at the beginning of the year, from 1 per cent on the gross value of the messages accepted to 1 rupee for every 25 telegrams. At the close of the year the following Deposit Accounts were current:—

| | | | | | No. of Accounts. |
|-------------------|-----|-----|-----|-----|------------------|
| At Calcutta | ... | ... | ... | ... | 43 |
| " Bombay | ... | ... | ... | ... | 19 |
| " Madras | ... | ... | ... | ... | 2 |
| " Rangoon | ... | ... | ... | ... | 3 |
| " Elephant Point | ... | ... | ... | ... | 1 |
| " Calcutta Strand | ... | ... | ... | ... | 1 |
| Total | | | | | 69 |

31. The Debit Note System, under which a large number of Government officials were permitted to send State telegrams without prepayment, was abolished with effect from the 1st of January 1910. This system necessitated a great deal of additional work in all Telegraph Offices from which these messages were sent, as they had to be separately bundled and docketed and sent separately to the Check Office. An elaborate Accounts procedure had also to be maintained. The Check Office had to prepare some 140 separate bills which entailed the employment of a large staff of clerks. The Deputy Accountant General, Telegraphs, on receipt of these bills from the Check Office was required to book up each bill against the Department concerned. A few selected high Government Officials are now permitted to send State telegrams without prepayment if tendered on special forms marked "O.H.M.S.", while all others are required to pay for their telegrams either in cash or service stamps. The abolition of the old system has thus led to a considerable saving in clerks and lessening of work in Signal Offices.

32. A mixed Postal and Telegraph service was introduced between India and the United Kingdom with effect from the 1st of July. Communications intended for places in the United Kingdom are telegraphed to the Bombay Central Telegraph Office for despatch by registered post to the London Central Telegraph Office, to be telegraphed thence to destination on payment of the following charges:—

- (1) the charge for the telegram in India at Inland Express or Ordinary rates, according to the wishes of the sender.
- (2) one anna for postage, and
- (3) the British Inland telegram rate of $\frac{1}{4}$ d., or half an anna, per word with a minimum of six pence or six annas.

33. In the reverse direction, telegrams handed in at telegraph offices in the United Kingdom are telegraphed to London for despatch by registered post to Bombay to be telegraphed thence to their destinations in India. The charges are the same as the above, except that the Inland Ordinary rate is only levied for the telegraphic transmission in India.

34. From the date of inauguration of this system and up to the end of the year under report, 359 mixed Postal and Telegraph messages were sent from India to the United Kingdom but only 22 were sent in the reverse direction.

News Agencies.

35. The Inland and Foreign Press telegram rules and rates, which were formerly confined to Press telegrams addressed to registered Newspapers, were extended to News Agencies in July and February, respectively.

Fees for Registered Abbreviated Addresses.

36. At the end of October, the fees for the registration of abbreviated addresses were altered in order to reduce the fees for those who register more than ten abbreviated addresses. The revised fees are as follows:—

| | Rs. |
|---|----------|
| For first 10 abbreviated addresses ... | 10 each. |
| For second 10 abbreviated addresses ... | 5 " |
| For each subsequent abbreviated address ... | 3 " |

An additional fee, equal to half the registration fee, is charged for every change of the word selected, or for every transfer to another telegraph office within the period of registration.

Re-direction of telegrams.

37. From the 1st of June, the practice of redirecting telegrams free of charge was discontinued, except in the case of redirection within the same town. Inland telegrams redirected to another town are charged the full Inland rate according to the class of the telegram; while Foreign telegrams redirected within Indian limits are charged the Inland Express rate.

Reduced rates for Foreign Press telegrams.

38. As a result of the Imperial Press Congress held at London, the Cable Companies and the British, Indian and Colonial Governments agreed to reduce the Press rates between Great Britain and India, Australasia and South Africa to a uniform rate of 9d, or 9 annas a word. The reduction in the Press rate between Great Britain and India from 12 annas to 9 annas per word took effect from the 1st of August.

39. From the 1st of March, the Press rates between Great Britain on the one side, and Penang, Singapore and Labuan on the other, were reduced to a uniform rate of 9 pence per word, the Indian Government taking its proportionate share in the reduction.

Foreign Telegraphic money orders.

40. Towards the close of the year arrangements were completed, between the Indian Post Office, the Eastern Telegraph Company, and this Department for the introduction of a system of telegraphic money orders between India and Aden, with the telegram charge at the same rate as for Private telegrams, viz., one rupee per word. The system was introduced with effect from the 1st of April 1910.

Traffic Reforms.

41. Mr. Newlands, C.I.E., left India in August having completed his work in this country and having seen the reforms he initiated in full working swing. The rapid disposal of messages has been maintained and the averages of 88 offices that keep up Tablet Checks, show that 81.9 per cent of the sent and transit traffic was disposed of within ten minutes, 91.8 within 20 minutes and 94.8 within 40 minutes. As regards delivery 77 per cent are sent out within five minutes of their being received.

There have been many complaints of mutilation during the year and the matter is receiving the closest attention, but the public are probably unaware to what extent they are themselves responsible for this, owing to the very general use of uncouth and bizarre artificial words in code messages. It is extremely difficult for a telegraphist to deal with such words with accuracy at the same speed with which he disposes of ordinary words and mutilations are chiefly due to his endeavouring to maintain his speed.

TRAFFIC.**Amount and value of traffic.**

42. The number and value of telegrams of each class are given in Appendix E.

43. The total paid traffic (excluding news-free and concessional telegrams) when compared with the previous year, shows a decrease of 922,081 or 7.08 per cent in number and Rs. 11,12,246 or 11.41 per cent in value. The decrease in number and value is explained in paragraphs 44 to 46.

44. Inland Private traffic (excluding Press) for the whole year shows a decrease in number of 898,200 or 8.37 per cent and of Rs. 1,64,835 or 7.88 per cent in value. The decrease in number may be attributed to depression in internal trade. The decrease in the number masks the effect of the new 6 anna tariff and it is impossible to determine what proportion of the decrease is due to it. The decrease has occurred almost entirely in the Departmental offices, for Combined Offices booked 29,545 messages more than last year with a slight decrease in value of Rs. 13,379. In the Calcutta Office alone there was a decrease of 64,753 in the number of messages booked, and of 115,430 in the number of messages received, clearly showing how much less business was done. It is worthy of notice that this decrease in Inland messages was also felt by the Railways whose receipts, in the calendar year ending the 31st December 1909, fell off by Rs. 1,05,000.

45. The new Inland tariff was introduced on the 1st of January 1909. For the first period of the previous year (April to December 1908), when the old tariff was in force, the average value of an Inland private message was Rs. 547. For the second period January to March 1909, when the new tariff was in force, it was Rs. 555. For the whole year 1908-09 it was Rs. 549 and for the year under report it was Rs. 552. These figures show that the new tariff has improved the average value of an Inland Private telegram.

46. In Inland State telegrams there has been a decrease of 141,773 or 14.52 per cent in number and of Rs. 8,29,238 or 51.80 per cent in value. The decrease in number and value may be attributed to the instructions issued to Government officials to reduce the number and length of their telegrams and also to use the lower class as a general rule. The decrease in value is also due to the revised Inland Tariff which was introduced on 1st January 1909, *vide* paragraph 48 of last year's report. The average value of an Inland State telegram has, since the introduction of the revised tariff, fallen from Rs. 1,823 to Rs. 943.

47. Foreign Private telegrams (including Press and Foreign transit traffic) show an increase of 118,720 or 10.29 per cent in number and of Rs. 1,72,004 or 8.65 per cent in value. This increase was composed approximately of Rs. 1,01,004 on Indian messages and Rs. 71,000 on messages transiting India. There was an increase in the number of words contained in telegrams also by 1,327,243 or 12.31 per cent.

48. Foreign State telegrams show a decrease of 646 or 4.08 per cent in number, but an increase of Rs. 3,108 or 6.03 per cent in value. The Revenue from Foreign State telegrams transiting India is included under Foreign Private.

49. There were 161,417 Inland Press telegrams containing 27,556,637 words transmitted during the year as against 162,483 telegrams containing 49,179,213 words during the previous year, or a decrease of 1,066 or 0.65 per cent in the number of telegrams and of 21,622,576 or 43.96 per cent in the number of words. The receipts for such telegrams decreased from Rs. 1,77,677 in the previous year to Rs. 1,68,063 or 5.24 per cent. The decrease in Press traffic is due principally to News Agencies being allowed the concession of Press telegram rates as stated in paragraph 35. These Agencies, which are at present confined to Calcutta, Bombay and Madras, collect news from outstations and distribute it to local newspapers, instead of as formerly each newspaper arranging for its own news to be telegraphed from outstations.

50. The Foreign Press traffic amounted to 11,897 telegrams, containing 1,289,135 words, as compared with 8,315 telegrams and 737,364 words during the previous year, or an increase of 13.07 per cent in the number of telegrams and of 74.83 per cent in the number of words. The Indian share of their value was Rs. 39,173 as against Rs. 46,625 the previous year, or a decrease of 15.98 per cent. The increase in the number of telegrams and words and the decrease

Inland Private

Inland State.

Foreign Private.

Foreign State.

Inland Press.

Foreign Press

in the value is due principally to the reduction in the rates for Press telegrams between the United Kingdom and India referred to in paragraph 38. The general elections at home also were the cause of a considerable increase. The figures under Foreign Press represent the number of Press telegrams to and from India, and the Indian share of their value, transit Press traffic to and from countries to the East and West of India being excluded.

News-free and concessional telegrams.

51. The following statement shows the amount of news-free and concessional traffic during the year:—

| | No. | Pro forma value. Rs. |
|--|----------------|-------------------------|
| Mail Steamer reports ... | 28,076 | 28,646 |
| Reuter's Government and Press ... | 114,750 | 68,124 |
| Indian News Agency ... | 54,046 | 36,273 |
| French Government Service ... | 1,342 | 4,333 |
| Portuguese Government Service ... | 2,646 | 8,271 |
| Kalat State ... | 119 | 567 |
| Kashmir State ... | 5,193 | 7,849 |
| British Indian and Colonial Government ... | 9,697 | 24,450 |
| O. H. M. S. (Free State Messages) ... | 1,227 | 3,285 |
| Total ... | 217,096 | 1,81,798 |
| Total of previous year ... | 237,319 | 2,31,126 |

The reduction in value is due to the rate for Inland urgent or express telegrams, under which class the majority of the above telegrams are usually sent, having been reduced from a minimum of Rs. 2 to Re. 1 per telegram.

Classification of Inland telegrams.

52. The abstract given below shows the number and value of Inland State, Private and Press messages classified under express and ordinary:—

| Class. | EXPRESS. | | ORDINARY. | | TOTAL. | |
|------------------|------------------|------------------|------------------|------------------|-------------------|------------------|
| | No. | Value. | No. | Value. | No. | Value. |
| | | Rs. | | Rs. | | Rs. |
| State ... | 99,261 | 2,69,891 | 708,209 | 4,92,255 | 807,470 | 7,62,146 |
| Private ... | 1,133,475 | 18,40,094 | 8,695,664 | 28,90,077 | 9,829,089 | 54,30,171 |
| Press ... | 41,031 | 34,734 | 129,336 | 1,33,629 | 170,417 | 1,68,363 |
| Total ... | 1,273,717 | 18,44,719 | 9,524,209 | 45,15,961 | 10,797,926 | 63,60,680 |

Exclusive of Rs. 62,635 on account of abbreviated addresses and of Rs. 10,762 on account of debit adjustments.

53. The following statement shows the percentage of Inland sent traffic under the various classes during the last three years:—

Proportion of Inland traffic under each class.

| Class. | 1907-08. | | APRIL TO DECEMBER 1908. | | JANUARY TO MARCH 1909. | | 1909-10. | |
|---------|----------|-------|-------------------------|--------|------------------------|--------|----------|--------|
| | No. | Value | No. | Value | No. | Value | No. | Value. |
| | | Rs. | | Rs. | | Rs. | | Rs. |
| STATE | Deferred | ... | 21'65 | 30'10 | 88'20 | 45'50 | ... | ... |
| | Ordinary | ... | 17'54 | 16'80 | 19'77 | 15'36 | 83'35 | 55'07 |
| | Express | ... | 20'81 | 33'10 | 12'03 | 39'14 | 16'65 | 44'93 |
| | TOTAL | ... | 100'00 | 100'00 | 100'00 | 100'00 | 100'00 | 100'00 |
| PRIVATE | Deferred | ... | 84'24 | 59'22 | 85'52 | 60'70 | ... | ... |
| | Ordinary | ... | 10'40 | 21'05 | 9'12 | 19'50 | 86'52 | 68'50 |
| | Express | ... | 5'36 | 19'70 | 5'36 | 19'80 | 13'48 | 31'50 |
| | TOTAL | ... | 100'00 | 100'00 | 100'00 | 100'00 | 100'00 | 100'00 |
| PRESS | Deferred | ... | 87'34 | 70'67 | 69'74 | 68'37 | ... | ... |
| | Ordinary | ... | 12'66 | 29'33 | 30'26 | 31'43 | 69'17 | 77'38 |
| | Express | ... | ... | ... | ... | ... | 30'83 | 22'51 |
| | TOTAL | ... | 100'00 | 100'00 | 100'00 | 100'00 | 100'00 | 100'00 |

N.B.—The "Deferred" class was abolished and the "Urgent" class styled "Express" from the 1st of January 1909.

54. The table below shows the number and value of Telegraphic Money Order Advices dealt with during the last five years:—

Telegraphic money order advices.

| Year. | India. | | Indo-Ceylon. | | | | Value. Rs. |
|---------|--------|---------------|----------------|----------------|--------|--------|---------------|
| | No. | Value. Rs. | Out- going. | Incom- ing. | Total. | | |
| 1905-06 | ... | 214,003 | 2,00,232 | 1,426 | 19,428 | 20,854 | 20,854 |
| 1906-07 | ... | 259,648 | 1,95,784 | 1,559 | 18,181 | 19,740 | 19,740 |
| 1907-08 | ... | 300,198 | 2,05,295 | 1,406 | 15,778 | 17,184 | 17,184 |
| 1908-09 | ... | 355,600 | 2,32,962 | 1,583 | 14,364 | 15,947 | 15,947 |
| 1909-10 | ... | 337,334 | 1,91,445 | 1,614 | 14,027 | 15,641 | 15,641 |

55. The Telegraph Department continued to receive the usual fixed fee of one rupee for each Telegraphic Money Order Advice exchanged between India and Ceylon.

56. The number and value of Indian Money Order Advices during the year are shewn below:—

| | No. | Value. Rs. |
|---------------------|-----|---------------|
| Classed as Express | ... | ... |
| Classed as Ordinary | ... | ... |
| Total | ... | ... |

57. From the 1st of October, the fixed fees per Telegraph Money Order Advice of one rupee and eight annas for Express and Ordinary telegrams, respectively, were abolished. The usual rates for Inland telegrams are now levied

and the remitter is permitted to add a private communication at the end of the advice on paying for the additional words at the usual rates.

Signalling operations.

58. The following statement shows the total number of sent telegrams, the total number of signalling operations entailed in their despatch from the office of origin to destination, with the necessary repetition at intermediate offices, and, lastly, the average number of signalling operations per sent telegram, for the past five years :—

| Year. | Total number of sent telegrams paid service and free.* | Total number of signalling operations. | Average number of signalling operations per sent telegram. |
|----------------|--|--|--|
| 1905-06 | 11,578,870 | 56,048,918 | 4.84 |
| 1906-07 | 12,703,715 | 61,918,506 | 4.88 |
| 1907-08 | 14,266,942 | 70,407,120 | 4.93 |
| 1908-09 | 14,327,396 | 66,280,389 | 4.62 |
| 1909-10 | 12,281,569 | 61,302,432 | 4.99 |

* Service telegrams are excluded from 1909-10.

59. The increase in the average number of signalling operations per sent telegram is due to the decrease in the number exchanged between Departmental offices. As shown in paragraph 66 the number of messages sent from Combined offices was practically the same as the previous year. These Combined office messages undergo more operations than others and this effect is now shown.

Communication with foreign countries.

60. Communication with Europe *via* Suez was maintained uninterruptedly throughout the year. The Teheran route was interrupted for 381 hours as against 822 hours in the previous year. The Turkish route was interrupted for 3,306 hours as compared with 3,363 hours in the previous year. Details of the traffic which passed over these routes during the year are given in Appendices C and D.

61. Communication between India and Siam over the Moulmein Bangkok line *via* Kanburi was interrupted for 740 hours against 765 hours in the previous year beyond the Indian frontier. There were no interruptions within the Indian frontier as against four interruptions lasting 114 hours in the previous year. The line *via* Raheng was interrupted for 735 hours beyond and 26 hours within the Indian frontier, as compared with 551 and 114 hours respectively during 1908-09.

62. The land route to China *via* Bhamo was interrupted beyond the Indian frontier for 1,223 hours against 1,538 hours in the previous year. There were no interruptions within the Indian frontier.

Meteorological observation offices.

63. On the 31st of March 1910, there were 47 Government telegraph offices which were also Meteorological observation offices.

Signalling establishment.

64. At the close of the year the Signalling establishment stood as follows :—

| | Rs. |
|--|--------|
| Deputy Superintendents | 56 |
| Departmental Telegraph Masters and Telegraphists ... | 2,912 |
| Unattached List { Warrant officers | 7 |
| Non-commissioned officers | 13 |
| Military Telegraphists | 600 |
| Postal employes | 3,930 |
| Total | 7,518 |
| Total for 1908-09 | 6,931* |

* Revised figure.

65. Certificates of proficiency in telegraphy were granted to 267 soldiers; and at the close of the year 296 were under training. The corresponding numbers for the previous year were 329 and 306 respectively. Training of soldiers in telegraphy.

66. The following statement shows the number of combined offices open at the end of each of the last five years, and the number and value of telegrams sent from them as well as the total number of signalling operations during these years:— Post Office Agency.

| Year. | Number of combined offices. | Number of paid telegrams. | Value of paid telegrams. | Total number of signalling operations. |
|----------------|-----------------------------|---------------------------|--------------------------|--|
| | | | Rs. | |
| 1905-06 | 2,029 | 4,717,436 | 29,20,347 | 11,093,201 |
| 1906-07 | 2,158 | 5,272,276 | 30,97,403 | 12,068,765 |
| 1907-08 | 2,265 | 6,123,137 | 34,64,784 | 13,863,294 |
| 1908-09 | 2,378 | 5,754,069 | 32,19,634 | 13,924,988 |
| 1909-10 | 2,463 | 5,783,614 | 32,06,255 | 12,049,124 |

67. Certificates of proficiency in telegraphy were granted to 691 postal employes, and at the close of the year 375 were under training. The numbers for the previous year were 577 and 439, respectively. Training of postal employes in telegraphy.

EXTENSION AND MAINTENANCE OF LINES.

68. The mileage of line, wire and cable maintained by this Department at the close of each quinquennial period from 1850-51 to 1899-1900 and at the end of each year since, is shown in Appendix E. Appendix A shows the purposes for which the line, wire and cable, were used, at the close of the years 1908-09 and 1909-10. Extent of system. Appendices A and E.

69. The net increase in the extent of the system during the year was 2,682 miles of line and 6,671 miles of wire, including cable (*vide* paragraph 8). Additions during year.

70. The following were the principal Departmental works carried out during the year:— Principal works carried out.

| | | | Miles of line. | Miles of wire. |
|---------------------------------|-----|-----|----------------|----------------|
| <i>New Construction.—</i> | | | | |
| Rajahmundry-Dummugudem | ... | ... | 115 | 124 |
| Simla-Kotgarh | ... | ... | 51 | 51 |
| Jodhpur-Lohawat | ... | ... | 57 | 58 |
| Srinagar-Badripath. | ... | ... | 110 | 119 |
| <i>Extra wires.—</i> | | | | |
| Dhubri-Pandu Junction | ... | ... | ... | 158 |
| Lambia-Kharchi <i>via</i> Ajmer | ... | ... | ... | 302 |

71. The extensive special repairs in connection with the improvement of the lines carrying the Calcutta-Rangoon wires sanctioned by the Government of India were continued during the year and will be completed in 1910-11, very little work remaining to be done after 31st March 1910.

Reconstruction

72. The total reconstructions during the year amounted to 811 miles of line and 4,715 miles of wire.

Cables

73. Four submarine type cables across rivers, aggregating 1.29 miles in length, were laid during the year by the Department, either for new circuits or as renewals.

74. Under-ground cables, aggregating 18 miles in length, for telegraph and telephone purposes, were laid during the year, in Calcutta, Madras and Simla. All of them were laid by Messrs. Callender's Cable and Construction Company, Ltd.

75. Aerial telephone cables, aggregating 14 miles in length, were erected during the year in the Lower Burma, Punjab and United Provinces of Agra and Oudh Divisions, by the Department.

Interruptions to Communication.

76. Interruptions to communication which occurred during the year are classified below according to the causes to which they were attributed:—

| | No. | Duration. Hours. |
|--|-------|---------------------|
| <i>Preventable causes—</i> | | |
| Faults on lines and cables ... | 359 | 5,223 |
| <i>Unpreventable causes—</i> | | |
| Cyclones and exceptional storms ... | 442 | 8,513 |
| Floods ... | 41 | 847 |
| Lightning ... | 114 | 1,535 |
| Fires ... | 43 | 386 |
| Trees falling other than by cyclones, etc. ... | 294 | 4,156 |
| Birds and animals ... | 791 | 9,518 |
| Malice ... | 138 | 2,489 |
| Other unpreventable causes ... | 703 | 8,672 |
| Totals on lines and cables ... | 2,925 | 41,539 |
| Faults in offices ... | 263 | 3,465 |
| Unknown causes ... | 717 | 7,483 |
| GRAND TOTAL ... | 3,905 | 52,487 |
| Total for 1908-09 ... | 3,596 | 51,234 |

Compared with the previous year.

77. As compared with the previous year, the interruptions which occurred in 1909-10 show an increase of 309 or 8.59 per cent in number and 1,233 hours or 2.4 per cent in aggregate duration. The average duration of a fault fell from 14.25 to 13.44 hours.

Preventable and Unpreventable causes.

78. Faults from preventable causes show an increase from 317 lasting 4,419 hours to 359 lasting 5,223 hours and those from unpreventable causes, an increase from 2,295 to 2,566 in number and a decrease in duration from 35,373 hours to 36,316 hours.

Faults in Offices.

79. Faults in offices show an increase of 39 or 17.41 per cent in number and 413 hours or 13.53 per cent in duration.

Unknown Causes.

80. Faults due to unknown causes have decreased by 43 or 5.65 per cent in number and 927 hours or 11.02 per cent in duration.

Storms.

81. Extensive damage to telegraph lines was caused by severe cyclones which passed over the Malabar Coast in May, Eastern Bengal on the night of the 17th-18th October and the East Coast on the morning of the 27th of October 1909.

82. In June 1909 half a mile of telegraph line was washed away by floods at the foot of the hills below Cherrapoonji.

ELECTRICAL.

83. As soon as information was received that the Peninsular and Oriental **Radio telegraphy.** mail steamers to Bombay were to be fitted with radio-telegraph apparatus, arrangements were made to erect a radio-telegraph office at Bombay. This was opened in October 1909 and communicates with the mail steamers fitted with radio apparatus for a distance of about 350 miles. A radio-telegraph office was also opened at Jask in December and was subsequently handed over to the Indo-European Telegraph Department.

84. During the cold weather season and at night, when the physical conditions are peculiarly favourable for radio-telegraphy, it was found possible to hold communication over long distances with out stations though they are designed for regular work for distances of only about 300 miles. The stations at Jask and Bombay were frequently able to communicate, the distance being 1,100 miles. Jask was also able to exchange communication with the S. S. "Morea" at a distance of 1,200 miles. Calcutta communicated with a naval vessel 200 miles south of Colombo and received signals from one at Singapore, distance 1,500 miles.

85. A severe magnetic storm was experienced on the 26th of September **Magnetic Storm.** 1909 and the natural currents resulting therefrom in the wires seriously interfered with the working of the lines. This storm was also experienced on the continent of Europe and in America and for a time disorganised the telegraph systems. It was remarkable not only for its intensity but for the variations in the direction of the currents experienced on the wires, though, on the whole, lines whose general direction was North and South were less disturbed than those where it was East and West. Work on the Baudôt systems entirely failed, but other systems failed at intervals only when the natural current exceeded a certain value. The storm had no effect on radio-telegraphic communication.

86. Two additional Baudôt circuits were installed between Calcutta and **Baudôt Apparatus.** Rangoon, one *via* Akyab with a repeater at Akyab, and the other *via* Assam with a repeater at Gauhati and a re-transmitter at Mandalay. An additional Baudôt circuit between Calcutta and Bombay was also brought into use in the busy season. The Baudôt circuits have worked on the whole very successfully and have disposed of a large amount of traffic.

87. The Government Telephone system of Madras has been re-organised and **Telephones.** a modern Central Battery Telephone system installed. It is believed that this will prove satisfactory to the subscribers as the service is very much improved.

STORES AND WORKSHOPS.

88. The store depôts at Bombay, Calcutta, Karachi, Madras and Rangoon **Store Branch.** imported and exported 825,930 packages in all as compared with 940,273 in the previous year. About 106 tons of stores, effecting a saving of Rs. 1,588 only, were carried by Government steamers from Bombay and Rangoon. No stores were sent by Government steamers from Calcutta during the year. Unserviceable stores in depôts and agencies were sold and Rs. 23,659 realised thereby.

89. The value of the outturn in the workshops during the year was Rs. 9,52,000 **Workshops.** as against 11,27,000 last year. The decrease is chiefly in the value of the output of construction and other stores which amounted to Rs. 1,96,000. There was an increase in the value of instruments completed of Rs. 37,000.

90. The total value of the outturn is made up of stores 69.56 per cent; labour 21.31 per cent; establishment and contingencies 9.13 per cent.

PERSONAL.

91. Mr. T. D. Berrington relinquished the office of Director-General on the 5th of December 1909 and proceeded on two years' furlough.

92. The work in the Direction continued very heavy throughout the year and was increased during the last quarter by the preliminary arrangements that had to be made for the introduction of the Circle Scheme on the 1st of April 1910. I am much indebted to Messrs. C. Streatfeild-James and R. Meredith for the valuable assistance they gave me in this important work.

93. An honorarium of Rs. 750 was granted to Mr. J. D. Bunyan, Sub-Assistant Superintendent, for designing a special switch for use on branch circuits which has proved very valuable.

SIMLA;

The 3rd October, 1910.

F. E. DEMPSTER,

Offg. Director-General of Telegraphs.

Classification of telegraph lines according to purposes for which maintained for the year 1909-10.

(a) Opened from 1st July 1910.

(b) From 2nd May 1907.

C. F. ANDERSON, Captain, R.E.,
for Secretary, Railway Board.

Shukla, the 20th October 1910.

Printed and Published for the GOVERNMENT OF INDIA at the GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India

No. 44 }

CALCUTTA, SATURDAY, OCTOBER 29, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

N.B.—Provinces named in the first and last columns include their chief port or ports. "Madras ports" include the ports of Madras, Pondicherry (exclusive of sea-going ports from Non-British Ports and Foreign countries), Nagapattinam, Tuticorin, Calicut, Cocanada, Vizagapatnam, Cuddalore, Cochin, Tellicherry, Cannanore, Masulipatam, A. Angalore, Quilon, Porto Novo, and Madagars. The last eight ports were added from 1st April 1909

(a) Figures for the two weeks ending the 21st October 1910.

A. EARLE,
Offg. Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

• Season and Crop Prospects for the week ending Saturday,
22nd October 1910.

• **Burma.**—Light or moderate showers were reported from nearly all districts from which reports have been received but reports from ten districts in Upper Burma have been delayed. In spite of irregular rain, winter crops generally promise about a normal outturn. The heavy rains of the previous week are reported to have done some damage in Katha to rice which is now coming into ear. Cotton plucking and other agricultural operations are progressing normally but a severe attack of disease among cattle in Minbu is reported to have impeded work. Variations in the prices of food grains from the normal are not important.

• **Eastern Bengal and Assam.**—The rainfall was light in the Assam Valley and Rajshahi divisions and fairly heavy elsewhere. Plucking of tea and ploughing for spring crops are in progress. Sowing of mustard has commenced in the Assam Valley. Cotton promises well. Prospects of tea, winter rice and sugarcane are fair. Some damage to winter rice by insect pests has been reported from Sylhet, Goalpara, Nowgong and Sibsagar. The average price of common rice has risen by about one per cent. Cattle disease prevails in Malda, Goalpara, Darrang, Nowgong, Sibsagar and the Garo Hills.

• **Bengal.**—During the week rain fell all over the Province except Birbhum, Murshidabad, Hazaribagh, Manbhum and practically all the districts of Bihar except the Sonthal Parganas. The fall was heavy in Orissa, Khulna, Jessore, the 24-Parganas, Midnapore, Burdwan and Howrah, moderate in Nadia and Cooch Behar and light elsewhere. Harvesting of autumn crops still continues in some districts. Sowings of spring crops have commenced in most districts but progress has been retarded in Angul by excessive rain. Winter paddy and sugarcane are doing well. Insects did some damage to paddy in Sambalpur. The price of common rice has risen in Midnapore, the 24-Parganas, Jessore and Bhagalpur and has fallen in Bankura, Nadia, Murshidabad, Patna, Darbhanga, Monghyr, the Sonthal Parganas, Hazaribagh, Ranchi, Singhbhum and Cooch Behar. Cattle disease exists in Midnapore, Patna, Gaya, Saran, Muzaffarpur, Purnea and in all the districts of Orissa and Chota Nagpur except Cuttack, Balasore and Singhbhum. The supply of fodder and water is sufficient throughout the Province.

• **United Provinces.**—No rain fell during the week. Standing crops are flourishing and prospects are good. Cotton picking and harvesting of rice and the larger millets are in progress. Preparation of fields for spring crops is being pressed forward and sowings of gram, barley, pulse and linseed have begun in places. The general condition of livestock is good though sporadic cattle disease is reported from twenty-five districts. Fodder and supplies are ample everywhere. Prices have fallen in a few districts but are generally stationary.

• **Punjab.**—No rain fell during the week. Harvesting of rice and maize, picking of cotton and ploughings for and sowings of spring crops are in progress. The condition and outturn of standing crops are generally good to average. Cotton is disappointing and millet is very poor in Rohtak. Drought is felt in Mianwali. The outturn of *mung* and of *mota* is reported bad from Rawalpindi. Great millet has been damaged by moth borer in parts of Hissar. Prices are generally unchanged. They are rising slightly in one and falling in four districts. The condition of cattle is generally good. Fodder is sufficient except in parts of Mianwali. Complaints of a short canal water supply are being received from the Samundri and Toba Tek Singh tahsils in the Lyallpur district.

North-West Frontier Province.—No rain fell during the week. It is badly wanted in Dera Ismail Khan. The condition of standing crops is poor in Dera Ismail Khan owing to lack of rain. Elsewhere it is generally average. Harvesting of autumn crops is in progress and the expected outturn is average except that of rice and cotton which is reported below the average in the Charsadda tahsil of the Peshawar district. Sowings of spring crops continue in Dera Ismail Khan. Crops have been damaged by the *tiddi* insect in one village of the Dera Ismail Khan tahsil and in the Kulachi tahsil. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. The condition of cattle is generally good but disease is prevalent in two villages of the Charsadda tahsil in the Peshawar district. The public health is generally good except in some parts of the Peshawar and Charsadda tahsils. Malarial fever is prevalent in Peshawar and Nowshera. Prices of food-grains except that of *bajra* show a slight tendency to fall. Prices:—wheat 13½ to 19½; gram 17½ to 27; maize 16 to 30½ and *bajra* 16 to 23 seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

Rajputana.—No rain fell during the week. Agricultural operations for both autumn and spring crops continue. Standing crops are fair to good except in Bharatpur where the expected outturn is much below the average. Damage by grass-hoppers is reported in one district of Mewar and by heavy rainfall in Bharatpur. Cattle disease is prevalent in Karauli and in parts of Merwara, Banswara and Jhalawar. Fodder is sufficient. Prices have risen in Mewar, Partabgarh, Shahpura, Alwar and Karauli and have fallen or are steady elsewhere.

Central India.—No rain fell during the week. The weather is clear and cool. Harvesting of autumn crops and sowing of spring crops are in progress. Standing crops are generally good but have been damaged slightly by insects in parts of Bhopal, Malwa and Bhopawar. Cattle are in good condition but some disease prevails in parts of Gwalior, Bhopal, Baghelkhand, Bundelkhand and Bhopawar. Prices are falling in Bhopal, Baghelkhand and Bundelkhand and are generally easy.

Central Provinces.—The week was almost rainless. Reaping of autumn crops, picking of cotton and sowing of spring crops are proceeding. Prospects are good. Pasturage and water are sufficient. Agricultural stock is in good condition. Prices show little variation.

Federatory States.—The rainfall during the week measured in inches was:—in Kanker and Bastar 5, in Sakti 2 and in Sarangarh 1½. Raigarh, Sirguja and Jashpur also had light showers. A break is required in Bastar and Sakti. Harvesting of autumn crops and sowing of spring crops continue. Cotton has suffered slightly from insect pests in Kawardha. The condition of crops is generally good. Fodder and water are sufficient. Prices:—gram in Kanker and rice in Raigarh, Sirguja and Bastar fell by 2 seers per rupee.

Bombay.—The rainfall during the week was moderate in parts of Kanara, Dharwar and Kolhapur and slight in Satara, Bijapur, Belgaum and Savantvadi. Standing crops are suffering from insufficient moisture in Palanpur. They have been damaged slightly by rats in Karachi, by insects in Sukkur, by grass-hoppers in Nasik, Ahmednagar, Belgaum and Kolhapur and are generally good elsewhere. Harvesting of autumn crops

is progressing generally. Cotton picking is progressing in Hyderabad, Thar and Parkar, Khandesh, Ahmednagar and Baroda. Lands are being prepared for cultivation of spring crops in parts of Sind, Ahmedabad, the Panch Mahals, Surat, Nasik and Palanpur. Sowing of spring crops continues in parts of Gujarat, the Deccan, the Karnatak, Baroda and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur but is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in the Upper Sind Frontier, East Khandesh and Bijapur, have fallen in Nasik, Ahmednagar, Satara and Dharwar and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent; in the Konkan 13 to 22 per cent and in the Karnatak 3 to 19 per cent less than the normal. In Gujarat prices ranged from 12 per cent more than the normal to 23 per cent less and in the Deccan from 13 per cent more to 23 per cent less.

Hyderabad.—The average rainfall in the Dominions was 1 inch 2 cents. The rainfall in the Mahratwara districts was light, except in Raichur, with an average of 1 inch 32 cents. In Telingana the fall averaged from 76 cents in the Medak district to 5 inches 14 cents in Nalgonda. The heaviest falls occurred in the Nalgonda, Mahbubnagar and Warangal districts. The general situation is satisfactory. The autumn crop has been damaged by the excessive rainfall of the week in parts of Telingana and to some extent by insects in parts of the Raichur and Medak districts. The crop is being harvested in many places. Autumn cotton has suffered in parts of Mahratwara. The rain during the week was generally beneficial to the early rice crop. Lands are being prepared for spring crops and sowings are proceeding in most places. Cattle disease prevails in fourteen talukas. Prices:—wheat 6½; coarse rice 6½ and *juar* 15½ seers per rupee, showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 13½ seers. The highest price in districts is 8 seers in Karimnagar and the lowest 26 seers in Aurangabad.

Mysore.—The rainfall during the week was good throughout the State. Prices of food grains have fallen slightly in Kolar and Chitaldroog and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 1 inch 84 cents. The condition of the rice crop is good. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was heavy in Ganjam, Godavari, Kistna, Guntur, Nellore, South Arcot, North Arcot, Salem, Trichinopoly, Tanjore and Malabar, good in Vizagapatam, Kurnool, Anantapur, Cuddapah, Chingleput, Coimbatore, Madura, Ramnad, South Canara and the Nilgiris and light to fair elsewhere. The rainfall in sixteen districts was above the average of the last 35 years. Irrigation supplies are sufficient in the Circars, the Deccan, Salem, Trichinopoly, Tanjore, Malabar, South Canara and the Nilgiris and insufficient in Chingleput and in parts of other districts. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally fair but some in parts of Bellary have been damaged by grass-hoppers, some in parts of Anantapur by excessive rain and some in parts of Chingleput and Tinnevely are in urgent need of rain. Harvests continue in parts with outturn fair to bumper. Pasture is insufficient in parts of Coimbatore and Tinnevely. Fodder is scanty in parts of Ganjam, Godavari, Cuddapah, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in fourteen districts, has fallen in nine and has risen in one. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts, has fallen in twelve and has risen in three. *Cholam* is stationary in seven districts, has fallen in four and has risen in four. *Cumbu* is stationary in three districts, has fallen in seven and has risen in six.

The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

Nepal.—*Report for the quarter ending 15th October 1910:*—Owing to the continued heavy rainfall during the month of July the maize crop in the hills suffered to some extent, but the rice crop did well. 10·75 inches of rain were registered during the last sixteen days of this month. In the month of August rice was sown in the Terai, and pears and apples were gathered in Nepal, the outturn being good. Cardamoms, early rice and maize were harvested in September in the hills and in the Nepal valley. The outturn was satisfactory with the exception of maize. Potatoes and early winter vegetables were sown. Millet and autumn rice are now being harvested and sowing of garlic and onions is in progress. Lands are being prepared for the sowing of wheat, barley and peas for the spring crop. The market is well stocked and the price of food grains is normal, also that of ghee. The rainfall for the period was 36·82 as compared with 36·32 for the corresponding period of last year. No epidemic of cattle disease has been reported.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 27th October 1910, based on the Indian Daily Weather Reports of the period.

1. At the beginning of the week fairly general rain was falling in Burma, especially in Upper Burma, but northerly winds set in on the 24th and rainfall in consequence practically ceased. In northern India the only areas that received rain were the coast districts at the head of the Bay, and on the last two days of the week even these were practically rainless. In the Peninsula rainfall occurred nearly every day in the east and south, and during the last three days an advance of the monsoon in the Arabian sea caused an extension of rainfall northwards along the west coast and into Hyderabad and the Bombay Deccan.

2. Rainfall was in excess by 20 or more per cent in Upper Burma, Bengal proper, Orissa, the Central Provinces East, Hyderabad North, Mysore, Madras Southeast and the Madras Coast North; and was in defect by half an inch or more in Assam, Barar, the Central Provinces West, the Konkan and Malabar.

3. *Burma.*—Fairly general rain was reported on the first two days of the week, but on the remaining days there were only a few scattered falls. Skies were lightly to moderately clouded.

Northeast India, including Orissa.—Rainfall was confined almost entirely to the coast districts; and skies were clear or only lightly clouded except in the south of the division.

The United Provinces, Central India and the Central Provinces.—A few falls of rain occurred in the east of the Central Provinces, and skies were moderately clouded in this area, while they were clear or only lightly clouded elsewhere. Night temperature was lower than usual in Central India and the west of the Central Provinces.

Northwest India.—Skies were free from cloud except on the 26th, when light cloud appeared in Gujarat and the extreme north. Night temperature was lower than usual in Rajputana, especially in the western districts.

The Peninsula.—On most days rainfall was fairly general in the south of the Peninsula and on the north Madras coast, and at the close of the week it also occurred in the Konkan and the Bombay Deccan. Skies were moderately clouded in the south and east; and except on the 25th, 26th and 27th they were clear or only lightly clouded in the northwest, where night temperature was accordingly lower than usual. Day temperature was below the normal in the Madras Deccan and on the north Madras coast.

4. The following are the principal amounts of rainfall as reported at 8 hrs. each day:—

| | | |
|---------|-------|---|
| October | 21st. | Akyab 2'68", Monywa 2'75", Barisal 1'71", False Point 2'22", Negapatam 3'57" and Nellore 2'39". |
| " | 22nd. | Tavoy 1'85", Minbu 1'28", Bangalore 2'67", Trichinopoly 2'79" and Salem 2'25". |
| " | 23rd. | False Point 2'73", Cuttack 1'55", Gopalpur 3'65" and Vizagapatam 1'71". |
| " | 24th. | Vizagapatam 1'62", Madras 1'95" and Coimbatore 1'72". |
| " | 25th. | Vizagapatam 2'84", Masulipatam 3'57", Coimbatore 2'28", Trichinopoly 2'26" and Madura 1'99". |
| " | 26th. | Poona 1'26". |
| " | 27th. | Madras and Cuddalore each 1'33". |

5. As will be seen from the table that follows, the rainfall of the whole period from the 29th April to the 27th October is in excess by 20 or more per cent in the North-West Frontier Province, Sind, Mysore, the Madras Deccan and the Madras Coast North; and in defect by the same amount in Kashmir and Baluchistan.

| DIVISION. | RAINFALL DATA FOR WEEK ENDING ON 27TH OCTOBER 1910. | | | RAINFALL DATA FROM 30TH APRIL 1910 TO 27TH OCTOBER 1910. | | | | |

SUPPLEMENT TO
The Gazette of India.

No. 45. }

SIMLA, SATURDAY, NOVEMBER 5, 1910.

OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The Decrees of the Legislative Council of His Excellency the Governor-General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the GAZETTE may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the copy of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 3rd November 1910, based on the Indian Daily Weather Reports of the period.

1. Rainfall occurred chiefly in Mysore and the Madras presidency, but scattered falls were reported from other parts of the Peninsula and from Assam. An area of disturbed weather appeared over the Andamans on the 30th October, and travelling in a northerly direction carried rainfall into Upper Burma where the precipitation of the week was more than 20 per cent in excess of the normal; in Lower Burma however rainfall was below the average.

2. In addition to Upper Burma, rainfall was 20 per cent or more in excess in Assam, Hyderabad South, Mysore, Malabar and Madras Southeast, and was half an inch or more in defect in the Bay Islands, Eastern Bengal, Bengal proper and Orissa.

3. *Burma.*—Fairly general rain was reported from Upper Burma on the 1st and 2nd November, but on the remaining days only a few falls occurred. Cloud was moderate to heavy in the northern half of the province and light to moderate in the southern, and at the close of the week maximum temperature was considerably lower than usual in Upper Burma.

Northeast India, including Orissa.—Rainfall was restricted to a few falls in Eastern Bengal and Assam. Skies were clear or only lightly clouded.

The United Provinces, Central India and the Central Provinces.—Jagdalpur had a light fall of rain on the 28th. Skies were clear except for occasional cloud in the south of the Central Provinces, and night temperature was lower than usual in the Central Provinces.

Northwest India.—Skies were clear or lightly clouded; and in Baluchistan, Sind and the Punjab temperature was higher than usual especially at night.

The Peninsula.—Nearly general rain fell in the south and a few falls occurred in the north. Skies were moderately to heavily clouded in the area of rainfall.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

| | | |
|----------|-------|--|
| October | 28th. | Nellore 1'93", Madras 2'15", Cuddalore 1'91", Negapatam 2'12", Pamban 2'20", Trivandrum 2'24" and Cochin 3'55". |
| " | 29th | Masulipatam 3'10", Madras 1'83", Cuddalore 2'05", Colmbatore 3'43", Trichinopoly 2'06" and Ootacamund 2'12". |
| " | 30th. | Slipper Island 2'41", Bharno 2'47", Nellore 2'08", Cuddalore 3'64", Pamban 1'82", Cochin 1'92" and Mercara 1'85". |
| " | 31st. | Pamban 2'90" and Calicut 1'92". |
| November | 1st. | Pamban 2'04" and Mangalore 2'64". |
| " | 2nd. | Akyab 2'07", Cuddalore 1'74" and Cochin 2'03". |
| " | 3rd. | Negapatam 2'45". |

5. The rainfall of the whole period from the 23th April to the 3rd November is 20 per cent or more in excess in the North-West Frontier Province, Sind, Mysore, Madras South-east, the Madras Deccan and the Madras Coast North; and in defect by a similar amount in Kashmir and Baluchistan.

SUPPLEMENT TO THE GAZETTE OF INDIA, NOVEMBER 5, 1910. 1789

SIMLA;
The 3rd November 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
29th October 1910.

Burma.—Nearly all districts report rain but mostly very slight in amount. Sowing and planting of rice were completed in good time in Lower Burma except in a few flooded tracts where replanting still continues. In Tharrawady where a large area was flooded replanted crops are not expected to mature. Later rains have so far been satisfactory in Lower Burma and have partly made good the harm caused by deficient rain. In Upper Burma reaping of autumn rice is progressing under favourable conditions and an early start has been made with preparations for beans, tobacco and other dry weather crops. The recent continued rain in Upper Burma has much improved prospects and a good winter harvest is expected. Variations from the normal in prices of food grains are unimportant. Prices are generally rather low compared with recent years.

Eastern Bengal and Assam.—The weather was seasonable with slight scattered rain in parts of the Dacca division and on and near the hills. Plucking of tea, ploughing for and sowing of mustard and other spring crops are progressing. Prospects of tea and sugarcane are fair and of cotton, winter rice and other standing crops good. The average price of common rice has risen 2 per cent. Cattle disease prevails in Kamrup, Darrang, Nbwgong, Sibsagar, Lakhimpur and the Garo Hills.

Bengal.—During the week no rain was received in Behar, Chota Nagpur, Birbhum and Bankura. The fall was heavy in Angul, moderate in Midnapore, Howrah and Cooch Behar and light elsewhere. Harvesting of autumn crops is still going on in some districts and that of early rice has commenced in some districts of Orissa and Chota Nagpur. Sowings of spring crops are in progress. Pressing of sugarcane has commenced in Gaya and Bhagalpur. Standing crops are doing well. Some damage to paddy by insects is reported from Sambalpur. The price of common rice has risen in Burdwan, Nadia, Murshidabad, Khulna, Patna, Puri, Hazaribagh and Cooch Behar, and has fallen in Bankura, Midnapore, Saran, Champaran, Muzaffarpur, Monghyr, Bhagalpur, the Sonthal Parganas, Sambalpur, Ranchi and Palamau. Cattle disease prevails in Midnapore, Muzaffarpur, Darbhanga, Purnea, Angul, Puri, Sambalpur, Hazaribagh and Palamau. The supply of fodder and water is sufficient throughout the Province.

United Provinces.—No rain fell during the week. Standing crops are flourishing and prospects are good. Harvesting and threshing of autumn crops and cotton picking are in progress. Wheat, gram, barley and linseed are being sown. Sporadic cattle disease is reported from twenty-five districts but the general condition of stock is good. Fodder and supplies are ample. Prices have fallen slightly in nine districts and are generally stationary elsewhere.

Punjab.—Rainfall nil. Harvesting of paddy, maize, great millet, etc., picking of cotton and ploughing for and sowing of spring crops continue. The condition and outturn of standing crops are generally good to average. Cotton is disappointing and the outturn of great millet and mung is poor in Rohtak and of cotton below average in Hissar. Crops are generally dried up owing to drought in Mianwali. Rain is also wanted in Lahore and Sialkot. Prices are generally unchanged. They are falling slightly in Gurgaon, Jullundur, Lahore, Amritsar and Mianwali. The condition of cattle is generally good. Fodder is sufficient except in Mianwali. Complaints of a short water-supply are being received from the Samundri tahsil in the Lyallpur district.

North-West Frontier Province.—Rainfall *nil*. Rain is badly required in Dera Ismail Khan where the condition of standing crops is reported poor. Crops are generally average elsewhere. Harvesting of autumn crops continues and the expected outturn is average except that of rice, maize and cotton which is reported below average in the Charsadda tahsil of the Peshawar district. Sowing of spring crops is in progress. Sowing of clover and grain is nearly over in the Bannu district. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. Cattle are generally in good condition except in three villages of the Charsadda tahsil. The public health is generally good. Prices of food-grain except of wheat and maize, show a slight tendency to fall. Wheat sells from 13½ to 19½; gram 17½ to 27; maize 16 to 30 and *bajra* 16 to 23½ seers per rupee.

Jammu.—Rain *nil*. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—There is no disease among cattle. Fodder is sufficient. Prices are stationary.

Rajputana.—Rainfall *nil*. Agricultural operations for both autumn and spring crops continue. Standing crops are fair to good. The outturn is about half the normal in Bharatpur where crops have been damaged by heavy rainfall. Cattle disease prevails in Karauli and in the district of Banswara. Fodder is sufficient. Prices have risen in Bikaner, Jaisalmer, Meywar and Partabgarh and have fallen or are steady elsewhere.

Central India.—No rain fell during the week. The weather was clear and cool. Harvesting of autumn crops and sowing of spring crops are in progress. Standing crops are generally good but they have been damaged slightly by insects in Bhopal. Cattle are in good condition but some disease is prevalent in parts of Bhopal, Baghelkhand, Bundelkhand and Bhopawar. There are slight variations in prices but they indicate a downward tendency.

Central Provinces.—During the week Wardha, Drug, Raipur and Buldana had a sprinkling of rain not exceeding 76 cents. Harvesting of autumn crops, picking of cotton and sowing of spring crops continue. The condition of standing crops is generally good everywhere. The supply of fodder and water is adequate. Cattle are doing well. Prices:—The price of rice remained stationary in fifteen districts, gram in seventeen, *jawar* in eighteen and wheat in twenty districts. Rice became cheaper in Mandla and Bilaspur by 3 and 2½ seers per rupee respectively. Variations are unimportant elsewhere.

Fundatory States.—Seven States received rain ranging from 6 cents to 1 inch. A break is required in Bastar where excessive moisture has caused some damage to crops. Reaping of autumn crops and sowing of spring crops are in progress. Prospects are favourable. Pasturage and water are ample. Prices:—wheat and gram fell in Chhuikhadan by 6 and 9 seers per rupee respectively. Gram rose by 2 seers in Kanker.

Bombay.—The rain during the week was good in parts of Kanara, Ahmednagar, and the Karnatak, moderate in Poona, Satara, Sholapur and Savantvadi, slight in Surat, Thana, Colaba, Ratnagiri, East Khandesh and Nasik. Standing crops have been damaged slightly by recent rain in Ratnagiri, by rats in Karachi, by insects in Sukkar and Poona, by grass-hoppers in Nasik, Ahmednagar, Belgaum and Dharwar and are generally good elsewhere. Cotton has been affected slightly by recent rain in Ahmednagar and Sholapur. Harvesting of autumn crops is generally progressing. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Khandesh, Ahmednagar and Baroda. Lands are

being prepared for spring cultivation in parts of Sind, the Panch Mahals, Palanpur and Mahi Kantha. Sowing of spring crops continues in parts of Gujarat, the Deccan, the Karnatak, Kathiawar, Baroda, Cutch and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Satara and Sholapur and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Ahmednagar and Dharwar, have fallen in the Panch Mahals, Surat and East Khandesh and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent. In the Konkan 13 to 22 per cent and in the Karnatak 3 to 22 per cent less than the normal. In Gujarat prices vary from 12 per cent more than the normal to 17 per cent less and in the Deccan from 17 per cent more than the normal to 23 per cent less.

Hyderabad.—The average rainfall in the Dominions was 77 cents. The rainfall was more or less general. The heaviest falls occurred in Mahbubnagar and Nalgonda. Fair weather is needed and has apparently set in. General prospects are fair. The autumn crop, especially cotton, has suffered rather heavily in parts where the rainfall was excessive and untimely. Crops have been damaged somewhat by insect pests in parts of Medak and Raichur and some of the area under autumn cotton has been resown with other crops. Spring sowings have been suspended in places by excessive rain but prospects of the crop are favourable. The early rice crop has suffered to some extent by the week's rain in parts of Telingana but its prospects are fair to good. The crop is being weeded in a few places and harvested in places. Lands for late rice are being prepared in a very few parts of Telingana. Cattle disease prevails in thirteen talukas. Prices :—wheat 6½; coarse rice 6½ and *juar* 15½ seers per rupee, showing a fall of ½ seer in the price of coarse rice and *juar*. White *juar* is selling in Hyderabad City at 12 seers per rupee and yellow *juar* at 13½. The highest price in districts is 8½ seers in parts of Karimnagar and the lowest 28 seers in Nandor, showing a downward tendency in prices.

Mysore.—The rainfall was good throughout the State. Prices of food grains have fallen slightly in Kolar and Mysore and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 7 inches 47 cents. The rice crop is in good condition. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in Chingleput, Madras, Nellore, the Nilgiris and Guntur; heavy in South Arcot, Madura, Godavari, Kistna, Ramnad, the Vizagapatam littoral, North Arcot, Tanjore, Trichinopoly, Tinnevely, Coimbatore, South Canara, Malabar and Ganjam and good elsewhere. The rainfall in seventeen districts was above the average of 35 years. Irrigation supplies are sufficient except in parts of Madura. Ploughing, sowing, weeding and transplanting are in progress. Standing crops are generally good and have benefited by the recent rains in Chingleput and Salem, but some in parts of Godavari, Guntur, Kurnool, Anantapur and Cuddapah have been damaged by excessive rain and some in parts of Bellary have been damaged by grass-hoppers. Harvests continue in parts with outturn fair to bumper. Pasture is sufficient except in parts of Godavari. Fodder is scanty in parts of Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in fourteen districts, has fallen in seven and has risen in three. The prices of millets have fluctuated as follows :—*Ragi* is stationary in eight districts, has fallen in ten and has risen in four. *Cholam* is stationary in three districts, has fallen in seven and has risen in five. *Cumbu* is stationary in two districts, has fallen in eight and has risen in six. The public health is generally good. Prospects are generally good. The condition of the labouring classes is generally satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.SANITARY.
PLAGUE.

Simla, the 3rd November 1910.

The following preliminary statement of plague seizures and deaths reported in India, during the week ending the 29th October 1910, is published for general information.

Printed and Published for the GOVERNMENT OF INDIA *of the* GOVERNMENT CENTRAL PRINTING OFFICE, Simla.

SUPPLEMENT TO
The Gazette of India.

No. 46.]

CALCUTTA, SATURDAY, NOVEMBER 12, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 10th November 1910, based on the Indian Daily Weather Reports of the period.

1. Weather was disturbed in the south of the Bay at the beginning of the week, and the disturbance developed into a storm which crossed the coast near Nellore on the 6th and travelled across the peninsula passing out into the Arabian Sea near Bombay. The storm gave rain over the whole peninsula as far north as Berar, and as it passed away to the west, cloud extended northwards over the Central Provinces and Central India into the United Provinces, and eastwards into north-east India. The disturbed conditions thus indicated resulting in widespread rain over the Central Provinces and Central India and local falls in the United Provinces and southeast Rajputana.

2. The rainfall of the week was twenty or more per cent. in excess in the United Provinces East, Central India, Rajputana East, the Central Provinces, Berar, the Konkan, the Bombay Deccan, Hyderabad, Malabar, the Madras Deccan and the Madras Coast North. It was half an inch or more in defect in the Bay Islands, Orissa, Mysore and Madras Southeast.

3. *Burma*.—Only a few falls of rain occurred chiefly on the coast and skies were lightly clouded.

Northeast India, including Orissa.—There was no rain and skies were practically cloudless except on the 9th and 10th when cloud spread over the western and northern districts.

The United Provinces, Central India and the Central Provinces.—Rainfall was reported on the 8th, 9th and 10th chiefly from the Central Provinces and Central India. Cloud appeared in the south of the Central Provinces on the 6th and extended northwards; the whole division was more or less covered with cloud by the 10th. Night temperature which at the beginning of the week was lower than usual in the Central Provinces rose with the increase of cloud, and was everywhere above the normal on the 9th and 10th.

Northwest India.—Katab and Surat had light falls of rain. Skies were clear except for occasional cloud, and night temperature during the first part of the week was higher than usual in Baluchistan, Upper Sind and the southwest Punjab.

The Peninsula.—Rain fell in all parts of the division, and was most widespread in the southern half of the peninsula on the 6th at the time when the storm in the Bay was crossing the coast. Skies were clear at the beginning of the week in the north western districts, but heavy cloud spread over this area as the storm approached Bombay. Day temperature was generally below the normal and night temperature above it.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

| | |
|---------------|--|
| November 4th. | Negapatam 1.90". |
| " 5th. | Trivandrum 4.40". |
| " 6th. | Madras 7.02" and Nellore 2.41". |
| " 7th. | Cochin 2.13", Cuddapah 3.67", Masulipatam 1.30", Cocanada 1.40" and Vizagapatam 2.15". |
| " 8th. | Chanda 1.44", Calicut 1.72", Cocanada 1.47" and Gopalpur 1.90". |
| " 9th. | Khandwa 1.92" and Gulbarga 1.40". |
| " 10th. | Nowgong 2.48", Jubbulpore 1.46", Seoni 1.62" and Khandwa 2.85". |

5. The rainfall of the whole period from the 29th April to the 10th November is 20 or more per cent. in excess in the North-West Frontier Province, Sind, Mysore and the Madras presidency excluding Malabar; and is in defect by a similar amount in Kashmir and Baluchistan.

SUPPLEMENT TO THE GAZETTE OF INDIA, NOVEMBER 12, 1910. 1805

Director-General of Observatories.
E. D. MACLAGAN,
Secretary to the Government of India.

SIMLA,
The 10th November 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
5th November 1910.

Burma.—Nearly all districts including those of the dry central region report rain. The late rain has been moderate and beneficial to the winter rice crop which is now generally in ear and normal yields are generally expected. The cotton harvest has been impaired to some extent by continued rain in Lower Chindwin. Reaping of hillside rice in Upper Burma and early varieties of rice in Lower Burma and preparation for crops on alluvial lands are proceeding normally. Prices of food grains show no important variations from the normal.

Eastern Bengal and Assam.—The weather was seasonable. Plucking of tea and ploughing for and sowing of spring crops are in progress. Prospects of standing crops are on the whole good. The average price of common rice is unchanged. Cattle disease prevails in Sylhet, Darrang, Nowgong, Sibsagar, Lakhimpur and the Garo Hills.

Bengal.—There was no rain during the week. Sowing of spring crops is in progress. Harvesting of autumn crops has been nearly completed and that of early winter rice has commenced in Orissa and Chota Nagpur. Prospects of winter rice are good. Some damage to the crop by insects is reported from Sambalpur. The price of common rice has fallen in Midnapore, Hooghly, Murshidabad, Jessore, Khulna, Puri, Sambalpur, Hazaribagh, Ranchi, Palamau and Manbhum and has risen in Saran and Bhagalpur. Cattle disease is reported from Midnapore, Gaya, Muzaffarpur, Darbhanga, Monghyr, Purnea, Angul, Puri, Sambalpur, Hazaribagh, Ranchi, Palamau and Manbhum. The fodder and water supply is sufficient throughout the Province.

United Provinces.—No rain fell during the week. Standing crops are doing well and prospects are excellent. Harvesting of autumn crops is nearing completion. Sowings for the spring harvest are in progress everywhere and germination is so far good. Slight cattle disease is reported from nineteen districts but stock is on the whole in good condition. Fodder and supplies are abundant. Prices have fallen a little in eleven districts; they are fluctuating in five districts and stationary in the remainder.

Punjab.—No rain fell during the week. Harvesting of autumn crops and ploughings for and sowings of spring crops are in progress. The condition and outturn of standing crops are generally good to average. The condition of autumn crops except that of sugarcane is reported poor in Rohtak. Rain is wanted in Lahore and Sialkot. The outturn of autumn crops is average to poor in Mianwali. Rats are doing slight damage to crops in parts of Ferozepore and to sugarcane in Rohtak. Prices are generally unsettled. Cattle are in good condition. Fodder is sufficient except in Mianwali. Complaints of a short canal water supply continue to be received from the Samundri tahsil in the Lyallpur district.

North-West Frontier Province.—Rainfall $n\%$. It is wanted all over the Province. The condition of standing crops is generally average. Harvesting of autumn crops continues. The expected outturn of maize and rice is below the average in the Charsadda tahsil of the Peshawar district and average elsewhere. Sowings of spring crops are in progress. Sowing of clove and gram has been practically finished in the Bannu district. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. The condition of cattle is generally good but disease is prevalent in four villages. The health of the people is generally good except in some parts of the Peshawar tahsil. Malarial fever is prevalent in the Charsadda, Peshawar, Nowshera and Mardan tahsils. The prices of wheat and *bajra* show a slight tendency to fall. Prices:—wheat $13\frac{1}{2}$ to $19\frac{1}{2}$; gram $17\frac{1}{2}$ to 27 ; maize 16 to 29 and *bajra* 16 to $23\frac{1}{2}$ seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—No rain fell during the week. There is no disease among cattle. Fodder is sufficient. Prices are stationary.

Rajputana.—Late autumn crops are being harvested in a few States and spring sowings continue. Standing crops are fair to good. Prospects are improving in Bharatpur where the outturn is estimated at 8 annas in the rupee. Cattle disease is prevailing in Banswara and Karauli. Fodder is sufficient. Prices have risen in Banswara, Shahpura, Karauli and Merwara and are steady or have fallen elsewhere.

Central India.—Rainfall *nil*. The weather is clear and cool. Harvesting of autumn crops, cotton picking and sowings of spring crops continue. Standing crops are flourishing and prospects are generally favourable. Cattle are in good condition but some disease prevails in parts of Gwalior, Indore, Baghelkhand, Bundelkhand and Bhopawar. Prices show a tendency to fall.

Central Provinces.—Chanda received $1\frac{1}{2}$ inches of rain during the week. Balaghat, Wardha and the four Bepar districts had slight showers ranging from 11 to 32 cents. Harvesting of autumn crops, picking of cotton and sowing of spring crops are in progress. Germination of the spring crops sown is satisfactory. General prospects are good. Fodder and water are sufficient everywhere. Cattle are in good condition. Prices—rice rose in Bilaspur by $2\frac{1}{2}$ seers per rupee. Prices of staple food grains elsewhere remained stationary or fluctuated slightly, shewing a tendency to fall.

Feudatory States.—Rainfall *nil*. Harvesting of autumn crops and sowing of spring crops continue. Cotton and *til* have suffered considerably in Kawardha from insect pests, cloudy weather and excessive moisture. The condition of crops elsewhere is generally good. Fodder and water are adequate. Prices—rice in Kawardha and Bastar and gram and rice in Kanker became cheaper by 2 to 3 seers per rupee. Wheat rose in Kanker by 2 seers.

Bombay.—The rainfall during the week was moderate in parts of Kanara and slight in Ratnagiri, Sholapur, Satara, the Karnatak, Savantvadi and Kolhapur. Standing crops have been damaged slightly by the recent rain in Ratnagiri and Kanara, by rats in Karachi, by insects in Poona, by grass-hoppers in Nasik, Belgaum and Dharwar and are generally good elsewhere. Harvesting of autumn crops is progressing generally. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Khandesh, Nasik, Ahmednagar and Baroda. Lands are being prepared for cultivation of spring crops in parts of Sind, the Panch Mahals, Baroda, Palanpur and Mahi Kantha. Sowing of spring crops continues in parts of Larkana, Gujarat, the Deccan, Dharwar, Kathiawar, Baroda and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in East Khandesh, Nasik and Bijapur, have fallen in Surat, Kanara, Ahmednagar and Belgaum and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent, in the Konkan 13 to 22 per cent and in the Karnatak 10 to 22 per cent less than the normal. In Gujarat prices ranged from 12 per cent more than the normal to 17 per cent less and in the Deccan from 12 per cent more to 23 per cent less.

Hyderabad.—The average rainfall during the week was 35 cents. No rain fell in the Mahratwara districts except Gulbarga. In Telingana rain fell in the districts of Nalganda, Warangul, Medak and Nizamabad. The heaviest falls occurred in the Bhongir and Suryapet talukas of the Nalgonda district. The week's rain has injured autumn crops especially the *til* crop in parts of Telingana. The cotton crop has also suffered somewhat heavily especially in the Mahratwara districts, but full particulars are awaited regarding the extent of the damage. Early rice has suffered to some extent in the Telingana country by the week's rain. Cattle disease prevails in fourteen talukas. Prices:—wheat $6\frac{1}{2}$; coarse rice $6\frac{1}{2}$ and *juar* 16 seers per rupee, showing a fall of $\frac{1}{4}$ seer in the price of *juar*. White *juar* in selling in Hyderabad City at 12 and yellow *juar* at 14 seers showing a fall of $\frac{1}{4}$ seer in the price of yellow *juar*. The highest price in districts is $8\frac{1}{2}$ seers in Karimnagar and the lowest 28 seers in Nander.

Mysore.—The rainfall was generally good. Prices of food grains have fallen slightly in Bangalore, Tumkur and Shimoga and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 50 cents. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall during the week was very heavy in Tanjore and South Arcot, heavy in Ramnad, Chingleput, Madurai, Tinnevely and Malabar, good in South Canara, the Nilgiris, Madras, Coimbatore, North Arcot, Trichinopoly, Cuddapah, Salem, the Vizagapatnam Agency and Guntur and light to fair elsewhere. The rainfall in seventeen districts was above the average of the last thirty-five years. Irrigation supplies are generally sufficient except in parts of Chingleput. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally good but some in parts of Kurnool, Anantapur, Cuddapah and Tanjore have been affected by excessive rain and some in parts of Bellary have been damaged by grass-hoppers. Harvests continue in parts with outturn fair to bumper. Pasture is generally sufficient. Fodder is scanty in parts of Ganjam, Godavari and North Arcot. The condition of cattle is generally good. The price of rice is stationary in nine districts, has fallen in six and has risen in eight. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts, has fallen in thirteen and has risen in one. *Cholam* is stationary in four districts, has fallen in nine and has risen in one. *Cumbu* is stationary in three districts, has fallen in eight and has risen in four. The public health is generally good. Prospects are generally good. The condition of the labouring classes is everywhere satisfactory and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.SANITARY.
PLAGUE.

Calcutta, the 10th November, 1910.

The following preliminary statement of plague seizures and deaths reported in India during the week ending the 5th November 1910, is published for general information:—

| Presidency or Province. | Division. | Districts, States, towns of 50,000 or more inhabitants, and Ports. | Plague seizures. | Plague deaths. | |

* The duty on alkaloïds of opium for the years previous to 1910-11 is included under the head "Chemicals, drugs, etc."

(a) Figures for the years previous to 1910-11 represent "General Import Duties"

FREDERICK NOEL-PATON,
Director-General of Commercial Intelligence
J. S. MESTON

Calcutta, November 7, 1910

Secretary to the Government of India

SUPPLEMENT TO
The Gazette of India

No. 47.]

CALCUTTA, SATURDAY, NOVEMBER 19, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 17th November 1910, based on the Indian Daily Weather Reports of the period.

1. The abnormal conditions prevailing over the central parts of the country on the 10th continued to give rain in the Central Provinces, Central India and the east of the United Provinces during the first three days of the week, and was also the cause of rainfall in Bihar and Assam; but the disturbance weakened and finally disappeared on the 15th, and skies cleared over the whole of northern and central India.
2. A feeble depression appeared to the west of the Andamans on the 11th, and travelling northwards and then northeastwards, crossed the Arakan coast to the south of Akyab on the morning of the 15th. It occasioned widespread rainfall in Burma but filled up rapidly after crossing the coast, and by the morning of the 17th rainfall had ceased and skies had cleared.
3. The presence of cloud caused unusually high night temperature in the central parts of the country, northeast India and Upper Burma, but day temperature was in more or less large defect in the areas of rainfall.

4. The rainfall of the week was twenty per cent. or more in excess in the Bay Islands, Burma, Assam, Bihar, Chota Nagpur, the United Provinces East, Central India East, the Central Provinces, Berar, the Konkan, the Bombay Deccan, Hyderabad North, Malabar, Mysore and the Madras Deccan; and was more than half an inch in defect in Madras Southeast and the Madras Coast North.

5. *Burma.*—The storm in the Bay gave fairly general rain in Burma on the 13th and 14th and in Upper Burma on the 15th, but on the remaining days rainfall was light and scattered. Skies were moderately to heavily clouded. In Upper Burma, the rain caused a rapid fall in day temperature while night temperature was higher than usual owing to cloud.

Northeast India, including Orissa.—A few falls of rain were recorded chiefly in Bihar and Assam. Skies were moderately to heavily clouded in the northern half of the division and lightly clouded in the southern until the 15th when they cleared. During the prevalence of cloudy weather night temperature was higher than usual.

The United Provinces, Central India and the Central Provinces.—Rainfall was reported from the east of the United Provinces, Central India and the Central Provinces on the first three days of the week and continued for another day in the east of the Central Provinces. Cloud was heaviest while the rain lasted in a tract of country extending from Berar northeastwards to the eastern submontane districts of the United Provinces. Maximum temperature was below the normal in the area of rainfall, but the heavy cloud caused unusually high minimum temperature.

Northwest India.—Skies were clear except for light cloud in the extreme north on the 11th and 12th; and during the last four days of the week minimum temperature was lower than usual in Gujarat, Rajputana, Kashmir and Baluchistan.

The Peninsula.—Rain fell in the northwestern districts on the 10th and 11th and from the 12th onward was recorded chiefly in the south of the peninsula. Cloud was light to heavy up to the 16th when skies cleared in the interior districts of the northern half of the division. Minimum temperature was locally higher than usual during the prevalence of cloudy weather.

6. The following are the chief amounts of rainfall as reported at 8 hrs. each day:—

| | |
|----------------|---|
| November 11th. | Benares 1·31", Allahabad 1·89", Sutna 0·92", Nagpur 2·16", Ahmednagar 2·35" and Poona 1·05". |
| " 12th. | Dibrugarh 1·28", Amraoti 1·78" and Bellary 2·81". |
| " 13th. | Tavoy 1·30", Cherrapunji 1·90", Gaya 2·33", Seoni 1·10", Nizamabad 2·24" and Salem 1·14". |
| " 14th. | Mergui 2·30", Kyaukpyu 3·50", Akyab 3·30", Thayetmyo 1·10", Raipur 2·35", Jagdalpur 1·04", Bellary 1·62", Kurnool 1·21" and Ootacamund 2·16". |
| " 15th. | Port Blair 1·68", Akyab 4·85", Mercara 1·70", Cochin 1·58", Trichinopoly 1·28" and Kodaikanal 1·81". |
| " 16th. | Yamethin 2·03", Lashio 1·82", Calicut 1·39", Madura 1·25" and Kodaikanal 3·62". |
| " 17th. | Port Blair 1·54", Bangalore 1·70", Mangalore 1·46" and Madura 1·23". |

7. The rainfall of the whole period from the 29th April to the 17th November is in excess by more than 20 per cent. in the North-West Frontier Province, Sind, Hyderabad North, Mysore, the Madras Deccan and the Madras Coast North; and is in defect by the same amount in Kashmir and Baluchistan.

SUPPLEMENT TO THE GAZETTE OF INDIA, NOVEMBER 19, 1910. 1837

J. H. FIELD,
for Director-General of Observatories.
E. D. MACHAGAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
12th November 1910.

Burma.—Light showers of rain fell in portions only of Lower Burma. There was practically no rain in Upper Burma. Reaping of hill side rice and of autumn rice is progressing satisfactorily. Standing crops of winter rice are generally doing well. The recent rains did good to late sown crops though in parts of Bassein and Katha the rain is reported to have done slight damage to earlier crops. Plucking of cotton and gathering of ground nuts continue. Cultivation of pulse and miscellaneous winter crops is advancing normally. The prospect of the harvest on the whole is favourable. The price of unhusked rice has fallen considerably in 2 districts. Variations are unimportant elsewhere. Prices for the most part are about normal.

Eastern Bengal and Assam.—The weather was seasonable. Light rain fell in most districts of the Rajshahi division and Assam. Manufacture of tea and ploughing for and sowing of spring crops continue. Prospects of standing crops are good. Harvesting of winter rice has commenced in places. The average price of common rice has fallen by about one per cent. Cattle disease prevails in Nowgong, Sibsagar, Lakhimpur and the Garo Hills.

Bengal.—Rain fell during the week in Bihar and in Birbhum, Murshidabad, Hazaribagh, Ranchi, Palamau and Darjeeling. The fall was heavy in Gaya, Shahabad, Monghyr, Bhagalpur, Hazaribagh and Palamau and generally light in other districts. The recent rainfall has been beneficial to the standing spring crops in Gaya, Darbhanga and Palamau. Sowings of spring crops are in progress. Harvesting of early winter paddy has commenced in Orissa and Chota Nagpur. The standing winter paddy is doing well. Prospects are good. The price of common rice has risen in Nadia, Murshidabad, Patna and Darbhanga and has fallen in Burdwan, Midnapore, Hooghly, Jessore, Shahabad, Saran, Muzaffarpur, Monghyr, Bhagalpur, Darjeeling, the Sonthal Parganas, Puri, Ranchi and Palamau. Cattle disease is reported from ten districts. The fodder and water supply is sufficient throughout the Province.

United Provinces.—Rain varying from $2\frac{1}{2}$ inches to $\frac{1}{2}$ inch fell over the eastern half of the Province and Bundelkhand. The rain temporarily retarded sowing operations and may have somewhat damaged seed not yet germinated but it has generally benefited standing crops. Prospects continue excellent. Harvesting and winnowing of autumn crops continue and poppy and spring crops are being sown. Germination so far is good. Pressing of sugarcane has begun in a few districts. Sporadic cattle disease is reported from twenty-one districts but the general condition of stock is good. Fodder and supplies are ample. Prices have fallen slightly in thirteen districts and for the most part are stationary elsewhere.

Punjab.—No rain fell during the week. Harvesting of autumn crops and ploughings for and sowings of spring crops continue. The condition and outturn of autumn crops are generally good to average except in Mianwali where the outturn is average to poor and in Rohtak where the condition of all crops except sugarcane is poor. Rain is wanted in Lahore and Sialkot. Rats are damaging the standing crops slightly in parts of Ferozepore and sugarcane in Rohtak. Prices are generally unchanged except for a slight fall in two districts and a rise in three. Cattle are in good condition. Fodder is sufficient except in parts of Mianwali. Complaints of a short canal water-supply are still being received from the Samundri and Toba Tek Singh tahsils in the Lyallpur district.

North-West Frontier Province.—No rain fell during the week. It is needed all over the Province. The condition of standing crops is generally average. Harvesting of autumn crops continues. The expected outturn of rice and maize in the Charsadda tahsil, of cotton in the Mardan tahsil of the Peshawar district and of autumn crops in the Dera Ismail Khan district is reported below the average. Sowings of spring crops are in progress. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district has been stopped. Cattle are generally in good condition except that disease is prevalent in four villages. The health of the people is generally good except in some parts of the Peshawar tahsil. Malarial fever is prevalent in the Charsadda, Peshawar and Mardan tahsils. Prices of food grains show a tendency to fall. Prices:—wheat 14 to 19½; gram 18½ to 30; maize 16 to 30 and *bajra* 20 to 23½ seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Basohli tahsil and other parts of the Province. Fodder is sufficient.

Kashmir.—The weather was bright. There is no disease among cattle. Autumn crops are being harvested. Fodder is sufficient. Prices are stationary.

Rajputana.—The rainfall, in cents, was :—Partabgarh 29 and in two districts of Kotah 83 and 38. Spring sowings continue. Late autumn crops are being harvested in some places. Standing crops are fair to good. Prospects are improving in Bharatpur where the outturn is estimated at eight annas in the rupee. Cattle disease is prevalent in Banswara and Karauli. Fodder is sufficient. Prices have risen in Mewar, Dholpur and Ajmer and are steady or have fallen elsewhere.

Central India.—Heavy but unseasonable rain fell in Bhopal, Baghelkhand, Bundelkhand and Bhopawar and light showers in Malwa and Gwalior. The rain has done some damage to cotton and standing autumn crops but will much facilitate spring sowings. Harvesting of autumn crops is nearly completed. Spring sowing continues and the area is exceptionally large. General prospects are on the whole good. Cattle are in good condition but some disease prevails in parts of Baghelkhand, Bundelkhand and Bhopawar. Prices of food grain are easy and inclined to fall still lower. Land for poppy sowing is under preparation in Gwalior and Baghelkhand.

Central Provinces.—During the week moderate to heavy rain fell in all the districts of the Provinces and Berar except Bilaspur. The principal falls, in inches, were :—Balaghat 8½, Betul 6, Nimar 5, Nagpur, Bhandara, Seoni and Mandla each 4 and Wardha and Chhindwara each 3. Elsewhere the quantity ranged from 30 cents in Hoshangabad to 2½ inches in Raipur. Reaping of autumn crops and sowing of spring crops were retarded to some extent owing to rain in Hoshangabad, Betul, Chhindwara, Nagpur, Chanda, Bhandara, Akola and the districts of the Jubbulpore division but a break having now set in operations have been resumed. Wheat and linseed were sown in places before the recent rains fell. Rice, cotton and *juar* have been damaged slightly in Jubbulpore, Seoni, Narsinghpur, Nimar and the districts of the Nagpur division (except Chanda) and Berar (except Yeotmal). Prospects are generally favourable. Fodder and water are sufficient everywhere. Cattle are in good condition. Prices—the price of *juar* remained stationary in twenty-one districts, gram in twenty and wheat and rice in seventeen. *Juar* became dearer by 2 seers per rupee in Nimar. Elsewhere fluctuations were slight.

Feudatory States.—During the week Kawardha and Khairagarh had rain amounting to 3½ and 1½ inches respectively. Nandgaon and Kanker had also slight showers. Rice and spring seeds which have already been sown in Kawardha and Khairagarh have been damaged slightly by excessive rain. The condition of crops elsewhere is generally good. Fodder and water are sufficient. Prices—Gram rose in Kanker and rice fell in Korea by 2 seers per rupee. Otherwise prices remained stationary or fluctuated slightly.

Bombay.—The rainfall during the week was moderate in parts of the Konkan, the Deccan, Rewa Kantha, Savantvadi and Kolhapur and slight in Gujarat, the Karnatak and Baroda. Standing crops have been damaged slightly by the recent rain in Ratnagiri, Kanara and East Khandesh, by insects in Poona, by grass-hoppers in Nasik and Belgaum and are generally good elsewhere. Cotton has been affected slightly by the recent rain in parts of the Deccan. Harvesting of autumn crops is progressing generally. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Khandesh, Nasik, Ahmednagar and Baroda. Lands are being prepared for cultivation of spring crops in parts of Sind, the Panch Mahals, Mahi Kantha and Savantvadi. Sowing of spring crops continues in parts of Sukkur, Larkana, Hyderabad, Gujarat, Colaba, Khandesh, Nasik, Ahmednagar, Belgaum, Dharwar, Kathiawar, Baroda, Palanpur, Cutch and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Hyderabad and Dharwar, have fallen in Karachi and Sholapur and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 41 per cent.; in the Konkan 13 to 22 per cent. and in the Karnatak 7 to 29 per cent. less than the normal. In Gujarat prices ranged from 13 per cent. more than the normal to 17 per cent. less and in the Deccan from 12 per cent. more to 23 per cent. less.

Hyderabad.—The average rainfall in the Dominions was 1 inch 9 cents. The rain was general during the week. The heaviest fall occurred in Deverkonda in the Nalgonda district. The untimely rainfall is causing anxiety to *ryots*. The fall was injurious to the *til* crop in many parts of Telingana. Cotton and *juar* crops have suffered somewhat heavily in the Mahrattwara country. Some damage was done to autumn crops by insect

pests in parts of Raichur. Operations in connection with spring crops have been suspended to some extent owing to excessive rain. Spring crops are being weeded. They have suffered in some places but prospects of the crops are promising. Early rice is being harvested in many places. Some injury was done to the crop by excessive rain in Telangana and by insect pests in Gulbarga and Medak. Late rice lands are being prepared in a few parts of Telangana and prospects of the crop are good. Cattle disease prevails in 14 talukas. Prices:—wheat 7; coarse rice 6½ and *juar* 16 seers per rupee. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 14 seers. The highest price in districts is 8½ seers in Karimnagar and the lowest 28 seers in Nander and Bidar.

Mysore.—The rainfall during the week was good in Bangalore, Kolar, Tumkur and Chitaldroog and slight elsewhere. Prices of food grains have fallen slightly in Tumkur and Hassan and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Cattle are generally healthy. Water and fodder are available.

* **Coorg.**—Rainfall 2 inches 74 cents. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in Madras and Chingleput; heavy in North Arcot, Cuddapah, Nellore, the Vizagapatam littoral, Kistna, Godavari and Malabar; good in Guntur, Ganjam, Anantapur, the Nilgiris, South Canara, Kurnool, Bellary and Salem and light to fair elsewhere. The rainfall in nineteen districts was above the average of the last thirty-five years. Irrigation supplies are sufficient. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally good but some in parts of Guntur, Anantapur and Cuddapah have been damaged by excessive rain and some in parts of Bellary have been affected by grass-hoppers. Harvests continue in parts with outturn fair to bumper. Pasture is generally sufficient. Fodder is scanty in parts of Ganjam, Godavari, Nellore and North Arcot. The condition of cattle is generally good. The price of rice is stationary in ten districts, has fallen in nine and has risen in five. The prices of millets have fluctuated as follows:—*Ragi* is stationary in four districts, has fallen in twelve and has risen in six. *Cholam* is stationary in two districts, has fallen in six and has risen in seven. *Cumbu* is stationary in two districts, has fallen in eight and has risen in six. The public health is generally good. Prospects are generally very good. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are generally sufficient.

E. D. MACLAGAN,
Secretary to the Government of India

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

ESTABLISHMENTS.

GENTLEMEN RECENTLY APPOINTED IN ENGLAND TO THE
INDIAN CIVIL SERVICE.

Calcutta, the 15th November 1910:

RESOLUTION.

THE undermentioned gentlemen have recently been appointed in England to the Indian Civil Service (Bengal Presidency) in the order specified below:—

| | |
|---|---|
| William Cuthbert Dible | United Provinces, Punjab and Central Provinces. |
| Alan Gerald Russell Henderson | Eastern Bengal and Assam. |
| Herbert Francis Dunkley | Burma. |
| Philip Cubitt Tallents | Bengal. |
| Robert Balfour Steele | Eastern Bengal and Assam. |
| James Downing Penny | United Provinces, Punjab and Central Provinces. |
| Godfrey Denne Boechling | United Provinces, Punjab and Central Provinces. |
| Samuel Harold Thompson | United Provinces, Punjab and Central Provinces. |
| Charles Hugh Davies | Burma. |
| James Pownall Wilson | United Provinces, Punjab and Central Provinces. |
| John Bartley | Bengal. |
| Benegal Narsinga Rau | Bengal. |
| John Alfred Saunders | Bengal. |
| Roderick Donald William Dunning Macleod | United Provinces, Punjab and Central Provinces. |
| James Drummond Anderson | United Provinces, Punjab and Central Provinces. |
| Herbert Stewart Ross | United Provinces, Punjab and Central Provinces. |
| Leslie Steel Bingham | Bengal. |
| Harold George Gruer | United Provinces, Punjab and Central Provinces. |
| Herbert Huddy Mackney | Burma. |
| Charles Bissell Barry | United Provinces, Punjab and Central Provinces. |
| Keith Cantlie | Eastern Bengal and Assam. |
| Hugh Gordon Muschamp Vickers | Eastern Bengal and Assam. |
| Alec Williamson | Burma. |
| Francis Reginald Rider Rudman | United Provinces, Punjab and Central Provinces. |
| James Joseph Whittleson Allsop | United Provinces, Punjab and Central Provinces. |
| Henry Joseph Twynam | Eastern Bengal and Assam. |
| Arthur Davys Tuckey | Bengal. |

| | |
|-----------------------------------|---|
| Edmond Nicolas Blandy | Eastern Bengal and Assam. |
| John Whitcombe Hearn | United Provinces, Punjab and Central Provinces. |
| Arthur Jules Dash | Eastern Bengal and Assam. |
| Henry Challen Greenfield | United Provinces, Punjab and Central Provinces. |
| George Harold William Davies | Eastern Bengal and Assam. |
| Archie William Ibbotson | United Provinces, Punjab and Central Provinces. |
| John Fowler Mitchell | United Provinces, Punjab and Central Provinces. |
| Arthur Robert Toplis | Bengal. |
| Edmund Currey Gibson | United Provinces, Punjab and Central Provinces. |
| John Thomas Donovan | Bengal. |
| Archibald Henry de Burgh Hamilton | United Provinces, Punjab and Central Provinces. |
| Frank Fisher | Burma. |
| Douglas Campbell Hunter | United Provinces, Punjab and Central Provinces. |
| Rudolph Milner-White | United Provinces, Punjab and Central Provinces. |
| Edward Selwyn Hoernle | Bengal. |

2. The Governor General in Council has been pleased to attach the above-mentioned gentlemen to the Provinces shown below against their names:—

| | |
|--------------------------|---------------------------|
| Mr. P. C. Tallents | Bengal. |
| „ J. Bartley | |
| „ B. N. Rau | |
| „ J. A. Saunders | |
| „ L. S. Bingemann | |
| „ A. D. Tuckey | |
| „ A. R. Toplis | |
| „ J. T. Donovan | |
| „ E. S. Hoernle | |
| Mr. A. G. R. Henderson | Eastern Bengal and Assam. |
| „ R. B. Steele | |
| „ K. Cantlie | |
| „ H. G. M. Vickers | |
| „ H. J. Twynam | |
| „ E. N. Blandy | |
| „ A. J. Dash | |
| „ G. H. W. Davies | United Provinces. |
| Mr. W. C. Dible | |
| „ G. D. Roehling | |
| „ S. H. Thompson | |
| „ R. D. W. D. Macleod | |
| „ H. S. Ross | |
| „ J. J. W. Allsop | |
| „ A. W. Ibbotson | Punjab. |
| „ A. H. deBurgh Hamilton | |
| „ D. C. Hunter | |
| „ R. Milner-White | |
| Mr. J. D. Penny | |
| „ J. D. Anderson | |
| „ C. B. Barry | |
| „ J. W. Hearn | |
| „ J. F. Mitchell | |

| | | | | | |

Central Provinces.

Burma.

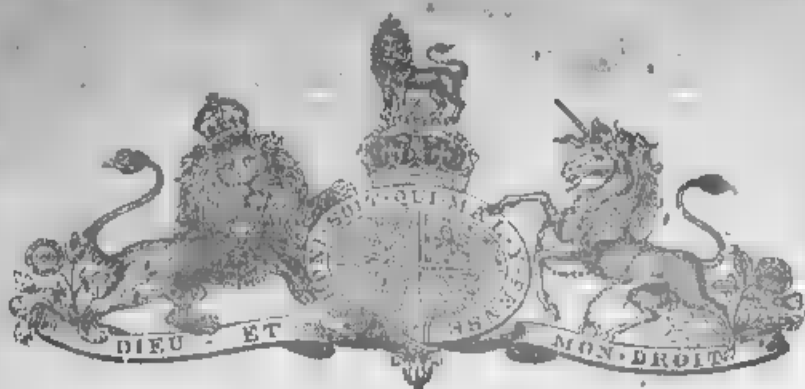

3. The Governor General in Council is further pleased to direct that the gentlemen posted to Bengal shall, on arrival at Calcutta, report themselves to the Chief Secretary to the Government of Bengal. The officers posted to Eastern Bengal and Assam should telegraph from Calcutta to the Chief Secretary to the Government of that province at Shillong for orders as to their destination, in the event of their not finding instructions awaiting their arrival. Gentlemen who land at Bombay should inquire of the Chief Secretary to the Government of Bombay whether any orders are awaiting them from the Government of the province to which they have been posted. The officers posted to Burma should proceed to Rangoon and report themselves to the Chief Secretary to the Government of that province.

4. The officers posted to the United Provinces should report themselves to the Chief Secretary to the Government of the United Provinces, Allahabad. Those posted to the Punjab should telegraph from Bombay to the Chief Secretary to the Government of the Punjab, Lahore, for orders as to their destination, in the event of their not finding instructions awaiting their arrival. The officers posted to the Central Provinces should report by telegraph from Bombay their arrival to the Chief Secretary to the Chief Commissioner of those provinces at Nagpur, by whom they will be instructed to which portion of the province to proceed.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Governments of Bengal, Eastern Bengal and Assam, the United Provinces, the Punjab and Burma, and to the Honourable the Chief Commissioner of the Central Provinces, for information and guidance. Also that the Resolution be published in the Supplement to the *Gazette of India*, and that a copy be forwarded to each of the gentlemen named therein.

A. EARLE,

Offy. Secretary to the Government of India.

SUPPLEMENT TO
The Gazette of India

No. 48 }

CALCUTTA, SATURDAY, NOVEMBER 26, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 24th November 1910, based on the Indian Daily Weather Reports of the period.

1. Weather was feebly unsettled in the south of the Bay but no storm resulted. Rainfall was somewhat heavier than usual in the Andamans and was normal in South Madras. With the exception of one or two scattered falls, no rain fell elsewhere. Temperature was lower than usual over a large part of the country especially in the Central Provinces.

2. *Burma*.—Port Blair and Diamond Island were the only stations that reported rain; and skies were clear or only lightly clouded.

Northeast India, including Orissa.—Sibsagar and Dibrugarh had light falls of rain. Skies were clear on the 22nd and 23rd, and were cloudy in parts of the division during the rest of the week. The nights were cooler than usual in the southwestern districts.

The United Provinces, Central India and the Central Provinces.—Skies were cloudless and temperature was lower than usual throughout the week in the Central Provinces, and on some days in the United Provinces and Central India, the defect being generally most marked at night.

Northwest India.—Skies were clear except for occasional light cloud in the extreme north. Night temperature was on most days lower than usual, especially in Kashmir, Baluchistan and Rajputana.

The Peninsula.—Nearly general rain was reported on the 24th from southeast Madras but during the rest of the week there were only a few falls in the south of the peninsula chiefly in the coast districts. Skies were clear in the northwest of the peninsula and lightly to moderately clouded elsewhere. Temperature was lower than usual in the Bombay Deccan and Hyderabad.

3. The following are the chief amounts of rainfall as reported at 8 hrs. each day :—

| | |
|----------------|---------------------------------------|
| November 18th. | Trivandrum 1·23" and Tinnevely 1·58". |
| " 20th. | Port Blair 1·61" and Madras 1·05". |
| " 21st. | Madras 4·31". |
| " 22nd. | Negapatam 1·65". |
| " 23rd. | Negapatam 0·92". |
| " 24th. | Negapatam 0·95". |

4. The rainfall of the whole period from the 29th April to the 24th November is 20 per cent. or more in excess in the North-West Frontier Province, Sind, Hyderabad North, the Madras Deccan, Mysore and the Madras Coast North, and is in similar defect in Kashmir and Baluchistan.

SUPPLEMENT TO THE GAZETTE OF INDIA, NOVEMBER 26, 1910. 1855

In the rainfall summary table for week ending 10th November 1910 in columns 5 and 7 against Malabar and Madras Coast North for 96'9 and +1'6, and 46'9 and +11'5 read 96'8 +1'7, and 46'6 and +11'2 respectively.

J. H. FIELD,
for Director-General of Observatories.

E. D. MACLAGAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
19th November 1910.

Burma.—The rainfall in Lower Burma was general. Reaping of hill-side and autumn rice continues satisfactorily. Standing crops of winter rice are generally in good condition. In places a light outturn is anticipated on account of the deficient early rain and the failure of crops, re-planted after floods, to mature satisfactorily. The rainfall in Upper Burma was general. It was moderate in the dry zone. Sowing of pulses, wheat and spring rice and reaping of winter rice have begun. Plucking of cotton is in progress. Standing crops promise satisfactorily. Slight local damage has been caused by hailstorm. Variations in the price of unhusked rice are small and unimportant.

Eastern Bengal and Assam.—The weather was seasonable. Light rain fell in places specially on and near the hills. Manufacturing of tea and ploughing for and sowing of spring crops are progressing. Reaping of winter paddy has commenced. Prospects of standing crops are on the whole good. Damage to winter rice by insects is reported from a few places. The average price of common rice has fallen by one per cent. Cattle disease prevails in Mymensingh, Nowgong, Sibsagar and the Garo Hills.

Bengal.—There were light showers in parts of Darbhanga, Bhagalpur, the Sonthal Parganas and Puri. There was no rain in the rest of the Province. Sowing of spring crops still continues in some districts. Harvesting of winter paddy has commenced. The standing sugarcane and spring crops are doing well. Prospects are good. The price of common rice has risen in Midnapore, Murshidabad, Palamau and Cooch Behar and has fallen in Burdwan, Hooghly, the 24-Parganas, Nadia, Khulna, Shahabad, Saran, Champaran, Monghyr, Purnea, Darjeeling, the Sonthal Parganas, Hazaribagh and Manbhum and in all the districts of the Orissa division except Sambalpur. Cattle disease is reported from ten districts. The fodder and wafer supply is sufficient throughout the Province.

United Provinces.—Light rain averaging $\frac{1}{4}$ inch fell in the south-eastern districts. Standing crops are flourishing everywhere and prospects are excellent. Harvesting of autumn crops and sowing of wheat, barley and poppy continue. Germination is so far good and the area is likely to be large. Pressing of sugarcane has begun. Sporadic cattle disease is reported in twenty-two districts but the general condition of stock is good. Fodder and supplies are ample. Prices have risen slightly in six districts and have fallen in four. They are practically stationary elsewhere.

Punjab.—No rain fell during the week. Harvesting of autumn crops and sowings of spring crops continue. The outturn of autumn crops is generally good to average and that of cotton is poor in Hissar and parts of Shahpur and below average in Multan. Crops except sugarcane are poor in Rohtak. *Toria* is fair in Lyallpur. Rain is wanted in Lahore and Rawalpindi. Rats are slightly damaging sugarcane in Rohtak. Prices are generally unchanged. Cattle are in good condition. Fodder is sufficient except in parts of Ferozepore and Mianwali.

North-West Frontier Province.—No rain fell during the week. Rain is needed all over the Province. The condition of standing crops is generally average. Harvesting of autumn crops continues. The expected outturn of maize and cotton in the Charsadda tahsil, of maize in the Mardan tahsil of the Peshawar district and of autumn crops in the Dera Ismail Khan district is reported below the average. Sowings of spring crops are in progress. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district is still stopped. The condition of cattle is generally good except in one village of the Dera Ismail Khan tahsil. The public health is generally good. Malarial fever is prevalent in the Charsadda, Nowshera and Peshawar tahsils. Prices of food grains, except *bajra*, show a slight tendency to rise. Prices:—wheat 13½ to 19; gram 17½ to 30; maize 16 to 29½ and *bajra* 20 to 24½ seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 12 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—The weather was bright. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—The late autumn crops are being harvested in a few States and sowings of spring crops continue. Standing crops are fair to good. Cattle disease is prevalent in Mewar, Banswara and Karauli. Fodder is sufficient. Prices are rising in Bikaner, Jaisalmer, Mewar, Banswara, Shahpura and Bundi, and are steady or falling elsewhere.

Central India.—No rain fell during the week. The weather was clear and cool. Sowing of spring and reaping of autumn crops and picking of cotton are in progress. The standing autumn and spring crops are flourishing and prospects are generally favourable. Cattle are in good condition but some disease prevails in parts of Indore, Baghelkhand, Bundelkhand and Bhopawar. Prices are falling in Bhopal and Baghelkhand, are fluctuating in Indore and are generally easy elsewhere. Poppy sowing has commenced in Indore and Baghelkhand and lands are under preparation in Gwalior.

Central Provinces.—The weather has been clear and cool. There was no rain during the week and no more is needed at present. Harvesting and threshing of autumn crops and sowings of spring crops were in full swing. Picking of cotton continues. Germination of spring crops is satisfactory. Cotton in Nimar and *juar* and cotton in the Sausar tahsil of the Chhindwara district have been damaged somewhat by the continuous rain of the previous week. Germination of second crops is unsuccessful in Raipur owing to excessive moisture. General prospects are good. The supply of fodder and water is adequate. Agricultural stock is in good condition. Prices:—gram and rice rose by 2 seers per rupee in Mandla. Wheat in Boldana and *juar* in Yeotmal became dearer by 3 and 4 seers per rupee respectively. Variations are unimportant elsewhere.

Feudatory States.—During the week Chhuikhadan and Kanker had rain amounting to 1½ and 2 inches respectively. Harvesting of autumn crops and sowing of spring crops continue. Prospects are generally favourable. Fodder and water are ample. Prices:—rice and *nodon* became dearer in Kawardha by 2 seers per rupee. Rice in Kanker and Sarangarh sells cheaper by 2 and 4 seers respectively.

Bombay.—The rainfall during the week was moderate in parts of Ratnagiri, Dharwar and Savantvadi and light in Kanara, Ahmednagar, Belgaum and Kolhapur. Standing crops have been damaged slightly by recent rains in Ratnagiri and Kanara and by grass-hoppers in Nasik and Belgaum and are generally good elsewhere. Harvesting of autumn crops is generally progressing. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Baroda and parts of the Deccan. Threshing has commenced in Sukkur, Larkana, Hyderabad, Nasik, Baroda and Mahi Kantha. Lands are being prepared for the cultivation of spring crops in parts of Sind, the Panch Mahals, Kanara, Mahi Kantha and Savantvadi. Sowing of spring crops continues in parts of Sukkur, Larkana, Hyderabad, Ahmedabad, the Panch Mahals, Surat, Khandesh, Nasik, Ahmednagar, Dharwar, Kathiawar, Baroda, Palanpur, Cutch and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Karachi, Hyderabad, East Khandesh and Belgaum, have fallen in Bijapur and Dharwar and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 40 per cent., in the Konkan 13 to 22 per cent., and in the Karnatak 3 to 23 per cent, less than the normal. In Gujarat prices ranged from 12 per cent. more than the normal to 17 per cent less and in the Deccan from 12 per cent more to 23 per cent less.

Hyderabad.—The average rainfall in the Dominions was 33 cents. It was heavy generally in the Nizamabad district and in parts of Bir and Adilabad. More or less rain fell in other places also. The heaviest falls occurred in the Adilabad and Nizamabad districts. Cotton, sesamum and *juar* crops suffered somewhat heavily by the heavy rainfall of the season. The early rice crop has been damaged to some extent. Autumn crops suffered to some extent from insect pests in parts of the Raichur district. Early rice is being harvested in many parts. It has been damaged somewhat by excessive rain in parts of Telingana and by insect pests in parts of Gulbarga and Medak. Spring crops have generally benefited by the week's rain. Sowing of spring crops continues in parts. Its prospects are favourable. Lands are being prepared for late rice in some parts, of Telingana and sowing also has begun. Cattle disease prevails in eleven talukas. Prices:—wheat 7; coarse rice 7 and *juar* 16½ seers per rupee showing a fall of ½ seer in the price of coarse rice and *juar*. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 14 seers. The highest price in districts is 8½ seers in Karimnagar and the lowest 28 seers in Bidar.

Mysore.—The rainfall was slight in Shimoga and Chitaldrug and good elsewhere. Prices of food grains have fallen slightly in Tumkur and Chitaldrug. Standing crops are in good condition and prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 52 cents. Picking of coffee has commenced and that of cardamom continues. The rice crop is in good condition. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was heavy in the Nilgiris, Madura and Malabar; good in Ramnad, Salem, Coimbatore, Trichinopoly, Tinnevelly, South Canara and Anantapur; *nil* in Chingleput and Madras and light to fair elsewhere. The rainfall in eighteen districts was above the average of the last thirty-five years. Irrigation supplies are sufficient except in parts of Kurnool and Tinnevelly. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally in good condition but some in parts of Kurnool, Anantapur and Cuddapah have been injured by excessive rain and some in parts of Bellary have been affected by grass-hoppers. Harvests continue in parts with outturn fair to normal. Pasture is generally sufficient. Fodder is scanty in parts of Ganjam, Godavari, Nellore, North Arcot and Tinnevelly. The condition of cattle is generally good. The price of rice is stationary in thirteen districts, has fallen in seven and has risen in four. The prices of millets have fluctuated as follows:—*Ragi* is stationary in nine districts, has fallen in ten and has risen in three. *Cholam* is stationary in five districts, has fallen in five and has risen in five. *Cumbu* is stationary in two districts, has fallen in ten and has risen in four. The public health is generally good. Prospects are generally good. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are sufficient.

E. D. MACLAGAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

SANITARY.

PLAGUE.

Calcutta, the 24th November, 1910.

SUPPLEMENT TO
The Gazette of India.

No. 49.]

CALCUTTA, SATURDAY, DECEMBER 3, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 1st December 1910, based on the Indian Daily Weather Reports of the period.

1. The rainfall of the week consisted of only a few isolated falls in the Andamans, Tenasserim and south Madras. It was equal to the normal in the Andamans, and was more than half an inch in defect in southeast Madras and the Madras Coast North.

2. There was less cloud than usual and consequently night temperature was generally below the normal.

3. *Burma.*—A few falls of rain were reported from the Andamans and Tenasserim. Skies were clear or lightly clouded.

Northeast India, including Orissa.—There was very little cloud, and temperature was lower than usual in Bengal chiefly at night.

The United Provinces, Central India and the Central Provinces.—Skies were clear except for occasional light clouds in the hill districts of the United Provinces. Night temperature was considerably below the normal.

(1895)

Northwest India.—Cloud was reported throughout the week from Kashmir, and occasionally from Baluchistan and the Indus valley. Temperature was lower than usual at night in Rajputana and Gujarat.

The Peninsula.—A few falls of rain occurred in south Madras chiefly at the beginning of the week. Skies were clear or lightly clouded and night temperature was generally lower than usual except in the south.

4. The following are the chief amounts of rainfall as reported at 8 hrs. each day :—

| | |
|----------------|-------------------|
| November 25th. | Madras 0.90". |
| December 1st. | Port Blair 1.86." |

5. The rainfall of the whole period from the 29th April to the 1st December is 20 per cent. or more in defect in Kashmir and Baluchistan and is in excess by a similar amount in the North-West Frontier Provinces, Sind, North Hyderabad, Mysore, the Madras Deccan and on the Madras Coast North.

SUPPLEMENT TO THE GAZETTE OF INDIA, DECEMBER 3, 1910. 1897

J. H. FIELD,
for Director-General of Observatories.
E. D. MACLAGAN,
Secretary to the Government of India.

SIMLA,
The 1st December 1910.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
26th November 1910.

Burma.—There was no rain during the week except light showers in four districts of Lower Burma and in one district of Upper Burma. Reaping of hill-side and autumn rice has been almost completed and that of winter rice has begun. The rice crop is generally in good condition but in areas replanted after floods it is expected to thrash out light. Sowing of wheat, spring rice, pulses and tobacco and plucking of cotton are in progress. Gathering of groundnuts continues and a poor outturn is expected in several districts. In Lower Burma the price of unhusked rice is about normal while in Upper Burma it is below normal. There have been no important variations.

Eastern Bengal and Assam.—The weather was seasonable and dry. Plucking of tea has been nearly finished. Ploughing for and sowings of spring crops continue. Harvesting of winter rice is progressing. Prospects of standing crops on the whole are good though damage by insects is reported from some districts. The average price of common rice has fallen about two per cent. since last week. Cattle disease prevails in Goalpara, Nowgong and the Garo Hills.

Bengal.—There was no rain in the Province during the week. Harvesting of winter rice is going on. Sowing of spring crops still continues in some districts. Pressing of sugarcane has commenced in parts of Bihar and Orissa. Standing spring crops and sugarcane are doing well. Prospects are good. The price of common rice has risen in Burdwan, the 24-Parganas, Jessore, Champaran, Angul and Hazaribagh, and has fallen in Birbhum, Midnapore, Nadia, Murshidabad, Saran, Darbhanga, Monghyr, Bhagalpur, Purnea and Palamau. Cattle disease is reported from Midnapore, Patna, Gaya, Muzaffarpur, Monghyr, Purnea and in all the districts of Orissa and Chota Nagpur except Cuttack, Balasore and Singhbhum. The supply of fodder and water is sufficient throughout the Province.

United Provinces.—No rain fell during the week. Standing crops are doing well. Prospects are good. Harvesting of autumn crops is nearly over. Sowings for the spring harvest continue. Cotton is being picked. Sugarcane is being pressed. Germination is good everywhere. Cattle disease is reported from nineteen districts but the condition of stock is generally good. Prices have fallen in four districts, have risen in five and are fluctuating or stationary elsewhere.

Punjab.—No rain fell during the week. Harvesting of autumn crops, sowing of spring crops and picking of cotton continue. Pressing of sugarcane has commenced. The outturn of autumn crops is generally good to average and that of cotton is disappointing in Hissar, fair to poor in Shahpur and good to below average in Lyallpur while that of sugarcane is average in Sialkot and Lyallpur. Rain is wanted in Rawalpindi. The wheat crop is being damaged by locusts and grass-hoppers in parts of Mianwali. Prices are generally unsettled. They are rising in seven and falling in two districts and are unchanged elsewhere. Cattle are generally in good condition. Fodder is sufficient except in Mianwali and parts of Ferozepore.

North-West Frontier Province.—No rain fell during the week. Rain is needed all over the Province. The condition of standing crops is generally average. Harvesting of autumn crops continues. Sugarcane is also being pressed in the Mardan tahsil of the Peshawar district. The expected outturn of cotton and maize in the Charsadda tahsil and of cotton in the Mardan tahsil and of autumn crops in the Dera Ismail Khan district is reported below the average. Sowings of spring crops are in progress. The fodder and water supply is sufficient throughout the Province. Irrigation from the Paharpur canal in the Dera Ismail Khan district is still stopped. Cattle are generally in good condition except in one village of the Nowshera tahsil, in some villages of the Swabi tahsil of the Peshawar district and in the Tank tahsil of the Dera Ismail Khan district. The public health is generally good. Malarial fever is still reported to be prevalent in the Charsadda and Nowshera tahsils. Prices of food grains generally show a tendency to rise. Prices:—Wheat 13 to 18½, gram 17½ to 31, maize 15½ to 26½ and bajra 20 to 23 seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 13 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—The weather was bright. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—The late autumn crops are being harvested in a few States and spring sowings continue. Standing crops are fair to good. Cattle disease is prevalent in Karauli and Banswara and in one district of Mewar. Fodder is sufficient. Prices have risen in Marwar, Mewar, Shahpura, Tonk, Alwar, Karauli and Ajmer and are steady or have fallen elsewhere.

Central India.—No rain fell during the week. The weather was seasonable. Sowings of spring crops, reaping of autumn crops and picking of cotton continue. Cotton has been damaged slightly in Indore, Malwa and Bhopawar. The area sown with spring crops is large and promises to be satisfactory. Cattle are in good condition but some disease prevails in parts of Indore, Baghelkhand, Bundelkhand and Bhopawar. Prices are falling in Bhopal and Baghelkhand, are fluctuating in Indore and are generally easy elsewhere. Poppy sowing is in progress in Gwalior, Indore and Baghelkhand.

Central Provinces.—The weather continues clear and cool. Cutting and threshing of autumn crops, picking of cotton and ploughing of land for sowing of spring crops are being pushed on. Sowing of spring crops continues and germination is successful. Some re-sowing of wheat has been necessary in places in the Sausar tahsil of the Chhindwara district. The condition of standing crops is generally satisfactory. Fodder and water are sufficient. Cattle are healthy. Prices:—The price of wheat and gram remained stationary in fifteen districts, of rice in seventeen and of *juar* in nineteen districts. Gram sells cheaper by three seers per rupee in Chhindwara. *Juar* and gram in Buldana and Drug respectively rose by two seers per rupee.

Feudatory States.—Harvesting of autumn crops and sowing of spring crops are in full swing. Prospects are generally good. The supply of fodder and water is adequate. Prices:—rice and *kodon* in Kawardha and wheat in Sarangarh became cheaper by two seers per rupee.

Bombay.—Standing crops are generally good. Harvesting of autumn crops is generally progressing. Threshing continues in Sukkur, Larkana, Hyderabad, Colaba, Nasik, Ahmednagar, Baroda and Mahi Kantha. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Baroda and parts of the Deccan. Lands are being prepared for the cultivation of spring crops in parts of Sind, Kanara, Mahi Kantha and Savantvadi. Sowing of spring crops continues in parts of Sukkur, Larkana, Hyderabad, Ahmedabad, the Panch Mahals, Surat, Colaba, Khandesh, Nasik, Ahmednagar, Dharwar, Kathiawar, Baroda, Palanpur and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in Sukkur and the Panch Mahals, have fallen in Thar and, Parkar and East Khandesh and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 19 to 41 per cent., in the Konkan 13 to 22 per cent. and in the Karnatak 3 to 24 per cent. less than the normal. In Gujarat prices ranged from 12 per cent. more than the normal to 20 per cent. less and in the Deccan from 12 per cent. more to 23 per cent. less.

Hyderabad.—No rain fell during the week. Harvesting of autumn crops is almost over while that of early rice is progressing. Crops have suffered somewhat from the rains received previously. Autumn crops are still being damaged by insects in parts of the Raichur district. Sowings of spring crops continue and sprouts are generally fair to good. Prospects are good. Lands are under preparation for late rice and sowings are proceeding. Cattle disease prevails in eleven talukas. Prices:—wheat 7½; coarse rice 7 and *juar* 16 seers per rupee. White and yellow *juar* are selling in Hyderabad City at 12 and 14 seers per rupee respectively. The highest price in districts is 8½ seers in Karimnagar and the lowest 26 seers in Bidar.

Mysore.—The rainfall was slight in parts of the State. Prices of food grains have fallen slightly in Mysore and Chitaldrug and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Harvesting operations have begun. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rainfall 42 cents. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in Madras; heavy in Chingleput, Tanjore, Nellore, North Arcot and the Nilgiris; light to fair in South Arcot, Trichinopoly, Tinnevely, Salem, Malabar, Madura, Ramnad, South Canara, Coimbatore and Cuddapah and *nil* elsewhere. The rainfall in eighteen districts was above the average of the last thirty-five years. Irrigation supplies are sufficient except in parts of Guntur, Kurnool and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally good but some in parts of Kurnool and Cuddapah have been injured by excessive rain, and some in parts of Bellary have been affected by grass-hoppers. Harvests continued in parts with outturn fair to normal. Pasture is generally sufficient. Fodder is scanty in parts of Ganjam, Godavari, Nellore, North Arcot and Tinnevely. The condition of cattle is generally good. The price of rice is stationary in thirteen districts, has fallen in nine, and has risen in two. The prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts, has fallen in thirteen and has risen in four. *Cholam* is stationary in seven districts, has fallen in four and has risen in four. *Cumbu* is stationary in five districts, has fallen in nine and has risen in two. The public health is generally good. Prospects are generally good. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are sufficient.

E. D. MACLAGAN,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.SANITARY.
PLAGUE.

Calcutta, the 1st December, 1910.

The following preliminary statement of plague seizures and deaths reported in India during the week ending the 26th November 1910, is published for general information:—

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

JUDICIAL.

EXECUTION OF DEEDS, CONTRACTS AND OTHER INSTRUMENTS ON BEHALF
OF THE SUPPLY AND TRANSPORT CORPS.

Calcutta, the 1st December 1910.

RESOLUTION.

IN exercise of the powers conferred by section 2 of the East India Contracts Act, 1870 (33 and 34 Vict., C. 59), and of all other powers enabling him in this behalf, the Governor General in Council is pleased to direct that the following be substituted for clause III of Part B of the Resolution of the Government of India in the Home Department, nos. 1400—1419, dated the 6th October 1909, relating to the execution of deeds, contracts and other instruments on behalf of His Majesty's Secretary of State for India in Council:—

III.—Contracts for the Supply and Transport Corps as detailed below:—

- | | |
|---|--|
| 1. Contracts for supplies and services to and purchases from the Supply and Transport Corps. | By the Secretary to the Government of India in the Army Department, the Quarter Master General in India, Divisional, Brigade and Station Commanders, and officers of the Supply and Transport Corps other than Departmental officers with honorary rank. |
| 2. All instruments connected with the reconveyance of property given as security. | |
| 3. Agreements entered into in India with civilian employés for a specified period of service in the Supply and Transport Corps. | |

ORDER.—Ordered that the above Resolution be communicated to local Governments and Administrations and the several Departments of the Government of India for information, and that it be also published in the Supplement to the *Gazette of India*.

A. EARLE,

Offg. Secretary to the Government of India.

1908

SUPPLEMENT TO THE GAZETTE OF INDIA, DECEMBER 3, 1910.

No. 8660-8664—204.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

TELEGRAPHS.

THE ADMINISTRATION REPORT OF THE INDO-EUROPEAN TELEGRAPH
DEPARTMENT FOR THE YEAR 1909-10.

RESOLUTION.

Calcutta, the 1st December 1910.

Read—

The Administration Report of the Indo-European Telegraph Department for the year 1909-10.

Ordered, that copies of the Report be forwarded to the Home and Finance Departments, the Government of Bombay and to the Director-General of Telegraphs, for information.

Ordered, also, that the Report be published in the Supplement to the *Gazette of India*.

B. ROBERTSON,

Secretary to the Government of India.

ADMINISTRATION REPORT

OF THE

INDO-EUROPEAN TELEGRAPH DEPARTMENT

FOR

1909-1910.

CAPITAL AND REVENUE ACCOUNT.

1. *Capital*.—The net outlay during the year was R31,816, raising the progressive expenditure at end of the year to R1,50,03,943.

The sum of R31,816 is composed of the following items showing an increase under all the heads except Other Suspense.

| | R |
|-------------------------------------|--------|
| (i) Lines | 1,989 |
| (ii) Buildings | 13,495 |
| (iii) Apparatus and Plant | 497 |
| (iv) Suspense ?— | |
| (a) Stores | 16,409 |
| (b) Other Suspense | —574 |
| Total | 31,816 |

(i) *Lines*.—Of the amount spent on this account, R357 was expenditure in Persia and R1,632 in the Gulf. The former represents cash charges on account of the survey of the Arabistan telegraph lines and the latter represents cost of charges against the line from Henjam to Bunder Abbas, Cash R951 and Stores R681.

The recovery of the cost of construction of the Henjam Bunder-Abbas line from the Persian Government has not yet been effected.

(ii) *Buildings*.—The total expenditure under this head was: in Persia, R11,129, and in Gulf, R2,366, as shown under the following detailed heads:—

| Name of work. | Cash. | Stores. | Total. |
|--|--------|---------|--------|
| Persian. | R | R | R |
| 1. Building stables at Dehaneh | 429 | ... | 429 |
| 2. Construction of a telephone station at Aliabad | 1,499 | ... | 1,499 |
| 3. " " " " Khalidabad | 1,104 | ... | 1,104 |
| 4. " " " " Ardekan | 979 | ... | 979 |
| 5. " " " " Kamalabad | 1,360 | ... | 1,360 |
| 6. " " " " Mehdiabad | 1,216 | ... | 1,216 |
| 7. " " " " Tahrud | 1,225 | ... | 1,225 |
| 8. Fortifying the office at Dehaneh | 329 | ... | 329 |
| 9. Building a new water-lift, tank and water course at Kerman. | 2,903 | 25 | 2,988 |
| Gulf. | | | |
| 10. Providing an upper story to one of the two blocks of outhouses in the compound at Karachi. | 2,366 | ... | 2,366 |
| Total buildings | 13,470 | 25 | 13,495 |

(iii) *Apparatus and Plant*.—This represents purchase of furniture and batteries in the Persian Section.

(iv) *Suspense*.—In the Balance under this head there was a net increase of R15,835, made up of an increase of R16,409 under Stores, and a decrease of R574 under other suspense heads.

A summary of the year's transactions on Capital is given in Appendix A.

2. *Revenue*.—The earnings of the year were R16,72,332, or an increase of R1,16,995 as compared with those of the previous year.

The expenditure during the year was R10,80,928, against R11,29,311 in 1908-09, or a decrease of R48,383 compared with the preceding year.

The net result is a profit of R5,91,404 for the year, against R4,26,027, the profit for the year 1908-09.

A summary of the earnings and expenditure* for the year will be found in Appendix B.

The following tables show the difference under principal sub-heads between the earnings and expenditure of the year under review and the preceding year; details are given in Appendix B.

EARNINGS.

| Head of Account. | 1908-09. | 1909-10. | Increase. | Decrease. |
|---------------------------|-----------|-----------|-----------|-----------|
| | R | R | R | R |
| Traffic Earnings | 8,65,451 | 9,55,723 | 90,272 | ... |

| Total | 15,55,337 | 16,72,332 | 1,16,995 | 1,802 |
| Net Increase | ... | ... | 1,16,995 | ... |

EXPENDITURE.

| Head of Account | 1908-09. | 1909-10. | Increase. | Decrease. |
|----------------------------------|-----------|-----------|-----------|-----------|
| | R | R | R | R |
| Persian Gulf Section :— | | | | |
| General charges | 1,47,421 | 1,26,762 | ... | 20,659 |
| Line maintenance | 66,271 | 74,847 | 8,576 | ... |
| Signalling | 2,52,227 | 2,34,644 | 2,417 | ... |
| Cable maintenance | 2,24,799 | 2,07,453 | ... | 17,346 |
| Persian Section :— | | | | |
| General charges | 1,62,925 | 1,45,471 | ... | 17,454 |
| Line maintenance | 97,259 | 99,780 | 2,521 | ... |
| Signalling | 1,78,409 | 1,65,223 | ... | 13,186 |
| Expenditure by other Departments | ... | 6,748 | 6,748 | ... |
| Total | 11,29,311 | 10,80,928 | 20,262 | 68,645 |
| Net decrease | ... | ... | ... | 48,383 |

* Excluding the cost of the London Office Establishment (2,425L.), which is included as part of the Establishment of the Secretary of State for India.

The decrease under General Charges, both in the Gulf and Persia, is due principally to less payments of furlough allowances to Officers on leave in England. In Persia the decrease is also due to the payments of two instalments to the Persian Government on account of the rental for the Central Persia Telegraph Line during the year against three during last year, and also to less charges under "Stationery and Printing." Under Line Maintenance, the increase in the Gulf is due to increased expenditure under repairs to lines and travelling expenses. In the Persian Section the increase occurs also under travelling expenses. The decrease under Signalling, Persian Section, is mainly attributable to less expenditure under Office Contingencies. The expenditure on account of repairs to buildings, both in the Gulf and Persian Sections, was also less than that of last year. Against these there has been an increase under General Service Clerks in the Gulf and Persia due to increased pay drawn during the year. The decrease under Cable Maintenance occurs under repairs to cable, owing to less stores having been issued for the purpose during the year. The increase under Expenditure by other Departments is due to no payment having been made on account of Jask Royalty during the year 1908-09.

NET REVENUE.

4. On a total capital expenditure of Rs. 1,50,03,943 a net profit of Rs. 91,404 was earned during the year, which gives a dividend of Rs. 3'941 per cent., *vide* Appendix D. The dividends earned during the past five years are as follows:—

| Year. | Interest on Capital. Per cent. |
|---------------------|-----------------------------------|
| | R |
| 1905-1906 | 5'391 |
| 1906-1907 | 3'093 |
| 1907-1908 | 3'34 |
| 1908-1909 | 2'845 |
| 1909-1910 | 3'941 |

CIS-INDIAN JOINT PURSE.

5. Appendix C deals with the transactions in connection with this Agreement, which was entered into in 1878.

The Department's share of the whole Purse shows an increase of

| | | |
|-------|----|----|
| £ | s. | d. |
| 8,255 | 0 | ■ |

Which is explained as follows:—

| | | | |
|--|-------|---|---|
| Increase on Indian traffic | 7,142 | 0 | 0 |
| Increase on Trans-Indian traffic | 1,113 | 0 | 0 |
| | 8,255 | 0 | 0 |

The payments by the Government of India on account of the Indian Guarantee from 1st March 1902 to 31st March 1910 are shown in Appendix C (1).

6. *Interruptions affecting Joint Purse Traffic.*—There were no total interruptions stopping traffic between Karachi and Teheran. Between Teheran and London the Indo-European Company's lines were totally interrupted for an aggregate of 15 days, 21 hours. Many of the interruptions were due to failure of the cables between Lowestoft and Emden.

7. On the Turkish route interruptions occurred between Fao and Constantinople lasting 179 days, 6 hours, 10 minutes. The working of this route continues to be unsatisfactory. There were no interruptions to the Fao-Bushire cable during the year.

During the last five years the Turkish route west of Fao has been interrupted as follows :—

| 1905-1906. | 1906-1907. | 1907-1908. | 1908-1909. | 1909-1910. | |
|-------------|-------------|-------------|-------------|-------------|--|
| Days. H. M. | Days. H. M. | Days. H. M. | Days. H. M. | Days. H. M. | |
| 41 4 15 | 38 2 20 | 140 14 45 | 158 2 55 | 179 6 10 | |

The Department was liable to the Joint Purse for 119 days' interruptions between Constantinople and Bushire at Fcs. 50 per diem.

AUSTRALASIAN MESSAGE FUND.

8. The Departmental receipts for this year show a decrease of 186% on the receipts in 1889, on which the original Australasian Message Fund was based. See Appendix C. (2).

TRAFFIC.

9. The following table gives the amounts paid into the Joint Purse by the Department as compared with its independent traffic revenue :—

| | FOR JOINT PURSE, ETC. | | Independent. | TOTAL. |
|----------------------|-----------------------|---------------|--------------|-----------|
| | Indian. | Trans-Indian. | Revenue. | |
| | Fcs. | Fcs. | Fcs. | Fcs. |
| Persian Gulf Section | 1,254,298 | 78,398 | 74,937 | 1,407,633 |
| Persian Section | 160,216 | 15,736 | 31,451 | 207,397 |
| Total francs | 1,414,508 | 94,134 | 106,388 | 1,615,030 |

10. Appendix E. gives the number of messages and words carried under the different classes :—1, State ; 2, Commercial and Private ; 3, Press, during the past five years.

11. The average length of "private and commercial" messages was 9.45 words in 1909-1910 as compared with 9.72 words in the previous year. The average length, calculated from the averages of the past seven years, is 10.61 words.

12. *Check of Errors.*—The accuracy of transmission over the lines of the Department for the past two years is shown below, and is satisfactory. The percentage of errors against words examined was as follows :—

| | |
|---------------|-----------------|
| For 1908-1909 | 0.197 per cent. |
| " 1909-1910 | 0.227 " |

13. *Complaints and Errors.*—The number received for investigation amounted to 280, being 24 more than the total for the year 1908-1909. Of this number 167 were from Europe and 113 from India ; 20 related to messages *via* Turkey.

* The independent traffic revenue is that obtained from traffic not touching India, such as for telegrams between the stations of Jask and Bushire.

Of the above, 114 were not admitted by the Administrations concerned, or are still being investigated by them, and of the remaining 166, this Department is responsible for 15.

OFFICES.

14. The number of offices open to the public on 31st March 1910, excluding those on the Teheran-Meshed (Persian Government) line, was, in the Persian Section 15, and in the Persian Gulf Section 14, including the office at Bunder Abbas.

PERSIAN GULF SECTION.

CABLES.

15. The total length of the various cables on 31st March 1910 was 1945'934 knots, as against 1945'487 knots in the former year, the decrease being due to repairs and renewals.

Five faults occurred during the year. Two were due to corrosion of guards, one to reredo; one to white ants in the cable lead at Manora, and one was left for further development.

The Fao-Bushire cable was not interrupted during the year.

The expenditure of cable for repairs and renewals amounted to 37'284 knots, the lengths recovered at sea being 32'179 knots.

Manora Cable Factory.

16. The expenditure of cable during the year and cable in stock at the end of the year was as follows :—

| | Knots. |
|---|---------|
| Cable in stock on 1st April 1909 | 56'894 |
| Manufactured at Manora | 53'148 |
| Retaped and brought on charge | 4'890 |
| Excess brought on charge | 0'055 |
| | <hr/> |
| | 114'987 |
| Deduct cable expended, 1909-1910 including 0'176 of a knot expended for the Eastern Telegraph Company at Bombay | 37'757 |
| | <hr/> |
| Balance, 31st March 1910 | 77'230 |

The amount of cable stripped for core was 35'887 knots.

17. The cable laid in October 1905, between Henjam and Bunder Abbas, has not yet been taken over by the Persian Government, but the Bunder Abbas office was opened for international traffic on the 9th December 1909.

Cable Steamer "Patrick Stewart."

18. The cable steamer "Patrick Stewart," steamed 5,950 knots, and the engineering staff, either wholly or in part, was absent from headquarters on cabling work for 70 days during the year. The actual earnings of the ship were Rs. 900-8-0.

MEKRAN COAST LAND LINE.

19. The total lengths on the 31st March 1910 were 632'20 miles of line and 1,264'40 miles of wire, showing a decrease of 5'60 and 11'20 miles in line and wire mileage respectively, due to taking out the left wire from the Gwadar and Ormara combined offices.

KARACHI-BELA-PANJGUR NOK KONDI LINE.

20. The total lengths on the 31st March 1910 remain the same as last year, viz., 484.23 miles of line and 912.78 miles of wire.

21. The total interruptions (i.e., simultaneous interruptions to both wires) on the Mekran land line wires during the year amounted to 23 hours 30 minutes. On the Baluchistan line there was no total interruption.

The causes of all faults are summarised as follows:—

| | Mekran Coast. | | Karachi-Nok-Kondi. | |
|---|---------------|---------------------|--------------------|---------------------|
| | Number. | Duration. Hours. | Number. | Duration. Hours. |
| Definitely traced to preventable causes:— | | | | |
| Corroded wires | 6 | 38.00 | ... | ... |
| Faulty maintenance | 1 | 17.40 | ... | ... |
| Unpreventable causes:— | | | | |
| Malice | 1 | 23.30 | 4 | 49.30 |
| Birds and animals | 2 | 99.00 | 5 | 42.55 |
| Other unpreventable causes | ... | ... | 1 | 21.00 |

General Remarks.

22. The presence of Afghan gun runners caused considerable anxiety for the safety of the lines along the Mekran Coast, but only a few insulators were broken by them, and one interruption, lasting for 23½ hours, caused.

In December 1909 a wireless installation was established at Jask by Mr. J. C. Shields, of the Indian Government Telegraph Department. The installation was taken over by this Department on the 24th January 1910.

In April 1909 the cable ship "Patrick Stewart" was lent to the Eastern Telegraph Company to repair one of their Bombay-Aden cables.

PERSIAN SECTION.

23. The faults from all causes, including contacts between the wires, during the past three years, have been:—

| Year. | TEHERAN-BUSHIRE. | | | CENTRAL PERSIA. | | |
|-----------|------------------|----------|----------|-----------------|----------|----------|
| | 1 Wire. | 2 Wires. | 3 Wires. | 1 Wire. | 2 Wires. | 3 Wires. |
| | Hours. | Hours. | Hours. | Hours. | Hours. | Hours. |
| 1907-1908 | 268 | 88 | 36 | 65 | ... | 37 |
| 1908-1909 | 211 | 241 | 50 | 311 | 284 | 150 |
| 1909-1910 | 504 | 352 | 123 | 46 | 136 | 66 |

The causes of the faults may be summarised as follows:—

| | Teheran-Bushire Section. | | Central Persia Section. | |
|---|--------------------------|---------------------|-------------------------|---------------------|
| | Number. | Duration. Hours. | Number. | Duration. Hours. |
| Definitely traced to preventable causes:— | | | | |
| Faulty construction | ... | ... | 1 | 10 |
| Faulty maintenance | 1 | 9 | 1 | 22 |
| Unpreventable causes:— | | | | |
| Cyclones and exceptional storms | 1 | 5 | 1 | 11 |
| Floods | 1 | 15 | ... | ... |
| Lightning | 1 | 8 | ... | ... |
| Animals, birds and dead snakes | 2 | 12 | ... | ... |
| Malice | 68 | 862 | 8 | 201 |
| Other unpreventable causes | 3 | 42 | ... | ... |
| Faults in offices | 2 | 26 | 1 | 4 |

24. *Willful Damage.*—1,384 acts of willful damage were reported during the year, on the two sections, being 172 more than last year. They were distributed along the line as follows:—

| Sub-section. | Locality. | No. of Miles. | No. of Acts, *1908-1909. | No. of Acts, 1909-1910. |
|--------------|-------------------------|---------------|-----------------------------|----------------------------|
| 1st | Teheran to Ardistan | 220 | 314 | 233 |
| 2nd | Ardistan to Abadeh | 197 | 82 | 56 |
| 3rd | Abadeh to Shiraz | 157 | 373 | 516 |
| 4th | Shiraz to Bushire | 156 | 209 | 323 |
| 5th | Ardistan to Anar | 256 | 64 | 69 |
| 6th | Anar to Bam | 244 | 79 | 74 |
| 7th | Bam to Indian Frontier. | 221 | 91 | 113 |

The amount claimed from the Persian Government for damages on the Teheran-Bushire section was Krans 42,758* 50.* Of this sum Krans 225 were collected locally; and Krans 30,500 have been paid in Teheran.

General Remarks.

25. The general condition of the country districts during the year has again been most unsafe, murders, brigandage, and robberies being of frequent occurrence. Several members of the Departmental Staff were "held up" while on transfer or other duty, and robbed of their belongings.

TEHERAN-MESHED LINE.

26. This line is the property of the Persian Government, but maintained by the Indo-European Telegraph Department. It is 568 miles in length. It worked satisfactorily during the year and was interrupted for 368 hours. One interruption of 120 hours was caused by Turkomans using the poles for firewood on one of their raids into Persia.

INDO-EUROPEAN TELEGRAPH DEPARTMENT.

STORES.

26. The principal items of expenditure under this head have been as follows:—

| | R |
|---|----------|
| Stores purchased in India. | 4,772 |
| London stores, including freight, landing charges, and exchange | 1,34,085 |
| Stores from other Departments | 4,362 |

The following were the principal issues of stores, including adjustments, to the end of March 1910:—

| | R |
|----------------------|--------|
| For repairs to cable | 59,310 |
| For cable steamer | 18,227 |

The issues to repairs and renewals of land line and offices in the Persian Gulf section amounted to R32,355, and in the Persian section to R13,391.

H. A. KIRK,
Director-in-Chief.

India Office;
3rd October 1910.

*3½ Krans=1 Rupee approximately.

SUPPLEMENT TO
The Gazette of India.

No. 50.]

CALCUTTA, SATURDAY, DECEMBER 10, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 8th December 1910, based on the Indian Daily Weather Reports of the period.

1. The chief feature in the weather of the past week was the occurrence of rainfall in Baluchistan. Conditions had been for some days unsettled in Persia, and a depression apparently passed eastwards and gave snow in Kashmir on the 3rd and 4th; but weather continued disturbed in Persia and on the 6th rain fell in Baluchistan, being the first precipitation of importance that had occurred there since the 8th of July.

2. A few falls of rain were reported from the Andamans and south Tenasserim, but elsewhere weather was dry. The precipitation of the week was more than 20 per cent. in excess of the normal in the Bay Islands, Tenasserim, Kashmir and Baluchistan; and the areas where it was half an inch or more in defect are Madras Southeast and Madras Coast North.

3. *Burma.*—Rainfall occurred in the Andamans and south Tenasserim, but Diamond Island was the only place which received any rain outside of these areas. Skies were clear or lightly clouded.

Northeast India, including Orissa.—Skies were cloudy at a few places chiefly in the northeastern districts. Minimum temperature was lower than usual in Orissa during the first half of the week.

The United Provinces, Central India and the Central Provinces.—Skies were clear except for occasional light cloud along the hills of the United Provinces. The temperatures reported on the 5th and 6th were somewhat higher than usual in Central India and the west of the United Provinces.

Northwest India.—Snow fell in Kashmir on several days and rainfall was reported from Baluchistan on the 7th. Skies were lightly to heavily clouded in Baluchistan and the extreme north, and were clear or only lightly clouded elsewhere. Temperature was higher than usual especially at night in Baluchistan and Sind up to the 7th.

The Peninsula.—Skies were cloudy in southeast Madras and were generally clear elsewhere. Night temperature was lower than usual almost throughout the division.

4. The following are the chief amounts of precipitation as reported at 8 hrs. each day :—

| | |
|---------------|--------------------------------|
| December 2nd. | Port Blair 1·18". |
| " 5th. | Minimarg 0·80". |
| " 7th. | Quetta 0·41" and Chaman 0·38". |
| " 8th. | Minimarg 1·08". |

5. The present week begins a new rainfall period and the abnormal features for the period are hence the same as those given in first section for the week.

Secretary to the Government of India.

SIMLA;
The 8th December 1910.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

**Season and Crop Prospects for the week ending Saturday,
3rd December 1910.**

Burma.—No rain fell during the week except in the southern districts of the Tenasserim division. Reaping of autumn rice has been almost completed and that of winter rice has commenced. The rice crop both in Lower and Upper Burma promises well. Sowing of island crops and wheat is in hand. Plucking of cotton and gathering of groundnuts are in progress. The price of unhusked rice is somewhat above normal in Lower Burma but is below normal in Upper Burma.

Eastern Bengal and Assam.—The weather was seasonable and dry. The tea season is nearly over. Ploughing for and sowing of spring crops continue. Reaping of winter rice is in progress. Prospects of standing crops are generally good though insects are reported to be damaging crops, specially winter paddy, in Mymensingh and parts of Assam. The average price of common rice is stationary. Cattle disease prevails in Sylhet, Nowgong and the Garo Hills.

Bengal.—There was no rain during the week. Harvesting of winter rice is going on briskly. Sowing of spring crops is approaching completion. Pressing of sugarcane continues in Gaya, Monghyr and Puri and has commenced in Hazaribagh. Standing spring crops and sugarcane are doing well. Prospects are good. The price of common rice has risen in Burdwan, the 24-Parganas, Darbhanga, the Sonthal Parganas, Balasore, Sambalpur, Ranchi and Manbhum and has fallen in Bankura, Murshidabad, Jessore, Khulna, Saran, Champaran, Monghyr, Darjeeling, Angul and Puri as well as in the districts of the Patna Division. Cattle disease prevails in Patna, Gaya, Muzaffarpur, Darbhanga, Purnea, Hazaribagh and Palamau and in the districts of the Orissa division except Cuttack and Balasore. The fodder and water supply is ample throughout the Province.

United Provinces.—No rain fell during the week. Standing crops are flourishing and prospects are excellent. Harvesting of autumn crops and sowing of spring crops have been nearly completed. Germination is good. Picking of cotton and pressing of sugarcane continue. Irrigation is everywhere in full swing. The condition of stock is good but cattle disease is reported in parts of sixteen districts. Fodder and supplies are ample. Prices have fallen slightly in 7 districts and have risen in 2. Elsewhere they are practically stationary.

Punjab.—No rain fell during the week. Harvesting of autumn crops is in progress in several districts. Cotton picking and sugarcane pressing continue. Sowings of spring crops are going on. The outturn of autumn crops is generally good to average. The yield of cotton and great millet is poor in Hissar and that of cotton is good to poor in Shahpur. The wheat crop is suffering for want of rain in parts of Ambala. Rain is also wanted in Rawalpindi. Wheat is being damaged by locusts in parts of Mianwali. Prices are generally unchanged but show a tendency to fall in some districts. Cattle are generally in good condition. Fodder is sufficient except in parts of Ferozepore and Mianwali.

North-West Frontier Province.—No rain fell during the week except a cents in Dera Ismail Khan. It is needed all over the Province. The condition of standing crops is generally average except that unirrigated crops in the Dera Ismail Khan district are reported to be below the average. Harvesting of autumn crops continues. Sugarcane is being pressed in the Peshawar district. The expected outturn of cotton and maize in the Chafzadda tahsil, of cotton in the Mardan Tahsil and of autumn crops in the Dera Ismail Khan district is reported to be below the average. Sowings of spring crops are in progress. Fodder is procurable. The water supply is generally sufficient except that it is scarce in the Shigga and Pakha circles of the Marwat tahsil in the Bannu district. Irrigation from the Paharpur canal in the Dera Ismail Khan district is still stopped. The condition of cattle is generally good but disease is prevalent in three villages. The public health is generally good but malarial fever is still prevalent in the Nowshera tahsil. Prices of wheat and maize show a slight tendency to fall. Prices:—wheat 13 to 18½; gram 16½ to 31; maize 15½ to 27½ and bajra 20 to 23 seers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 13 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—No rain fell during the week. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—The late autumn crop has been gathered in a few States. Sowings of spring crops are in progress. Standing crops are fair to good. Cattle disease is prevalent in Bauswara and Karauli and in one district of Mewar. Fodder is sufficient. Prices have risen in Marwar, Mewar, Dungarpur, Tonk and Dholpur and have fallen or are steady elsewhere.

Central India.—Rainfall nil. The weather is seasonable. Sowings of spring crops, reaping of autumn crops and cotton picking continue. Cotton and minor autumn crops have been damaged slightly in Indore, Bhopal and Bhopawar. The area sown with spring crops is large and promises to be satisfactory. Cattle are in good condition but some disease prevails in parts of Indore, Bhopal, Baghelkhand, Bundelkhand and Bhopawar. Prices are falling slowly in Baghelkhand, fluctuating in Indore and steady elsewhere. Poppy sowing is in progress in Gwalior, Indore, Bhopal and Baghelkhand.

Central Provinces.—The weather has been clear and cold. Harvesting of *juar*, threshing of autumn crops and picking of cotton continue. Sowings of spring crops are still in progress in several districts and where the crops have already been sown the germination is satisfactory. Late rice and early sown spring crops in Mandla were damaged somewhat by wind and rain in November. General prospects are good throughout the Provinces. The supply of fodder and water is sufficient everywhere. Cattle are in good condition. Prices :—Gram became cheaper in Damoh and Chhindwara by 2 and 4 seers per rupee respectively. *Juar* is selling dearer by 2 seers in Hoshangabad and by 6½ seers in Betul. Elsewhere, the prices of food grains remained stationary or fluctuated slightly.

Feudatory States.—Cutting of autumn crops and sowing of spring crops continue. Standing crops are in good condition. Fodder and water are sufficient. Prices :—The price of wheat in Kawardha and rice in Korea fell by 2 seers per rupee and that of wheat and rice in Sarangarh rose by the same amount.

Bombay.—Standing crops are generally good. Harvesting of autumn crops is progressing generally. Threshing continues in parts of Sind, Colaba, Ratnagiri, Nasik, Ahmednagar, Baroda and Mahi Kantha. Cotton picking continues in Hyderabad, Thar and Parkar, Ahmedabad, Baroda and parts of the Deccan. Lands are being prepared for cultivation of spring crops in parts of Karachi, Hyderabad, Kanara and Mahi Kantha. Sowing of spring crops continues in parts of Sind, Ahmedabad, the Panch Mahals, Colaba, Kanara, Khandesh, Nasik, Ahmednagar, Baroda, Savantvadi and Rewa Kantha. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur and Satara and is generally in good condition. The supply of water for drinking and irrigation is generally adequate. Grain stocks are sufficient. Prices have risen in the Upper Sind Frontier, Thar and Parkar and Khandesh, have fallen in Kanara and Dharwar and are generally stationary elsewhere. The quantity purchaseable per rupee is in Sind 30 to 41 per cent.; in the Konkan 13 to 22 per cent. and in the Karnatak 3 to 19 per cent. less than the normal. In Gujarat prices ranged from 12 per cent. more than the normal to 20 per cent. less and in the Deccan from 6 per cent. more to 23 per cent. less.

Hyderabad.—No rain fell during the week. Autumn crops have been harvested in a few places and cotton is being picked. The crop has been injured somewhat by insects in parts of the Raichur district. Early rice is still being harvested. Sowings of spring crops are progressing in a few places and germination is fair. Prospects are favourable. Crops are being weeded in places. Late rice lands are under preparation in parts of Telengana and sowings have begun in parts. Cattle disease prevails in fifteen talukas. Prices :—wheat 7; coarse rice 7; and *juar* 15 seers per rupee, showing a rise of ¼ seer in the price of wheat. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 1¼ seers. The highest price in districts is 8½ seers in Karimnagar and the lowest 25 seers in Bir.

Mysore.—Prices of food grains have fallen slightly in Hassan and Shimoga and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Harvesting operations are in progress. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Rice is in good condition. Picking of cardamom and coffee continues. Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—Light rain fell in Coimbatore, Ramnad and Malabar and *nil* elsewhere. The rainfall in seventeen districts was above the average of the last thirty-five years. Irrigation supplies are sufficient except in parts of Kurnool and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally good but some in parts of Kurnool and Cuddapah have been injured by excessive rain and some in parts of Bellary have been affected by grasshoppers. Coffee in parts of the Nilgiris has been damaged by bugs. Harvests continue in parts with outturn fair to normal. Pasture is sufficient. Fodder is scanty in parts of Godavari and Nellore. The condition of cattle is generally good. The price of rice is stationary in eleven districts, has fallen in eleven and has risen in two. The prices of millets have fluctuated as follows:—Ragi is stationary in seven districts, has fallen in twelve and has risen in three. Chola is stationary in three districts, has fallen in nine and has risen in three. Cuzbu has fallen in eleven districts and has risen in five. The public health is generally good. Prospects are generally good. The condition of the labouring classes is satisfactory everywhere and employment is readily available. Grain stocks are sufficient.

E. D. MACLAGAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.SANITARY.
PLAGUE.

Calcutta, the 8th December, 1910.

The following preliminary statement of plague seizures and deaths reported in India during the week ending the 3rd December 1910, is published for general information—

(a) The duty on alkaloids of opium for the year previous to 1910-11 is included under the head "Chemicals, drugs, etc."
(b) Figures for the years previous to 1910-11 represent "General Import Duties."

FREDERICK NOEL-PATON
Director-General of Commercial Intelligence
J. S. MESTON
Secretary to the Government of India

Nos. 5475—5507.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.

PUBLIC.

CREATION OF A DEPARTMENT OF EDUCATION.

Calcutta, the 9th December 1910.

RESOLUTION.

1. THE Governor General in Council has recently had under consideration the subject of the creation of an additional membership of the Executive Council of the Governor General, with the appropriate Secretariat and clerical staff, to deal, primarily, with the subjects of education and local self-government. In addressing the Secretary of State on this question, Lord Minto's Government based their proposals, firstly, on the administrative and political expediency of making better provision for the conduct of public business in the branches of work above mentioned and, secondly, upon the necessity for affording relief to the Home Department. Regarding it as incontestable that relief to the Home Department was needed, they came, after careful deliberation, to the conclusion that the form in which it could best be given was by dividing the present work of that department into two, one part of the work to be dealt with by the existing department—the constitution of which would be revised—and the other by a new department, which would be charged primarily with the administration of educational business, but would also take over certain other branches of work with which the Home Department has hitherto dealt, including all matters connected with local self-government.

2. The extreme importance of the subject of education needed no demonstration. The extensive reforms, which were initiated by Lord Curzon's Government, were still far from complete, although much had been done in every province to give effect to them, and schemes of improvement in every class of institution from the Universities downwards had been formulated, of which many had been put into execution, while others were awaiting the provision of the necessary funds. There were again abundant indications both in the debates in Council, in the Press, and in the reports of local Governments, of a genuine and widespread desire for improved technical instruction to facilitate the growth of indigenous trades and industries, which it was impossible to ignore; and, indeed, the Governments of all the major provinces had already devoted considerable attention to the subject and steps had been taken in almost all to make a beginning in that direction. The subject, again, of primary education; the question how far it should be provided free of cost; the training of teachers; the provision in the educational system of facilities for moral instruction; the development in it of influences which tend towards the better formation of character; the question how far religious instruction should be permitted—these, as well as the prosecution of the other reforms already mentioned, presented problems of the first magnitude, the successful solution of which would involve extensive expenditure both from imperial and provincial and local funds prolonged over a series of years and incurred in accordance with a wisely-planned and consistent educational policy. To assist in solving those problems and to direct that policy were tasks which, in the opinion of Lord Minto's Government, might fitly claim the attention of a special department.

3. The Government of India thought that with educational business the despatch of that connected with local self-government might suitably be conjoined, since municipal and local bodies are responsible for no small part of the public expenditure on education. Besides these subjects, they proposed, in order to afford an adequate degree of relief to the Home Department, to hand over to the new department a certain number of

miscellaneous heads of business including Sanitation, Archaeology, Books, Records, Ecclesiastical, and a few subjects of minor importance now dealt with in the Public Branch of the Home Department. To these were to be added all business connected with museums now dealt with in the Department of Commerce and Industry.

4. Such is a brief summary of the grounds upon which Lord Minto's Government based their proposals. As regards the staff for the new department they suggested that besides the Member in charge, the department should have a Secretary on a pay of Rs. 3,000 a month, a Joint Secretary on Rs. 2,500 a month and an Assistant Secretary on Rs. 1,000 a month. In making these proposals for the superior staff, it was explained that the Government of India regarded them as provisional only, and that in their opinion they should be subject to re-consideration in the light of the experience which would be gained hereafter of the special requirements of the new department. In particular, they did not desire to tie their own hands or those of their successors by declaring that the posts of Secretary or Joint or Assistant Secretary should be definitely assigned to any particular services, as the creation of the new department was an experiment, and its novelty justified the Government of India in retaining from the outset a full measure of freedom to modify the constitution of the staff in such manner as might seem best calculated to fulfil the objects with which the department was formed.

5. It was further proposed that the Imperial Record Office, as at present existing, should be a sub-department of the new department; that the Officer in charge of the Records should continue to discharge under it the duties of Assistant Secretary in the Books and Publications Branch, which he at present performs under the Home Department; that the post of Director-General of Education should cease to exist, and the staff of his office, consisting principally of a bureau of educational information, which was charged with the duty of collecting information on educational subjects for the assistance of the Government of India and of the provincial departments of instruction, should be absorbed in that of the new department. The clerical staff of the new department was at the outset to be provided entirely by transferring to it a suitable number of superintendents, subordinates and menials from the present staff of the Home Department, and the only new post that was at present required in connection with this part of the scheme was that of Registrar, who, it was proposed, should receive a pay of Rs. 800 a month in accordance with the rate recently sanctioned for Registrars of other departments of the Secretariat.

6. The Secretary of State having approved of these proposals subject possibly to revision after two or three years' experience the Governor General in Council is pleased to direct that the Department of Education, to the charge of which the Hon'ble Mr. S. H. Butler, C.S.I., C.I.E., has already been appointed, shall be constituted forthwith, and that all matters pertaining to the subjects detailed in the statement annexed to this Resolution shall, from the date of these orders, come under the cognizance of the new department.

ORDER.—Ordered that a copy of this Resolution (and its annexure) be com-

Superintendent of Port Blair, Director-General of the Indian Medical Service, Sanitary Commissioner with the Government of India, Secretary to the Board of Examiners, Registrar of the Calcutta University, Bishop's Chaplain, Registrar of the High Court, Calcutta, Officer in charge of the Records of the Government of India, Librarian, Imperial Library, Administrator-General of Bengal, Director-General of Archaeology in India, the Director, Criminal Intelligence, and the Census Commissioner for India.

municated to the several departments of the Government of India, for information and communication to subordinate officers and departments, to all local Governments and Administrations, and to the officers named in the margin, for information and guidance.

Ordered also that the Resolution (and annexure) be published in the Supplement to the *Gazette of India*, for general information.

A. EARLE,

Offg. Secretary to the Government of India.

SUPPLEMENT TO
The Gazette of India.

No. 51.]

CALCUTTA, SATURDAY, DECEMBER 17, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight Rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 15th December 1910, based on the Indian Daily Weather Reports of the period.

1. The disturbance which occasioned rain in Baluchistan on the 6th passed into Kashmir and caused local snowfall there on the 8th and 9th after which it disappeared; but conditions again became unsettled in Persia on the 9th and the disturbed weather extended eastwards and gave rain daily in Baluchistan from the 11th to the end of the week. On the 15th snow had begun to fall in Kashmir, and skies were densely clouded over a large tract of country comprising Baluchistan, Kashmir, Sind, the North-West Frontier Province and the west Punjab.

2. A few falls of rain were reported from the Andamans and from the upper Brahmaputra valley, but elsewhere weather was dry. The precipitation of the week was more than 20 per cent. in excess in Assam and Baluchistan; the only division in which it was as much as half an inch in defect, is the Bay Islands.

3. *Burma and Bay Islands.*—There were a few falls of rain in the Andamans. Skies were clear or lightly clouded, and the minimum temperatures reported on the 10th, 11th and 12th were somewhat higher than usual, especially in Upper Burma.

Northeast India, including Orissa.—Dibrugarh had falls of rain on the first three days of the week. Skies were clear except for occasional cloud along the eastern Himalayas and in the southwest of the division. Minimum temperature was lower than usual on the 13th and 14th.

The United Provinces, Central India and the Central Provinces.—Skies were cloudy in the northwest of the division on the 9th and 10th, and temperature was below the normal in the United Provinces from the 12th to the 14th.

Northwest India.—Rainfall was reported from Baluchistan on the last four days of the week, and snowfall from Kashmir on the 9th, 10th and 15th. Skies were cloudy in Baluchistan and extreme north and were clear or only lightly clouded elsewhere. Temperature was in defect over a large part of northwest India up to the 12th when the extension eastwards of disturbed weather from Persia was accompanied by a rapid rise of temperature especially on the north-west frontier.

The Peninsula.—There was no rain, skies were clear or only lightly clouded, and night temperature was locally lower than usual.

4. The following are the chief amounts of precipitation as reported at 8 hrs. each day:—

| | |
|---------------|------------------------------------|
| December 9th. | Minimarg 0.75". |
| " 10th. | Sonemarg 1.10" and Minimarg 1.65". |
| " 11th. | Dibrugarh 1.00". |
| " 14th. | Robat 0.72". |

5. The rainfall of the period from the 2nd to the 15th December is more than 20 per cent. in excess in Lower Burma, Assam and Baluchistan, and is nearly normal in the Bay Islands. No precipitation has occurred elsewhere except in Kashmir, where it is 50 per cent. in defect.

GILBERT E. WALKER,
Director-General of Observations.

E. D. MACLAGAN,
Secretary to the Government of India.

SIMLA
The 15th December 1910.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
10th December 1910.

Burma.—No rain fell during the week except slight showers in three districts. Reaping of autumn crops has been completed and that of winter crops is progressing steadily. The ripe crop of Lower Burma should be a good one and in Upper Burma favourable rains and river inundation give promise of good crops both on uplands and riverain tracts. The price of unhusked rice is steady, being somewhat above normal in Lower Burma but below normal in Upper Burma.

Eastern Bengal and Assam.—The weather was seasonable. Lakhimpur alone reports a slight fall of rain. The tea season is nearly over. Cultivation and sowing of spring crops continue. Reaping of winter rice is in progress. Prospects of standing crops are generally good. The average price of common rice is the same as that of last week. Cattle disease prevails in Dacca, the Khasi Hills and Nowgong.

Bengal.—There was no rain during the week. Harvesting of winter rice is in progress. Pressing of sugarcane continues in parts of Bihar and Orissa. Standing spring crops and sugarcane are doing well. Prospects are good. The price of common rice has risen in Bankura, Purnea and Bhagalpur and has fallen in Burdwan, Hooghly, the 24-Parganas, Nadia, Murshidabad, Khulna, Champaran, Darbhanga, Gaya, Monghyr, Balasore and Manbhum. Cattle disease is reported from eight districts. The fodder and water supply is sufficient throughout the Province.

United Provinces.—No rain fell during the week. Standing crops are flourishing and prospects are excellent. Sowing of spring crops and poppy is nearing completion and germination is good. Picking of cotton and pressing of sugarcane continue. Irrigation is in full swing. Sporadic cattle disease is reported from eighteen districts but the general condition of stock is good. Fodder and supplies are ample. Prices have fallen slightly in seven districts and have remained practically stationary elsewhere.

Punjab.—There was slight rain in parts of Mianwali and Multan. Cotton picking and sugarcane pressing are in progress. Harvesting of other autumn crops is still going on. Sowings of spring crops continue. The outturn of autumn crops is generally good to average. The yield of cotton and great millet is poor in Hissar. The condition of standing spring crops is generally good. Wheat has suffered slightly for want of rain in Arhala. Rain is also wanted in Rohtak, Sialkot and Rawalpindi. Rats are damaging the crop in parts of Ferozepore. Prices of food grains are generally unsettled but there is a downward tendency in some districts. Cattle are generally in good condition. Fodder is sufficient except in Mianwali and parts of Ferozepore.

North-West Frontier Province.—Some slight showers fell in the Hazara, Peshawar and Dera Ismail Khan districts. Rain is needed all over the Province. The condition of standing crops is generally average but unirrigated crops in the Dera Ismail Khan district are reported below the average. Pressing of sugarcane is in progress and the outturn is reported to be average. Sowings of spring crops are in progress. Fodder is sufficient throughout the Province. The water supply is generally sufficient except in the Shigga and Pakha circles of the Marwat tahsil in the Bannu district. There is no irrigation from the Paharpur canal in the Dera Ismail Khan district. Cattle are generally in good condition but disease is still prevalent in certain villages of the Dera Ismail Khan tahsil. The public health is generally good throughout the Province. Prices of food grains, except that of gram, are fluctuating. Prices:—wheat $13\frac{1}{2}$ to $18\frac{1}{4}$; gram $16\frac{1}{4}$ to 31; maize 16 to $27\frac{1}{2}$ and bajra $19\frac{1}{2}$ to 23 acers per rupee.

Jammu.—No rain fell during the week. Prices are stationary. Wheat sells from 13 to 24 and maize from 18 to 33 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Basohli taluk. Fodder is sufficient.

Kashmir.—No rain fell during the week. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—Late autumn crops are being gathered in a few States. Spring sowings are in progress. Standing crops are good and the expected outturn is satisfactory. Cattle disease is prevalent in Banswara and one district of Mewar. Fodder is sufficient. Prices have risen in Bikaner, Jaisalmer, the Hilly Tracts, Dungarpur, Banswara, Kotah, Jaipur, Bhatapur, Ajmer and Merwara and are steady or have fallen elsewhere.

Central India.—Rainfall *nil*. The weather is seasonable and the nights are cool and clear. Sowing of spring crops, reaping of autumn crops and cotton picking continue. Standing crops are good and the outturn is promising. Slight damage has been done to cotton and *juar* in parts of Indore. Cattle are in good condition except for some disease in parts of Indore, Baghelkhand, Bundelkhand and Bhopal. Prices are falling in Baghelkhand, fluctuating in Indore and steady elsewhere. Paddy sowing continues in Gwalior, Indore, Bhopal and Baghelkhand.

Central Provinces.—The weather continues clear and cold. Harvesting and threshing of autumn crops and picking of cotton are in full swing. Sowing of spring crops has been practically finished and germination is satisfactory everywhere. Standing crops are in good condition and general prospects are favourable. Fodder and water are sufficient. Cattle are in good condition. Prices:—the price of wheat remained stationary in sixteen districts, gram in seventeen, rice in nineteen and *juar* in twenty. Gram in Mandla and *juar* in Betul are cheaper by 2 seers per rupee. Variations elsewhere were unimportant.

Feudatory States.—Harvesting of autumn crops is in progress. Sowing of spring crops is nearing completion. Prospects are generally good. The supply of fodder and water is ample. Prices:—rice in Kawardha and Raigarh and gram in Sirgaja rose by 2 seers per rupee. Gram in Kanker fell by the same amount. Prices were steady elsewhere.

Bombay.—Standing crops are generally good. Harvesting of autumn crops is progressing generally. Threshing continues in parts of Sind, Colaba, Ratnagiri, Nasik and Ahmednagar. The estimated outturn is generally fair to good. Sowing of spring crops continues in parts of Sind, Ahmedabad, the Panch Mahals, Colaba, Kanara, Khandesh, Nasik, Baroda and Savantvadi. Cotton picking continues in Hyderabad, Thar and Parkar, Kathiawar, Baroda and parts of the Deccan. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Poona and Satara but generally in good condition. The supply of water for drinking and irrigation is adequate. Grain stocks are sufficient. Prices have risen in Satara, have fallen in Kanara, East Khandesh and Bijapur and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 30 to 41 per cent. and in the Konkan 9 to 22 per cent. less than the normal. In Gujarat prices ranged from 15 per cent. more than the normal to 20 per cent. less, in the Deccan from 7 per cent. more to 23 per cent. less and in the Karnatak from 14 per cent. more to 19 per cent. less.

Hyderabad.—No rain fell during the week. The autumn harvest is almost over but cotton is still being picked. The early rice harvest continues. Sowings of spring crops are still progressing. The crops are generally fair to good and are being weeded in places. Late rice lands are under preparation in parts of Telingana and sowing is in progress. Cattle disease prevails in 15 talukas. Prices:—wheat 7; coarse rice 7 and *juar* 16 seers per rupee. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 14 seers. The highest price in districts is 8½ seers in Karimnagar and the lowest 26 seers in Nander.

Mysore.—Prices of food grains have fallen slightly in Bangalore, Hassan and Chitaldrug and are steady elsewhere. Markets are well supplied. Standing crops are in good condition. Harvesting operations are in progress. Cattle are generally healthy. Water and fodder are available.

Coprg.—Prices of food grains are normal. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—No rain fell during the week. The rainfall in 16 districts was above the average of the last 35 years. Irrigation supplies are sufficient except in parts of Kurnool and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally good but some in parts of Bellary have been affected by grasshoppers. *Cholam* in parts of Cuddapah has been injured by heavy rains and coffee in parts of the Nilgiris has been damaged by bugs. Harvests continue in parts with outturn fair to normal. Pasture is sufficient. Fodder is scanty in parts of Godavari and Nellore. The condition of cattle is generally good. The price of rice is stationary in four districts, has fallen in nineteen and has risen in one. The prices of millets have fluctuated as follows:—*Ragi* is stationary in four districts, has fallen in fourteen and has risen in four. *Cholam* is stationary in four districts, has fallen in seven and has risen in four. *Cumbu* is stationary in six districts, has fallen in six and has risen in four. The public health is generally good. Prospects are generally good. The condition of the labouring classes is everywhere satisfactory and employment is readily available. Grain stocks are sufficient.

E. D. MACLAGAN,
Secretary to the Government of India.

GOVERNMENT OF INDIA.
HOME DEPARTMENT.SANITARY.
PLAGUE.

Calcutta, the 15th December, 1910.

The following preliminary statement of plague seizures and deaths reported in India during the week ending the 10th December 1910, is published for general information.

A. EARLE,
Offg. Secretary to the Government of India.

No. 0006-9020-53.

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

EMIGRATION.

THE IMMIGRATION ACT, 1910.

RESOLUTION.

Dated Calcutta, the 15th December 1910.

THE Government of India have received from His Majesty's Secretary of State for India a copy of the Immigration Act, 1910, recently passed by the Government of Canada in supersession of previous Acts on the subject. The more important provisions of the Act are published for general information.

SHORT TITLE.

1. This Act may be cited as the *Immigration Act*.

Short title.

INTERPRETATION.

2. In this Act, and in all orders in council, proclamations and regulations made thereunder, unless the context otherwise requires,—

(a) "Minister" means the Minister of the Interior;

"Minister."

(b) "officer" means any person appointed under this Act, for any of the purposes of this Act, and any officer of customs; and includes the Superintendent of Immigration, immigration commissioners and inspectors and every person recognized by the Minister as an immigration agent or officer with reference to anything done or to be done under this Act, whether within or outside of Canada, and whether with or without formal appointment;

"Officer."

(d) "domicile" means the place in which a person has his present home, or in which he resides, or to which he returns as his place of present permanent abode, and not for a mere special or temporary purpose. Canadian domicile is acquired for the purposes of this Act by a person having his domicile for at least three years in Canada after having been landed therein within the meaning of this Act: Provided that the time spent by a person in any penitentiary, jail, reformatory, prison or asylum for the insane in Canada shall not be counted in the three-year period of residence in Canada which is necessary in order to

"Domicile."

How
Canadian
domicile
acquired.

Provided.

How
Canadian
domicile
lost.

acquire Canadian domicile. Canadian domicile is lost, for the purposes of this Act, by a person voluntarily residing out of Canada, not for a mere special or temporary purpose; but with the present intention of making his permanent home out of Canada unless and until something which is unexpected or the happening of which is uncertain, shall occur to induce him to return to Canada;

"Alien."

(e) "alien" means a person who is not a British subject;

"Canadian
citizen."

(f) "Canadian citizen" means—

(i) a person born in Canada who has not become an alien;

(ii) a British subject who has Canadian domicile; or,

(iii) a person naturalized under the laws of Canada who has not subsequently become an alien or lost Canadian domicile;

Proviso.

Provided that for the purpose of this Act a woman who has not been landed in Canada shall not be held to have acquired Canadian citizenship by virtue of her husband being a Canadian citizen; neither shall a child who has not been landed in Canada be held to have acquired Canadian citizenship through its father or mother being a Canadian citizen;

"Immigrant."

(g) "immigrant" means a person who enters Canada with the intention of acquiring Canadian domicile, and for the purposes of

"Non-immigrant
classes."

this Act every person entering Canada shall be presumed to be an immigrant unless belonging to one of the following classes of persons, hereinafter called "non-immigrant classes,"—

Canadian
citizens.

(i) Canadian citizens; and persons who have Canadian domicile;

Diplomatic
representatives.

(ii) diplomatic and consular officers, and all accredited representatives and officials of British or foreign governments, their suites, families and guests, coming to Canada to reside or to discharge any official duty or to pass through in transit;

Military.

(iii) officers and men, with their wives and families, belonging to or connected with His Majesty's regular naval and military forces;

Tourists.

(iv) tourists and travellers merely passing through Canada to another country;

Students.

(v) students entering Canada for the purpose of attendance, and while in actual attendance, at any university or college authorized by statute or charter to confer degrees; or at any high school or collegiate institute recognized as such for the purpose of this Act by the Minister;

Professional.

(vi) members of dramatic, musical, artistic, athletic or spectacular organizations entering Canada temporarily for the purpose of giving public performances or exhibitions of an entertaining or instructive nature; and actors, artists, lecturers, musicians, priests, and ministers of religion, professors of colleges or other educational institutions, and commercial travellers, entering Canada for the temporary exercise of their respective callings;

Holders of
permit
to enter
Canada.

(vii) holders of a permit to enter Canada, in force for the time being, in form A* of schedule one to this Act, signed by the Minister or by some person duly authorized: Provided that whenever in the opinion of the Minister or Superintendent of Immigration or Board of Inquiry or officer acting as such, any person has been improperly included in any of the non-immigrant classes, or has ceased to belong to any of such classes, such person shall thereupon be considered an immigrant within the meaning of this Act and subject to all the provisions of this Act respecting immigrants seeking to enter Canada;

Proviso.

- (h) "family" includes father and mother, and children under eighteen years of age; "Family."
- (i) "head of family" means the father, mother, son, daughter, brother or sister upon whom the other members of the family are mainly dependent for support; "Head of family."
- (j) "passenger" means a person lawfully on board any ship, vessel, railway train, vehicle or other contrivance for travel, or, transport, and also includes any person riding, walking or otherwise travelling across any international bridge or highway; but shall not be held to include the master or other person in control or command of such vessel, ship, railway train, vehicle, bridge, highway or other contrivance for travel or transport, or any member of the crew or staff thereof; or military or naval forces and their families who are carried at the expense of the Government of the United Kingdom, or the Government of any British Dominion or Colony: Provided that any member of the crew of a ship or of the staff of a railway train or other contrivance for travel or transport who deserts or is discharged in Canada from his ship or railway train or other contrivance for travel or transport shall thereupon be considered a passenger within the meaning of this Act; "Passenger."
- (k) "stowaway" means a person who goes to sea secreted in a ship without the consent of the master or other person in charge of the ship, or of a person entitled to give such consent; or a person who travels on any railway train or other vehicle without the consent of the conductor or other person authorized to give such consent; "Stowaway."
- (l) "port of entry" means any port, railway station or place in Canada at which there is an officer and where inspection of immigrants may be carried on; "Port of entry."
- (m) "land," "landed" or "landing," as applied to passengers or immigrants, means their lawful admission into Canada by an officer under this Act, otherwise than for inspection or treatment or other temporary purpose provided for by this Act; "Landed."
- (n) "rejected," as applied to an immigrant or other person seeking to enter Canada, means that such immigrant or other person has been examined by a Board of Inquiry or officer acting as such and has been refused permission to land in Canada; "Rejected."
- (o) "deportation" means the removal under authority of this Act of any rejected immigrant or other person, or of any immigrant or other person who has already been landed in Canada, or who has entered or who remains in Canada contrary to any provision of this Act, from any place in Canada at which such immigrant or other person is rejected or detained to the place whence he came to Canada, or to the country of his birth or citizenship; "Deportation."
- (p) "transportation company" means and includes any corporate body or organized firm or person carrying or providing for the transport of passengers, whether by ship, railway, bridge, highway or otherwise, and any two or more such transportation companies co-operating in the business of carrying passengers; "Transportation company."
- (q) "Immigration Act" or "Act" shall be held to include all orders in council, proclamations, and regulations made hereunder. "Act."

PROHIBITED CLASSES.

3. No immigrant, passenger, or other person, unless he is a Canadian citizen, or has Canadian domicile, shall be permitted to land in Canada, or in case of having landed in or entered Canada shall be permitted to remain therein, who belongs to any of the following classes, hereinafter called "prohibited classes":—

- (a) idiots, imbeciles, feeble-minded persons, epileptics, insane persons, and persons who have been insane within five years previous;

- Disordered persons. (b) persons afflicted with any loathsome disease, or with a disease which is contagious or infectious, or which may become dangerous to the public health, whether such persons intend to settle in Canada or only to pass through Canada in transit to some other country: Provided that if such disease is one which is curable within a reasonably short time, such persons may, subject to the regulations in that behalf, if any, be permitted to remain on board ship if hospital facilities do not exist on shore, or to leave ship for medical treatment;
- Persons physically defective. (c) immigrants who are dumb, blind, or otherwise physically defective, unless in the opinion of a Board of Inquiry or officer acting as such they have sufficient money, or have such profession, occupation, trade, employment or other legitimate mode of earning a living that they are not liable to become a public charge or unless they belong to a family accompanying them or already in Canada and which gives security satisfactory to the Minister against such immigrants becoming a public charge;
- Criminals. (d) persons who have been convicted of any crime involving moral turpitude;
- Prostitutes and pimps. (e) prostitutes and women and girls coming to Canada for any immoral purpose and pimps or persons living on the avails of prostitution;
- Procurers. (f) persons who procure or attempt to bring into Canada prostitutes or women or girls for the purpose of prostitution or other immoral purpose;
- Beggars and vagrants. (g) professional beggars or vagrants, or persons likely to become a public charge;
- Charity immigrants. (h) immigrants to whom money has been given or loaned by any charitable organization for the purpose of enabling them to qualify for landing in Canada under this Act, or whose passage to Canada has been paid wholly or in part by any charitable organization, or out of public moneys, unless it is shown that the authority in writing of the Superintendent of Immigration, or in case of persons coming from Europe, the authority in writing of the assistant Superintendent of Immigration for Canada, in London, has been obtained for the landing in Canada of such persons, and that such authority has been acted upon within a period of sixty days thereafter;
- Persons not complying with regulations. (i) persons who do not fulfil, meet or comply with the conditions and requirements of any regulations which for the time being are in force and applicable to such persons under sections 37 or 38 of this Act.

4. The Minister may issue a written permit authorizing any person to enter Canada without being subject to the provisions of this Act. Such permit shall be in the form A* of the schedule to this Act, and shall be expressed to be in force for a specified period only, but it may at any time be extended or cancelled by the Minister in writing. Such extension or cancellation shall be in the form AA* of the schedule to this Act.

LANDING OF PASSENGERS.

33. Every passenger or other person seeking to land in Canada shall first appear before an immigration officer, and shall be forthwith examined as required under this Act, either on shipboard or on train or at some other place designated for that purpose.

(2) Every passenger or other person seeking to land in Canada shall answer truly all questions put to him by any officer when examined under the authority of this Act.

(3) Every passenger or other person so examined shall be immediately landed unless the examining officer has reason to believe that the landing of such passenger or other person would be contrary to any provision of this Act.

(4) Every passenger or other person, as to whose right to land the examining officer has any doubt, shall be detained for further examination by the officer in charge, or by the Board of Inquiry, and such examination shall be forthwith conducted separate and apart from the public, and upon the conclusion thereof such passenger or other person shall be either immediately landed or shall be rejected and kept in custody pending his deportation.

Examination
in doubtful
cases.

(5) An order for deportation by a Board of Inquiry or officer in charge may be made in the form B* in the schedule to this Act, and a copy of the said order shall forthwith be delivered to such passenger or other person, and a copy of the said order shall at the same time be served upon the master or owner of the ship or upon the local agent or other official of the transportation company by which such person was brought to Canada; and such person shall thereupon be deported by such company subject to any appeal which may have been entered on his behalf under section 19 of this Act.

Deportation.

(6) Every person who enters Canada except at a port of entry shall forthwith report such entry to the nearest immigration officer and present himself for examination as provided by this section.

Duty to
report entry.

(7) Any person who enters Canada except at a port of entry, or who at a port of entry eludes examination by an officer, or board of Inquiry, or who enters Canada by force or misrepresentation or stealth or otherwise contrary to any provision of this Act, or who escapes from custody of an officer or from an immigrant station when detained for any cause under this Act, shall be guilty of an offence under this Act, and liable on conviction to a fine of not more than one hundred dollars, and may be arrested and detained without a warrant by any officer for examination as provided under this section; and if found not to be a Canadian citizen, or not to have Canadian domicile, such entry shall in itself be sufficient cause for deportation whenever so ordered by a Board of Inquiry or officer in charge subject to any appeal which may have been entered under section 19 of this Act.

Avoiding
port of entry.

(8) Any transportation company or person knowingly and wilfully landing, or assisting to land or attempting to land in Canada, any prohibited immigrant or person whose entry into Canada has been forbidden under this Act, shall be guilty of an offence and shall be liable on conviction, to a fine of not more than five hundred dollars and not less than fifty dollars for each prohibited immigrant or other person so landed in Canada, or whose landing in Canada was so attempted.

Penalty for
landing
prohibited
immigrant.

(9) Any transportation company or person interfering with or resisting an immigration officer in the performance of his duty under this Act, or knowingly and wilfully assisting in the escape of any person detained by an officer, or at an immigrant station, for any purpose under this Act, or giving false information to an officer, whereby such officer is induced to land or permit the landing of any person in Canada who otherwise would be refused landing for any cause under this Act or would be detained for examination, shall be guilty of an offence, and shall be liable to a fine of not more than five hundred dollars and not less than twenty dollars for each such offence.

Interference
with officer in
performance
of duty.

(10) Every person who enters Canada as a tourist or traveller or other non-immigrant, but who ceases to be such and remains in Canada, shall forthwith report such facts to the nearest immigration officer and shall present himself before an officer for examination under this Act, and in default of so doing he shall be liable to a fine of not more than one hundred dollars and shall also be liable to deportation by order of a Board of Inquiry or officer acting as such.

Penalty for
to visit who
ceases to be
such failing
to report.

(11) Pending the final disposition of the case of any person detained or taken into custody for any cause under this Act he may be released under a bond, which bond may be in the form* F in the schedule to this Act, with security approved by the officer in charge, or may be released upon deposit of money with the officer in charge in lieu of a bond, and to an amount approved by such officer; upon condition that such person shall appear before a Board of Inquiry or officer acting as such at any port of entry named by the officer in charge, and at such time as shall be named, for examination in regard to the cause or complaint on account of which he has been detained or taken into custody.

Release
under bond
or approved
deposit.

* Not printed.

Failure to
appear for
examination.

(12) If such person fail to appear for examination at such time and place named, or shall fail to keep and observe every other condition under which he is so released, then such bond shall be enforced and collected, and the proceeds thereof, or the money deposited in lieu of a bond, as the case may have been, shall be paid into the hands of the Minister of Finance, and shall form part of the Consolidated Revenue Fund of Canada; and such person may be taken into custody forthwith and deported by order of a Board of Inquiry or officer acting as such.

REGULATIONS AS TO MONETARY AND OTHER REQUIREMENTS FROM SPECIFIED CLASSES OF IMMIGRANTS.

Immigrants
may be
required to
possess a
prescribed
amount of
money.

37. Regulations made by the Governor in Council under this Act may provide as a condition to permission to land in Canada that immigrants and tourists shall possess in their own right money to a prescribed minimum amount, which amount may vary according to the race, occupation or destination of such immigrant or tourist, and otherwise according to the circumstances; and may also provide that all persons coming to Canada directly or indirectly from countries which issue passports or penal certificates to persons leaving such countries shall produce such passports or penal certificates on demand of the immigration officer in charge before being allowed to land in Canada.

Prohibition—

of immi-
grants not
coming by
continuous
journey;

of passengers
brought by
certain
companies;
of specified
classes of
immigrants.

38. The Governor in Council may, by proclamation or order whenever he deems it necessary or expedient,—

- (a) prohibit the landing in Canada or at any specified port of entry in Canada of any immigrant who has come to Canada otherwise than by continuous journey from the country of which he is a native or naturalized citizen, and upon a through ticket purchased in that country, or prepaid in Canada;
- (b) prohibit the landing in Canada of passengers brought to Canada by any transportation company which refuses or neglects to comply with the provisions of this Act;
- (c) prohibit for a stated period, or permanently, the landing in Canada, or the landing at any specified port of entry in Canada, of immigrants belonging to any race deemed unsuited to the climate or requirements of Canada, or of immigrants of any specified class, occupation or character.

Duty of
companies to
re-convey
rejected
immigrants
to country of
birth or
citizenship.

39. When any immigrant or other person is rejected or ordered to be deported from Canada, and such person has not come to Canada by continuous journey from the country of which he is a native or naturalized citizen, but has come indirectly through another country, which refuses to allow such person to return or be returned to it, then the transportation company bringing such person to such other country shall deport such person from Canada to the country of which he is a native or naturalized citizen whenever so directed by the Minister or Superintendent of Immigration and at the cost of such transportation company, and in case of neglect or refusal so to do, such transportation company shall be guilty of an offence against this Act, and shall be liable to a fine of not more than five hundred dollars and not less than twenty dollars for each such offence.

Penalty.

DEPORTATION OF PROHIBITED AND UNDESIRABLE CLASSES.

Duty of
officer to
send
complaint
to Minister
regarding
undesirable
classes.

40. Whenever any person, other than a Canadian citizen, within three years after landing in Canada has been convicted of a criminal offence in Canada, or has become a prostitute or an inmate of a house of ill-fame, or by common repute has become a procurer or pimp or person living on the avails of prostitution, or has become a professional beggar or a public charge, or an inmate of a penitentiary, jail, reformatory, prison, hospital, insane asylum or public charitable institution, or enters or remains in Canada contrary to any provision of this Act, it shall be the duty of any officer cognizant thereof, and the duty of the clerk, secretary or other official of any municipality in Canada wherein such person may be, to forthwith send a written complaint thereof to the Minister or Superintendent of Immigration, giving full particulars.

41. Whenever any person other than a Canadian citizen advocates in Canada the overthrow by force or violence of the government of Great Britain or Canada, of other British dominion, colony, possession or dependency, or the overthrow by force or violence of constituted law and authority, or the assassination of any official of the Government of Great Britain or Canada or other British dominion, colony, possession or dependency, or of any foreign government, or shall by word or act create or attempt to create riot or public disorder in Canada, or shall by common repute belong to or be suspected of belonging to any secret society or organization which extorts money from, or in any way attempts to control, any resident of Canada by force or threat of bodily harm, or by blackmail; such person for the purposes of this Act shall be considered and classed as an undesirable immigrant, and it shall be the duty of any officer becoming cognizant thereof, and the duty of the clerk, secretary or other official of any municipality in Canada wherein such person may be, to forthwith send a written complaint thereof to the Minister or Superintendent of Immigration, giving full particulars.

Duty of officers to send complaint to Minister concerning certain acts of undesirable classes.

42. Upon receiving a complaint from any officer, or from any clerk or secretary or other official of a municipality, whether directly or through the Superintendent of Immigration, against any person alleged to belong to any prohibited or undesirable class, the Minister may order such person to be taken into custody and detained at an immigrant station for examination and an investigation of the facts alleged in the said complaint to be made by a Board of Inquiry or by an officer acting as such. Such Board of Inquiry or officer shall have the same powers and privileges, and shall follow the same procedure, as if the person against whom complaint is made were being examined before landing as provided in section 33 of this Act; and similarly the person against whom complaint is made shall have the same rights and privileges as he would have if seeking to land in Canada.

Investigation of complaints concerning undesirable classes.

(2) If upon investigation of the facts such Board of Inquiry or examining officer is satisfied that such person belongs to any of the prohibited or undesirable classes mentioned in sections 40 and 41 of this Act, such person shall be deported forthwith, as provided for in section 33 of this Act, subject, however, to such right of appeal as he may have to the Minister.

Deportation in such cases.

(3) The Governor in Council may, at any time, order any such person found by a Board of Inquiry or examining officer to belong to any of the undesirable classes referred to in section 41 of this Act to leave Canada within a specified period. Such order may be in the form D in the schedule to this Act, and shall be in force as soon as it is served upon such person, or is left for him by any officer at the last known place of abode or address of such person.

Order to leave Canada.

(4) Any person rejected or deported under this Act who enters or remains in or returns to Canada after such rejection or deportation without a permit under this Act or other lawful excuse, or who refuses or neglects to leave Canada when ordered so to do by the Governor in Council as provided for in this section, shall be guilty of an offence against this Act, and may forthwith be arrested by any officer and be deported on an order from the Minister or the Superintendent of Immigration, or may be prosecuted for such offence, and shall be liable, on conviction, to two years imprisonment, and immediately after expiry of any sentence imposed for such offence, may be again deported or ordered to leave Canada under this section.

Penalty for rejected or deported person remaining in or re-entering Canada.

(5) In any case where deportation of the head of a family is ordered, all dependent members of the family may be deported at the same time. And in any case where deportation of a dependent member of a family is ordered on account of having become a public charge, and in the opinion of the Minister such circumstance is due to wilful neglect or non-support by the head or other members of the family morally bound to support such dependent members, then all members of the family may be deported at the same time. Such deportation shall be at the cost of the persons so deported; and if that be not possible then the cost of such deportation shall be paid by the Department of the Interior.

Deportation of head of family.

Deportation of dependent member of family. Cost of deportation.

43. When any person has, within three years of landing in Canada, become an inmate of a penitentiary, jail, reformatory or prison, the Minister

Power to
make further
regulations.

of Justice may, upon the request of the Minister of the Interior, issue an order to the warden or governor of such penitentiary, jail, reformatory or prison, which order may be in the form E* in the schedule to this Act, commanding him after the sentence or term of imprisonment of such person has expired to detain such person for, and deliver him to, the officer named in the warrant issued by the Superintendent of Immigration, which warrant may be in the form EE* in the schedule to this Act, with a view to the deportation of such person.

(2) Such order of the Minister of Justice shall be sufficient authority to the warden or governor of the penitentiary, jail, reformatory or prison, as the case may be, to detain and deliver such person to the officer named in the warrant of the Superintendent of Immigration as aforesaid, and such warden or governor shall obey such order, and such warrant of the Superintendent of Immigration shall be sufficient authority to the officer named therein to detain such person in his custody, or in custody at any immigrant station, until such person is delivered to the authorized agent of the transportation company which brought such person into Canada, with a view to deportation as herein provided.

PROTECTION OF IMMIGRANTS.

55. Every person who causes or procures the publication or circulation, by advertisement or otherwise, in a country outside of Canada, of false representations as to the opportunities for employment in Canada, or as to the state of the labour market in Canada, intended or adapted to encourage or induce, or to deter or prevent, the immigration into Canada of persons resident in such outside country, or who does anything in Canada for the purpose of causing or procuring the communication, to any resident of such country of any such presentations which are thereafter so published, circulated or communicated, shall be guilty of an offence against this Act, and liable on summary conviction before two justices of the peace, to a fine of not more than five hundred dollars, or to imprisonment for a term not exceeding six months, or to both fine and imprisonment.

GENERAL REGULATIONS.

81. The Governor in Council may, on the recommendation of the Minister, make such orders and regulations, not inconsistent with this Act, as are considered necessary or expedient for enforcing the provisions of this Act according to the true intent and meaning thereof.

SUPPLEMENT TO
The Gazette of India

No. 52.]

CALCUTTA, SATURDAY, DECEMBER 24, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications, the Publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

**Rainfall summary for the seven days ending at 8 hrs. on Thursday,
the 22nd December 1910, based on the Indian Daily Weather
Reports of the period.**

1. The disturbances from Persia referred to in last week's report moved eastwards and caused precipitation in Baluchistan, Kashmir, the north of the North-West Frontier Province, the Punjab and the adjoining districts of the United Provinces. It was followed by a well marked cold wave which advanced across northern India and by the end of the week was affecting Eastern Bengal and Assam.

2. The precipitation of the week was in large excess in the Punjab East and North, Kashmir and Baluchistan, and normal in the North-West Frontier Province, the Punjab Southwest and the United Provinces West, while it was in defect by more than half an inch in the Bay Islands and Madras Southeast.

3. *Burma*.—No rain fell and skies were almost free from cloud during the greater part of the week.

Northeast India, including Orissa.—Dibrugarh had a light fall of rain. Skies were clear or lightly clouded.

The United Provinces, Central India and the Central Provinces.—Precipitation occurred on the 18th and 19th in the northwest of the United Provinces and was accompanied by cloud and unusually high night temperature in the United Provinces and Central India. Temperature fell as the disturbance passed away and by the 22nd was in defect throughout the division.

Northwest India.—The disturbance in the extreme north caused precipitation in eastern Baluchistan, Ka-hmir, the north of the North-West Frontier Province and the Punjab; and skies were cloudy on most days especially in the extreme north. The precipitation was followed by a rapid fall of temperature which was considerably lower than usual from the 18th to the end of the week.

The Peninsula.—There was no rain and skies were clear over almost the whole division. Night temperature was locally lower than usual.

4. The following are the chief amounts of precipitation as reported at 8 hrs. each day:—

December 16th. Murree 0·92" and Sonemarg 1·05".

" 17th. Sonemarg 4·10" and Rawalpindi 0·67".

" 19th. Chakrata 1·54", Meerut 0·63", Ambala 0·57" and Simla 1·08".

5. The precipitation of the period from the 2nd to the 22nd December is more than 20 per cent. in excess in Lower Burma, the Punjab East and North, Kashmir and Baluchistan. The only other divisions where rainfall has occurred are the Bay Islands, Assam and the United Provinces West, the amounts received being nearly normal in the first two divisions and in defect by 67 per cent. in the third.

SUPPLEMENT TO THE GAZETTE OF INDIA, DECEMBER 24, 1910. 1995

The 22nd December 1910

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday,
17th December 1910.

Burma.—No rain fell during the week except light showers in one district. Reaping of winter rice continues. Crop prospects as a whole are favourable. Sowing of wheat, pulses and tobacco is in progress. Plucking of cotton and gathering of groundnut have almost been completed. In Lower Burma the price of unhusked rice has fallen in several districts, but in the others it is somewhat above normal. In Upper Burma it remains a little below normal.

Eastern Bengal and Assam.—No rain fell during the week. The weather is cold and seasonable. Harvesting of transplanted winter rice is in full swing while that of the broadcast varieties is complete. Harvesting of *matikalai* and mustard has commenced in parts of Assam. Insects are damaging crops in some districts but the general prospects of winter rice, sugarcane and spring crops vary from fair to good. The supply of rice seems sufficient everywhere. The average price of common rice is practically unchanged. Cattle disease is reported from the Khasi Hills, the Garo Hills and Nowgong.

Bengal.—There was no rain during the week except showers in Darjeeling. Harvesting of winter rice continues. Sugarcane pressing is going on in Bihar and Orissa. Standing spring crops and vegetables are in good condition. Prospects are good. The price of common rice has risen in Bankura, Nadia, Murshidabad, Jessore, Gaya, the Sonthal Parganas, Hazaribagh, Ranchi and Singhbhum and has fallen in Burdwan, Midnapore, Khulna, Muzaffarpur, Darbhanga, Purnea, Balasore, Manbham and Coach Behar. Cattle disease is reported from nine districts. The supply of fodder and water is sufficient.

United Provinces.—No rain fell during the week. Standing crops are flourishing and prospects are excellent. Sowing of spring crops has now been finished. Irrigation and weeding of standing crops are in progress. Cotton picking and pressing of sugarcane continue. Prospects of the opium crop are good. Cattle disease is reported in parts of eighteen districts but the general condition of stock is good. Fodder and supplies are sufficient everywhere. Prices have fallen in six districts and are practically stationary elsewhere.

Punjab.—Light to moderate rain has fallen in Ambala, Jullundur, Ferozepore, Lahore, Amritsar, Sialkot, Shahpur, Rawalpindi, Lyallpur and Multan. Cotton picking and sugarcane pressing are in progress. Sowings of spring crops still continue in several districts. The outturn of cotton and sugarcane is generally average but is poor in Hissar and Mianwali. The condition of standing crops is generally good. Rats are damaging the crops in parts of Ferozepore. Prices are generally unsettled. They are rising in three districts and falling in four. Cattle are generally in good condition. Fodder is sufficient except in Mianwali and parts of Ferozepore.

North-West Frontier Province.—Good rain fell during the week in Hazara and a shower in Peshawar and Bannu. It was beneficial to standing crops and for sowings of spring crops. Rain is badly wanted except in the Hazara, Swabi and Mardan tahsils of the Peshawar district. The condition of standing crops is generally average but unirrigated crops in the Derai Ismail Khan district are reported to be below the average. Sugarcane pressing is in progress and the outturn is reported average. Cold winds are damaging crops in the Derai Ismail Khan district. Sowings of spring crops are in progress and in Bannu the sowing of wheat is approaching completion. Planting of sugarcane has commenced in Bannu. Fodder is procurable throughout the Province. Water is scarce in the Shigga and Pakhn circles of the Marwat tahsil in the Bannu district. There is no irrigation

from the Paharpur Canal in the Dera Ismail Khan district. The condition of cattle is generally good but disease is prevalent in certain villages. The public health is generally good. Prices of food grains are fluctuating. Prices:—wheat 13½ to 18½; gram 18 to 30; maize 16 to 28½ and bajra 18½ to 23 seers per rupee.

Jammu.—Slight rain fell during the week. Prices are stationary. Wheat sells from 13 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair. Cattle disease of mild type prevails in the Jasrota district. Fodder is sufficient.

Kashmir.—The weather is cloudy. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—Sowing and irrigating of spring crops are in progress. Standing crops are good everywhere except in Partabgarh where damage to the extent of four annas has been caused to the cotton crop by pests. Cattle disease prevails in Banswara. Fodder is sufficient. Prices have risen in Bikaner, Marwar, Bundi, Kota, Alwar and Merwara and are steady or have fallen elsewhere.

Central India.—No rain fell during the week. The weather is seasonable. The nights are cool and clear. Sowing of spring crops, reaping of autumn crops and cotton picking continue. Final pickings are better than expected. Standing spring crops promise very well. Cattle are in good condition except for some disease in parts of Indore, Baghelkhand, Bundelkhand and Bhopawar. Prices are falling in Baghelkhand. They are low in Bhopal, fluctuating in Indore and steady elsewhere. Poppy sowing is in progress in Indore, Gwalior, Bhopal and Baghelkhand.

Central Provinces.—The weather has been clear and cold. Reaping, threshing and winnowing of autumn crops and picking of cotton continue. Sowing of spring crops has been completed except in Mandla and Balaghat where it is still in progress. Germination is satisfactory everywhere. Standing crops are in good condition. Fodder and water are sufficient. Cattle are doing well. Prices:—Rice is selling a little cheaper in Rajpur and Dew. Prices of other food grains remained steady or fluctuated very slightly.

Proadatory States.—Cutting and threshing of autumn crops are in progress. Sowing of spring crops has nearly been completed and germination is good. Fodder and water are ample. Prices:—Rice became cheaper in Khairagarh by three seers per rupee. Fluctuations were slight elsewhere.

Bombay.—Standing crops are generally good. Harvesting of autumn crops continues in Karachi, Kanara, Baroda and Kolhapur and parts of Gujarat, the Deccan and the Karnatak. Threshing continues in parts of Sind, the Konkan, East Khandesh, Nasik and Ahmednagar. Estimates of outturn are generally fair to good. Sowing of spring crops continues in parts of Sind, Gujarat, the Konkan, West Khandesh, Nasik and Sayantvadi. Cotton picking continues in Hyderabad, Thar and Parkar, Kaira, Baroda and parts of the Deccan. The fodder supply is adequate. Agricultural stock is deficient in Ahmednagar, Poona, Sholapur, Satara and Cutch but is generally in good condition. The supply of water for drinking and irrigation is adequate. Grain stocks are sufficient. Prices have risen in the Upper Sind Frontier and Nasik, have fallen in Sukkur, East Khandesh, Sholapur and Satara and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 15 to 20 per cent. and in the Konkan 9 to 22 per cent. less than the normal. In Gujarat prices ranged from 12 per cent. more than the normal, to 20 per cent. less, in the Deccan from 11 per cent. more to 23 per cent. less and in the Karnatak from 14 per cent. more to 17 per cent. less.

Hyderabad.—No rain fell during the week. The autumn crop is being harvested in very few places. Cotton is still being picked in many places. Harvesting of the early rice crop still continues. Spring crops are being weeded generally and the crop is to good throughout. Late rice lands are under preparation in many parts of Telingana and

sowings continue. Cattle disease prevails in thirteen talukas. Prices:—wheat 7; coarse rice 7 and *juar* 16½ seers per rupee, showing a fall of ½ seer in the price of *juar*. White *juar* is selling in Hyderabad City at 12 and yellow *juar* at 14 seers. The highest price in districts is 8½ seers in Karimnagar and the lowest 26 seers in Nander.

Mysore.—Prices of food grains have fallen slightly in Tumkur and Shimoga and have risen in Chitaldrug. Markets are well supplied. Standing crops are in good condition and are being harvested. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Prices of food grains are normal. Reaping of rice has commenced and picking of cardamom and coffee continues. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—No rain fell during the week. The rainfall in fourteen districts was above the average of the last thirty-five years. Irrigation supplies are sufficient except in parts of Kurnool and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are generally good but *cholam* in parts of Kurnool is suffering from smut, some in parts of Bellary have been affected by grasshoppers and some in parts of Chingleput, Tanjore and Tinnevely need rain or are withering. Harvests continue in parts with outturn fair to normal. Pasture is sufficient. Fodder is scanty in parts of Nellore. The condition of cattle is generally good. The price of rice is stationary in nine districts, has fallen in thirteen and has risen in two. The prices of millets have fluctuated as follows:—*Ragi* is stationary in five districts, has fallen in fourteen and has risen in three. *Cholam* is stationary in one district, has fallen in ten and has risen in four. *Cumbu* is stationary in five districts, has fallen in nine and has risen in two. The public health is generally good. Prospects are generally good. The condition of the labouring classes is everywhere satisfactory and employment is readily available. Grain stocks are sufficient.

† Complete the import figures from February 1909

FREDERICK NOËL-PATON,
Director-General of Commercial Intelligence

B. ROBERTSON,
Secretary to the Government of India

No. 9821-9827—130.

GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE AND INDUSTRY.

CUSTOMS.

REVISED "LIST OF COTTON PIECE-GOODS."

RESOLUTION.

Dated Calcutta, the 22nd December 1910.

WITH reference to paragraph 8 of the Resolution in the Department of Commerce and Industry, Nos. 5443—5449-5, dated the 13th July 1906, the Governor General in Council is pleased to prescribe the following revised "List of cotton piece-goods" in supersession of the list appended to the Resolution of that Department, Nos. 10714—10720-122, dated the 19th December 1907.

ORDER.—Ordered that a copy of the Resolution be forwarded to the
Bombay Revenue Department
Madras Revenue Department
Bengal Financial Department
Burma Revenue Department
Government of Eastern Bengal and Assam Financial Department, for information and communication to the Customs authorities and the commercial associations concerned.

Ordered also, that a copy be forwarded to the Director General of Commercial Intelligence for information.

Ordered also, that the Resolution be published in the Supplement to the *Gazette of India* for general information.

B. ROBERTSON,
Secretary to the Government of India.

is printed and Published for the GOVERNMENT OF INDIA, at the Office of the SUPERINTENDENT OF GOVERNMENT
PRINTING, INDIA, No. 8, Hastings Street, Calcutta.

SUPPLEMENT TO
The Gazette of India.

No. 58.]

CALCUTTA, SATURDAY, DECEMBER 31, 1910.

OFFICIAL PAPERS

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time, containing such Official Papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Gazette may receive the SUPPLEMENT separately on a payment of five Rupees per annum if delivered in Calcutta, or eight rupees if sent by Post. The SUPPLEMENT and PART VI of the GAZETTE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by Post.

No Official Orders or Notifications the publication of which in the GAZETTE OF INDIA is required by Law, or which it has been customary to publish in the CALCUTTA GAZETTE, will be included in the SUPPLEMENT. For such Orders and Notifications the body of the GAZETTE must be looked to.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 29th December 1910, based on the Indian Daily Weather Reports of the period.

1. Weather became unsettled in Persia on the 26th and the disturbance began to affect the northwest frontier on the 28th but up to the 29th the only precipitation it had caused in the Indian area was in Baluchistan and Kashmir, where a few light falls of snow occurred. A light fall of rain was reported from Cuddalore on the 29th, but in all other parts of the country weather was dry throughout the week.

2. Unusually cool weather prevailed in northwest India owing to the cold wave which followed the disturbance of the previous week.

3. *Burma.*—There was no rain and skies were almost free from cloud. During the latter part of the week temperature was lower than usual in Tenasserim.

Northeast India, including Orissa.—Skies were generally clear, but fog and occasional light cloud were reported in the northeastern districts. The cold wave which followed last week's disturbance caused unusually low night temperatures in Bengal about the 23rd but the effect soon disappeared and by the 29th temperature was normal.

The United Provinces, Central India and the Central Provinces.—Skies were clear except for cloud in parts of the United Provinces, and temperature in these provinces was lower than usual especially at night.

Northwest India.—Local snowfall was reported from Kashmir on the 23rd, and from Kashmir and Baluchistan on the 29th. Skies were lightly clouded on the northwest frontier, and generally clear elsewhere until the 28th when moderately heavy cloud spread over the Indus valley: it extended next day eastwards along the foot of the Himalayas. On the 23rd the temperatures reported were much below normal but the influence of the cold wave gradually disappeared and on the 28th maximum temperature was higher than usual in Baluchistan and in parts of the Punjab.

The Peninsula.—Cuddalore reported a light fall of rain on the 29th. Skies were cloudy in Madras, more especially in the southeastern districts, and were clear over the rest of the Peninsula.

4. The precipitation of the period from the 2nd to the 29th December was 20 per cent. or more in defect everywhere, except in Lower Burma and Assam where it was normal and in Kashmir and Baluchistan where it was over 20 per cent. in excess.

GILBERT T. WALKER,
Director-General of Observatories.

E. D. MACLAGAN,
Secretary to the Government of India.

SINLA;
The 29th December 1910.

GOVERNMENT OF INDIA.
DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 24th December 1910.

Burma.—No rain fell during the week. Reaping of winter rice is general and in several districts threshing and winnowing have begun. Crop prospects as a whole are good. Planting of wheat, pulses and tobacco continues. Harvesting of cotton and groundnut has been completed. A few changes in the price of unhusked rice have been reported.

Eastern Bengal and Assam.—No rain fell during the week except light showers in Upper Assam. Harvesting of transplanted rice is approaching completion and the outturn is fair, though much damage has been done by insects. Crushing of sugarcane has commenced. Harvesting of pulses and mustard is in progress in Assam. Weeding of spring crops and early ploughing for jute are progressing in places. Most of the spring crops promise to give a good outturn, though insects have done some injury. The average retail price of common rice is about one per cent. less than last week. Cattle disease is reported in Tippera, Nowgong and the Khasi and Garo Hills.

Bengal.—There was no rain during the week. Harvesting of winter rice is in progress. Pressing of sugarcane is going on in Behar and Orissa. Standing spring crop and vegetables are in good condition. Prospects are good. The price of common rice has risen in Jessore, Darbhanga, Purnea, the Sonthal Parganas and Cooh Behar and has fallen in Murshidabad, Patna, Champaran, Cuttack, Ranchi and Manbhum. Cattle disease prevails in the Sonthal Parganas, Angul, Puri, Sambalpur, Hazaribagh and Palamau. The fodder and water supply is sufficient throughout the Province.

United Provinces.—Light rain fell in the Himalayan districts. Standing crops are flourishing and prospects are excellent. Irrigation and weeding of crops are in full swing. Poppy is doing well. Pressing of sugarcane and preparation of fields for the next cane crop are in progress. Sporadic cattle disease is reported from eighteen districts but the general condition of stock is good. Fodder and supplies are ample. Prices have fallen in three districts and remain practically stationary elsewhere.

Punjab.—Light to moderate rain has fallen in parts of Ambala, Jullundur and Rawalpindi. Rain is generally wanted. Picking of cotton, pressing of sugarcane and sowing of spring crops continue. *Toria* is being harvested in Lahore, Sialkot and Lyallpur. The outturn of cotton and sugarcane is generally average. The condition of standing crops is good to average. Rats are damaging the crops in parts of Ferozepore and the cold in parts of Rohtak and Lyallpur. Prices are generally unsettled. The condition of cattle is generally good. Fodder is sufficient except in parts of Ferozepore and Mianwali.

North-West Frontier Province.—No rain fell during the week. Rain is wanted all over the Province. The condition of standing crops is generally average but unirrigated crops in the Dera Ismail Khan district are reported below average. Crops have also been damaged slightly by cold winds in Dera Ismail Khan. Pressing of sugarcane continues and the outturn is reported average. Sowing of spring crops is in progress but that of wheat has been finished in Bannu. Water is scanty in the Shigga and Pakhal circles of the Marwat Tahsil of the Bannu district and is generally sufficient elsewhere. Irrigation from the Paharpur canal in the Dera Ismail Khan district is still stopped. Fodder is sufficient throughout the Province. Cattle are generally in good condition except in certain villages of Dera Ismail Khan and in the Kulachi tahsil, in three villages of the Mardaq tahsil and in one village each of the Swabi and Nowshera tahsils of the

Peshawar district. The health of the people is generally good. Prices of food grains are fluctuating. Wheat sells from 13½ to 18½; gram from 17½ to 30; maize from 16 to 28½ and *baajra* from 19½ to 23 seers per rupee.

Jammu.—There was slight rain in the Akhnoor, Kathua, Basmohli, Ramnagar, Bimber Kotli, Udhampur, Ramban, and Riasi tahsils. Prices are stationary. Wheat sells from 13 to 24 and maize from 18 to 32 seers per rupee. The condition of standing crops is fair to ordinary. Cattle disease of mild type prevails in some parts of the Province. Fodder is sufficient.

Kashmir.—The weather was cloudy. There is no disease among cattle. Fodder is sufficient. Prices are unchanged.

Rajputana.—Spring crops are being irrigated. Standing crops are good. Prospects are satisfactory. Cattle disease is prevalent in parts of Banswara and Jhalawar. Fodder is sufficient. Prices have risen in Partabgarh but are generally steady, though a tendency to rise is noticed in Jaisalmer, Jaipur and Ajmer.

Central India.—Rainfall nil. Harvesting and threshing of autumn crops and picking of cotton are in progress. Sowing of spring crops has been finished. Prospects are generally excellent. Fodder is abundant and cattle are in good condition, except for some disease in parts of Baghelkhand and Bhopawar. Prices are falling in Baghelkhand and are easy everywhere. Paddy sowings are in progress in Gwalior, Bhopal and Baghelkhand.

Central Provinces.—The weather continues clear and cold. Harvesting of autumn crops has almost been completed and threshing and winnowing are in full swing. Picking of cotton is in progress. *Tur* has been damaged slightly by frost in the Merwara tahsil of Jabulpore. Spring crops are in good condition and prospects are favourable. The supply of fodder and water is adequate. Cattle are in good condition. The price of rice remained stationary in sixteen districts, gram in eighteen, wheat in nineteen and *juar* in twenty. Rice in Drug and *juar* in Buldana rose by 2 seers per rupee. Rice sells cheaper by 2 seers in Bilaspur. Variations elsewhere are unimportant.

Federatory States.—Reaping and threshing of autumn crops are in progress. Standing crops are in good condition. Fodder and water are sufficient. Prices—*kodon* in Kawardha fell by 5 seers and gram in Korea rose by 2 seers per rupee. Prices of other food stuffs remained stationary.

Bombay.—Standing crops are suffering from cold in Poona; they have been damaged slightly by locusts in Kolhapur and are generally good elsewhere. Harvesting of autumn crops continues in Karachi, Kanara, Baroda, Cutch, Kolhapur and parts of Gujarat, the Deccan and the Karnatak. Threshing continues in parts of Sind, the Konkan, the Deccan and Rewa Kantha. Estimates of the outturn are generally fair to good. Sowing of spring crops continues in Sukkur, Larkana, Ahmedabad, the Panch Mahals, Kanara, Navik, Baroda and Savantvadi. Cotton has been damaged slightly by frost in Hyderabad and by rain in Kathiawar. Picking continues in Hyderabad, Thar and Parkar, Kaira, Baroda and parts of the Deccan. The fodder supply is adequate. Agricultural stock is deficient in parts of the Deccan but generally in good condition. The supply of water, for drinking and irrigation is adequate. Grain stocks are sufficient. Prices have risen in Kaira, Solapur, Bijapur and Dharwar, have fallen in Sukkur, Ratnagiri and Belgaum and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 45 to 40 per cent. and in the Konkan 9 to 21 per cent. less than the normal. In Gujarat prices ranged from 7 per cent. more than the normal to 20 per cent. less, in the Deccan from 7 per cent. more to 23 per cent. less and in the Karnatak from 6 per cent. more to 27 per cent. less.

Hyderabad.—No rain fell during the week. Autumn cotton is still being picked in places. Harvesting of the early rice crop continues. Spring crops are being weeded generally and the crops are fair to good, though some damage has been caused by insects in

parts of the Karimnagar and Nalgonda talukas, especially to the castor seed crop in the latter taluka. Late rice lands are under preparation in Telingana and sowings are proceeding. Cattle disease prevails in 13 talukas. Prices:—wheat $7\frac{1}{2}$; coarse rice $7\frac{1}{2}$ and *juar* $16\frac{1}{2}$ seers per rupee, showing a fall of $\frac{1}{2}$ seer in the prices of wheat and coarse rice. White *juar* is selling in Hyderabad City at 13 and yellow *juar* at 14 seers, showing a fall of 1 seer in the price of white *juar*. The highest price in districts is 8½ seers in Karimnagar and the lowest 25 seers in Nander.

Mysore.—Prices of food grains have fallen slightly in Shimoga and Chitaldrug and are steady elsewhere. Markets are well supplied. Sowing crops are in good condition and are being harvested. Prospects of the season are good. Cattle are generally healthy. Water and fodder are available.

Coorg.—Prices of food grains are normal. Reaping of rice continues. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—No rain fell during the week. The rainfall in fourteen districts is above the average of the last 35 years. Irrigation supplies are sufficient except in parts of Kurnool and Tinnevely. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are fair to good but some in parts of Tanjore, Chingleput and Tinnevely need rain and some in parts of Bellary have been affected by grasshoppers. *Cholam* in parts of Chidambaram has been affected by the recent heavy rains and in parts of Kurnool by smut. Coffee in parts of the Nilgiris has been damaged by bug. Paddy and *cholam* in parts of Tinnevely are withering. Harvests continue in parts with outturn fair to normal. Pasture is sufficient except in parts of Ramnad. Fodder is scanty in parts of Nellore. The condition of cattle is generally good. The price of rice is stationary in eight districts has fallen in thirteen and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in seven districts, has fallen in nine and has risen in six. *Cholam* is stationary in four districts, has fallen in seven and has risen in four. *Cumbu* is stationary in seven districts, has fallen in eight and has risen in one. The public health is generally good. Prospects are generally good. The condition of the labouring classes is everywhere satisfactory and employment is readily available. Grain stocks are sufficient.

E. D. MACLAGAN,
Secretary to the Government of India.

Statement of Approximate Gross Earnings of Indian
Railways.

GOVERNMENT OF INDIA.
RAILWAY DEPARTMENT.
(RAILWAY BOARD.)

STATEMENT OF APPROXIMATE GROSS EARNINGS OF INDIAN RAILWAYS.

N.B.—As regards the figures in Column Total earnings, audited figures have been used as far as possible.

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE. PUBLIC DEBT.

No. 3472 A.

Calcutta, the 6th July 1910.

THREE-AND-A-HALF PER CENT. LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow one hundred and fifty lakhs of rupees for the public service in the following manner:

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of the *Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of the *Three-and-a-half Per Cent. Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 1,50,00,000 will be received by the Comptroller General from this date to noon, standard time,* of Wednesday, the 20th July 1910. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not

* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

Note (1).—Tenders made in accordance with these instructions will also be received by the Accountants General at Madras, Bombay and Rangoon on account of the Comptroller General, Calcutta, on the 19th July and up to noon, standard time, on the 20th July; provided that—

- (a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);
- (b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;
- (c) each tender is for not less than Rs. 10,000;
- (d) the deposit is either a promissory note or a Treasury Receipt from the local office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;
- (e) the amount of the tender is made payable at the place of tender, viz., Madras, Bombay or Rangoon (as the case may be) or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates so far as the tenders are payable in Madras, Bombay or Rangoon.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an Anna: if a rate containing a fraction of an Anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an Anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay or Rangoon, or (c) Government Promissory Notes standing in the name of, or endorsed to, the tenderer or the person making the deposit.

It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 18 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time, on Wednesday, the 20th July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay and

* Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

Rangoon, at noon, standard time,* on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100; preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General as soon as possible after the 20th July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras and Bombay, and at the Branch Office of the Bank of Bengal at Rangoon.

*For tenders received by the Accountants General at Madras, Bombay or Rangoon, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (a)] will be made payable upon the 6th September.

Otherwise the whole amount of each allotment will be divided into two instalments as follows—

Instalment I.—As near as convenient to 50 per cent., but not less than 50 per cent., payable upon the 8th August:

Instalment II.—The balance payable upon the 6th September:

and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by encasement upon the relative certificate.

Issue of Promissory Notes.

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from the 31st December 1910, and he will also receive interest at 3½ per cent. per annum from the dates on which he may have made payment till the 30th December 1910.

*Noon, standard time, corresponds to 12-24 P.M., Calcutta time.

(b) Or he may, at his option, by paying interest at the said rate from the 30th June 1910 to the dates on which he may have made payment, obtain promissory notes as above, bearing interest from the 30th June 1910.

FORM OF PROMISSORY NOTE (see Clause 3).

Fort William, the

Promissory Note of Government of India at 3½ per cent. of 1900-01.

The Governor General of India in Council does hereby acknowledge to have received from the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan by paying the said sum of Government Rupees One Hundred only to the said his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three Months' Notice of Payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this Note) further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, A. B., hereby tender for Rupees (X) of The Three-and-a-half Per Cent. Loan advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 6th July 1910, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) Annas (Z) for every hundred rupees allotted to me.

I enclose a deposit receipt* for Rupees (XX), and engage, if my offer be accepted, to pay to the account of the Government at the

* Or Cheque or Government Promissory Note. Bank of or at the Branch of the Bank of †

† Here enter the name of Bank, Branch Bank, into the Public Treasury at † ; as the case may be—

The first instalment, as near as convenient to 50 per cent., but not less than 50 per cent., on or before the 8th August:

The balance on or before the 6th September:

or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 6th September:

* If Here insert C. D.'s address which must be in India. This paragraph should only be inserted if A. B. does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment certificates to be given to an agent at that place.

Any allotment made to me may be communicated to C. D. at †

NOTE.—(1) A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus "One hundred and two" or "One hundred" or "Ninety-nine," not "Two per cent. premium" or "Par" or "One per cent. discount."

By order of the Governor General in Council.

J. S. MESTON,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darshan in duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras and Bombay, and will also be supplied to the Principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

(3) For all tenders presented to him in his office upon the last fixed day, of the two days preceding it, he will give the bearer a receipt bearing a number and initialed by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay and Rangoon will do likewise in respect of tenders presented to them under note (1), to clauses of the Government Notification.

Return of Deposit in case of Non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

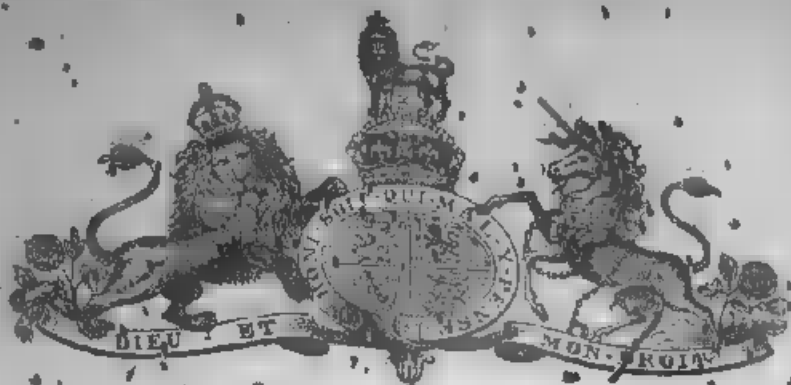

Accepted Tenders.

(6) The Comptroller General and the Accountant General at Madras, Bombay or Rangoon (in the case of tenders received by such Accountant General and payable in Madras, Bombay or Rangoon), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

This is to certify that, in accordance with the terms of Notification No. B-472-A, dated the 6th July 1910 (Gazette of India, Extraordinary, dated the 6th July 1910), the above-named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before ; and that on the said payments being completed, he is entitled on endorsing and delivering up this certificate to receive a promissory note or notes of the Government of India for Rs. 2,000 bearing interest from

R. W. GILLAN,
Comptroller and Auditor General.

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

No. 3472-A.

Simla, the 6th July 1910.

THREE-AND-A-HALF PER CENT LOAN.

His Excellency the Right Honourable the Governor General in Council has resolved to borrow one hundred and fifty lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount in the Form annexed to this Notification, being the form of the notes of the *Three-and-a-half Per Cent Loan of 1909-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of the *Three-and-a-half Per Cent Loan of 1900-01*, will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December ; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 1,50,00,000 will be received by the Comptroller General from this date to noon, standard time,* of Wednesday, the 20th July 1910. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountant General at Madras, Bombay and Rangoon on account of the Comptroller General, Calcutta, on the 19th July and up to noon, standard time,* on the 20th July, provided that—

(a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them) ;

(b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank ;

(c) each tender is for not less than Rs. 10,000 ;

(d) the deposit is either a Promissory Note or a Treasury Receipt from the local office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General ;

(e) the amount of the tender is made payable at the place of tender, viz., Madras, Bombay or Rangoon (as the case may be) or in Calcutta ;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment certificates so far as the tenders are payable in Madras, Bombay or Rangoon.

* Noon, standard time, corresponds to 12-24 P.M. Calcutta time.

"Tender for the Three-and-a-half Per Cent Loan." If the tenderer is not resident in India, he must name an Agent resident in India, to whom an allotment certificate may be issued, if any part of the loan is allotted to such tenderer.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay or Rangoon, or (c) Government Promissory Notes standing in the name of, or endorsed to, the tenderer or the person making the deposit.

1. It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits, not being Promissory Notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of Promissory Notes, will be credited as far as possible proportionately in part payment of the allotment certificates issued in respect of it. If any allotment certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory Notes deposited in respect of any accepted tender will be held until all the allotment certificates issued in respect of the tender are paid up, and will, if the allotment certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time, on Wednesday, the 20th July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants-General at Madras, Bombay and Rangoon at noon, standard time, on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders, provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100; preference will however be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General as soon as possible after the 30th July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras, and Bombay, and at the Branch Office of the Bank of Bengal at Rangoon.

For tenders received by the Accountants General at Madras, Bombay or Rangoon, and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 3,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8(a)] will be made payable upon the 6th September.

Otherwise the whole amount of each allotment will be divided into two instalments as follows:—

Instalment I.—As near as convenient to 50 per cent, but not less than 50 per cent, payable upon the 8th August.

Instalment II.—The balance payable upon the 6th September and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by encasement upon the relative certificate.

Issue of Promissory Notes.

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, Promissory Notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from the 31st December 1910, and he will also receive interest at $3\frac{1}{2}$ per cent per annum from the dates on which he may have made payment till the 30th December 1910.

(b) Or he may, at his option, by paying interest at the said rate from the 30th June 1910 to the dates on which he may have made payment, obtain Promissory Notes as above, bearing interest from the 30th June 1910.

FORM OF PROMISSORY NOTE (see Clause 1).

Fort William, the

Promissory Note

Government Rupees

at $3\frac{1}{2}$ per cent
of 1900-01.

No.

The Governor General of India in Council does hereby acknowledge to have received from the sum of Government Rupees One Hundred only as a loan to the Secretary of State in

Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan by paying the said sum of Government Rupees One Hundred only to the said his Executors, or Administrators, or his or their Order, on demand, at the General Treasury, at Fort William, after the expiration of Three months' Notice of payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the at the rate of three-and-a-half per cent per annum, by half-yearly payments, at the General Treasury, at Fort William, to the said his Executors, or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this Note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1910, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, *A. B.*, hereby tender for Rupees (X) of *The Three-and-a-half Per Cent Loan* advertised in the Notification published in the *Gazette of India, Extraordinary*, dated the 6th July 1910, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (Y) Annas (Z) for every hundred rupees allotted to me.

I enclose a *deposit receipt** for Rupees (XX) and engage, if my offer be accepted, to
 * Or Cheque or Government Promissory Note. pay to the account of the Government at the
 † Here enter the name of Bank, Branch Bank or Bank of or at the
 Treasury. Branch of the Bank of ; or
 into the Public Treasury at ; as the case may be—

The first instalment, as near as convenient to 50 per cent, but not less than 50 per cent., on or before the 8th August.

The balance on or before the 6th September.

Or, if the amount allotted to me be less than Rs. 3,000, then the whole amount on or before the 6th September.

‡ Here insert *C. D.*'s address which must be in India. This paragraph should only be inserted if *A. B.* does not reside in India, or if residing in India, he wishes the allotment communicated to an agent or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment-certificates to be given to an agent at that place.

Any allotment made to me may be communicated to *C. D.* at ‡

NOTE—(1) A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus "One hundred and two" or "One hundred" or "Ninety-nine", not "Two per cent premium" or "Par" or "One per cent discount".

By order of the Governor General in Council,

J. S. MESTON,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up Tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office on application to the Darwan on duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the principal Treasuries.

THE GAZETTE OF INDIA, EXTRAORDINARY, JULY 6, 1910.

- (2) if the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of tenders.

- (3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountant General at Madras, Bombay and Rangoon will do likewise in respect of tenders presented to them under Note (1) to clause 4 of the Government Notification.

Return of Deposit in case of Non-acceptance.

- (4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

- (5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

- (6) The Comptroller General and the Accountant General at Madras, Bombay or Rangoon (in the case of tenders received by such Accountant General and payable in Madras, Bombay or Rangoon), will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

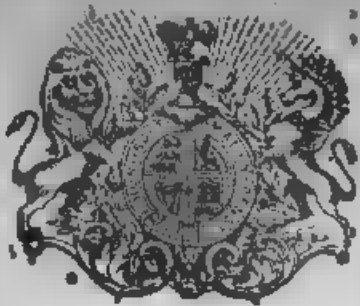

This is to certify that, in accordance with the terms of Notification No. -A., dated the 6th July 1910, (Gazette of India, Extraordinary, dated the 6th July 1910), the above-named tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a Promissory Note or Notes of the Government of India for Rs. 2,000 bearing interest from

FINANCE DEPARTMENT.

NOTIFICATION.

ACCOUNTS AND FINANCE.
PUBLIC DEBT.

Simla, the 6th July 1910.

THREE-AND-A-HALF PER CENT. LOAN.

No. 3472-A.—His Excellency the Right Honourable the Governor General in Council has resolved to borrow one hundred and fifty lakhs of rupees for the public service in the following manner:

2. Promissory Notes will be issued for the said amount in the form annexed to this Notification, being the form of the notes of the *Three-and-a-half Per Cent. Loan of 1900-01*, of which loan the notes to be now issued will form a part. All the conditions which apply to notes of the *Three-and-a-half Per Cent. Loan of 1900-01* will apply to the notes to be now issued. The interest on the notes of that loan is payable half-yearly on the 30th day of June and the 31st day of December; and the notes are not liable to discharge before the 31st day of December 1920.

Tenders.

3. Tenders for the whole or any part of the said amount of Rs. 1,50,00,000 will be received by the Comptroller General from this date to noon, standard time,* of Wednesday, the 20th July 1910. Tenders must be for sums of 100 Rupees or multiples of that sum.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller General, Calcutta, and enclosed in a closed cover, superscribed "*Tender for the Three-and-a-half Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom an allotment-certificate may be issued, if any part of the loan is allotted to such tenderer.

NOTE (1).—Tenders made in accordance with these instructions will also be received by the Accountant General at Madras, Bombay and Rangoon on account of the Comptroller General, Calcutta, on the 19th July and up to noon, standard time,* on the 20th July, provided that—

- (a) they are delivered personally or by clerk or messenger at the Accountant General's Office (where a receipt will be given for them);
- (b) they are made on printed forms, to be obtained at the same office or at the local Presidency Bank;
- (c) each tender is for not less than Rs. 10,000;
- (d) the deposit is either a Promissory Note or a Treasury Receipt from the local office of the Presidency Bank, or a cheque on a local Bank in favour of the Accountant General;
- (e) the amount of the tender is made payable at the place of tender, viz., Madras, Bombay, or Rangoon (as the case may be) or in Calcutta;

and the Accountant General will return deposits on non-accepted tenders and will issue allotment-certificates, so far as the tenders are payable in Madras, Bombay or Rangoon.

5. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a prescription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

*Noon, standard time, corresponds to 12:24 P.M., Calcutta time.

6. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

Deposits.

7. Each tender must be accompanied by a deposit of not less than one-hundredth or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender. The deposit must be in one of the following forms: (a) a receipt for the amount from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or from an officer in charge of some Public Treasury, or (b) a cheque drawn in favour of the Comptroller General on a Bank in Calcutta, Madras, Bombay or Rangoon, or (c) Government Promissory Notes standing in the name of, or endorsed to, the tenderer or the person making the deposit.

It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller General.

8. (a) Deposits, not being Promissory Notes, will, in the case of accepted tenders, be credited proportionately in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 16 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of Promissory Notes, will be credited as far as possible proportionately in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(b) Promissory Notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

Opening of Tenders.

9. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller General, and, before the tenders are opened, placed upon the table in a sealed envelope, but will not be declared unless some tender is rejected only because it is below the recorded minimum.

10. Tenders will be opened publicly by the Comptroller General at the Treasury Buildings, Calcutta, at noon, standard time,* on Wednesday, the 20th July next, and those received under the terms of note (1) to clause 4 will be similarly opened by the Accountants General at Madras, Bombay and Rangoon, at noon, standard time,* on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 12.

11. Tenders at rates not below the minimum rate will be accepted in the order of the rates tendered, beginning with the highest rate. The amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders, provided that no allotment will be issued if the amount distributable on any tender is less than Rs. 100: preference will, however, be given to small tenders, not exceeding Rs. 2,000, at the lowest accepted rate, such tenders receiving allotments in full as far as possible.

Allotment-Certificates.

12. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller General as soon as possible after the 20th July and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted for general information at the Head Offices of the Banks of Bengal, Madras and Bombay, and at the Branch Office of the Bank of Bengal at Rangoon.

For tenders received by the Accountant General at Madras, Bombay or Rangoon and payable at those places, the Accountant General will issue the allotment-certificates.

13. If the allotment made on any tender is less than Rs. 6,000, then the whole of the allotment-certificates [after credit of the deposit under clause 8 (a)] will be made payable upon the 6th September.

Otherwise the whole amount of each allotment will be divided into two instalments as follows:—

Instalment I.—As near as convenient to 50 per cent., but not less than 50 per cent., payable upon the 8th August.

*Mean, standard time, corresponds to 12-24 p.m., Calcutta time.

Instalment II.—The balance payable upon the 6th September and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs. 100.

14. Any allotment-certificates will, on application to the Comptroller General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations; provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

15. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries, in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras and Bombay, or their Branches, or by the officers in charge of the Government Treasuries at which payment is made, by encasement upon the relative certificate.

Issue of Promissory Notes.

16. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, Promissory Notes of such values as he may desire (each note being in even hundreds and not less than Rs. 100) bearing interest from 31st December 1910, and he will also receive interest at $3\frac{1}{2}$ per cent. per annum from the dates on which he may have made payment till the 30th December 1910.

(b) Or he may, at his option, by paying interest at the said rate from the 30th June 1910 to the dates on which he may have made payment, obtain Promissory Notes as above, bearing interest from the 30th June 1910.

FORM OF PROMISSORY NOTE (see Clause 2).

Fort William, the

Promissory Note
No. . . .

Government Rupees

at $3\frac{1}{2}$ per cent.
of 1900-01.

The Governor General of India in Council does hereby acknowledge to have received from the sum of Government Rupees One Hundred only as a loan to the Secretary of State in Council for India, and does hereby promise, for and on behalf of the said Secretary of State in Council, to repay the said loan by paying the said sum of Government Rupees One Hundred only to the said his Executors, or Administrators, or his or their Order, on demand, at the General Treasury at Fort William, after the expiration of Three months' Notice of payment, to be given by the Governor General of India in Council, in the *Government Gazette*, and to pay the interest accruing on the said sum of Government Rupees One Hundred only from the at the rate of three-and-a-half per cent. per annum, by half-yearly payments, at the General Treasury at Fort William, to the said his Executors or Administrators, or his or their Order, until the expiration of three months after such notice of payment as aforesaid, when the amount of interest due will be payable with the principal, and (such notice being considered as equivalent to a tender of payment at the period appointed for the discharge of this Note) all further interest shall cease.

The Governor General in Council hereby further engages that Notice of Payment as aforesaid shall not be given before the Thirtieth day of September 1920, and that this Note shall not be discharged before the Thirty-first day of December 1920.

FORM OF TENDER (see Clause 4).

I, A. B., hereby tender for Rupees (X) of The Three-and-a-half Per Cent. Loan advertised in the Notification published in the *Gazette of India Extraordinary*, dated the 6th July 1910, and agree to pay for the same, subject to the conditions notified, at the rate of Rupees (X) Annas (Z) for every hundred rupees allotted to me.

THE GAZETTE OF INDIA EXTRAORDINARY, JULY 6, 1910.

I enclose a deposit receipt* for Rupees (XX), and engage, if my offer be accepted, to

* Or Cheque or Government Promissory Note.

† Here enter the name of Bank, Branch Bank, or Treasury.

pay to the account of the Government at the
Bank of †
at the † Branch of the Bank
of † ; or into the

Public Treasury at †

as the case may be—

The first instalment, as near as convenient to 50 per cent., but not less than 50 per cent., on or before the 8th August.

The balance on or before the 8th September.

Or, if the amount allotted to me be less than Rs. 2,000, then the whole amount on or before the 8th September.

‡ Here insert C. D.'s address, which must be in India. This paragraph should only be inserted if A. B. does not reside in India, or, if residing in India, he wishes the allotment communicated to an agent, or desires to pay the instalments elsewhere than at the place where the tender is submitted, and wishes the allotment certificate to be given to an agent at that place.

Any allotment made to me may be communicated to C. D. at †

NOTE.—(1) A separate tender must be made at each rate tendered. The rate tendered should be the whole amount per centum, not the premium or discount: thus "One hundred and two" or "One hundred" or "Ninety-nine," not "Two per cent. premium" or "Par" or "One per cent. discount."

By order of the Governor-General in Council,

J. S. MESTON,

Secretary to the Government of India.

NOTIFICATION BY THE COMPTROLLER GENERAL.

The Comptroller General requests the attention of tenderers to the following arrangements:

Filling up Tenders.

(1) They are requested to use only the printed forms of tender, which will be available at his Office and at the Currency Office, on application to the Darwan in duty, at all the Provincial Account Offices, and at the Banks of Bengal, Madras, and Bombay, and will also be supplied to the Principal Treasuries.

(2) If the deposit is in the form of Promissory Notes or of Currency Notes, their number should be quoted in detail in the tender.

Presentation of Tenders.

(3) For all tenders presented to him in his office upon the last fixed day, or the two days preceding it, he will give the bearer a receipt bearing a number and initialled by himself or an assistant specially deputed for the purpose. The Accountants General at Madras, Bombay and Rangoon will do likewise in respect of tenders presented to them under No. (1) to clause 4 of the Government Notification.

Return of deposit in case of non-acceptance.

(4) The reverse of this receipt is a form in which, in the event of the tender not being accepted, the tenderer may give to the Comptroller General or Accountant General a receipt for the deposit accompanying it. This form should, on the third day after the opening of the tenders, be filled up, signed with the same signature as the tender, and be presented at the Office of the Comptroller General or Accountant General. The deposit will then be returned to the bearer in exchange for the receipt.

(5) Deposits upon tenders presented personally, as described in No. (3) above, will be returned only in this way, and will not be sent by post or otherwise. Deposits upon other unsuccessful tenders will be returned by post or by the hands of a clerk.

Accepted Tenders.

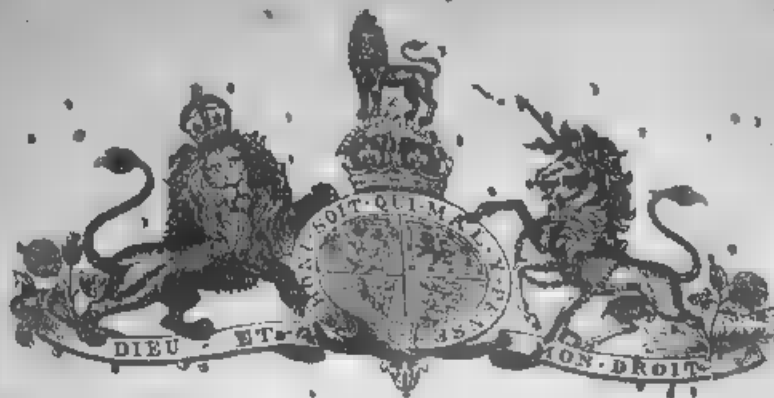

(6) The Comptroller General and the Accountant General at Madras, Bombay or Rangoon (in the case of tenders received by such Accountant General and payable in Madras, Bombay or Rangoon) will issue allotment-certificates to successful tenderers. These certificates will be for the following amounts:—Rs. 100, Rs. 300, Rs. 500, Rs. 1,000, Rs. 2,000, Rs. 5,000, Rs. 10,000, Rs. 20,000, Rs. 50,000, Rs. 1,00,000, making up the full value accepted; and the deposit on the tender will be divided among them; they will be substantially of the following form:

This is to certify that, in accordance with the terms of Notification No. 3472-A., dated the 6th July 1910 (Gazette of India Extraordinary, dated the 6th July 1910), the abovesigned tenderer has engaged to take up Rs. 2,000 of the 3½ Per Cent. Loan of 1900-01 at the rate above mentioned on or before ; and that on the said payment being completed, he is entitled on endorsing and delivering up this certificate to receive a Promissory Note or Notes of the Government of India for Rs. 2,000 bearing interest from

No. 5248.

Calcutta, the 9th November 1910.

The Right Honourable Charles, Baron Hardinge of Penshurst, is expected to arrive at Aden on the morning of the 13th November 1910, and at Bombay on the 18th idem, to assume the office of Viceroy and Governor-General of India.

The Resident at Aden will receive Lord Hardinge with all the honours and distinctions which are due to the Viceroy of India.

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval and Military authorities, for the landing and reception of Lord Hardinge at Bombay with all the honours and distinctions which are due to the Viceroy of India.

An Aide-de-Camp of the Viceroy will proceed to Bombay to attend upon Lord Hardinge throughout his journey from Bombay to Calcutta.

If at any Railway station a halt of more than two hours is made for rest and refreshment, Lord Hardinge will be met by one Civil and (if a Military station) one Military Officer only. At other halting places no officers need attend.

Proper police precautions will be taken at all the stations along the line at which the train stops.

Upon Lord Hardinge's arrival at the Howrah terminus of the East Indian Railway, at 10 A.M., (Calcutta time) on the 21st November 1910, His Lordship will be received by the Secretaries to the Government of India and by the Military Secretary and an Aide-de-Camp to the Viceroy.

The following officers will also be in attendance upon the Howrah Railway platform:—

- The Commissioner of Burdwan.
- One of the Secretaries to the Government of Bengal.
- The General Officer Commanding Presidency Brigade and Staff.
- The Commissioner of Police, Calcutta.
- The Chairman of the Corporation of Calcutta.
- The Sheriff of Calcutta.
- The Magistrate of Howrah.

A Guard of Honour of the East Indian Railway Volunteer Corps will be drawn up at the Howrah Railway Station, and a Guard of Honour of Native Infantry outside the station. The Calcutta Naval Volunteers will also furnish a Guard of Honour which will be drawn up on the Howrah Bridge.

Lord Hardinge, attended by his personal staff, by the Secretaries to the Government of India, by the Military Secretary and an Aide-de-Camp of the Viceroy, will proceed to Government House in the Viceroy's carriages, escorted by a Battery of the Royal Horse Artillery, a regiment of British Cavalry and the Calcutta Light Horse.

The route will be by the Hooghly Bridge, Strand Road, Fairlie Place, Dalhousie Square North and Old Court House Street, and the entry to Government House will be by the North-East Gate. The route will be lined throughout by troops under the orders of the General Officer Commanding Presidency Brigade.

A Royal salute will be fired from the ramparts of Fort William as Lord Hardinge alights from the train.

A Guard of Honour of British Infantry and a Guard of Honour of the Calcutta Volunteer Rifles will be drawn up opposite the grand entrance of Government House.

Lord Hardinge will be received as he alights from the carriage at the foot of the grand staircase by His Honour the Lieutenant-Governor of Bengal attended by his personal staff.

All the Civil, Naval and Military Officers of Government at the Presidency will be in attendance upon the grand staircase of Government House. Consular Officers and other Representatives of Foreign Governments at Calcutta, such of the Additional Members of the Governor General's Council as may find it possible to attend, and other gentlemen on the Government House list desirous of attending, are invited to be present upon the grand staircase.

His Excellency the Viceroy and Governor General, attended by his personal staff and the Members of the Governor General's Council, will receive Lord Hardinge at the top of the grand staircase, and will conduct His Lordship to the Throne Room.

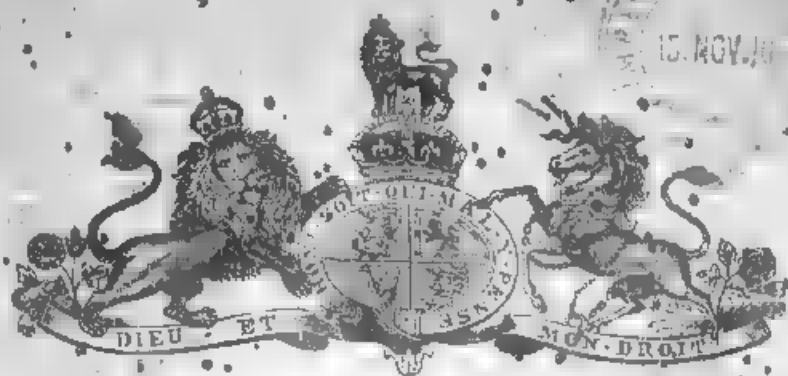

The troops will then be withdrawn.

Lévéé dress will be worn by Civil, Full dress by Naval, Review Order by Military Officers, and morning dress by all gentlemen not entitled to wear uniform.

The ceremonial to be observed on Lord Hardinge's assumption of the office of Viceroy and Governor General of India will be notified hereafter.

IN exercise of the powers conferred by section 3, sub-section (1) of the Indian Councils Act, 1909 (9 Edw. 7 c. 4), the Governor General in Council, with the approval of the Secretary of State in Council, is pleased to issue the following Proclamation:—

PROCLAMATION.

1. A Council shall be constituted in the Bengal Division of the Presidency of Fort William with effect from the 18th day of November, 1910, for the purpose of assisting the Lieutenant-Governor in the executive government of the Province.

2. The number of the members of the Council shall be three or such other number, not exceeding four, as the Governor General in Council may from time to time determine.

3. (a) Two members of the Council shall be persons who at the time of their appointment have been in the service of the Crown in India for at least twelve years.

(b) The other member or members shall be either persons so qualified or persons who at the time of their appointment have resided in India for at least twelve years.

4. If a member is absent from illness or otherwise, the Lieutenant-Governor may, subject to the condition prescribed by sub-clause (a) of clause 3,

appoint a person qualified under clause 3 to be a temporary member during such absence.

5. In any case which in the judgment of the Lieutenant-Governor is of high importance and essentially affects the public interest and welfare, the Lieutenant-Governor may direct that such case shall be decided in accordance with his opinion, the opinion of the majority of the Council to the contrary notwithstanding.

6. Where the Lieutenant-Governor makes a direction under clause 5, he shall record a statement of his reason for making such direction, and any dissentient member may record a statement of the reasons for his dissent, and a copy of every statement recorded under this rule shall forthwith be submitted to the Governor General.

7. Save as provided in clause 5, the opinion of the majority of the Council shall prevail; and in the case of equality of votes the Lieutenant-Governor shall have a second or casting vote.

8. If the Lieutenant-Governor is obliged to absent himself from any meeting of the Council, from indisposition or any other cause, all the functions which are exerciseable in Council by the Lieutenant-Governor shall be discharged by the Vice-President of the Council appointed under section 4 of the Indian Councils Act, 1909.

Calcutta, the 21st November 1910.

The Right Honourable Charles, Baron Hardinge of Penshurst, appointed by the King, Emperor of India, to be His Imperial Majesty's Viceroy and Governor General of India, arrived by the East Indian Railway at Howrah at 10 A.M. (Calcutta time) this day, attended by his personal staff and an Aide-de-Camp to the Viceroy. Lord Hardinge was received at the Howrah Railway Station by the Secretaries to the Government of India, the Military Secretary and an Aide-de-Camp to the Viceroy, the Commissioner of Burdwan, one of the Secretaries to the Government of Bengal, the General Officer Commanding Presidency Brigade and Staff, the Commissioner of Police, Calcutta, the Chairman of the Corporation of Calcutta, the Sheriff of Calcutta and the Magistrate of Howrah. Lord Hardinge then proceeded to Government House, where he was received by His Excellency the Viceroy and Governor General, His Honour the Lieutenant-Governor of Bengal, and the Members of the Governor General's Council.

2. At 1-15 P.M. (Calcutta time) on the 23rd instant Lord Hardinge, accompanied by the Members of the Governor General's Council, will proceed from the Throne Room to the Council Chamber in Government House, where His Lordship's Commission from His Majesty the King, Emperor of India, will be read by the Home Secretary.

3. A Royal Salute will then be fired from the ramparts of Fort William in honour of Lord Hardinge on his assumption of the office of Viceroy and Governor General of India.

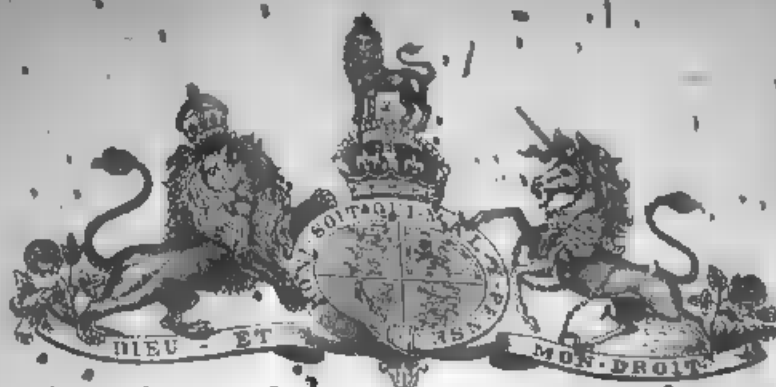

A Guard of Honour of British Infantry and a Guard of Honour of the Calcutta Volunteer Rifles, will be drawn up opposite the grand entrance of Government House.

The Lieutenant-Governor of Bengal, attended by his personal staff, the Members of the Executive Council of the Lieutenant-Governor of Bengal and all officers of Government stationed at Calcutta, except those whose attendance has been required at the Howrah Railway station in connection with the departure of the Earl of Minto, will be in attendance in the Throne Room upon the occasion. Consular officers and other representatives of Foreign Governments at Calcutta, such of the Additional Members of the Governor General's Council as may find it possible to attend and other gentlemen on the Government House list are invited to be present.

Levée dress will be worn by Civil, Full dress by Naval, Review Order by Military Officers and morning dress by gentlemen not entitled to wear uniform.

Calcutta, the 22nd November 1910.

The Right Honourable the Earl of Minto will, as already notified, leave Howrah by special train at 1 P.M. (Calcutta time) on the 23rd November 1910.

At stations between Howrah and Bombay the attendance of Civil and Military officers is dispensed with.

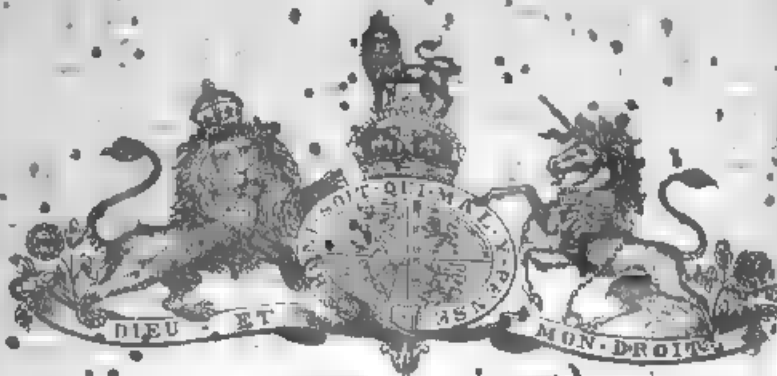

Proper police precautions will be taken at all stations along the line at which the train stops.

His Excellency the Governor of Bombay will make arrangements, in communication with the Naval authorities, for the embarkation of the Earl of Minto at Bombay with all the honours and distinctions which are due to the Viceroy of India.

The Resident at Aden will receive the Earl of Minto with all the honours and distinctions which are due to the Viceroy of India.

No. 5291.

Calcutta, the 22nd November 1910.

The Right Honourable the Earl of Minto will leave Government House *en route* for England at 12-40 P.M. (Calcutta time) on the 23rd November 1910. His Lordship will leave Calcutta with his suite by special train from Howrah Railway Station at 1 P.M. (Calcutta time) on that date.

The Government of India desire that the same honours which were accorded to Lord Hardinge upon his recent arrival in Calcutta shall be paid to the Earl of Minto upon the occasion of His Lordship's leaving Calcutta after resigning the office of Viceroy and Governor General of India.

A Guard of Honour of British Infantry and a Guard of Honour of the Calcutta Volunteer Rifles will be drawn up opposite the grand entrance of Government House.

A Guard of Honour of the Bengal Nagpur Railway Volunteers will be drawn up at the Howrah Railway Station, and a Guard of Honour of Indian Infantry outside the station.

The route from the entrance of Government House to the Howrah Railway Station will be by Old Court House Street, Dalhousie Square North, Fairlie Place, Strand Road and the Hooghly Bridge. The route will be lined throughout by troops under the orders of the General Officer Commanding Presidency Brigade.

A Royal Salute will be fired from the ramparts of Fort William as the Earl of Minto leaves Government House, and another Royal Salute will be fired as His Lordship's special train leaves the Howrah Railway Station.

The Lieutenant-Governor of Bengal, attended by his personal staff, the Ordinary Members of the Governor General's Council, the Members of the Executive Council of the Lieutenant-Governor of Bengal, and all officers of Government (excepting those mentioned below) will be in attendance upon the grand staircase of Government House. Consular Officers and other representatives of Foreign Governments at Calcutta, such of the Additional Members of the Governor General's Council as may find it possible to attend, and other gentlemen on the Government House list, are invited to be present on the grand staircase.

The Earl of Minto will be escorted from Government House to the Howrah Railway Station by the Viceroy's Body Guard, a Battery of Royal Horse Artillery, a regiment of British Cavalry and the Calcutta Light Horse.

The following officers will be in attendance at the Howrah Railway Station:—

The Commissioner of the Burdwan Division.

One of the Secretaries to the Government of Bengal.

The General Officer Commanding Presidency Brigade with Staff.

The Commissioner of Police, Calcutta.

The Chairman of the Corporation of Calcutta.

The Sheriff of Calcutta.

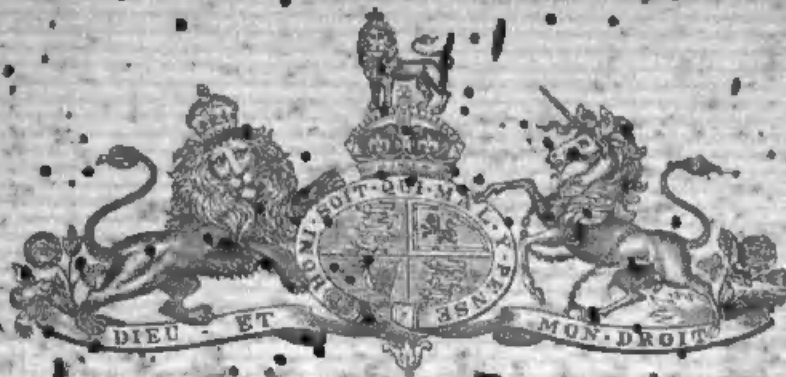

The Magistrate of Howrah.

The troops will not be withdrawn until the receipt of orders to that effect.

Levee dress will be worn by Civil, Full dress by Naval, and Review Order by Military Officers and by the troops on this occasion, and morning dress by all gentlemen not entitled to wear uniform.

No. 5298.

Calcutta, the 23rd November 1910.

The Right Honourable Lord Hardinge, of Penshurst having arrived in Calcutta, His Excellency takes his seat as Viceroy and Governor General of India under a salute of 31 guns from the ramparts of Fort William.

ORDER.—Ordered, that the following Proclamation be published in the *Gazette of India*, and at the usual place by the Sheriff of Calcutta:—

PROCLAMATION.

Whereas the Right Honourable Charles, Baron Hardinge of Penshurst, has been appointed by His Majesty to be His Viceroy and Governor General of India, and has assumed the said office, the said appointment is hereby notified, and it is proclaimed that the said Right Honourable Lord Hardinge, Viceroy and Governor General of India, has this day taken his seat in His Excellency's Council.

ORDER.—Ordered, that this Proclamation be read at the head of the troops of the Garrison of Fort William under a salute of 31 guns and three volleys of small arms.

Ordered, also, that this Proclamation be read at the head of the troops in the different garrisons, and at all the principal military stations, under a salute of 31 guns.

ESTABLISHMENTS.

Nb. 1894.

Calcutta, the 24th November 1910.

A vacancy having occurred in the office of an Ordinary Member of the Council of the Governor General of India by the resignation of the, Honourable Mr. William Leatham Harvey, C.I.E., His Majesty the King, Emperor of India, has been graciously pleased to appoint Mr. William Henry Clark, C.M.G., to be an Ordinary Member of the Council of the Governor General of India.

The Honourable Mr. Clark has, on this day, taken upon himself the execution of his office under the usual salute.

A. EARLE,

Offg. Secretary to the Government of India.
